[P. & S. Docket No. 1532]

MARKET AGENCIES AT MISSISSIPPI VALLEY STOCK YARDS

NOTICE OF PETITION FOR EXTENSION OF TEMPORARY RATES

Pursuant to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), the Secretary of Agriculture issued an order on January 24, 1947 (6 A. D. 5) providing for certain temporary rates and charges for the respondent market agencies for a period ending June 30, 1947.

By petition filed on May 12, 1947, the respondents have requested that the said temporary rates and charges of the respondent market agencies be continued in effect until June 30, 1948.

It appears that public notice should be given of the filing of such petition in order that all interested persons may have an opportunity to be heard in the matter.

Now, therefore, notice is hereby given to the public and to all interested persons of the filing of such petition for an extension of temporary rates and charges.

All interested persons who desire to be heard upon the matter requested in said petition shall notify the Hearing Clerk, United States Department of Agriculture, Washington 25, D. C., within 15 days from the date of publication of this notice.

Copies hereof shall be served upon the respondents by registered mail or in person.

Done at Washington, D. C., this 16th day of May 1947.

FEDERAL POWER COMMISSION

[Docket No. G-695]

MICHIGAN GAS STORAGE CO.

NOTICE OF APPLICATION

MAY 15, 1947.

Notice is hereby given that on April 29, 1947, an application was filed with the Federal Power Commission by Michigan Gas Storage Company (Applicant), a Michigan corporation, having its principal place of business at Jackson, Michigan, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to sell natural gas to the Battle Creek Gas Company (Battle Creek) and to utilize its existing facilities for that purpose.

Battle Creek Gas Company heretofore has purchased its natural gas requirements from the Panhandle Eastern Pipe Line Company (Panhandle Eastern) for distribution in Battle Creek, Michigan, and its environs. Panhandle Eastern, under the rate schedule covering such sales, is obligated to deliver to Battle Creek a maximum of 3,500 Mcf in any one day. Applicant, through the utilization of its storage facilities, has agreed to furnish Battle Creek with its full requirements of gas, which, it is estimated, will require in 1947 a maximum delivery in any one day of 6,730 Mcf increasing to 8,195 Mcf in 1950.

The rate proposed to be charged Battle Creek is the same as that proposed to be charged Consumers Power Company, Applicant's only present customer, pursuant to newly filed schedules of rates and charges.

In an agreement dated February 10, 1947, Panhandle Eastern Pipe Line Company has agreed to increase its annual deliveries of gas to Applicant in specified volumes estimated to be sufficient to enable Applicant to adequately supply Battle Creek.

The proposed sale of gas to Battle Creek Gas Company will not entail construction of any additional facilities by Applicant.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of Michigan Gas Storage Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the Rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contentions of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

CALIFORNIA ELECTRIC POWER CO.

NOTICE OF SUPPLEMENT TO APPLICATION

MAY 16, 1947.

Notice is hereby given that on May 16, 1947, a supplement to its application (12 F. R. 3236), under section 204 of the Federal Power Act, was filed by California Electric Power Company, a corporation organized under the laws of the State of Delaware and doing business in the States of Arizona, California and Nevada, with its principal business office at Riverside, California, seeking an order authorizing it to borrow $500,000 from Bank of America National Trust and Savings Association, at an interest rate of 1½% per annum, payable within ten days after the sale of the shares of Cumulative Preferred Stock for which authorization was sought in its application (12 F. R. 3236); all as more fully appears in the supplemental application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said supplemental application should, on or before the 27th day of May 1947, file a petition or protest in accordance with the Commission's rules of practice and procedure.

SCUDDER, STEVENS AND CLARK FUND, INC.

NOTICE OF APPLICATION STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of May A. D. 1947.

Notice is hereby given that Scudder, Stevens and Clark Fund, Inc., has filed an application pursuant to section 6 (c) of the Investment Company Act of 1940 for an order of the Commission exempting from the provisions of section 10 (b) (2) of said act a proposed transaction permitting the applicant to use as a principal underwriter of shares of capital stock issued by it, Scudder Fund Distributors, Inc., a Massachusetts Corporation, notwithstanding the fact that a majority of the directors of Applicant are affiliated persons of said principal underwriter, provided that (1) applicant complies with the requirements of clauses (1) to (8) inclusive of said section 10 (d), (2) Scudder Fund Distributors, Inc., is a wholly-owned subsidiary of the investment adviser of Applicant, and (3) at least one of the directors of applicant is a person who is not an affiliated person either of said investment adviser or of said principal underwriter.

All interested persons are referred to said application which is on file in the offices of this Commission for a more detailed statement of the proposed transaction.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that, a public hearing on the aforesaid application be held on the 5th day of June 1947, at 9:45 a. m., eastern daylight saving time, in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That Richard Townsend, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to Trial Examiners under the Commission's Rules of Practice.

The Corporation Finance Division of the Commission has advised the Commission that upon a preliminary examination of the application, it deems the following issues to be raised thereby without prejudice to the specification of additional issues upon further examination:

(1) Whether the terms of the proposed transaction, including the consideration to be paid and received, are reasonable and fair and do not involve overreaching on the part of any person concerned;

(2) Whether the proposed transaction is consistent with the policy of Scudder, Stevens and Clark Fund, Inc., as recited in its registration statement and reports filed under the act; and

(3) Whether the proposed transaction is consistent with the general purposes of the act.

Notice of such hearing is hereby given to the above-named Scudder, Stevens and Clark Fund, Inc., and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise wishing to participate in said proceeding should file with the Secretary of the Commission, on or before June 2, 1947, his application therefor as provided by Rule XVII of the rules of practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

forth in paragraph (d) of this section. The term "records" embraces accounts and memoranda and includes material coming into the possession of an air carrier through acquisition of, or merger with, other air carriers.

(2) "Certified description" means an instrument identifying records by date or period covered and describing them in accordance with paragraph (d) of this section, which instrument has been pronounced correct in a certificate executed by a responsible officer of an air carrier.

(3) "Certified reproduction" means a photographic reproduction of records, which has been pronounced correct in a certificate executed by a responsible officer of an air carrier, after having been made pursuant to an authorization issued by the Director of the Economic Bureau of the Board (i) by circulating, to all air carriers, a communication authorizing the substitution of a photographic reproduction for specified categories of records, or (ii) by approving an "application for substitution" filed with him by an air carrier.

(4) "Application for substitution" means an application setting forth: (i) A "certified description" of records relating to a period for which the Board has completed its audit; (ii) a description of the photographic process proposed for reproducing such records; (iii) a request for approval of the substitution of such reproduction for such records.

(b) *Substitution.* An air carrier may substitute a "certified reproduction" for the records reproduced.

(c) *Preservation.* All records, and all "certified reproductions" which have been substituted for records, shall be preserved by each air carrier for the respective periods prescribed in paragraph (d) of this section. Upon the execution of a "certified description", records which have been replaced by a "certified reproduction", and records and "certified reproductions" which have been preserved for the prescribed, may be destroyed, if further preservation is not necessitated by the requirements of any governmental instrumentality. If, during the prescribed period of preservation, records shall become unavailable through loss, destruction, or otherwise: The air carrier shall, without delay, submit to the Board an explanatory statement and a "certified description" of such records.

(d) *Time for preservation of records.*

• • • • •

(d) *Bonds, care of property, fire insurance, and lost property surveys.* (1) As a condition precedent to the issue of any Government property under this section, each school will be required to file with the Director of Civilian Marksmanship, on a form to be provided by him, a properly executed bond with good and sufficient surety in a penal sum of $5,000 (or in such larger sum as he may determine necessary for the protection of the Government), providing that the school will take good care of, safely keep, and account for such arms and equipment as may be issued to said school and will, when required, duly return the same within 30 days in good order and condition, to such officer or person as the Secretary of War may designate to receive them, reasonable wear excepted. A list of companies approved by the Treasury Department as acceptable sureties on Federal bonds will be furnished by the Director of Civilian Marksmanship. Such bonds will be submitted to The Judge Advocate General for approval as to legal sufficiency. A school may select any one of the following procedures in executing bonds:

(i) An incorporated school may act as corporate principal on bond. Such bonds must be accompanied by a copy of articles of incorporation authenticated by Secretary of State or other officer having authority in State. Bond must be signed on behalf of corporate principal by a member of school's governing body, and there will be attached to bond a certified copy of so much of the record of the proceedings of the governing body as will give the resolution authorizing the individual, designated by name and title, to obligate the school.

(ii) In the case of a public school or organized pursuant to State statutes, a certificate signed by the proper State or county official that the school is duly organized under such statutes will be accepted in lieu of articles of incorporation, as evidence of its legal entity.

(iii) A legally organized public school district which is incorporated, or organized pursuant to State statutes without articles of incorporation, may act as principal upon the bond of an unincorporated school which is a part of the school system of that district. In such cases a certificate executed by proper State or county official of that district is duly organized pursuant to state statutes, and

(ii) Annual requisitions: (a) Annual allowances are based upon a fiscal or school year from July 1st of one year to June 30th of succeeding year. These allowances are not cumulative.

(b) Requisitions for items authorized by annual allowances and required by school for succeeding year will be based upon pertinent records as to termination of current school year in instant 30th

June or thereabouts. These requisitions will show balances on hand, and in "required" column will show the desired quantities, of authorized items required by school, in amounts which, when added to quantities on hand, will not exceed total authorized in subdivision (a) of this subdivision.

(c) Annual requisitions will be dispatched by school so as to reach the Director of Civilian Marksmanship on or before July 31.

(iii) A supplementary requisition may be submitted during year, if necessary, to meet conditions that differ from projection upon which original requisition was based.

(iv) The number of uniformed cadets over 14 years of age receiving military instruction and participating in target practice must be stated on all requisitions.

(3) *Transportation.* The transportation of ammunition and equipment from the Government arsenals to schools and back to Government arsenals will be without expense to the United States.

(f) *Rifles, appendages, and equipment.* • • •

(4) *Annual returns.* [Revoked]

(g) *Annual reports.* (1) Reports listed below will each cover the period July 1 of one year to June 30 of succeeding year. Reports will be so submitted as to reach the office of the Director of Civilian Marksmanship by July 31 of each year. Forms for these reports will be furnished by the Director of Civilian Marksmanship.

(2) Each school will submit an annual report of firing and report of target practice, through the adjutant general of the State, showing the full name of each student firing and his total score for course fired for record.

(3) An annual inventory of property, issued by the Government to the school, will be submitted by the official accountable for Government property held by school.

(4) Report of inspection made under direction of the adjutant general of State, Territory or District of Columbia, covering qualifications of school to remain eligible for Government assistance, will be forwarded through the adjutant general of State, Territory, or District of Columbia.

(5) Appropriate badges will be issued to cadets qualifying in rifle marksmanship upon application to the Director of Civilian Marksmanship.

(6) Requisition, to be used when requesting annual issues.

(iii) Ten or more physically fit male citizens above 14 years and under 18 years of age, residing in any locality, may be organized as a junior rifle division of a senior civilian rifle club and may receive the same issues and privileges as a junior rifle club, provided such sponsoring senior rifle club will be responsible and accountable for all property issued, such property to be secured by the senior club's bond. The senior club will appoint a responsible male citizen above the age of 21 years who will serve as junior division supervisor and instructor in rifle marksmanship. This supervisor and instructor will satisfy the Director of Civilian Marksmanship as to his ability to act in this capacity.

• • • • •

(6) All clubs organized under the • • •.

(7) (i) All eligible members of affiliated senior rifle clubs are authorized to fire for qualification as expert, sharpshooter, or marksman, with both the caliber .22 rifle and the caliber .30 rifle. The courses authorized to be fired will be the same as those currently prescribed for the U. S. Army, except as hereinafter specified. The qualifications when reported to the Director of Civilian Marksmanship, on the forms furnished by him, will be recorded and appropriate badges issued.

(ii) All eligible members of affiliated junior rifle clubs are authorized to fire for qualification as expert, sharpshooter, or marksman, the record junior smallbore course as prescribed by the Director of Civilian Marksmanship. The qualifications, when reported to the Director of Civilian Marksmanship on the forms furnished by him will be recorded and appropriate badges issued.

(iii) The president of a senior civilian rifle club will designate which caliber .22 and/or caliber .30 courses will be fired for record by the members of his club.

(iv) The course or courses so designated may be fired as many times and whenever during the target season as the club president directs, but only the highest complete aggregate score of each individual for each course (caliber .22 and/or caliber .30 rifle) will be reported.

(v) The annual allowance of ammunition will not be increased on account of any rifle club firing the record courses more than once.

(vi) The record practice of a club will be conducted in accordance with the procedure governing record practice as currently prescribed for the U. S. Army, except that any rifle, caliber .22 or caliber .30 having metallic sights and a trigger pull of not less than 3 pounds may be used in firing record practice.

(b) *Issues*—(1) *Arms, ammunition, and appendages.* Arms, ammunition, and appendages will be issued only to such senior rifle clubs as are organized and conduct target practice under the rules of the National Board for the Promotion of Rifle Practice; to such junior clubs as are organized under the rules of the National Board for the Promotion of Rifle Practice and who conduct firing with the caliber .22 rifle; and to organizations sponsoring rifle and pistol tournaments, deemed eligible for such aid by the National Board for the Promotion of Rifle Practice.

(4) *Issues to rifle clubs at schools.* Issues to rifle clubs at schools will be made only upon request of the principal or president of the school.

(5) *Issue of additional equipment.* When considered by the Director of Civilian Marksmanship to be essential, issue of additional equipment may be made to member schools and clubs, for use in tournaments conducted within the intent and scope of the regulations governing the promotion of small arms among civilian citizens. Additional issues also may be made of ammunition, target materials, and range supplies in types and quantities warranted by activities and approved by the Director of Civilian Marksmanship.

(c) *Requisitions.* • • •

(4) *Appropriation by Congress of necessary funds.* The issues • • •.

(d) *Bonds.* No issues of the above equipment will be made to any rifle club until an approved and accepted bond on form provided by the Director of Civilian Marksmanship has been filed, providing that the club will take good care of, safely keep, and account for the property and will, when required by the Secretary of War, duly return the property within 30 days in good order, to the Chief of Ordnance, or to such other officer or person as the Secretary of War may designate. Bond filed by a junior club will be in the penal sum of $500, and hereafter bond filed by a senior club will be in the penal sum of $1,000. The bond submitted as security for issues to an unincorporated rifle club will be executed by an individual as principal. The bond submitted as security for issues to a rifle club duly organized as a corporation under the laws of a State or Territory will be executed by the corporation as principal, the corporation's name thereto to be signed by its president, or other officer so authorized to act, attested by its secretary and the corporate seal duly affixed, pursuant to a resolution duly passed by the corporation's board of directors or other governing body. Whenever a rifle club is sponsored by a parent organization, e. g., an athletic club or fraternal organization, which sponsoring organization is incorporated, the sponsor may execute the bond under the same conditions as set forth above for an incorporated rifle club. If the school, club, or corporate principal has no seal, a statement to that effect must be made on the lower left corner of page 2 of the bond form. A copy of so much of the record of the proceedings of such board of directors or other governing body showing such resolution and its adoption, duly certified by the secretary, and a copy of the articles of incorporation of the club duly certified by the Secretary of the State of incorporation or other comparable officer having custody of the original of such instruments, will accompany such bond. The value of the bond not only will be large enough to cover the value of the initial issue but also such issues as may be made at a later date. Issue of ammunition, paper targets, and other expendable material listed in paragraph (b) (2) (ii) and (b) (3) (ii) of this section will be made without bond.

(e) *Property*—(1) *Transportation.* The transportation of rifles, spare parts, appendages, and other supplies from the Government arsenals to clubs and back to the Government arsenals will be without expense to the United States.

• • • • • •

(4) *Return.* Whenever any club fails to return • • •.

(f) *Annual reports.* Clubs will submit annually, as directed by the Director of Civilian Marksmanship, an inventory of U. S. property and a report of firing. These reports will be rendered by the officer accountable for property of each rifle club, on forms supplied by the Director of Civilian Marksmanship. Where issues are made to schools, the accountable officer will be the president or principal thereof.

(g) *Range facilities.* A description of range facilities will be submitted by each club and school when applying for enrollment and any change of such range facilities will be reported.

(h) *Failure to comply with regulations.* Failure on the part • • •.

3. In § 403.3 (d) add subparagraph (3) to read as follows:

§ 403.3 *Use of rifle ranges for rifle practice by civilians.* • • •

(d) *Issue and care of arms.* • • •

(3) For use of authorized civilian participants in major competitions approved by the army commander, suitable arms will be made available under conditions to be prescribed by the army commander.

TITLE 15—COMMERCE

Subtitle A—Office of the Secretary of Commerce

PART 12—DELEGATIONS OF AUTHORITY

APPOINTING AUTHORITY

Section 12.1 *Appointing authority* (11 F. R. 177A-302, 303; 11 F. R. 11270) is rescinded and the following substituted therefor:

§ 12.1 *Appointing authority.* In accordance with the provisions of section 12 of Public Law 600, 79th Congress, Second Session, the Director of Person-

rel of the Department of Commerce is delegated all authority vested by law in the Secretary of Commerce to take final action on matters pertaining to the employment, compensation, and training of employees and the general direction of personnel administration activities in the Department of Commerce, including all primary organization units. In case of the absence of the Director of Personnel, the Acting Director may exercise this authority. Authority to make appointments of personnel in the field service, up to certain grade levels, has been delegated to the heads, executive officers, and personnel officers of primary organization units, to the Personnel Operations Officer and to certain officers in the field service. TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 155—SEA FOOD INSPECTION

INSPECTION OF CANNED OYSTERS

Under the authority of section 702A of the Federal Food, Drug, and Cosmetic Act, as amended (49 Stat. 871; 21 U. S. C., Sup. V, 372a) each of the sections hereinafter specified of the regulations for the inspection of canned oysters published in the FEDERAL REGISTER of January 4, 1944 (9 F. R. 56), and as amended in the FEDERAL REGISTER of February 2, 1944 (9 F. R. 1203), June 15, 1944 (9 F. R. 6584), October 21, 1944 (9 F. R. 12675), June 30, 1945 (10 F. R. 7971), October 13, 1945 (10 F. R. 12800), and October 23, 1946 (11 F. R. 12379), is hereby amended as indicated below:

1. In § 155.30 (a), "$400" is changed to "$600".

2. In § 155.31 (c), the second sentence is changed to read: "In case of such withdrawal, the Administrator shall return to such applicant the payment which accompanied the application, less any salary and other expense incurred by the Administration incident to such application."

3. In § 155.32 (a), "$300" is changed to "$500".

4. Section 155 42 (a) and (b) are hereby repealed and the following is substituted therefor:

§ 155.42 *Inspection fees.* (a) Except as otherwise provided by the regulations in this part, the fee prescribed for inspection service shall be fifteen (15) cents for each case of canned oysters packed under such service in excess of the first 1,000 cases of oysters, or shrimp and oysters where the packer is also receiving inspection service under the regulations for the inspection of canned shrimp (7 F. R. 4945, as amended). For the purpose of this section a case of canned oysters shall be 48 No. 1 cans (211 x 400) or the equivalent thereof. Advance deposits of not less than $300 shall be made whenever necessary to prevent arrears in the payment of fees, unless the Administration on an estimate of output authorizes payment in other amounts. Any excess advance deposits so made for the fiscal years shall be returned to the packer by the Administration after the inspection service is closed in the establishment.

(b) In addition to the fee prescribed by paragraph (a) of this section, as amended, an initial advance deposit of $600 (which includes a minimum case fee of $200 for inspection service for the first 1,000 cases of canned oysters packed under these regulations in this part) shall accompany each application for an initial inspection period; thereafter, three advance monthly deposits of $600 each shall be made on or before the first day of each following consecutive month: *Provided*, That a packer who is concurrently receiving inspection service under the regulations for the inspection of canned shrimp (7 F. R. 4945, as amended) shall not pay any advance deposits under this paragraph. Each application for an extension period shall be accompanied by a deposit of $500, and at subsequent monthly intervals thereafter additional deposits of $500 shall be made; but if the final deposit is to cover a time of less than 30 days, then such deposit shall be at the rate of $16.67 for each day of such time. Advance deposits made under this paragraph shall be charged with the cost of the inspection service which has not been provided for by fees under paragraph (a) of this section and the $200 minimum case fees referred to in this paragraph.

The deposits by each packer shall be so charged in the same ratio to the total deposits made under this paragraph and under § 155.12 (b) for the inspection of canned shrimp as the number of months of inspection service (including number of months, if any, for inspecting canned shrimp) rendered in such packer's establishment bears to the total number of months of inspection service for canned oysters and canned shrimp rendered in all establishments. The balance remaining after such charges have been made shall be returned by the Administration to the packers after the completion of the fiscal year. When inspection service is withdrawn from an establishment as authorized by § 155.43 (a), the Administration shall not return to the packer any of the advance deposits made for such establishments; such deposits shall be applied toward the total cost of the entire inspection service in the same manner as the deposits of all other packers subscribing to the service, as prescribed in this paragraph, and the balance which would have accrued to such packer shall be transferred into the Treasury as a miscellaneous receipt.

These amendments shall become effective on July 1, 1947.

Notice and public procedure are not necessary prerequisites to the promulgation of these regulations, and I so find, since the cost of providing, equipping, and maintaining an edequate and efficient inspection service is readily estimated upon the basis of anticipated applications for inspection service, and since public participation in the formulation of these regulations would be of no affirmative value to interested parties.

Dated: May 20, 1947.

Acting Administrator.

PART 155—SEA FOOD INSPECTION

INSPECTION OF CANNED SHRIMP

Under the authority of section 702A of the Federal Food, Drug, and Cosmetic Act, as amended (49 Stat. 871; 21 U. S. C. Sup. V, 372a), each of the sections hereinafter specified of the regulations for the inspection of canned shrimp published in the FEDERAL REGISTER of July 2, 1942 (7 F. R. 4945), and as amended in the FEDERAL REGISTER of June 10, 1943 (8 F. R. 7751), June 15, 1944 (9 F. R. 6583), June 30, 1945 (10 F. R. 7971), October 13, 1945 (10 F. R. 12800), and June 1, 1946 (11 F. R. 5904), is hereby amended as indicated below:

1. In § 155.00 (a), "$450" is changed to "$600".

2. Section 155.01 (c) is changed to read: "The applicant, by giving written notice to the Administrator, may withdraw his application for inspection service before July 1 preceding the inspection period covered by the application. In case of such withdrawal, the Administrator shall return to such applicant the payment which accompanied the application, less any salary and other expense incurred by the Administration incident to such application."

3. In § 155.02 (a), "$300" is changed to "$500".

4. Section 155.12 (a) and (b) are hereby repealed and the following is substituted therefor:

§ 155.12 *Inspection fees.* (a) Except as otherwise provided by the regulations in this part, the fee prescribed for inspection service shall be fifteen (15) cents for each case of canned shrimp packed under such service in excess of the first 1,000 cases. For the purpose of this section a case of canned shrimp shall be 48 No. 1 cans (211 x 400) or the equivalent thereof. Advance deposits of not less than $300 shall be made whenever necessary to prevent arrears in the payment of fees, unless the Administration on an estimate of output authorizes payment in other amounts. Any excess advance deposits so made for the fiscal year shall be returned to the packer by the Administration after the inspection service is closed in the establishment.

(b) In addition to the fee prescribed by paragraph (a) of this section, as amended, an initial advance deposit of $600 (which includes a minimum case fee of $200 for inspection service for the first 1000 cases of canned shrimp packed under the regulations in this part) shall accompany each application for an initial inspection period; thereafter, seven advance monthly deposits of $600 each shall be made on or before the first day of each month commencing July 1 and continuing through January 1. Each application for an extension inspection period shall be accompanied by a deposit of $500, and at subsequent monthly intervals thereafter additional deposits of $500 shall be made; but if the final deposit is to cover a time of less than 30 days, then such deposit shall be at the rate of $16.67 for each day of such time. Advance deposits made under this paragraph shall be charged with the cost of the inspection service which has not been provided for by fees under paragraph (a) of this section and the $200 minimum case fees referred to in this paragraph. The deposits by each packer shall be so charged in the same ratio to the total deposits made under this paragraph and under § 155.42 (b) for the inspection of canned oysters as the number of months of inspection service (including number of months, if any, for inspecting canned oysters) rendered in such packer's establishment bears to the total number of months of inspection service for canned shrimp and canned oysters rendered in all establishments. The balance remaining after such charges have been made shall be returned by the Administration to the packers after the completion of the fiscal year. When inspection service is withdrawn from an establishment as authorized by § 155.13 (a), the Administration shall not return to the packer any of the advance deposits made for such establishments; such deposits shall be applied toward the total cost of the entire inspection service in the same manner as the deposits of all other packers subscribing to the service, as prescribed in this paragraph, and the balance which would have accrued to such packer shall be transferred into the Treasury as a miscellaneous receipt.

5. In § 155.12 (e), "128013" is changed to "758013".

These amendments shall become effective upon publication in the FEDERAL REGISTER but shall apply only to service to be rendered on or after July 1, 1947. An immediate effective date is necessary, and I so find, since these amendments affect applications for initial inspection periods which must be filed by interested packers on or before June 1, 1947.

Notice and public procedure are not necessary prerequisites to the promulgation of these regulations, and I so find, since the cost of providing, equipping, and maintaining an adequate and efficient inspection service is readily estimated upon the basis of anticipated applications for inspection service, and since public participation in the formulation of these regulations would be of no affirmative value to interested parties.

[Suspension Order S-37]

PART 807—SUSPENSION ORDERS

JOHN A. PRING AND FLOYD L. KERSEY

John A. Pring, c/o Appleway Motors, East 8500 Sprague Avenue, Dishman, Washington, as owner, and Floyd L. Kersey, North 3420 Pine Road, Opportunity, Washington, as contractor, on or about the 18th day of February, 1947, began the construction of six aircraft hangars, 56' x 56' in size, with office space in one of the hangars, at Felts Field, Spokane, Washington, at an estimated cost of $19,500, although John A. Pring had been authorized by the Civilian Production Administration, under CPA Form 4423, Case No. (Field) 9-3-987-F, on February 11, 1947, to construct only three aircraft hangars at an estimated cost of $7,500. The beginning and carrying on of construction on the three unauthorized hangars was in violation of Veterans' Housing Program Order 1, and has diverted scarce materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.37 *Suspension Order No. S-37.* (a) Neither John A. Pring nor Floyd L. Kersey, their successors or assigns, nor any other person shall do any further construction upon the three hangars located at Felts Field, Spokane, Washington, which were not authorized, including the putting up, completing or altering of said hangars unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) John A. Pring and Floyd L. Kersey, shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter relating to the above premises.

(c) Nothing contained in this order shall be deemed to relieve John A. Pring or Floyd L. Kersey, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 21st day of May 1947.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5563]

PART 316—MANUFACTURERS' EXCISE TAXES

MISCELLANEOUS AMENDMENTS

In order to conform Regulations 46 (1940 edition) (26 CFR, Part 316), relating to excise taxes on sales by the manufacturer under the Internal Revenue

Code, to the Excise Tax Act of 1947 (Public Law 17, 80th Congress, 1st Session), approved March 11, 1947, such regulations are amended as follows:

PARAGRAPH 1. Immediately preceding § 316.180 (26 CFR 316.180), there is inserted the following:

SEC. 2. [EXCISE TAX ACT OF 1947.]
Section 1650 of the Internal Revenue Code (war tax rates of certain miscellaneous taxes) is hereby amended by striking out "and ending on the first day of the first month which begins six months or more after the date of the termination of hostilities in the present war."

PAR. 2. Section 316.181, as amended by Treasury Decision 5348 (26 CFR 316.181), is further amended to read as follows:

§ 316.181 *Rate of tax.* In the case of electric light bulbs and tubes sold on or after April 1, 1944, the tax is payable by the manufacturer at the rate of 20 percent of the sale price. In the case of electric light bulbs and tubes sold during the period October 1, 1941, through March 31, 1944, the tax was payable by the manufacturer at the rate of 5 percent of the sale price. The sale price shall be determined in accordance with the provisions of §§ 316.8 to 316.15, inclusive.

Because of the technical nature of the amendments made herein, it is found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

Acting Commissioner of Internal Revenue.

Approved: May 16, 1947.

TITLE 32—NATIONAL DEFENSE

Chapter XXIII—War Assets Adminnistration

[Reg. 1, Amdt. 2]

PART 8301—DESIGNATION OF DISPOSAL AGENCIES AND PROCEDURES FOR REPORTING SURPLUS PROPERTY LOCATED WITHIN THE CONTINENTAL UNITED STATES, ITS TERRITORIES AND POSSESSIONS

War Assets Administration Regulation 1, March 25, 1947, as amended April 23, 1947, entitled "Designation of Disposal Agencies and Procedures for Reporting Surplus Property Located Within the Continental United States, Its Territories and Possessions" (12 F. R. 2249, 2773), is hereby further amended by changing § 8301.15 to read as follows:

§ 8301.15 *Withdrawals*—(a) *Personal property.* With the consent of the disposal agency, an owning agency may withdraw personal property, including aircraft, aircraft parts and components, and electronics, which it has declared surplus: *Provided, however*, That such withdrawals may be made only (1) on the forms prescribed by Order 3 [1] under this part; (2) by the technical service, bureau, or other constituent part of the owning agency which made the declaration, or its successor; and (3) except in those cases in which withdrawal is for the convenience of the disposal agency, upon the further condition that the withdrawing agency agrees to reimburse, credit or pay the disposal agency for (i) all outhandling costs and freight charges, and (ii) such costs of care and handling of the property (incurred after the filing of the declaration, and for which the War Assets Administrator is responsible for reimbursement to disposal or owning agencies) as the disposal agency may deem appropriate.

(b) *Real property.* A request by an owning agency for the withdrawal of a declaration of surplus real property shall be transmitted to the Administration by the filing of WAA Form 1005 (formerly Form SPB-5) containing complete justification for the requested withdrawal. The Administration, after consideration of the request and any additional evidence deemed appropriate, shall approve or disapprove the request and notify the owning agency accordingly. Except in those cases in which withdrawal is for the convenience of the Administration, approval of such a request shall be upon condition that the Administration be reimbursed by the owning agency for such charges paid or incurred incident to the care, handling, and disposition of the property as the Administration may deem proper.

(Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); and E. O. 9689 [2] (11 F. R. 1265))

This amendment shall become effective May 21, 1947.

ROBERT M. LITTLEJOHN,
Administrator.

[Reg. 13, Order 1]

PART 8313—STANDARD GENERAL PURPOSE AND SPECIAL MACHINERY

COMMERCIALLY UNSALABLE SPECIAL MACHINERY TO BE DISPOSED OF AS SCRAP OR SALVAGE

War Assets Administration Regulation 13, Order 1, August 15, 1946 (11 F. R. 9080) is hereby revised and amended as herein set forth.

Section 8313.5 (b) of this part provides that the Administrator may, from time to time, determine certain types of classes of special machinery to be commercially unsalable, in which case owning and disposal agencies shall dispose of such special machinery in their possession as scrap or salvage. It has been determined that certain types of special machinery having been designed for, and principally used in, the production of war material are not readily adaptable to general purpose use and are commercially unsalable for the reason that the estimated cost of care, handling, and disposition will exceed the estimated proceeds unless such machines are promptly sold as scrap or salvage.

Pursuant to the foregoing, it is hereby ordered, that:

§ 8313.51 *Commercially unsalable special machinery to be disposed of as scrap or salvage.* (a) The Administrator having determined the special machines described herein to be commercially unsalable, owning agencies are authorized to dispose of such special machines in their possession as scrap or salvage, and disposal agencies shall, subject to the provisions of § 8313.5 (d) of this part, dispose of such special machines as scrap or salvage.

(b) Special machines so determined to be commercially unsalable and included in this order are described as follows:

Manufacturer and description

Avey Drilling Machine Co.: No. 4 drills.
Baird Machine Co.: 5-spindle continuously turning machines.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 26—ORGANIZATION AND FUNCTIONS OF THE NAVAL ESTABLISHMENT

PART 27—PROCEDURES OF THE NAVAL ESTABLISHMENT

BOARD FOR THE CORRECTION OF NAVAL RECORDS

1. The following addition to the regulations relating to the organization and functions of the Naval Establishment (11 F. R. 177A-159) is authorized:

§ 26.4 *Executive office of the Secretary.* • • •

(c) *Boards, offices, committees and divisions under the direct supervision of the Under Secretary.* • • •

(13) *Board for the Correction of Naval Records.* The Secretary of the Navy was authorized by section 207 of the Legislative Reorganization Act of 1946 (Public Law 601, 79th Congress), to establish a board of civilian officers or employees of the Navy Department to correct any naval record where in their judgment such action is necessary to correct an error or remove an injustice. The Board for the Correction of Naval Records was established by a precept of the Secretary of the Navy dated February 24, 1947. The administrative regulations and procedures prescribed to carry out the duties authorized by this act are set forth under § 27.18 of this chapter.

2. The following administrative regulations and procedures governing the Board for the Correction of Naval Records established to review naval records pursuant to the provisions of section 207 of the Legislative Reorganization Act of 1946 (Public Law 601, 79th Cong.) are prescribed.

§ 27.18 *Board for the correction of naval records*—(a) *General provisions*—(1) *Jurisdiction.* (i) The Board for the Correction of Naval Records, hereinafter referred to as the Board, has been established within the Navy Department to review, upon its own motion, or upon request by or on behalf of any officer, nurse, or enlisted man or woman, or former officer, nurse, enlisted man or woman of the naval service, or, if deceased, by the surviving spouse, next of kin or legal representative concerned, or if incompetent, by the guardian, petitions for the correction of the naval record of the individual where an error exists or an injustice is claimed. The Board shall not review any case which would bring the Board into conflict with the powers and authority of any statutory board, or with the jurisdiction of any other board which has been empowered by the Secretary of the Navy to take final action in any class of cases. Thus, the jurisdiction will not include review of reports or decisions of Selection Boards, Board of Review of Discharges and Dismissals (except for discharges or dismissals by reason of the sentence of a general court martial), Retiring Boards, Medical Survey Boards, or Boards of Decorations and Medals.

(ii) The scope of the review shall be to determine whether an error has been made in a naval record, or whether, under normal standards of naval law, administration and practice, the petitioner has suffered a wrong as the result of an error of omission or commission in his record, or through some manifest injustice in the treatment accorded him, and if so, to correct the record and remove the injustice, subject to the approval of the Secretary of the Navy.

(iii) It shall be adequate ground for denial of any application that effective relief cannot be granted or that a sufficient basis for review has not been established.

(iv) The Board has no authority to recall any person to active duty or to set aside the findings of a general court martial.

(b) *Procedure*—(1) *Request for review.* (i) The petitioner should submit a written request for a review to the Board, accompanied by such evidence, statements and affidavits as may be necessary to establish his case.

(ii) The request should state in brief: (*a*) The full name, rank or rating and the service or file number of the individual; (*b*) the place to which any notices in connection with the review should be sent; (*c*) the basis of the claim for review; (*d*) what action is desired of the Board; and (*e*) whether the petitioner desires the review on the basis of the petition and accompanying papers, or whether he desires to appear in person before the Board and/or be represented by counsel. (If counsel is desired, the petitioner should designate such counsel by name.)

(iii) When the petition is presented by a surviving spouse or next of kin, satisfactory evidence of the required relationship must be submitted.

(iv) An application for the correction of a naval record may be refused by the Board on the ground that there has been undue delay in filing the application.

(2) *Review on own motion.* (i) The Board shall not conduct a review on its own motion without first transmitting a written notice to the person concerned or, if such person is deceased, to his surviving spouse, next of kin, legal representative or, if such person is incompetent, his guardian, by registered mail to the last known address, return receipt requested.

(ii) Such notice shall state that a review is to be held by the Board, and shall advise the addressee that he may present evidence to the Board in the manner herein prescribed.

(3) *Methods of presenting case.* (i) The petitioner shall present his case (*a*) by letter with accompanying evidence and necessary affidavits, or (*b*) if a hearing is granted by the Board, by presenting evidence before the Board, either in person or by counsel.

(ii) Upon application in person at the office of the Board, the Board may furnish to a petitioner or his counsel such information from the official records pertaining to his petition as may be necessary in order to permit of a fair and impartial review. However, classified matter of the Navy Department will not be disclosed or made available to the applicant or his counsel. When it is necessary in the interests of justice to acquaint the applicant with the substance of such matter, the Board will obtain and make available to the petitioner or his counsel such summary of the classified matter as, in the judgment of the Board, may be relevant to the case and not incompatible with the public interest.

(4) *Counsel.* The term "counsel" as used in this section shall include members of the Federal bar in good standing, the bar of any state in good standing, and such other persons who, in the opinion of the Board, are considered to be competent to present equitably and comprehensively the claim of the applicant for review.

(5) *Witnesses.* (i) The Board shall require that all testimony be given under oath or by affirmation.

(ii) Witnesses shall be subject to examination and/or cross-examination as appropriate, by the members of the Board, the petitioner, his counsel, or by the Government representative.

(iii) The testimony of witnesses may be presented either in person or by affidavits.

(6) *Expenses.* No expenses of any nature whatsoever incurred by the petitioner, his counsel, his witnesses, or by any other person on his behalf, shall be paid by the Government.

(7) *Notice of hearing.* If a hearing is granted, the Board shall give a petitioner at least thirty days written notice of the time and the place of the hearing. Such time shall be computed from the time of mailing of the notice. The petitioner may waive such time limit and an earlier hearing date may be set by the recorder.

(8) *Continuances.* A continuance may be granted by the Board on its own motion, or at the request of the petitioner or Government representative, when such continuance appears necessary in order to insure a full and fair hearing.

(9) *Failure of petitioner to appear.* A petitioner who requests a hearing and who, after being duly notified of the

time and place of hearing, fails to appear at the appointed time, either in person or by counsel, thereby waives his right to be present and cannot thereafter take exception to the findings or conclusions arrived at in his absence.

(10) *Evidence.* (i) The Board, in its review, shall consider as evidence all available pertinent records of the Navy or Marine Corps, and such evidence as may be submitted by the petitioner and/or his counsel.

(ii) Whenever, during a review, it appears to the Board's satisfaction that the facts have not been fully and fairly disclosed in the records and in the testimony and other evidence before the Board, the Board may obtain such further evidence as it may consider essential to a fair and impartial understanding of the facts.

(iii) The Board shall not be restricted by legal rules of evidence.

(11) *Withdrawal.* The Board may, at its discretion and for good cause shown, permit the petitioner to withdraw his request for review without prejudice at any time before the Board begins its deliberations in closed session.

(c) *Action by the Board*—(1) *Deliberations.* (i) After a full and fair examination of the evidence, the Board shall deliberate in closed session, and shall be governed in its action by the vote of a majority of the Board.

(ii) No persons other than members of the Board shall be present at or participate in its deliberations, except that the recorder may be present.

(iii) The findings, conclusions, decisions and orders shall be signed by the chairman and the recorder.

(iv) In its deliberations the Board shall be guided by the following principles:

(*a*) Relevant and material allegations appearing in a specification found proved by a general court martial and the findings of fact of a court of inquiry, board of investigation, or investigation, where petitioner was in the status of a defendant or interested party, as approved by the reviewing authorities, shall be presumed by the Board as established facts. This shall not preclude consideration by the Board of evidence appearing in the record of proceedings of such a court martial or investigative body in determining what correction, if any, should be made in respect to the sentence awarded.

(*b*) Relevant and material allegations appearing in a specification to which the petitioner pleaded guilty in a general court martial, or upon being confronted by which the petitioner elected to resign for the good of the service or to accept a discharge, to escape trial by a general court martial, shall be presumed by the Board as established facts unless the petitioner shall show to the Board's satisfaction, or it shall otherwise appear, that arbitrary or coercive action was taken against him at that time, which was not apparent to the reviewing authority from the face of the record.

(*c*) The evidence to be considered will be restricted to that covering relevant and material facts concerning the petitioner's naval service, or his character, conduct, physical condition, or other material matter at the time of his entry into the naval service, during such service, or at the time of separation therefrom.

(*d*) In order to warrant a change, correction or modification of an original record, it is incumbent on the petitioner to show to the satisfaction of the Board, or it must otherwise satisfactorily appear, that the entry or omission in the record was improper or inequitable under standards of naval law, administration, and practice existing at the time, or under such standards differing therefrom in the petitioner's favor which subsequent to his separation were made retroactive. The standards of naval law, administration and practice contemplated in this section are those standards stated in statutes, regulations, bureau manuals, directives of the Navy Department and other appropriate authority, together with interpretations thereof by the courts, the Attorney General, the Comptroller General and of the Judge Advocate General of the Navy.

(2) *Findings of facts.* The Board shall make findings of facts in each case which shall include the following:

(i) Type and nature of error of record and/or injustice found.

(ii) Authority under which such error of record or injustice occurred.

(iii) Circumstances surrounding the error of record or injustice as found by the Board to be established from all the evidence considered. This includes material and relevant facts showing in what specific particulars the original error or injustice was or was not proper or equitable under standards of naval law, administration and practice applicable to the case as defined in subparagraph (1) (iv) (*d*) of this paragraph.

(iv) Conduct and character of petitioner during the entire period of his naval service.

(v) Such other facts as may be disclosed which the Board deems necessary and pertinent to the issue in the particular case under consideration.

(3) *Conclusion.* The Board on the basis of its findings, shall prepare conclusions which shall state (i) whether or not any change, correction, or modification should be made in the record, (ii) where pertinent, the particular change, correction or modification that should be made, and (iii) the reasons why a change, correction or modification should or should not be made. This should not include comments on the actions of others in the naval service. Where such comment is warranted, it should be made the subject of an official communication entirely independent of the petitioner's case.

(4) *Decision.* The Board shall next record its decision. The nature of any change, correction or modification to the record shall be specified with particularity, and such other action shall be taken within the Board's authority as may be deemed necessary to correct insofar as practicable the injustice established.

(5) *Orders.* Written orders based on the decision shall be prepared for transmittal to the proper naval authority.

(6) *Record of proceedings.* (i) When the Board has concluded its proceedings, the recorder shall prepare a complete original record thereof. Such record shall include the petition; a summary of the hearing, if any; affidavits and a list of the papers and documents considered by the Board; and the findings, conclusions, decisions, and orders of the Board. The record will be authenticated by the recorder as being true and complete.

(ii) The record of proceedings of the Board and the action transmitting the record to the Secretary of the Navy for action shall not contain recommendations of any character which relate to matters beyond the scope of the Board's authority. To the extent that such recommendations are warranted, they should be made a matter for separate communication with the departmental agency having cognizance of the subject matter but should not be associated with the records of the petitioner before the Board.

(d) *Action by the Secretary of the Navy*—(1) *Transmittal of record.* The original record of the proceedings in each case shall be transmitted forthwith by the chairman of the Board to the Secretary of the Navy for final action.

(2) *Action by the Secretary of the Navy.* (i) The Secretary of the Navy will direct such action in each case as he determines to be appropriate, including the return of the record to the Board for further consideration when deemed necessary.

(ii) The procedure of the Board on such further consideration will conform as nearly as practicable to that heretofore prescribed, except that the scope of the action of the Board will be limited to the matters specified by the Secretary of the Navy in the directive ordering such reconsideration.

(iii) The Secretary of the Navy, after his final action, will return all records to the Board. The Board will notify the petitioner of the action taken in his case, then return all records to the proper naval authority, for the following administrative acts:

(*a*) Carry out the orders of the Board in respect to the petition in question.

(*b*) Place copies of the Board's orders and of the record of proceedings in the service record of the petitioner. A reference shall be made in the copy of the Board's report of all enclosures or exhibits which are to be filed elsewhere.

(e) *The Board*—(1) *Members.* The Board shall consist of civilian officers or employees of the Navy Department in such number, not less than three, as may be assigned. A majority shall constitute a quorum. In event of the absence or incapacity of the chairman, a vice chairman chosen by the Board shall serve as chairman for all purposes.

(2) *Time and place of meeting.* The Board shall be convened at the call of the chairman and shall recess and adjourn at his order. The Board shall sit at a time and place to be fixed by the chairman.

(3) *Duties*—(i) *The Board.* (*a*) The Board shall review, on its own motion or upon the request of an officer, nurse, or enlisted man or woman, or former officer, nurse enlisted man or woman of the naval service, or, if deceased, by the surviving spouse, next of kin, legal representative or if incompetent, by the guardian, the records in question.

(*b*) In the event a hearing is granted and the petitioner does not appear in person or by counsel, the Board shall review the case on the basis of documentary or oral evidence presented by or on behalf of the petitioner and by the Government representative.

(*c*) In the event a hearing is granted and the petitioner appears in person or by counsel, the Board shall assemble to hear evidence offered by or on behalf of the petitioner and by the Government representative. After the conclusion of such hearings, the Board shall, as soon as practicable, arrive at their findings, conclusions and decisions. Based thereon, the Board shall prepare such orders as may be indicated.

(ii) *Recorder.* The Recorder is not a member of the Board. He shall: (*a*) Carefully summarize the testimony presented at hearings; (*b*) prepare the findings, conclusions, decisions and orders of the Board; (*c*) perform such other duties as may be assigned to him by the chairman.

(f) *Representatives*—(1) *Government representative.* Upon the written request of the Board, the Judge Advocate General shall designate a Government representative. When a Government representative appears and acts as such before the Board, he may:

(i) Submit to the recorder of the Board a written brief, when considered warranted, analyzing the evidence presented.

(ii) In cases where the petitioner is present in person or by counsel, submit pertinent evidence in the Government's behalf in proper documentary form, or through witnesses.

(iii) In all cases, when he has knowledge of evidence which would substantiate the petitioner's claim he shall disclose such evidence to the Board.

(2) *Petitioner's representative.* In those instances where the petitioner presents his case by letter and affidavits, the recorder shall act as the petitioner's representative. The petitioner's representative shall:

(i) Submit pertinent evidence in the petitioner's behalf in proper documentary form, or orally.

(ii) Submit a written brief, when considered warranted, analyzing the evidence presented.

(g) *Correspondence.* A request for the correction of an error of record or the removal of an injustice should be addressed to the Secretary of the Navy, (Board for the Correction of Naval Records), Navy Department, Washington, D. C.

PART 27—PROCEDURES OF THE NAVAL ESTABLISHMENT

WAR CONTRACTS RELIEF BOARD

The following rules and regulations governing the proceedings before the War Contracts Relief Board which relate to the settlement and adjustment of claims submitted by war contractors under the provisions of the act of August 7, 1946 (60 Stat. 902) and Executive Order No. 9786 dated October 5, 1946 (11 F. R. 11553) are prescribed.

§ 27.19 *War Contracts Relief Board*—(a) *General matters.* (1) Each member of the Board and the recorder thereof is authorized to communicate directly with any person whomsoever in regard to any matter which relates to the business of the Board.

(2) Claims and other papers to be submitted to the Board should, wherever practicable, be clearly typewritten upon paper of standard letter size upon one side only.

(3) Claims and other data filed by the claimant, shall be filed in quadruplicate.

(4) The rules relating to the proceedings before the Board and all final opinions and orders in the adjudication of claims shall be available for public inspection at the offices of the Board in the Navy Department, Washington, D. C. Requests for information in connection with proceedings before the Board should be addressed to the War Contracts Relief Board, Navy Department, Washington, D. C.

(5) Meetings of the Board may be held from time to time on the order of the Chairman thereof, and shall be called at the convenience of the members whenever matters requiring the action of the Board are brought to the attention of the Chairman. Meetings in session may be recessed or adjourned from time to time as the Chairman may direct.

(b) *Proceedings preliminary to hearing.* (1) Claims filed with the Navy Department shall be filed with the Bureau or activity under whose contracts and subcontracts the loss is claimed. When the claim is made with respect to contracts and subcontracts of more than one Bureau or activity, the claim shall be filed with the Bureau or activity under whose contracts and subcontracts the largest claim for loss is made.

(2) Claims shall be in writing and shall be in the form prescribed by section 202 of Executive Order No. 9786 of October 5, 1946.

(3) Upon request by the Board or the recorder thereof, the claimant shall furnish promptly additional copies of its claim or any additional evidence which may be requested and which is within the possession of or available to the claimant, bearing upon the claim or any of the matters referred to in section 2 (a) of the act of August 7, 1946 (60 Stat. 902). Such additional evidence shall be verified by the claimant in accordance with subparagraph (n) of section 202 of the Executive order.

(4) When a claim in any form has been filed with any Bureau or activity of the Navy Department under whose contracts or subcontracts the loss or any part thereof is claimed, the Bureau or activity with which the claim was filed shall immediately forward the claim to the Board, together with a certification of the contracting officer as to the date on which such claim was received. Claims referred to such Bureau or activities in connection with the consideration of claims filed with other war agencies shall also be referred to the Board upon receipt thereof.

(5) When a claim is forwarded to the Board which was filed for consideration, adjustment or settlement by the Navy Department, or filed with another war agency involving a claimed loss under a war contract or subcontract with the Navy Department, the Board will, before receiving such claim, cause the same to be examined for the purpose of ascertaining:

(i) Whether or not the claim was filed in accordance with the act and the Executive order on or before February 7, 1947, and

(ii) Whether or not the claimant is entitled to relief under the provisions of the act and the Executive order by reason of losses with respect to which a written request for relief was filed with the Navy Department on or before August 14, 1945.

Should it appear from the preliminary examination that the Board does not have jurisdiction to receive, consider, settle or adjust the claim or to approve that part of any proposed settlement by another agency considering the claim, which relates to contracts or subcontracts of the Navy Department, the Board may reject the claim or in its discretion give the claimant an opportunity to be heard as provided for in paragraph (c) (1) of this section before making a determination as to rejection.

(6) (i) When the Board has received a claim for consideration, settlement or adjustment or for approval of that part of any proposed settlement by another agency which relates to contracts or subcontracts of the Navy Department and which is not rejected by the Board for want of jurisdiction, such claim shall be referred to the recorder of the Board who, with the assistance of the Board's staff of analysts and of the contract officer of the Bureau or other activity of the Navy Department involved, shall examine, review and verify the claim. Where such examination, review and verification requires an audit of the claim, the recorder shall request the assistance of the Navy Cost Inspection Service. Where the claim involves losses related to contracts or subcontracts of Bureaus or activities of the Navy Department other than the Bureau with which the original claim was filed or of other war agencies, the recorder shall also request such Bureau, activities or other war agencies to examine, verify, review and comment thereon.

(ii) In connection with the examination, review and verification of a claim to be considered, settled and adjusted by the Navy Department, the recorder shall also transmit a copy of the claim to the General Accounting Office for verification of the list of contracts and subcontracts set forth therein as required by section 201 of the Executive order:

(7) After the recorder shall have completed the analysis of the claim and obtained the necessary reviews, verifications and comments thereon and the consent of other war agencies involved, the claim shall be submitted to the

Board for consideration, together with the analysis and recommendations of the recorder in writing as to the amount or amounts thereof appearing to be allowable or not allowable, and the reasons therefor. After the Board has considered the claim or the question of the approval of that part of any proposed settlement by any other war agency involving Navy Department contracts or subcontracts, the Board in its discretion may make a preliminary or final determination as to the amount due or as to such approval. The preliminary or final determination of the Board shall be in writing and shall state the reasons therefor and notice thereof shall be given by transmittal of copies thereof to the claimant and other interested agencies.

(c) *Hearings.* (1) If, as provided by paragraph (b) (5) of this section, the Board, before rejecting a claim on jurisdictional grounds, determines in its discretion to grant the claimant an opportunity to appear before the Board, the Board will notify the claimant thereof. The claimant thereafter shall have fifteen days in which to indicate whether he wishes to appear or be represented at a hearing before the Board and any preference he may have for the date of such hearing. If the claimant states that he wishes to appear or be represented at a hearing, a date for such hearing will be assigned, of which at least fifteen days notice shall be given by the recorder of the Board, to the claimant and other contracting Bureaus or activities and agencies involved. If the claimant states that he does not wish to appear or be represented at a hearing, or if he does not reply within fifteen days from the date of the notice first mentioned in this subparagraph, the case will be considered and decided by the Board thereafter at its convenience. The contracting officer of any of the war agencies involved or any person representing him, may appear at any hearing held pursuant to the request of the claimant.

(2) Upon receipt of notice of a preliminary determination as provided for by paragraph (b) (7) of this section, the claimant shall have fifteen days from the date thereof to indicate whether he wishes to appear or be represented at a hearing before the Board and any preference he may have for the date of such hearing. If the claimant states that he wishes to appear or be represented at a hearing, a date for such hearing will be assigned, of which at least fifteen days notice shall be given by the recorder of the Board, to the claimant and other contracting Bureaus and agencies involved. If the claimant states that he does not wish to appear or be represented at a hearing, or if he does not reply within fifteen days from the date of the notice first mentioned in subparagraph (1) of this paragraph, the case will thereafter be considered and finally decided by the Board at its convenience. The contracting officer of any of the war agencies involved or any person representing him, may appear at any hearing held pursuant to the request of the claimant.

(3) The unexcused absence of a party or his counsel at the time and place set for a hearing will not be the occasion for delay, but the hearing will proceed and the case will be regarded as submitted on the part of the absent party or parties.

(4) The parties may file briefs in lieu of personal appearances or in connection therewith. All briefs must be filed at least fifteen days prior to the hearing unless otherwise ordered by the Board.

(5) Hearings will be held at the office of the Board in Washington, D. C. unless otherwise ordered by the Board. Hearings will not ordinarily be held elsewhere, but the Board will consider any such request made by a claimant and received at the office of the Board before notice of a hearing is sent; but the Board may without such a request order a hearing to be held at another place.

(6) A quorum of the Board shall be a majority of the Board. The Board may in any case, with the consent of the claimant, designate one of its members or any other qualified person as an examiner to receive evidence and arguments presented by or on behalf of the claimant, or contracting officer, or both; but in such case the Board shall act on the claim only after the examiner's report and a stenographic transcript of the proceedings before the examiner have been considered by a quorum of the Board.

(7) Hearings before the Board, or an examiner, will be informal, with no fixed form of procedure, the manner in which facts are ascertained and conclusions reached by the Board being, except as otherwise prescribed by these rules, a matter for its discretion. Ordinarily, the contractor and contracting officer or their representatives may offer at a hearing such matter by way of evidence or argument as they see fit; but the extent of such evidence or argument, and the manner of its presentation, may be limited or otherwise controlled by the Board, or the examiner, as the case may be.

(8) The Board may but shall not be required to have all or any part of the proceedings before it taken down stenographically, and to the extent that any proceeding before the Board is taken down stenographically the claimant shall be entitled to a transcript thereof upon request.

(9) No oaths shall be required of persons who present matter orally or in writing to the Board, but the Board, or an examiner may, if it seems expedient, warn persons who make statements in writing or as part of a hearing that such statements may be subject to the provisions of section 35 (a) of the Criminal Code (18 U. S. C. 80), section 19 of the Contract Settlement Act of 1944 (41 U. S. C. 119), and any other provisions of law imposing penalties for knowingly making false representations in connection with claims against the United States or within the jurisdiction of any department or agency thereof.

(d) *Representation.* A claimant may be represented by any duly authorized person.

(e) *Decisions.* (1) No decision of the Board shall be conclusive or binding unless concurred in by a majority of the members of the Board.

(2) When the Board approves the settlement of a claim in whole or in part or denies a claim, the recorder will notify the claimant and the interested governmental agency or agencies immediately. When the claim has been settled by agreement or by allowance in full, the recorder will cause to be prepared, the necessary settlement agreement for execution by the parties involved. Prior to submission of the settlement agreement to the claimant for execution the recorder will forward the same to the Office of the Fiscal Director, which will attach a cover sheet indicating the appropriation or appropriations chargeable and the expenditure account or expenditure accounts involved and return the settlement agreement to the Board. The recorder will then forward the settlement agreement to the claimant for execution, and request the claimant to return the same, together with claimant's invoice in triplicate, showing the agreed amount, with the usual Form 1034 certificate endorsed thereon. Upon receipt of the settlement agreement executed by the claimant, together with the invoice, the Chairman of the Board will execute the same, certify the invoice and forward the settlement agreement together with the invoice to the Chief of the Bureau of Supplies and Accounts, Disbursing Division, which will make arrangements for payment after clearing with the General Accounting Office as required by section 301 of the Executive order.

(3) Where the claimant has not requested a hearing under this section and has not indicated agreement with a preliminary determination of the Board, or where after a hearing the claimant has not agreed to the amount found to be due by the Board and the Board and the claimant have not otherwise come into agreement, the Board shall cause to be delivered to the claimant a written statement as to the amount, if any, found to be due on the claim. On the basis thereof the recorder shall ascertain whether or not the claimant will consent to a settlement of the claim on the basis of the amount so found to be due, and if claimant consents shall proceed as outlined in subparagraph (2) of this paragraph. However, no payments shall be made of any amounts so found to be due until the claimant shall have delivered to the Board an unconditional release of all claims whatsoever against the Government or any department or agency thereof as to all contracts and subcontracts involved in consideration of the claim.

(f) *Computation of time.* (1) Whenever this section or any order of the Board prescribe a time within which any act must be performed, Sundays and legal holidays in the District of Columbia shall count the same as other days, except that when the time prescribed for the performance of an act expires on a Sunday or legal holiday in the District of Columbia, such time shall extend to and include the next succeeding day that is not a Sunday or a legal holiday: *Provided*, That when the time for performing any act is prescribed by statute nothing in this section shall be deemed to be a limitation or extension of the statutory time period.

(2) The Board may extend or waive any period of time or other limitation upon its action, except as prevented by law, a contract provision, a directive or other regulation.

(Pub. Law 657, 79th Cong., 60 Stat. 902; E. O. 9786, Oct. 5, 1946, 11 F. R. 11553)

These rules shall become effective as of April 18, 1947.

Acting Secretary of the Navy.

Sugar Rationing Administration

[MPR 60, Amdt. 1 to Order 18[1]]

NATIONAL SUGAR REFINING CO.

ADJUSTMENT OF MAXIMUM PRICES

Amendment No. 1 to Order No. 18 under Sec. 2 (a) (2) (i) (b) of Maximum Price Regulation 60, direct consumption sugar. Docket No. 6034:4.

For the reasons set forth in an opinion issued simultaneously herewith, Order No. 18 under section 2 (a) (2) (i) (b) of Maximum Price Regulation 60 is amended in the following respects:

1. Paragraph (a) is amended to read as follows:

(a) *Maximum prices governing sales by primary distributors of certain new grades and packages of direct consumption sugar.* (1) The National Sugar Refining Company is hereby authorized to add a differential of 40 cents per 100 pounds net to the maximum basis price in order to determine a maximum price for a grade of fine granulated sugar sold by it under the trade name "Verifine" when packed in multiwall, asphalt lined paper bags, 11" x 25" x 3" gussett, 25 pounds net weight.

(2) Any other primary distributor is authorized to add a differential of 40 cents per 100 pounds net to the maximum basis price in order to determine his maximum price for sugar of the same grade as that designated as "Verifine" by the

[1] 11 F. R. 10717.

National Sugar Refining Company when sold by him in multiwall, asphalt lined paper bags, 11'' x 25'' x 3'' gussett, 25 pounds net weight.

2. Paragraph (b) is amended to read as follows:

(b) This order may be revoked or amended by the Secretary of Agriculture at any time.

This amendment shall become effective May 21, 1947.

Issued this 15th day of May 1947.

CLINTON P. ANDERSON,
Secretary of Agriculture.

Opinion Accompanying Amendment No. 1 to Order No. 18 Under Section 2 (a) (2) (i) (b) of Maximum Price Regulation 60

Order No. 18 under section 2 (a) (2) (i) (b) of Maximum Price Regulation 60 was originally issued by the Price Administrator upon the written application of the National Sugar Refining Company for the establishment of a price differential to be used by it in the determination of a maximum price for sales of a fine granulated sugar of a grade sold under the trade name "Verifine", when packaged in multiwall, asphalt lined paper bags, 11'' x 25'' x 3'' gussett, 25 pounds net weight. However, the order as issued provided that the differential established was for "fine granulated sugar", without specifically stating that it was applicable only to sales of a grade of fine granulated sugar sold by the National Sugar Refining Company under the trade name "Verifine". The accompanying amendment is issued to clarify the original order, making it clear that the grade of fine granulated sugar referred to is actually that designated by the National Sugar Refining Company as "Verifine".

FEDERAL POWER COMMISSION

[Docket No. DI-177]

NEW YORK POWER AND LIGHT CORP.

ORDER SETTING HEARING

(1) On February 5, 1947, New York Power and Light Corporation filed a declaration of intention under section 23 (b) of the Federal Power Act to construct a dam and hydroelectric plant on the Sacandaga River at a site generally referred to as Stewarts Bridge in Saratoga County, approximately three miles upstream from its confluence with the Hudson River at Hadley, New York. The declarant has its principal office in Albany, New York, and is an operating public utility subsidiary of Niagara Hudson.

(2) The proposed dam is to be about 1,400 feet in length with a maximum height of approximately 112 feet above the natural bed of the river providing 99 feet of operating head and a normal usable volume of 1,800 acre-feet in the reservoir. One 37,500 kva generating unit is to be installed in the power house, the turbine having a rated capacity of 46,000 hp.

(3) No lands of the United States or Indian lands appear to be involved in the proposed construction but the Commission staff reports that the Sacandaga River has been used for both logging and boat navigation from its mouth upstream for some distance above the proposed dam, and that the Hudson River has been used for both logging and boat navigation for long distances above Hadley down to its mouth, including a connection with Lake Champlain which joins the Hudson River not far below Hadley.

(4) The proposed dam is to be located downstream from the Conklingville dam and reservoir owned and operated by the Hudson River Regulating District, a conservation district organized under State law. This reservoir has a useful capacity of around 690,000 acre-feet and is used to supply water to power plants located on the Sacandaga and Hudson Rivers. The staff also reports that the operators of the Conklingville reservoir and probably the power plants below affect the navigable capacity of the Hudson River.

The Commission finds that:

(5) Sufficient information is not at hand to pass upon the location of the upstream head of navigation on either the Sacandaga River or the Hudson River, nor upon the question of what effect, if any, the proposed construction may have upon the interests of interstate or foreign commerce, and a hearing should be held to afford full opportunity for presentation of all appropriate information which may bear upon these questions.

It is ordered that:

(6) A hearing be held commencing on Monday, July 14, 1947, at 10:00 a. m. (e. d. s. t.), in Court Room No. 2, Post Office and Court House Building, Albany, New York.

Date of issuance: May 19, 1947.

By the Commission.

Secretary.

[Docket Nos. G-585, G-796, G-889]

ALABAMA-TENNESSEE NATURAL GAS CO. ET AL.

ORDER PROVIDING FOR FURTHER CONSOLIDATION OF PROCEEDINGS AND MODIFYING ORDER FIXING DATE OF HEARING

In the matters of Alabama-Tennessee Natural Gas Company, Docket No. G-585; Southern Natural Gas Company, Docket No. G-796; East Tennessee Natural Gas Company, Docket No. G-889.

It appears to the Commission that:

(a) On October 9, 1944, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee) filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing it to construct and operate approximately 66 miles of $10\frac{3}{4}$-inch O. D. natural-gas transmission pipeline originating at a point of connection to be made with the 24-inch pipeline of Tennessee Gas and Transmission Company near Enville, Tennessee, and extending southeasterly across the Tennessee-Alabama state line to the plant of the Reynolds Metals Company at Listerhill, near Muscle Shoals, Alabama; together with facilities to permit the delivery of natural gas from such pipeline to the National Utilities Company for resale at Florence, Sheffield, and Tuscumbia, Alabama, and to the Tennessee Valley Authority at Muscle Shoals.

(b) Proceedings upon the application of Alabama-Tennessee at Docket No. G-585 have been deferred until the present time upon the request of that Applicant, and because of its failure to furnish requested information in support of such application.

(c) The Commission, by its order of May 6, 1947, consolidated the proceedings at Docket Nos. G-796 and G-889, for the purpose of hearing to commence on May 26, 1947, at Chattanooga, Tennessee.

(d) It may be in the public interest that there be an early disposition as to certain of the facilities, referred to under paragraph (i) (A) and subdivisions (1) to (4) inclusive of paragraph (i) (B) of the Commission's order of May 6, 1947, to provide increased supplies of gas for existing customers.

The Commission finds that:

(1) Good cause exists for consolidating the proceeding at Docket No. G-585 with the consolidated proceedings at Docket Nos. G-796 and G-889 for the purpose of hearing.

(2) It is in the public interest that its order of May 6, 1947, be modified to the extent hereinafter ordered.

The Commission orders that:

(A) The proceedings in Docket Nos. G-585, G-796, and G-889 be and the same are hereby consolidated for the purpose of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held commencing on the 26th day of May, 1947, at 10:00 a. m., in Grand Jury Room No. 355, Post Office and Court House Building, Chattanooga, Tennessee, concerning the matters involved and the issues presented by the application and the amendments thereto, and other pleadings in these proceedings.

(C) Paragraph (C) of the Commission's order of May 6, 1947, shall be modified and revised to read as follows:

(C) The officer designated by the Commission to preside at the public hearing may hold a conference of all parties participating in the proceedings, concerning the matters of fact and law asserted in the applications, as amended, and other pleadings filed in the proceedings for the purpose of settling, simplifying or limiting the issues and further apprising the parties of the issues upon which evidence must be adduced at the public hearing.

(D) Thereafter, the hearing shall proceed in the following order, to include complete proceedings upon each application:

Southern Natural Gas Company, Docket No. G-796; Alabama-Tennessee Natural Gas Company, Docket No. G-585; East Tennessee Natural Gas Company, Docket No. G-889.

(E) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of Practice and procedure (effective September 11, 1946).

Date of issuance: May 19, 1947.

By the Commission.

TENNESSEE GAS AND TRANSMISSION CO. AND CHICAGO CORP.

ORDER FURTHER POSTPONING HEARING

It appearing to the Commission that:

Good cause exists for further postponing the hearing in the above-docketed matter heretofore set to commence on May 26, 1947; and

The Commission orders that:

The public hearing in the above-docketed matter is hereby postponed to June 30, 1947, commencing at 10:00 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: May 19, 1947.

MINNESOTA NATURAL GAS CO. AND NORTHERN NATURAL GAS CO.

ORDER GRANTING MOTION FOR CONTINUANCE

It appearing to the Commission that:

(a) On February 10, 1947, this proceeding came on for hearing in Kansas City, Missouri, and was, on that date, adjourned by the Trial Examiner to reconvene on February 13, 1947, at Omaha, Nebraska.

(b) On February 13, 1947, this proceeding came on for further hearing in Omaha, Nebraska, in accordance with the directions of the Trial Examiner.

(c) On February 14, 1947, this proceeding was again adjourned by the Trial Examiner to reconvene on May 19, 1947, at Washington, D. C.

(d) On May 12, 1947, the Complainant, Minnesota Natural Gas Company, filed with the Commission a motion for continuance of the hearing in this proceeding, which motion is concurred in by the Defendant, Northern Natural Gas Company.

(e) Good cause exists for continuing the date of hearing as hereinafter provided.

The Commission orders that:

The motion for continuance of the public hearing in this proceeding be and it is hereby granted, and the said hearing is continued to September 8, 1947, to reconvene on that date at 10:00 a. m., in the Hearing Room of the Federal Power Commission, Hurley-Wright Building, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: May 16, 1947.

UNLOADING OF MACHINERY AT OAKLAND, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of May A. D. 1947.

It appearing, that car PRR 280847 containing machinery at Oakland, Calif., on the Southern Pacific Company has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Machinery at Oakland, California, be unloaded.* The Southern Pacific Company, its agents or employees, shall unload immediately car PRR 280847, containing machinery now on hand at Oakland, Calif., consigned to Atkinson Grinding & Machine Works.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., May 22, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

OFFICE OF HOUSING EXPEDITER

[C-32]

L. A. GILLESPIE

CONSENT ORDER

L. A. Gillespie is charged with having begun construction of a theater building on Lots 5 and 6, Block 10, First Addition to Pateros, Washington, although the said L. A. Gillespie had on the 28th day of January, 1947, been granted authorization by the Civilian Production Administration to construct a one-story frame building for a warehouse and millwork shop, 38' x 110' in size, upon said premises. The construction of a theater, as aforesaid, constituted a violation of Veterans' Housing Program Order 1, as amended October 7, 1946.

L. A. Gillespie does not desire to contest the charge, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of L. A. Gillespie, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither L. A. Gillespie, his successors or assigns, nor any other person shall do any further construction upon the one-story building, 38' x 110' in size, situated on Lots 5 and 6, Block 10, First Addition to Pateros, Washington, including the putting up, completing or altering of the structure unless hereafter specifically authorized by the Office of the Housing Expediter.

(b) L. A. Gillespie shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve L. A. Gillespie, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 21st day of May 1947.

REGULATIONS FOR CARRYING OUT THE PROVISIONS OF THE ACT ENTITLED "AN ACT TO PROVIDE FOR ASSISTANCE TO GREECE AND TURKEY"

By virtue of the authority vested in me by the act of May 22, 1947, entitled "An Act to provide for assistance to Greece and Turkey," hereinafter referred to as the act, and as President of the United States, I hereby prescribe the following regulations for carrying out the provisions of the act:

1. Subject to such policies as the President may from time to time prescribe, the Secretary of State is hereby authorized, through such departments, agencies, and independent establishments of the Government as he may designate, to exercise any power or authority conferred upon the President by the act, including expenditure of funds made available for the purposes of the act.

2. The Chief of Mission to Greece or Turkey appointed by the President pursuant to section 8 of the act shall, under the guidance and instructions of the Secretary of State, direct United States activities within Greece or Turkey, as the case may be, in furnishing assistance under the act. The Secretary of State may delegate to the Chief of Mission such powers or authority conferred by this order as he may deem necessary and proper to the effective carrying out of the provisions of the act and of the basic agreement with the Government of Greece or Turkey, as the case may be, setting forth the general terms and conditions under which assistance is to be furnished.

3. The Secretary of State shall provide, and at his request other departments, agencies, independent establishments, and officers of the Government shall cooperate in providing to the extent considered feasible in keeping with their other established governmental responsibilities and to the extent that funds may be available therefor, such personnel, together with their compensation, allowances, and expenses, and such administrative supplies, facilities, and services as may be necessary and proper to the effective carrying out of the provisions of the act.

4. Subject to the provisions of paragraph 2 hereof, the powers and authority conferred upon the Secretary of State by this order shall be exercised by the Secretary or, subject to his direction and control, by such officers and agencies of the Department of State as he may designate, in the interest of effective administration and proper coordination of functions under the act.

5. The Secretary of State shall make appropriate arrangements with the Secretaries of War and the Navy, and the heads of other Government departments, agencies, and independent establishments concerned, in order to enable them to fulfill their responsibilities under the act.

[Orange Reg. 179]

PART 966—ORANGES GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.325 *Orange Regulation 179*—(a) *Findings.* (1) Pursuant to the provisions of Order No. 66 (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., p. s. t., May 25, 1947, and ending at 12:01 a. m., p. s. t., June 1, 1947, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1, unlimited movement; (b) Prorate District No. 2, 1000 carloads; and (c) Prorate District No. 3, unlimited movement.

(ii) *Oranges other than Valencia oranges.* (a) Prorate District No. 1, unlimited movement; (b) Prorate District No. 2, unlimited movement; and (c) Prorate District No. 3, unlimited movement.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 22nd day of May 1947.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter VII—Personnel

PART 700—ARMY NURSES, DIETITIANS AND PHYSICAL THERAPY AIDES

APPOINTMENT OF FEMALE OFFICERS TO ARMY NURSE CORPS AND WOMEN'S MEDICAL SPECIALIST CORPS, REGULAR ARMY

Pursuant to the authority vested in the Secretary of War by Public Law 36, 80th Congress, April 16, 1947 and by virtue of all other authority vested in the Secretary of War, § 700.15 prescribing regulations for appointments in the Army Nurse Corps and the Women's Medical Specialist Corps of the Regular Army is set forth below:

§ 700.15 *Appointment of female officers to the Army Nurse Corps and Women's Medical Specialist Corps, Regular Army*—(a) *Eligibility for appointment.* (1) General provisions governing eligibility for appointment are as follows:

(i) An applicant must be a female citizen of the United States who has attained the age of 21 years.

(ii) An applicant must have served honorably on active duty in the Army of the United States at any time since December 7, 1941, or, in the case of applicants for commission in the Occupational Therapist Section of the Women's Medical Specialist Corps, the applicant must have served honorably at any time since December 7, 1941 as a qualified occupational therapist with the Medical Department of the Army in the status of a civilian employee.

(iii) An applicant must be physically qualified at the time of appointment.

(iv) No officer of the Army Nurse Corps or Women's Medical Specialist Corps may be appointed in a grade higher than that which she held while on active duty or higher than that grade to which she may be promoted prior to appointment.

(2) Specific provisions governing eligibility for appointment in the Army Nurse Corps, Regular Army, are as follows:

(i) An unmarried person with no dependents under 14 years of age who is otherwise qualified, who has not attained the age of 35, and who at any time since December 7, 1941 served honorably on active duty as a commissioned officer of the Army Nurse Corps, is eligible for appointment as a commissioned officer

in the Army Nurse Corps, Regular Army in a grade as prescribed by paragraph (c) of this section.

(ii) A person who at the time of application is serving honorably on active duty as a member, other than as Reserve Nurse, of the Army Nurse Corps created by chapter 5 of the act of July 9, 1918, as amended, may be appointed a commissioned officer in the Army Nurse Corps, Regular Army, in a grade prescribed by paragraph (c) of this section, regardless of whether such person is also serving under an appointment made pursuant to the act of June 22, 1944, and regardless of age, marital status, and age of dependents.

(3) Specific provisions governing eligibility for appointment in the Women's Medical Specialist Corps, Regular Army, are as follows:

(i) Dietitian Section. An unmarried person with no dependents under 14 years of age who is otherwise qualified, who has not attained the age of 45, and who at any time since December 7, 1941, served honorably on active duty as a commissioned officer of the Army of the United States, assigned to the Medical Department as a dietitian, may be appointed a commissioned officer in the Dietitian Section of the Women's Medical Specialist Corps, Regular Army, in a grade as prescribed by paragraph (c) of this section.

(ii) Physical Therapist Section: An unmarried person with no dependents under 14 years of age who is otherwise qualified, who has not attained the age of 45, and who at any time since December 7, 1941, served honorably on active duty as a commissioned officer of the Army of the United States, assigned to the Medical Department as a physical therapist, may be appointed a commissioned officer in the Physical Therapist Section of the Women's Medical Specialist Corps of the Regular Army in a grade as prescribed by paragraph (c) of this section.

(iii) Occupational Therapist Section: An unmarried person with no dependents under 14 years of age who is otherwise qualified, who has not attained the age of 45, and who at any time since December 7, 1941, served honorably as a qualified occupational therapist with the Medical Department of the Army in the status of a civilian employee, may be appointed as a commissioned officer in the Occupational Therapist Section of the Women's Medical Specialist Corps of the Regular Army in a grade as prescribed by paragraph (c) of this section.

(iv) The upper age limitation for integration appointment in the Women's Medical Specialist Corps, Regular Army, may be waived in exceptional cases by the Secretary of War upon the recommendation of The Surgeon General.

(b) *Determination of service credit.* (1) Constructive service credit will be given for the number of years, months, and days by which an applicant's age at the date of appointment in the Regular Army exceeds 25 years.

(2) Actual service to be credited to each applicant will be the number of years, months, and days the applicant was on active Federal military service subsequent to December 7, 1941, with temporary Army of the United States commission as a nurse, dietitian, or physical therapist, or with relative rank as a nurse, as the case may be, provided that in computing the total period of active Federal military service of any person discharged or placed in inactive status subsequent to May 12, 1945, she shall be credited with service from the date of such discharge or relief from active duty to the date of appointment in the Regular Army.

(c) *Determination of grade to which appointed.* The grade in which an individual will be commissioned will be determined by the amount of constructive service or active Federal military service computed, as indicated in paragraph (b) of this section.

Based upon this, appointments will be made as follows:

(1) Army Nurse Corps:

2d lieutenant	Less than 3 years' active or constructive service.
1st lieutenant	Three or more but less than 10 years' active or constructive service.
Captain	Ten or more years' active or constructive service.

(2) Women's Medical Specialist Corps:

(i) Dietitian and Physical Therapist Sections:

2d lieutenant	Less than 3 years' active or constructive service.
1st lieutenant	Three or more but less than 10 years' active or constructive service.
Captain	Ten or more years' active or constructive service.

(ii) Occupational Therapist Sections:

2d lieutenant	Less than 3 years' constructive service.
1st lieutenant	Three or more but less than 10 years' constructive service.
Captain	Ten or more years' constructive service.

(d) *Determination of rank.* (1) Relative rank among commissioned officers of the Army Nurse Corps and the Women's Medical Specialist Corps, Regular Army, within each corps, and between such officers and other commissioned officers of the Regular Army shall be determined in the manner now or hereafter prescribed by law for the determination of relative rank among other commissioned officers of the Regular Army.

(2) Among the newly appointed officers in the same grade wherever two or more are credited with the same amount of service as indicated in paragraph (b) of this section, order of rank in the respective corps will be determined by the following in the priority indicated:

(i) The greater amount of active military commissioned service.

(ii) Seniority of age.

(iii) Higher composite score attained on integration testing.

(e) *Method of applying.* (1) Applications will be made on WD AGO Form 102 (Application for Commission in the Army Nurse Corps or Women's Medical Specialist Corps, Regular Army) and will be prepared in duplicate. The original and duplicate copy of the application will be signed and forwarded as indicated in paragraph (f) of this section, on or before July 31, 1947. Applications forwarded or postmarked after July 31, 1947 will be returned without action.

(2) Forms for submitting formal applications may be obtained from:

(i) Army general hospitals.

(ii) Headquarters, zone of interior armies.

(iii) Placement and counseling services for state and district nursing associations and national associations of dietitians, physical therapists, and occupational therapists.

(iv) The Surgeon General's Office, Attention: MEDCM–B, Washington 25, D. C.

(f) *Method of submitting application.* (1) Application Form WD AGO Form 102 will be submitted in duplicate. Applicants in the category described in paragraph (a) (2) (ii) of this section, will submit applications direct to The Adjutant General, Attention: AGSO–R, Washington 25, D. C.

(2) Applicants on duty or residing in the zone of interior.

(i) Applicants on active duty.

(*a*) The completed application will be directed to the applicant's immediate commanding officer, whose indorsement will include a factual description and opinion of person being rated.

(ii) Applicants on leave prior to separation or inactive status.

The application form will be completed in duplicate and forwarded by the applicant, without indorsement, direct to The Adjutant General, Attention: AGSO–R, Washington 25, D. C.

(3) Applicants on duty or residing in oversea theaters or departments.

(i) Applicants on active duty.

(*a*) The completed application will be directed to the applicant's immediate commanding officer, whose indorsement will include a factual description and opinion of the person being rated.

(ii) Applicants on inactive duty or leave prior to separation.

The application form will be completed in duplicate and forwarded by the applicant without indorsement direct to the theater or department commander within whose area she resides. The theater or department commander will forward the original to The Adjutant General, Attention: AGSO–R, Washington 25, D. C.

(g) *Change of address by applicant.* (1) An applicant for appointment in the Army Nurse Corps or Women's Medical Specialist Corps, Regular Army, who changes residence or receives orders for a change of station within the continental limits of the United States subsequent to filing an application and prior to appearance before an interview board, will be responsible for advising, in writing, such change to The Adjutant General, Attention: AGSO–R, Washington 25, D. C. Applicants stationed or residing in oversea theaters or departments will advise theater or department commanders of changes of address.

(2) It is the responsibility of each applicant to notify The Adjutant General, Attention: AGSO–R, Washington 25, D. C., and theater or department commander of any change of military or home address after she has completed the integration testing. Failure to comply with this may result in the non-

delivery of official notification of appointment.

(h) *Technical specialists.* Appointment of technical specialists in the following categories may be made in the Army Nurse Corps, Regular Army, not in excess of 30 percent of the total number of nurses integrated under the provisions of this section:

(1) An administrator in the nursing service will be a graduate of a school of nursing recognized by The Surgeon General and should hold at least a bachelor's degree from a recognized institution including or supplemented by a program of studies for administration of the nursing service, and a minimum of 5 years' experience in one or more of the following, or submit satisfactory evidence of having demonstrated ability to function in an administrative or teaching position.

(i) Head nurse (may be combined with the position of assistant clinical instructor) or supervisor (may be combined with the position of clinical instructor).

(ii) Instructor in nursing arts, physical and biologic science, or social science.

(iii) Assistant director of nursing service (may be combined with the position of assistant director of nursing school).

(iv) Director of nursing service (may be combined with the position of director of nursing school).

(2) An anesthetist must have had 6 months' postgraduate training in anesthesiology in an Army or civilian hospital approved for teaching anesthetists, or have demonstrated her ability to perform such professional duties. She must be a graduate of a school of nursing recognized by The Surgeon General.

(3) An operating room supervisor must have had 6 months' postgraduate training in the surgical service of an Army or civilian hospital approved for the teaching of operating room nurses, or have demonstrated her ability to perform such professional duties. She must be a graduate of a school of nursing recognized by The Surgeon General.

(4) A neuropsychiatric nurse must have had 5 months' postgraduate training in neuropsychiatry in an Army or civilian hospital approved for training neuropsychiatric nurses, or have demonstrated her ability to perform such professional duties. She must be a graduate of a school of nursing recognized by The Surgeon General.

(i) *Action by the War Department.* (1) Where applicant fails to achieve the requirements of the technical proficiency test, The Adjutant General will advise the applicant by letter that she is disqualified.

(2) When it is determined that an applicant is not physically qualified for appointment, The Adjutant General will advise the applicant of such determination. Decision of the War Department is final.

(3) The records of each applicant will be examined to determine whether there is anything which, in the opinion of the War Department, would make her appointment undesirable. An eligible list will be established showing names, serial numbers, and composite scores, arranged by grades for which eligible, in order of composite scores, for each corps and section. Recommendations for appointment will be made as follows:

(i) Where technical specialists are required as set forth in paragraph (h) of this section, such specialists will be selected by starting from the top of the list and going down until the required number with suitable qualifications have been obtained.

(ii) From those remaining on the list starting with the top of the list and going down until authorized vacancies are filled.

(4) Applicants will be notified of appointment or rejection by The Adjutant General. Cases of those applicants who are neither appointed nor rejected will be retained in order of composite score in the files of The Adjutant General.

Chapter I—Federal Communications Commission

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

AUTHORITY DELEGATED

At a meeting of the Federal Communications Commission, held at its offices in Washington, D. C., on the 8th day of May 1947;

It appearing, that requests submitted by petitioners asking that their respective petitions, be dismissed are required to be decided by the Commission; and

It further appearing, that petitions requiring the consideration of the Commission often contain requests which have become moot; and

It further appearing, that the public interest, convenience and necessity will be served by delegating authority to the Motions Commissioner to act upon requests seeking dismissals of pending petitions or petitions which contain requests which have become moot; and

It further appearing, that the amendment adopted herein is procedural, and that publication of general notice of proposed rule making pursuant to section 4 (a) of the Administrative Procedure Act is not required;

It is ordered, That § 1.112 of the Commission's rules and regulations be, and it is hereby, amended to add paragraphs (e) and (f) reading as follows:

§ 1.112 *Authority delegated.* • • •

(e) Petitions requesting the dismissal of other pending petitions filed by the same party.

(f) Petitions containing requests, all of which have become moot.

It is further ordered, That this order shall become effective immediately.

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of May 1947;

The Commission having under consideration the question of the existence of a shortage of radiotelegraph operators possessing six months' previous service required by section 353 (b) of the Communications Act of 1934, as amended, and further having under consideration the necessity for alleviation of the difficulties which may result therefrom to the public, while at the same time having in mind the safety purposes of section 353 (b) of the act; and

It appearing that there is a current shortage of radiotelegraph operators who have the six months' ship experience required by section 353 (b) of the Communications Act of 1934, as amended; and

It further appearing that this shortage does not exist generally throughout the United States; and

It further appearing that in the areas where the shortage exists ships are from time to time delayed in meeting normal departure schedules; and

It further appearing that in view of the safety purposes of section 353 (b), it is appropriate under the circumstances to consider each case individu-

ally upon its merits with a view to granting where necessary a limited individual waiver of the experience requirement; and

It further appearing that such individual action can be best taken at the ports of scheduled departure of the particular ships through the exercise of delegated authority by the Commission's Engineer in Charge at those ports or in their vicinity; and

It further appearing that general notice of proposed rule making is not required herein under the provisions of section 4 of the Administrative Procedure Act since the amendments of the Commission's Rules and the new Rules ordered herein relate to Commission organization and procedure and are designed to relieve a restriction in that they will expedite action upon applications for individual waivers as hereinbefore referred to;

It is ordered, That new §§ 1.151 and 1.152 of the Commission's rules and regulations be and the same are hereby adopted, reading as follows:

§ 1.151 *Authority delegated to Engineer in Charge of Port Offices.* The Engineer in Charge of each Port Office (or in his absence the Acting Engineer in Charge) is designated to act upon the following matter:

(a) Applications for waiver of the requirement of six months' previous service contained in section 353 (b) of the Communications Act of 1934, as amended, and in paragraphs (c) (3) and (d) (2) of § 13.61 of the rules and regulations of this chapter.

§ 1.152 *Record of actions taken.* Action taken on applications in accordance with § 1.151 shall be recorded each week and a copy thereof forwarded to the Secretary of the Commission to be filed in the official minutes of the Commission.

It is further ordered, That § 1.211 of the Commission's rules and regulations be and it hereby is amended, to read as follows:

§ 1.211 *Applications for exemptions and waivers under Part II of Title III.* (a) Applications filed under the provisions of section 352 (b) for exemption from the requirements of Part II, Title III of the Communications Act of 1934, as amended, shall be filed at the Commission's office in Washington, D. C.

(b) Applications filed under the provisions of section 353 (b) for waiver of the requirements of that section shall be filed at the office of the Commission's Engineer in Charge at or in the vicinity of the port from which the vessel for which the waiver is requested is scheduled to depart. Prior to filing an application for such waiver, the applicant must have exhausted all known sources of ship radio operators within a reasonable distance. The determination of what sources will be considered to be within a reasonable distance will be made by a reference, among other factors, to the date when efforts were commenced by the applicant to secure a fully qualified radio-telegraph operator in relation to the date when the applicant first became aware of the scheduled (or approximate) sailing date of the vessel concerned.

It is further ordered, That § 1.331 of the Commission's rules and regulations be and it hereby is amended, to read as follows:

§ 1.331 *Applications for exemptions and waivers under Part II of Title III.* (a) Applications filed under the provisions of section 352 (b) for exemption from the requirements of Part II, Title III of the Communications Act of 1934, as amended, and Article 27 of the Safety of Life at Sea Convention, London, 1929, shall be submitted on FCC Form 820, entitled "Application for Exemption."

(b) Applications filed under the provisions of section 353 (b) for waiver of the requirements of that section and paragraphs (c) (3) and (d) (2) of § 13.61 of the rules and regulations are not required to be submitted on any numbered or prescribed form. However, all such applications must be submitted in writing by or on behalf of the owner, charter party, or operating agent of the ship, must be signed, must be sworn to either when submitted or by confirmation as set forth below, and must contain a specific request for waiver which specifies at least the following information:

(1) Name of ship and port of scheduled departure.

(2) Date and time of scheduled departure.

(3) Nature of cargo.

(4) Destination.

(5) Statement that all known sources of ship radio operators within a reasonable distance have been exhausted, including both all union and non-union sources and the nearest United States Employment Service local office.

(6) Listing by name, location and date contacted the sources canvassed.

(7) Date that applicant first became aware of the scheduled (or approximate) sailing date of the vessel concerned.

(8) Name and description of qualifications of the radiotelegraph operator presently available and intended to be employed under the requested waiver.

Unsworn applications for waiver under this paragraph may, when necessary, be submitted and acted upon. In each case, however, an applicant must immediately upon filing an unsworn application submit a sworn confirmation thereof.

It is further ordered, That this order shall become effective on the 15th day of May 1947.

(Sec. 4 (i), 48 Stat. 1066; 47 U. S. C. 154 (i))

PART 3—RADIO BROADCAST SERVICES

APPENDIX TO SUBPART B—STANDARDS OF GOOD ENGINEERING PRACTICE CONCERNING FM BROADCAST STATIONS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 29th day of April 1947;

Whereas, sections 16, 17 and 18 of the Standards of Good Engineering Practice Concerning FM Broadcast Stations provide that lists of approved equipment will be issued from time to time for incorporation in these standards, and

Whereas, the Commission has approved certain equipment in accordance with sections 13, 14 and 15 of these standards, and

Whereas, the Commission has found that it will be in the public interest to amend the Standards of Good Engineering Practice concerning FM broadcast stations so as to set forth this equipment approved by the Commission, and

Whereas, these amendments do not preclude the approval of additional equipment in accordance with these standards, and

Whereas, the amendments are issued under the authority of sections 303 (e) and 303 (r) of the Communications Act of 1934, as amended, and

Whereas, in view of the foregoing, the Commission is of the opinion that it is unnecessary that the procedure for proposed rule making prescribed in section 4 of the Administrative Procedure Act be followed and that for the same reasons the amendments may become effective immediately,

It is therefore ordered, That sections 16, 17 and 18 of these Standards be and are hereby amended as follows:

PART 13—COMMERCIAL RADIO OPERATORS

MISCELLANEOUS AMENDMENTS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 1st day of May 1947;

The Commission having under consideration the matter of amending its procedure governing the issuance of restricted radiotelephone operator permits; and

It appearing, that by public notices dated April 4, 1947 and April 10, 1947, both of which were released and duly published in the form of a notice of proposed rule making and a correction thereto, which public notices set forth a proposal for the amendment of Part 13 of the Commission's rules governing commercial radio operators and set April 25, 1947 as the final date for interested parties to submit comments on the proposal; and

It further appearing, that the final date, April 25, 1947, for submitting comments on the proposal has passed without any adverse comments having been received; and

It further appearing, that the purpose of the proposed amendments is to provide for the more expeditious issuance of restricted radiotelephone operator permits to qualified applicants, without changing the qualifications for or the scope of authority of such permits, and without in any way affecting the procedure governing the issuance of any other kind or class of operator license or permit for which examination on any subject matter is required; and

It further appearing, that as the proposed amendments comprise changes in Commission procedure and would relieve a restriction by simplifying operator licensing procedure, and would be in the public interest, convenience, and necessity;

It is ordered, That the following amendments to Part 13 of the Commission's rules governing commercial radio operators be, and they are hereby, adopted, effective May 1, 1947.

1. Section 13.11 is amended to read as follows:

§ 13.11 *Procedure*—(a) *General.* The application, in the prescribed form and including all required subsidiary forms and documents, properly completed and signed shall be submitted in person or by mail to the office at which the applicant desires his application to be considered and acted upon, which office will make the final arrangements for conducting any required examination. If the application is for renewal of license,[3] it must be submitted during the last year of the license term,[3a] and if all prescribed service requirements are fulfilled,[4] the renewal license may be issued by mail. A renewal application shall also be accompanied by the license to be renewed.

(b) *Restricted radiotelephone operator operator permit.* No oral or written examination is required for this permit. If the application is properly completed and signed, and if the applicant is found to be qualified, the permit may be issued forthwith by personal delivery to the applicant or by mail.

2. Footnote 3a to § 13.11 as hereby amended, is amended to read as follows:

[3a] By order No. 128-B, adopted December 17, 1946, effective January 1, 1947, any application filed or mailed not later than June 30, 1947, for renewal of a commercial radio operator license (other than a Temporary Emergency or Temporary Limited Radiotelegraph Second Class Operator License) which was valid on or after December 7, 1941 and which has expired by its own terms without having been cancelled or suspended, may, until further order of the Commission, be acted upon, notwithstanding the provisions of Section 13.11, if a statement is filed as a part of the renewal application showing that (1) the applicant is serving in the armed forces of the United States or has been honorably discharged therefrom since December 7, 1941; or (2) the applicant is serving in the United States Maritime Service or has voluntarily left that Service since December 7, 1941; or (3) the applicant is or has been employed outside the continental United States and has been unable to file timely application for renewal of license because of such employment outside the continental United States.

3. Paragraph (e) of § 13.22 is amended by deleting everything after the words "operator permit:", and substituting therefor the following: "No oral or written examination is required for this permit. In lieu thereof, applicants will be required to certify in writing to a declaration which states that the applicant has need for the requested permit; can receive and transmit spoken messages in English; can keep at least a rough written log in English or in some other language in general use that can be readily translated into English; is familiar with the provisions of treaties, laws and rules and regulations governing the authority granted under the requested permit; and understands that it is his responsibility to keep currently familiar with all such provisions."

4. Section 13.25 is amended by adding at the end thereof the following: "However, no person holding a new, duplicate, or replacement restricted radiotelephone operator permit issued upon the basis of a declaration, or a renewed restricted radiotelephone operator permit which renews a permit issued upon the basis of a declaration, shall, by reason of the declaration or the issuance of the permit based thereon, be relieved of qualifying by examination on any phase of the subject matter of the declaration when applying for any other operator license or permit for which examination on any subject matter is required."

5. Section 13.28 is amended by deleting, at the beginning of the first sentence, the words "A license," and inserting in lieu thereof the words "A restricted radiotelephone operator permit may be renewed without examination or showing of service and upon the same basis as an original permit of this class is issued. A license of any other class."

6. Footnote 7a to § 13.28 as hereby amended, is amended to read as follows:

[7a] By Order No. 77, dated and effective December 4, 1940, this section was suspended, until further order of the Commission, insofar as the required showing of service or use of license is required. The suspension has been continued by Orders Nos. 77-A through 77-G. Order No. 77-G, adopted December 17, 1946, effective January 1, 1947, extends the suspension until further order of the Commission, but in no event beyond June 30, 1947.

7. Section 13.73 is deleted in its entirety.

8. Sections 13.74 and 13.75 are re-numbered §§ 13.73 and 13.74, respectively.

PART 14—RADIO STATIONS IN ALASKA OTHER THAN AMATEUR AND BROADCAST

FREQUENCIES FOR SHIP STATIONS

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 8th day of May 1947;

The Commission having under consideration the matter of providing an effective radio communication system for vessels operating in Alaskan waters; and

It appearing, that the frequencies presently available to ship stations licensed by this Commission for communication in Alaskan waters with coastal stations of the Alaska Communication System are congested with the result that such ship stations are experiencing difficulty in establishing and maintaining communication with such coastal stations; and

It further appearing, that this difficulty could be alleviated by providing an additional frequency upon which to conduct such communications; and

It further appearing, that upon the condition that no interference would result to other services, the additional frequency 2134 kilocycles could be provided by an amendment to Part 14 of the Commission's rules governing radio stations in Alaska; and

It further appearing, that it would be in the public interest, convenience, and necessity to adopt such an amendment, and that authority for such an amendment is contained in sections 303 (b), (c), (f), and (r) of the Communications Act of 1934, as amended; and

It further appearing, that the immediate adoption of such an amendment would relieve an existing restriction on the use of the frequency 2134 kilocycles and would promote the safety of life and property and, therefore, that the general public notice and procedure for rule making and the 30 day advance publication prior to the effective date of an adopted rule, as provided by section 4 of the Administrative Procedure Act, are not required;

It is ordered, That § 14.54 of the Commission's rules and regulations governing radio stations in Alaska be, and it is hereby, amended to read as follows:

§ 14.54 *Frequencies for ship stations.* (a) The following frequencies are allocated for use by ship stations in Alaskan waters in addition to those set forth in the general regulations: 1592 and 2538 kilocycles: A1, A2, A3 emission, maximum power 100 watts.[1]

(b) The frequency 2134 kilocycles is allocated for use by ship stations in Alaskan waters for communication primarily with Government coastal stations for types A1, A2, and A3 emission with a maximum power of 100 watts, upon the condition that no interference will result to other services.

It is further ordered, That this order shall be effective immediately.

PART 41—TELEGRAPH AND TELEPHONE FRANKS

FREE SERVICE TO OFFICIAL PARTICIPANTS IN 1947 WORLD TELECOMMUNICATIONS CONFERENCES

At a session of the Federal Communications Commission, held at its offices in Washington, D. C. on the 14th day of May 1947;

The Commission, having under consideration Public Law 48, 80th Congress, 1st session, enacted May 13, 1947, permitting United States communication common carriers to accord free communication privileges to official participants in the world telecommunications conferences to be held in the United States in 1947, subject to such rules and regulations as the Commission may prescribe;

It is ordered, That pursuant to Public Law 48, 80th Congress, 1st Session, and section 4 (i) of the Communications Act of 1934, as amended, Part 41 of the Commission's rules and regulations is amended forthwith by the addition of the following sections:

§ 41.41 *Free service permitted.* For the duration of the world telecommunications conferences to be held in Atlantic City, New Jersey in 1947, United States communication common carriers may render, to official participants in such conferences, free communications services outbound from the United States to the respective foreign countries which the official participants represent at the conferences, provided the foreign connecting carriers involved in each case handle free the portion of such communication service rendered by them. The term "official participants" means persons whose names appear on the list of official participants maintained by the official secretariat of the world telecommunications conferences.

§ 41.42 *Communication common carriers.* The communication common carriers may establish and apply such restrictions on the use of the free communication services provided for in § 41.41 of these rules and regulations as may be necessary to assure the maintenance of adequate communications service to the general public.

Public notice of rule making deemed impracticable. Public Law 48, 80th Congress, was enacted on May 13, 1947. The first of the world telecommunications conferences to be held in the United States in 1947, the Radio Administrative Conference, convenes in Atlantic City, New Jersey, on May 15, 1947. Because of the lack of time between the enactment of the Joint Resolution and the convening of this conference, the Commission finds that the notice and public procedure thereon provided for in the Administrative Procedure Act are impracticable. Accordingly, §§ 41.41 and 41.42 of these rules and regulations are effective immediately.

(Sec. 4 (i), 48 Stat. 1066; Pub. Law 48, 80th Cong., May 13, 1947; 47 U. S. C. 154 (i))

By the Commission.

[SEAL] T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Part 904]

HANDLING OF MILK IN GREATER BOSTON, MASS., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDMENT TO ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR, Cum Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and a proposed amended order, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the seventh day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate

Preliminary statement. The proceeding was initiated by the Production and Marketing Administration as a result of requests received from cooperative associations of producers and from handlers

of milk in the Boston milk shed. In a letter dated January 17, 1947, the market administrator of the Greater Boston marketing area notified all handlers, cooperative associations, and other interested persons that they should file not later than February 3, 1947, any proposals which they wished to make with respect to amendments to the order. Forty-one proposals were submitted by cooperative associations, handlers, and the market administrator. After consideration of these various proposals, it was concluded that a hearing should be held to accept evidence on all of the proposals except one. It was decided to defer until a later date any hearing on the proposal made by several cooperative associations to enlarge the Greater Boston marketing area to such an extent as to create a New England-wide market pool.

On March 5, 1947, there was issued a notice of hearing which listed all of the proposals on which evidence would be taken. The hearing was held at Burlington, Vermont, on March 14 and 15, 1947, and continued at Boston, Massachusetts, on March 17–19 and 24–26, 1947.

Previously a hearing was held at Boston on November 20, 1946, to consider amendments to Order No. 4, which had been proposed by cooperative associations of producers and by the Dairy Branch. Action was taken at that time with respect to all of the issues except one which were developed at the hearing. No action was taken or has since been taken on a proposal designed to prevent contraseasonal changes in the Class I price which might otherwise occur as a result of the butter-powder formula contained in the order. This issue should be disposed of at this time.

Findings and conclusions. The issues which were listed in the notice and which were developed at the hearing in March 1947 are grouped under the following headings. The issue developed at the hearing held November 20, 1946 is included under the issue "Basis for determining Class I prices."

(1) *Basis for determining Class I prices.* The butter-powder formula for determining the Class I price should be retained in its present form with a provision to prevent contraseasonal changes in the Class I price. In addition, minimum floor prices for the period from July 1947 through December 1947 should be provided.

There is a very serious need for encouraging a shift toward more fall production. During three of the last four years the production of milk in the Boston milk shed has been insufficient in November and December to supply the needs for Class I milk. Production varies seasonally to such an extent that it is nearly twice as great in May and June as in November and December. A price plan to encourage increasing fall production is imperative for the Boston market. Minimum Class I floor prices are required for each month through December 1947 in order to assure a substantial rise in prices from the spring to the fall and thus develop a better seasonal pattern of production.

The uncertainty of economic conditions in the fall and winter requires a safeguard in addition to minimum floor prices for Class I milk. The butter-powder formula should be retained to give producers the benefit of any increase over the floor prices which may be justified by the prices of other dairy products and by the general price level in the fall and winter. The butter-powder formula should be modified to prevent contraseasonal price changes in the months just preceding or during the season of greatest shortage or seasonal flush production. Generally, the Class I price for any of the months of September through December of any year should not be lower than the Class I price in effect for the preceding month and the Class I price for the months of March through June of any year should not be higher than the Class I price in effect for the preceding month.

Producers contended that the butter-powder formula method of determining the Class I price be deleted entirely from the order and fixed prices substituted for it. Exact prices cannot be determined from this record for nine months to a year in advance. The present trend toward increasing production and decreasing consumption and the general uncertainty as to business conditions this fall and winter preclude a fixed guarantee of exact Class I prices. The present butter-powder formula should be retained until some other plan is developed. The formula will establish prices this fall above the floor prices named if conditions warrant higher prices, and will provide a method of pricing after December. The provision to prevent a contraseasonal price change will avoid nullification of the seasonal price plan by movements of the general price level. It is not considered advisable to provide for complete prevention of downward price movements in the last half of the year or upward price movements in the first half because such a provision would hold back unduly adjustments to the general price level.

(2) *Minimum floor prices for Class I milk for the latter half of 1947.* The minimum floor price for Class I milk in the 201–210-mile zone of the Boston milk shed should be $4.77 per hundredweight in July, August, and September 1947. The minimum floor price should be $5.21 in the short production months of October, November, and December 1947. If the butter-powder formula produces a higher price than $5.21 in October, November, or December, this price should continue to the end of the year. The maximum drop in price from either level between December and January or January and February should be 44 cents.

In 1946 a start was made in New England on a program of encouraging the production of more milk in the fall months. Shifting to fall freshening has involved substantial additional costs of producing milk. These special costs include breeding difficulties and the cost of purchasing additional fall-freshening cows. The current prices and rates paid for feed, labor, and farm machinery are higher than last year. These factors indicate that the program to encourage more fall production may be seriously hampered unless producers are assured of absolute floor prices for the last quarter of 1947 as high as the floor established in 1946. Absolute floor prices should be established also for July, August, and September 1947 at 44 cents below the last quarter prices to conform to the seasonal pattern of prices which is necessary to insure an adequate supply of producer milk in the area during the short season. On the other hand, the current trend toward greater milk production this year with some indication of smaller Class I sales does not justify absolute floor prices for Class I milk for the last quarter of 1947 higher than the last quarter of 1946.

A seasonal price spread equivalent to about 40 percent of the May-June price is necessary to encourage fall production. Farmers indicated that at present price levels this would require a price in November as near as possible to $1.50 above the blended price for May and June. Such a spread should encourage farmers who have already started the shift toward more fall production to continue and encourage other farmers to follow their example. The minimum floor price for Class I milk of $5.21 in October, November, and December will provide this encouragement. Following a seasonal pattern, the drop from December 1947 to January 1948 should not exceed 44 cents with a floor price of $4.77 for January and any further drop which might be indicated by the formula for February should be limited to not more than 44 cents. The limitation of any price decrease from December to January and January to February will prevent any precipitous price drop immediately following the period for which greater production is to be encouraged.

(3) *A "take-out" and "pay-back" plan of seasonal pricing.* The proposal to "take-out" of the Class I price during April, May, and June, 44 cents to be paid back according to the amount collected, in equal amounts during October, November, and December should not be adopted.

The seasonal change in Class I prices will accomplish the adjustment in producer prices which proponents of the "take-out" and "pay-back" plan advocated. Since the change in Class I prices was generally supported and better understood than this proposal, it can be expected to encourage producers more effectively to produce more fall milk.

(4) *Reported prices to be used as basis for Class II skim value.* No change should be made at this time in the reported prices used as a basis for Class II skim value.

The proponents of a change to another price series did not show that official prices published by the United States Department of Agriculture for nonfat dry milk solids manufactured by the roller process for human food or animal feed products do not reflect changes in the value of skim milk marketed in Class II milk. Moreover, the prices reported by the United States Department of Agriculture for nonfat dry milk solids, roller process, for human consumption, sold wholesale at New York and the average of commercial quotations for the same product listed as "known brands" and "other brands," have been less than

a cent apart for the years 1941 through 1946.

Prices for nonfat dry milk solids sold for animal feed products should be retained in the Class II skim value formula. The exact amount of the allowance factor to be used if the animal factor were omitted was not established at the hearing. The proposal to use a simple average of quotations for nonfat dry milk solids for human and animal consumption as the basis for pricing Class II skim milk was abandoned by the proponents at the hearing.

(5) *Allowance to handlers to cover freight and administration assessment on Class II milk.* No change should be made in the allowance to cover freight and administration assessment on Class II milk.

The handling allowance is only one of the many factors which are included in the Class II price formula. With so many factors, it is easy for one or more factors to be out of line in one direction while at the same time other factors are out of line in the opposite direction. One group of factors may underprice skim milk somewhat while other factors may overprice Class II milk at the same time. There is no evidence that the total allowance should be changed or that the increase in freight and administration assessment is not offset by other factors in the Class II price. In fact, the proposal to increase the allowance was brought up under the general statement that the several proposals affecting the Class II price formula should be considered in relation to other factors not specifically mentioned in each proposal. The presiding officer ruled that this specific proposal was not covered by the notice. Since the proponent did not establish the merits of the total level of Class II price which his proposal along with others would achieve or relate his proposal to the specific proposals, the presiding officer's ruling did not prejudice the proponent of this proposal.

(6) *Pricing of butterfat made into butter or cheese.* The butter and cheese adjustment provision of the order should be limited to butterfat which is manufactured into salted butter and the named cheeses and which is disposed of as such, and a separate cheese class should not be established.

Plastic cream or cream containing 80 percent butterfat is widely used in ice cream mix and is not eligible for special pricing because the fat in ice cream mix has a value comparable with that of the fat in fluid cream. Sweet butter is interchangeable with plastic cream in making ice cream mix and, therefore, should not be eligible for special pricing. A separate cheese class is not needed to provide an additional outlet for milk and might return to producers less than the butter value of the fat in Class II milk.

(7) *Months in which butter and cheese adjustment should apply.* The months in which the butter and cheese adjustment should apply should not be changed.

The requirements of the marketing area for fluid cream far exceed cream available from producer milk except in a few of the months of flush production. The fluid cream market is generally available to all handlers. The proposed year-around butter price which would permit certain handlers to churn butter and thus keep New England cream off the Boston market could not be expected to influence in any compensating degree the market price of the large volume of cream sold in Boston from western sources.

The proposal to permit a handler to claim the butter price in April and July only if the market administrator could not market his cream in fluid channels would involve special machinery for administration and detailed plans for determining whether the cream was of marketable quality and what price should be considered reasonable. Proponents did not show the details of the plan to carry out their proposal.

(8) *Pricing of skim milk made into casein and animal feed powder.* The special price for skim milk made into casein should be eliminated from the order and there should be no special price provision for skim milk made into animal powder.

Prior to 1942, casein returned a higher skim value than skim milk powder. During the war, casein production was purposely discouraged by a low ceiling price. The casein market has been strong since the end of the war while the powder market is slow and sluggish. A return to the price relationship which existed before the war between the two products may be expected.

The casein adjustment, and any separate adjustment for skim milk made into animal feed powder, tend to remove the incentive to vigorous merchandising which will return to producers the regular Class II price for skim milk. The skim formula is already heavily weighted with animal powder in the months of flush production. The pool should not absorb losses on lower value uses of skim milk when alternative outlets for higher value uses are available. Since it is concluded to eliminate the special price for skim milk made into casein, the proposal to change the quotation on which such price is based becomes a moot issue.

(9) *Transportation differentials on Class II milk shipped to city plants in fluid form.* Class I transportation differentials on Class II milk shipped to city plants in fluid form should not be allowed.

The differential proposed would have the effect of creating a separate class for skim milk which would return less than the regular Class II price for milk shipped to city plants from certain zones. The alternative outlet for this milk would be in fluid cream and manufactured skim products as regular Class II milk at country plants. Since this alternative outlet exists, the value of Class II milk at country plants should not be lower than the regular Class II value. The proposal would also have increased the cost of Class II milk from certain nearby zones but since the Class II milk price covers milk utilized in a number of different ways, some higher and some lower in value than others, there is no good reason to single out this particular use of milk for a higher price. The proposal to achieve more uniformity with respect to the cost of Class II milk moved as milk to city plants was not accompanied by evidence upon which a new class price based upon the value of milk in this particular use could be established.

(10) *Basis of pooling.* The proposed revision of the basis of pooling and related proposals made by the market administrator should be adopted. The revised basis of pooling should permit an individual producer to be retained on the pay roll of a pool plant even if his milk is delivered directly to a nonpool plant of the handler, provided the pool receives full Class I credit for the milk of such producer. The proposal to provide that the operation of the three-day provision in paragraph (c) of § 904.8 be measured from the date on which the plant first becomes a pool plant rather than being measured from August 1 should not be adopted except with regard to New York pool plants.

The adoption of the administrator's proposal would reduce or eliminate the possibility of accidental inclusion or exclusion of a plant from the pool, would curb the movement of plants in and out of the pool to the handler's advantage and loss to the pool, and would promote a more efficient physical handling of milk. The proposal sets up sound basic requirements for the inclusion of country plants in the market pool, which will prevent any plant from participation in the pool unless it is actually qualified to supply fluid milk to the marketing area.

Producer milk and all other sources of milk should be clearly defined and the obligations on handlers with respect to all sources of milk should be stated. Administration expense should be shared by handlers who receive milk which is not a part of the normal supply of the market. This outside milk involves additional administrative cost which should be borne by the handlers who receive it, including producer handlers and handler buyers.

In connection with the proposed change in the section regarding expense of administration, the change in the rate of assessment should be made by the Secretary instead of by the market administrator subject to review by the Secretary. Payments to the producer-settlement fund on outside milk which displaces producer milk in Class I should be made by the handler who receives the milk for disposition in the Boston marketing area. During an emergency period, when supplies of producer milk are not sufficient to meet the needs of the market, the outside milk which is considered emergency milk should not be subject to such payments.

More efficient handling of milk will be provided by allowing an individual producer to be retained on the pay roll of a plant even if his milk is delivered directly to a nonpool plant of the handler, provided the pool receives full Class I credit for the milk of such producer.

The proposal to provide that the operation of the three-day provision in the "Dairy Farmers for Other Markets" paragraph be measured from the date on which the plant first becomes a pool plant rather than being measured from August 1 would apply to plants other than those newly acquired if it were adopted as it was proposed in the notice. If the inclusion were that broad, the provisions to prevent transfers in and out of the pool could be circumvented by this provision. If the proposal were revised to apply only to newly acquired plants, it, too, could provide a vehicle for circumvention if a handler wished to maintain his newly acquired plant as a supply for a Class I outlet in another market outside the pool for several delivery periods. The lapse of time during each calendar month is sufficient for the ordinary acquisition of the plant by passing legal papers and obtaining other evidence of the right to ship milk to the Boston market. In general, under the revised basis of pooling, if a newly acquired plant otherwise qualified makes one shipment of Class I milk to the marketing area in the form of milk during any month, it becomes eligible for pooling for the entire month. However, this is not true in the case of New York pool plants.

In the case of a transfer of a milk plant from the New York pool to the Boston pool, the New York order would require that the plant be pooled for the entire month if it were pooled for any part of the month. The Boston order exempts from pooling any plant which is a New York pool plant. Therefore, the transfer of a plant from New York to Boston would have to be accomplished on the first day of the month to prevent the producers delivering to that plant from being considered "Dairy farmers for other markets" during the following April, May, June, and July.

(11) *Uniform payment of premiums.* The uniform payment of premiums to producers should not be required.

Recurring milk shortages since 1943 have caused an acute increase in the payment of cash premiums and in the building of new plants in the supply area of existing plants as competitive means of securing milk. Hauling subsidies and free use of cans are other forms of premium payments in use in the Boston milk shed. Regulation of cash premiums only would not be an effective solution of the problems involved. The problem will gradually disappear as supplies become more ample. It is possible that the administration of such a provision would discourage the payment of premiums for quality and incentives for seasonal production.

The evidence failed to show that the payment of premiums to producers supplying the Boston market constituted unfair trade practices.

(12) *Permissive variation in butterfat differential.* Handlers should not be allowed to use an adjusted butterfat differential in making payments to producers at any of their plants in any period even if total payments to producers at such a plant during the period were not less than the total payments required by the order.

A permissive variation in the butterfat differential was offered as a device to aid in meeting competition in areas where producers can deliver to handlers subject to the provisions of Order No. 27. If it were adopted, producers delivering milk with a high butterfat content would receive less and producers delivering milk with a low butterfat content to the same plant would receive more than the minimum prices required by the order. The high test producers would, in effect, be paying part of the handler's cost in meeting local competition for milk.

(13) *Months in which milk subject to the New York order is allocated to Class II.* The months in which milk subject to the New York order is allocated to Class II should not be changed.

The record does not show the need for a change. In each of the months of April and July since January 1, 1938, Class II milk has exceeded 42 percent of total producer receipts except during 1946 when Class II exceeded 30 percent of receipts. In case of an emergency, New York milk would be available under the provision discussed in issue 14, which is recommended for adoption. The proposal to extend the months during which New York milk should be allocated entirely to Class II was not in the hearing notice and was not fully developed at the hearing.

(14) *Modification of emergency milk definition and classification.* The provision for classifying emergency milk should apply only to the period within the month during which the handler brings in some emergency milk, and the wording revised to make clear how it is applied. The definitions of emergency period and emergency milk should be revised to delete any reference to the New York milk shed and make any milk outside the regular Boston supply available on an emergency basis.

Since handlers who do not purchase any emergency milk are not limited in the amount of Class II milk they may handle during an emergency period, other handlers who purchase emergency milk only during a part of the period should have the same privilege during the part of the period in which they bring in no emergency milk.

The language of the section which provides for allocating emergency milk to classes should also be worded to make clear that receipts of cream are not used in determining the base or the quantity of Class II milk, and that total receipts of other products are adjusted for inventory variations.

There may be extra milk in the New York milk shed which is not available to Boston handlers because of provisions of health regulations. Boston may need emergency milk even when New York is adequately supplied.

The supply of milk in Boston pool plants should be the basis for determining whether an emergency exists in the Boston market. New York milk should be considered as emergency milk during any emergency which might occur during April, May, June, and July.

(15) *Revision of the definition of producer-handler.* A producer-handler should be defined as any person who is both a dairy farmer and a handler who receives milk of his own production only from farms within 80 miles of Boston and who receives no milk from other dairy farmers except producer-handlers.

The present definition of producer-handler in the order can work a hardship and is not needed to establish the bona fide nature of a producer-handler's operation. The proposed 80-mile limit is consistent with other provisions of the order which grant special pricing to producers within that area and there have never been producer-handlers under Order No. 4 located beyond 80 miles.

(16) *Maintenance of records by handlers.* Handlers should be required to maintain detailed and summary records which will show all receipts, movements, and disposition of milk and milk products.

The order does not now specifically require that records be maintained although proper verification of reports is not possible in the absence of adequate records. The requirement that adequate records be maintained should be set forth in the order so that it could be relied on in legal proceedings to compel a handler to maintain records.

(17) *Reports regarding individual producers.* The section of the order providing for reports regarding individual producers should be clarified and revised to permit handlers to submit such reports only twice a month.

The first subparagraph of paragraph (c) in the reports section has been in the order since August 1, 1937, and was intended for use in connection with base ratings. It has never been used and should be deleted.

Filing reports regarding individual producers twice each month will be a convenience to some handlers and will not create any administrative difficulties.

(18) *Time limit on reaudits and rebillings.* The proposal to provide a time limit with respect to the retention of records and with respect to reaudits and the issuance of revised billings should not be adopted at this time.

The evidence indicated that a limitation of time on the keeping of records involved important collateral issues which were not included in the notice of hearing or fully developed at the hearing. For example, it was pointed out that if there were a time limit on reaudits, it would be necessary to set a companion limit on the time within which handlers be permitted to file revised reports. Safeguards would have to be provided with respect to records which become involved in audit adjustments, ltigation, or where there is fraud or intentional falsification. There is involved also the question of a limitation of time within which the market administrator could enforce a claim against a handler or a handler against the market administrator. The order should not be amended to provide for these matters until a hearing has been held on proposals which contain specific language to cover these collateral issues.

(19) *Time of payment to producers.* An advance payment to producers should not be required if a first and final payment is made on or before the seventeenth day after the end of the delivery period.

A single monthly payment will be advantageous to some handlers in that they can reduce their total pay roll work. Producers will not be inconvenienced and payment by the seventeenth will not require them to extend handlers any more credit than they do now.

(20) *Bring up to date table of transportation differentials and emergency price provision.* The table of plant handling and transportation differentials in the minimum price section should be brought up to date by substituting the table of differentials which has been in use since January 1, 1947, when "New England Joint Tariff M–5" became effective.

The emergency price provision should be revised to delete references to subsidies and maximum uniform prices which were war time measures and are no longer in effect.

Incorporation into the order of these recommendations will require changes in the wording of certain related paragraphs. Several new definitions of terms are needed to give greater clarity to certain sections of the order that are being amended. These newly defined terms can be utilized to advantage in clarifying other paragraphs in which no substantive changes are being made.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of Bethel Cooperative Creamery, Grand Isle County Cooperative Creamery, Milton Cooperative Creamery, New England Dairies, Inc., Shelburne Cooperative Creamery, United Farmers' Cooperative Creamery Association, The Independent Cooperative Association, Inc., The Eastern New York Dairy Cooperative Association, Inc., New England Milk Producers' Association, David Buttrick Company, H. P. Hood & Sons, Inc., White Bros. Milk Company, and Whiting Milk Company. The first six cooperative associations named also filed a request that findings be made with respect to specified proposed findings of fact and a ruling upon a ruling made by the presiding officer during the course of the hearing.

The briefs contain statements of fact, conclusions, and arguments with respect to nearly all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record, in making the findings and reaching the conclusions hereinbefore set forth. Although the briefs do not contain specific requests to make the proposed findings and conclusions stated therein, it is assumed that they were submitted with that intention and are treated accordingly. Some of the proposed findings of fact are immaterial to the issues presented or outweighed by other facts found herein, and some of the proposed conclusions do not logically follow from the proposed findings of fact. To the extent that the proposed findings and conclusions are inconsistent with the findings and conclusions contained herein, the implied requests to make such findings are denied because of the reasons stated for the conclusions in this recommended decision.

The ruling complained of by the aforementioned six cooperative associations involved their proposal to increase the allowance for freight and the administrative assessment which are only two of the factors that are included in the 27-cent allowance in the Class II price formula. This proposal was not contained in the notice of hearing. The presiding officer ruled that the proposal could not be made at the hearing as a separate or new proposal, but that evidence thereon would be received for consideration in connection with the proposals which were contained in the notice of hearing. As we have indicated in our discussion of issue No. 5, the evidence offered by the proponent of the disputed proposal became a part of the record and the proposal was considered on its merits. For the reasons stated in connection with this issue, the proposal was rejected. Hence the propriety of the ruling by the presiding officer presents a moot question.

With regard to the request of the aforementioned six cooperative associations that findings be made with respect to specified proposed findings, the following findings are made:

1. There is no evidence in the record concerning the cost of producing milk on September 21, 1946 or on April 11, 1947.

2. The prices or rates paid for feed, labor, and farm machinery were higher during the first quarter of 1947 than they were during the corresponding period of 1946.

3. There is no evidence in the record concerning the exact difference between the cost of producing milk in fall and winter and in the spring months.

4. The Class I price formula was adopted so that any general change on a national basis in the prices of butter and nonfat dry milk solids would be automatically and immediately reflected in the returns to producers in the Boston milk shed and to prevent disparity between the New York and Boston Class I order prices.

5. The payment of premiums to producers supplying the Boston market under the circumstances and for the purposes indicated by the evidence in the record does not constitute an unfair trade practice.

Recommended marketing agreement and order. The following amended order is recommended as the detailed and appropriate means by which these conclusions may be carried out. The proposed marketing agreement is not included in this report because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended. It is further recommended that the recommended amendments changing the basis of pooling be made effective August 1, 1947, the beginning of the "marketing year" under the proposed amendment, but the amendments to the price provisions of the order should be made effective as soon as possible.

§ 904.1 *Definitions.* As used in the regulations in this part the words and phrases defined in this section shall have the meanings herein assigned to them unless the context otherwise requires.

(a) *General.* (1) "Act" means Public Act No. 10, 73d Congress, as amended and re-enacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(2) "Greater Boston, Massachusetts, marketing area", also referred to in this order as the "marketing area", means the territory included within the boundary lines of the following Massachusetts cities and towns.

Arlington.	Marblehead.	Somerville.
Belmont.	Medford.	Stoneham.
Beverly.	Melrose.	Swampscott.
Boston.	Milton.	Wakefield.
Braintree.	Nahant.	Waltham.
Brookline.	Needham.	Watertown.
Cambridge.	Newton.	Wellesley.
Chelsea.	Peabody.	Weymouth.
Dedham.	Quincy.	Winchester.
Everett.	Reading.	Winthrop.
Lexington.	Revere.	Woburn.
Lynn.	Salem.	
Malden.	Saugus.	

(3) "Month" means a calendar month.

(4) "Marketing year" means the twelve months' period from August 1 of each year through July 31 of the following year.

(5) "Emergency period" means the period of time for which the market administrator declares that an emergency exists in that the milk supply available to the marketing area from producers is insufficient to meet the demand for Class I milk in the marketing area.

(b) *Persons.* (1) "Person" means any individual, partnership, corporation, association, or any other business unit.

(2) "Secretary" means the Secretary of Agriculture of the United States or any officer or employee of the United States who is, or who may hereafter be, authorized to exercise the powers and perform the duties of the Secretary of Agriculture.

(3) "Market administrator" means the person designated by the Secretary as the agency for the administration of the regulations in this part.

(4) "Dairy farmer" means any person who delivers milk of his own production to a plant, except a producer-handler in respect to his deliveries in packaged form to another handler.

(5) "Segregated dairy farmer" means a dairy farmer whose milk is kept separate from the supply for the marketing area.

(6) "Dairy farmer for other markets" means any dairy farmer, except a segregated dairy farmer, whose milk is received by a handler at a pool plant during April, May, June, or July from a farm from which the handler, an affiliate of the handler, or any person who controls or is controlled by the handler, received nonpool milk on more than 3 days in any one of the preceding months of August through March. The term shall not include a person who was a producer-handler or a person delivering to a New York order pool plant during any of the preceding months of August through March.

(7) "Producer" means any dairy farmer whose milk is delivered from his farm to a pool plant, except a dairy farmer for other markets and a segregated dairy farmer. The term shall also include a dairy farmer who ordinarily delivers to a handler's pool plant, but whose milk is diverted to one of the handler's nonpool plants, if the handler, in filing his monthly report pursuant to § 904.6 (a), reports the milk as receipts from a producer and as Class I milk at such pool plant.

(8) "Handler" means any person who, in a given month, operates a pool plant, or engages in the handling of milk or other fluid milk products which are received at any plants from which fluid milk products are disposed of, directly or indirectly, in the marketing area.

(9) "Pool handler" means any handler who receives milk from producers at a pool plant.

(10) "Buyer-handler" means any handler who operates a bottling or processing plant from which Class I milk is disposed of in the marketing area, and whose entire supply of fluid milk products is received from other handlers.

(11) "Producer-handler" means any person who is both a handler and a dairy farmer and who receives milk of his own production only from farms located within 80 miles of the State House in Boston, and who receives no milk from other dairy farmers except producer-handlers.

(12) "Dealer" means any person who engages in the business of distributing fluid milk products, or manufacturing milk products, whether or not he disposes of any fluid milk products in the marketing area.

(13) "Consumer" means any person to whom fluid milk products are disposed of, except a dealer. The term "consumer" includes, but is not limited to, stores, restaurants, hotels, bakeries, hospitals and other institutions, candy manufacturers, soup manufacturers, livestock farmers, and similar persons who are not necessarily the ultimate users. The term also includes any dealer in his capacity as the operator of any of these establishments, and in connection with any other use or disposition of fluid milk products not directly related to his operations as a dealer.

(c) *Plants.* (1) "Plant" means the land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, constituting a single operating unit or establishment for the receiving, handling, or processing of milk or milk products.

(2) "City plant" means any plant which is located not more than 40 miles from the State House in Boston.

(3) "Country plant" means any plant which is located more than 40 miles from the State House in Boston.

(4) "Receiving plant" means any milk plant currently used for receiving, weighing or measuring, sampling, and cooling milk received there directly from dairy farmers' farms and for washing and sterilizing the milk cans in which such milk is received, and at which are currently maintained weight sheets or other records of dairy farmers' deliveries.

(5) "Pool plant" means any receiving plant which, in a given month, meets the conditions and requirements set forth in § 904.4 for being considered a pool plant in that month.

(6) "Regulated plant" means any pool plant; any of a pool handler's plants which is located in the marketing area and from which Class I milk is disposed of in the marketing area; and any plant operated by a handler in his capacity as a buyer-handler or producer-handler.

(7) "Distributing plant" means any plant from which Class I milk in the form of milk is disposed of to consumers in the marketing area without intermediate movement to another plant.

(8) "New York order pool plant" means any plant designated as a pool plant in accordance with the provisions of Order No. 27, issued by the Secretary, regulating the handling of milk in the New York metropolitan marketing area.

(d) *Milk and milk products.* (1) "Milk" means the commodity received from a dairy farmer at a plant as cow's milk. The term also includes milk so received which later has its butterfat content adjusted to at least one-half of 1 percent but less than 16 percent, frozen milk, and reconstituted milk.

(2) "Cream" means that portion of milk, containing not less than 16 percent of butterfat, which rises to the surface of milk on standing, or is separated from it by centrifugal force. The term "cream" also includes sour cream, frozen cream, and milk and cream mixtures containing 16 percent or more of butterfat.

(3) "Skim milk" means that fluid product of milk which remains after the removal of cream, and which contains less than one-half of 1 percent of butterfat.

(4) "Fluid milk products" means milk, flavored milk, cream, skim milk, flavored skim milk, cultured skim milk, and buttermilk, either individually or collectively.

(5) "Pool milk" means milk, including fluid milk products derived therefrom, which a handler has received as milk from producers.

(6) "Outside milk" means (i) All milk received from dairy farmers for other markets; (ii) All nonpool milk, including other fluid milk products derived therefrom except cream, which is received at a regulated plant from any unregulated plant, except receipts from a New York order pool plant and receipts of emergency milk; and (iii) All Class I milk, after subtracting receipts of Class I milk from regulated plants, which is disposed of to consumers in the marketing area from an unregulated plant without its intermediate movement to another plant.

(7) "Emergency milk" means fluid milk products, other than cream, received at a regulated plant during an emergency period from a plant which was an unregulated plant in the month immediately preceding the month in which the emergency period became effective.

§ 904.2 *Market administrator*—(a) *Selection, removal, and bond.* The market administrator shall be selected by the Secretary and shall be subject to removal by him at any time. The market administrator shall, within 45 days following the date upon which he enters upon his duties, execute and deliver to the Secretary a bond, conditioned upon the faithful performance of his duties, in an amount and with surety thereon satisfactory to the Secretary.

(b) *Compensation.* The market administrator shall be entitled to such reasonable compensation as may be determined by the Secretary.

(c) *Powers.* The market administrator shall have power:

(1) To administer the terms and provisions hereof;

(2) To make rules and regulations to effectuate the terms and provisions hereof;

(3) To receive, investigate, and report to the Secretary complaints of violations of the terms and provisions hereof; and

(4) To recommend to the Secretary amendments hereto.

(d) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Keep such books and records as will clearly reflect the transactions provided for herein;

(2) Submit his books and records to examination by the Secretary at any and all times;

(3) Furnish such information and such verified reports as the Secretary may request;

(4) Obtain a bond with reasonable security thereon covering each employee who handles funds entrusted to the market administrator;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person, who within 15 days after the date upon which he is required to perform such acts, has not (i) Made reports pursuant to § 904.6 or (ii) Made payments pursuant to § 904.9;

(6) Give each of the producers delivering to a plant as reported by the handler prompt written notice of their actual or potential loss of producer status, for the first month of the marketing year in which the plant's status has changed or is changing to that of a nonpool plant;

(7) Prepare and disseminate for the benefit of producers, consumers, and handlers, statistics and information concerning the operation of this order;

(8) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof; and

(9) Pay, out of the funds provided by § 904.11, (i) The cost of his bond and of the bonds of such of his employees as handle funds entrusted to the market administrator, (ii) His own compensation, and (iii) All other expenses which will necessarily be incurred by him for the maintenance and functioning of his office and the performance of his duties.

(e) *Responsibility.* The market administrator, in his capacity as such, shall not be held responsible in any way whatsoever to any handler, or to any other person, for errors in judgment, for mistakes, or for other acts either of commission or omission, except for his own willful misfeasance, malfeasance, or dishonesty.

§ 904.3 *Classification of milk and other fluid milk products*—(a) *Classes of utilization.* All milk and milk products received by a handler shall be classified as Class I milk or Class II milk. Subject to the other provisions of this section, the classes of utilization shall be as follows:

(1) Class I milk shall be all fluid milk products the utilization of which is not established as Class II milk.

(2) Class II milk shall be all fluid milk products the utilization of which is estab-

lished: (i) As being sold, distributed, or disposed of other than as or in milk; and other than as or in flavored milk or flavored skim milk, buttermilk, or cultured skim milk, for human consumption; and (ii) As plant shrinkage not in excess of 2 percent of the volume handled.

(b) *Classification of milk and milk products utilized at regulated plants of pool handlers.* All milk and milk products received at a regulated plant of any pool handler shall be classified in accordance with their utilization at such plant, except as provided otherwise in paragraph (c) of this section.

(c) *Classification of fluid milk products, other than cream, moved to other plants.* Milk, flavored milk, skim milk, cultured or flavored skim milk, or buttermilk which is moved from the regulated plant of a pool handler to any other plant shall be classified as follows:

(1) If moved to any other regulated plant, it shall be classified in accordance with its utilization at the plant to which it is moved.

(2) If moved to an unregulated plant, it shall be classified as Class I milk up to the total quantity of milk, or the corresponding milk product so moved, which is utilized as Class I milk at the unregulated plant.

(3) If moved to a regulated plant of a nonpool handler or to an unregulated plant, and thence to another such plant, it shall be classified as Class I milk.

(d) *Responsibility of handlers in establishing the classification of milk.* In establishing the classification of any milk received by a handler from producers, the burden rests upon the handler who receives milk from producers to account for the milk and to prove that such milk should not be classified as Class I milk.

§ 904.4 *Determination of pool plant status*—(a) *Basic requirements for pool plant status.* Subject to the provisions of paragraph (b) of this section, each receiving plant shall be a pool plant in the first month in which the handler operates it in conformity with the basic requirements specified in this paragraph, and shall thereafter be a pool plant for the remaining months of the marketing year in which it is operated by the same handler. The basic requirements for acquiring pool plant status shall be as follows:

(1) A majority of the dairy farmers delivering milk to the plant hold certificates of registration issued pursuant to Chapter 94, Section 16, of the Massachusetts General Laws.

(2) The handler holds a license which has been issued by the milk inspector of a city or town in the marketing area, pursuant to Chapter 94, Section 40, of the Massachusetts General Laws, or a majority of the dairy farmers delivering milk to the plants are approved by such an inspector as sources of supply for milk for sale in his municipality.

(3) Class I milk in the form of milk is disposed of in the marketing area from the plant.

(4) The handler's total Class I milk in the marketing area exceeds 10 percent of his total receipts of fluid milk products other than cream.

(b) *Conditions resulting in nonpool plant status.* (1) Each plant which has acquired pool plant status but from which no Class I milk in the form of milk is disposed of in the marketing area for two successive months in the marketing year shall be a nonpool plant in the second of the two months and for each consecutive succeeding month of the marketing year during which no such Class I disposition is made.

(2) Each nondistributing plant for which the market administrator has received on or before the 16th day of the preceding month the handler's written request for nonpool plant designation shall be a nonpool plant in each month of the marketing year to which the request applies.

(3) Each city distributing plant operated by a handler who operates no other plant which is a pool plant in the same month shall be a nonpool plant in any month in which the handler's total Class I milk in the marketing area does not exceed 10 percent of his total receipts of fluid milk products other than cream.

(4) Each plant which is operated as the plant of a producer-handler shall be a nonpool plant in any month in which it is so operated.

(5) Each plant which is operated as a New York order pool plant or as a plant from which emergency milk is received shall be a nonpool plant during the month or portion of a month of such operation.

(6) Each of a handler's plants which is a nonpool receiving plant during any of the months of August through March shall be a nonpool plant in any of the months of April through July of the same marketing year in which it is operated by the same handler, an affiliate of the handler or any person who controls or is controlled by the handler, unless its operation during August through March was in the handler's capacity as a producer-handler or as the operator of a New York order pool plant.

(c) *Disposition of Class I milk in the form of milk in the marketing area.* For the purposes of this section, each plant from which milk is moved at some time during the month to another plant from which Class I milk in the form of milk is disposed of in the marketing area shall itself be considered to have made such a disposition, except that no movement of milk to any unregulated nondistributing plant shall be considered a disposition of Class I milk in the form of milk in the marketing area.

(d) *Total receipts of fluid milk products other than cream.* For the purposes of this section, each handler's total receipts of fluid milk products other than cream, referred to in this paragraph as "total reecipts", shall be determined as follows:

(1) For each month of the marketing year until and including the first month in which the handler is a pool handler, his total receipts shall be the receipts at all plants from which Class I milk in the form of milk is disposed of in the marketing area, except his receipts from segregated dairy farmers and his receipts at any plant which fails to meet the applicable standards set forth in subparagraph (1) and (2) of paragraph (a) of this section or which is a nonpool plant pursuant to subparagraph (2) of paragraph (b) of this section.

(2) For each of the other months of the marketing year, the handler's total receipts shall be the total receipts determined pursuant to subparagraph (1) of this paragraph plus the receipts at any other of his plants which is a pool plant in such month.

§ 904.5 *Assignment of receipts to Class I milk and Class II milk*—(a) *General provisions.* Except as provided in the other paragraphs of this section, all receipts of fluid milk products, other than receipts from producers, shall be assigned to Class I milk or Class II milk as follows:

(1) Receipts as to which Class II use is established shall be assigned to Class II milk.

(2) All other receipts shall be assigned to Class I milk.

(b) *Receipts of cream and other milk products.* All receipts of cream, and milk products other than fluid milk products, shall be assigned to Class II milk.

(c) *Receipts of skim milk from producer-handlers.* Skim milk received from a producer-handler shall be assigned to Class II milk, except that if the specific Class I use of the skim milk is established, it shall be assigned to Class I milk.

(d) *Receipts of outside milk.* All receipts of outside milk shall be considered as receipts of Class II milk, and shall be assigned to that class without regard to the specific use of such receipts.

(e) *Receipts from New York order pool plants.* Except as provided in paragraph (f) of this section, receipts of fluid milk products, other than cream, from New York order pool plants shall be assigned to Class I milk or Class II milk as follows:

(1) All receipts during the months of April through July, inclusive, shall be assigned to Class II milk.

(2) Receipts of milk and flavored milk during the months of August through March, inclusive, shall be assigned to Class I milk when classified in Classes I–A, I–B, or I–C under the New York order, except that the quantity as to which specific Class II use is established shall be assigned to Class II milk.

(3) Receipts of skim milk, cultured or flavored skim milk, or buttermilk during the months of August through March, inclusive, shall be assigned to Class II milk, except that if the quantity so received is in excess of the total quantity of the corresponding milk product classified as Class II milk at the plant of receipt, such excess shall be assigned to Class I milk.

(f) *Receipts of emergency milk.* (1) Emergency milk received by a handler whose total use of Class II milk is in excess of 10 percent of the total volume of fluid milk products, other than cream, handled by him shall be assigned to Class II milk to the extent of such excess. For the purpose of this subparagraph, the handler's total Class II milk and total volume handled shall be the total of the respective quantities from the first day on which emergency milk is received by the handler during the month up to and including the last such day in the month.

(2) If the quantity of emergency milk as to which specific Class II use is established is greater than the quantity assigned to Class II milk pursuant to subparagraph (1) of this paragraph, such greater quantity shall be assigned to Class II milk in lieu of the quantity determined under that subparagraph.

(3) Receipts of emergency milk not assigned to Class II milk shall be assigned to Class I milk.

§ 904.6 *Reports of handlers*—(a) *Monthly reports of pool handlers.* On or before the 8th day after the end of each month each pool handler shall, with respect to the fluid milk products received by the handler during the month, report to the market administrator in the detail and form prescribed by the market administrator, as follows:

(1) The receipts of milk at each pool plant from producers, including the quantity, if any, received from his own production;

(2) The receipts of fluid milk products at each plant from any other handler, assigned to classes pursuant to § 904.5;

(3) The receipts of outside milk at each plant; and

(4) The respective quantities which were sold, distributed, or used, including sales to other handlers and dealers, classified pursuant to § 904.3.

(b) *Reports of nonpool handlers.* Each nonpool handler shall file with the market administrator reports relating to his receipts and utilization of fluid milk products. The reports shall be made at the time and in the manner prescribed by the market administrator, except that any handler who receives outside milk during any month shall file the report on or before the 8th day after the end of the month.

(c) *Reports regarding individual producers.* (1) Within 20 days after a producer moves from one farm to another, or starts or resumes deliveries to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering prior to starting or resuming deliveries.

(2) Within 15 days after the 5th consecutive day on which a producer has failed to deliver to any of a handler's pool plants, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

(d) *Reports of payments to producers.* Each pool handler shall submit to the market administrator, within 10 days after his request made not earlier than 20 days after the end of the month, his producer pay roll for such month, which shall show for each producer:

(1) The daily and total pounds of milk delivered with the average butterfat test thereof and

(2) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(e) *Outside cream purchases.* Each handler shall report, as requested by the market administrator, his purchases, if any, of bottling quality cream from nonpool handlers, showing the quantity and the source of each such purchase and the cost thereof at Boston.

(f) *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month.

(g) *Verification of reports.* For the purpose of ascertaining the correctness of any report made to the market administrator as required by the regulations in this part or for the purpose of obtaining the information required in any such report where it has been requested and has not been furnished, each handler shall permit the market administrator or his agent, during the usual hours of business, to:

(1) Verify the information contained in reports submitted in accordance with this section;

(2) Weigh, sample, and test milk and milk products; and

(3) Make such examination of records, operations, equipment, and facilities as the market administrator deems necessary for the purpose specified in this paragraph.

§ 904.7 *Minimum class prices*—(a) *Class I prices.* (1) Each pool handler shall pay producers, in the manner set forth in § 904.9 and subject to the differentials set forth in paragraph (c) of this section, for Class I milk delivered by them, not less than the price per hundredweight determined for each month as follows:

(i) Using the period beginning with the 25th of the second preceding month and ending with the 24th of the immediately preceding month, compute the average of the highest prices reported daily by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market.

(ii) Using the midpoint of any range as one quotation, compute the average of all the hot roller process dry skim milk quotations per pound for "other brands, animal feed, carlots, bags, or barrels," and for "other brands, human consumption, carlots, bags, or barrels", published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current"; subtract 4 cents; and multiply the remainder by 1.8.

(iii) Add the values determined pursuant to subdivisions (i) and (ii) of this subparagraph.

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least	But less than—	April through June	July through March
0	25	1.69	2.13
25	30	1.91	2.35
30	35	2.13	2.57
35	40	2.35	2.79
40	45	2.57	3.01
45	50	2.79	3.23
50	55	3.01	3.45
55	60	3.23	3.67
60	65	3.45	3.89
65	70	3.67	4.11
70	75	3.89	4.33
75	80	4.11	4.55
80	85	4.33	4.77
85	90	4.55	4.99
90	95	4.77	5.21
95	100	4.99	5.43
100	105	5.21	5.65

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from further extension of this table.

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month; and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $4.77 per hundredweight for each of the months of July through September, 1947, and shall not be less than $5.21 per hundredweight for each of the months of October through December, 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

(2) For the purpose of this section, each pool handler's Class I milk during the month, after excluding receipts assigned to Class I milk pursuant to § 904.5, shall be allocated to his plants as follows: (i) His Class I milk first shall be considered to have been the receipts at his city plants of milk from producers' farms, and of outside milk. (ii) Thereafter, his Class I milk shall be considered to have been the receipts at his country plants of that milk received from producers' farms, and that outside milk, which was shipped as fluid milk products, other than cream, from each of his country plants, in the order of the nearness of the plants to Boston. However, shipments to plants located in the States of Maine, New Hampshire, Vermont, or New York, with respect to which utilization as Class II milk is established, shall not be allocated to Class I milk.

(b) *Class II prices.* Each pool handler shall pay producers, in the manner set forth in § 904.9 and subject to the differentials set forth in this section, for Class II milk delivered by them, not less than the price per hundredweight calculated by the market administrator for each month by combining in one sum such of the following computations as apply:

(1) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the month during which such milk is delivered, multiply this result by 3.7 and subtract 27 cents.

(2) For any month for which no cream price as described in subparagraph (1) of this paragraph is reported, multiply the average price reported for such month by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the Chicago market by 1.4, multiply this result by 3.7, and subtract 27 cents.

(3) Compute any plus amount for skim milk value which results from the following calculation. Using the midpoint in any range as one price, compute the average price per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the month by the United States Department of Agriculture for New York City. Multiply each such average price by the applicable percentage indicated for the month in the following table and combine the results; subtract 4 cents; and multiply the remainder by 7.5.

Month	Percent	
	Human food products	Animal feed products
January	100	----------
February	100	----------
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	----------
November	100	----------
December	100	----------

(c) *Plant handling and transportation differentials.* The minimum prices set forth in paragraphs (a) and (b) of this section shall be subject to the differentials contained in the following table for the zone applicable to the plant at which the milk is received from producers. For each country plant the zone shall be determined in accordance with the railroad freight mileage distance to Boston from the railroad shipping point for such plant. In case the rail tariff for the transportation of milk in carlots in tank cars, as published in the New England Joint Tariff, M–5, is increased or decreased, the differentials set forth in Column B for zones other than 201–210 miles shall be increased or decreased to the extent of any increase or decrease in the difference between the rail tariff for mileage distances of 201–210 miles inclusive and for the other applicable distances. Such adjustment shall be made to the nearest one-half cent per hundredweight, effective with the first complete month in which such increase or decrease in the rail tariff applies. For the purpose of this paragraph, it shall be considered that the rail tariff on milk received at a city plant is zero.

(1) No differential.

(d) *Butter and cheese adjustment.* During the months of April, May, and June, and July, the value of a pool handler's milk computed pursuant to § 904.8 (a) (2) shall be reduced by an amount determined as follows:

(1) Using the midpoint of any range as one price, compute the average of the daily prices for U. S. Grade A (U. S. 92-score) butter at wholesale in the New York market which are reported during the month by the United States Department of Agriculture, deduct 5 cents, and add 20 percent.

(2) Divide by 3.7 the value determined as applicable to milk delivered to country plants in the 201–250 freight mileage zone pursuant to subparagraphs (1) and (2) of paragraph (b) of this section, whichever applies, and subtract therefrom the value determined in subparagraph (1) of this paragraph. The result is the butter and cheese differential.

(3) Determine the pounds of butterfat in Class II milk received from producers, which was processed into salted butter, Cheddar cheese, American Cheddar cheese, Colby cheese, washed curd cheese, or part skim Cheddar cheese at a plant of the first handler of such butterfat or at a plant of a second person to which such butterfat was moved.

(4) Subtract such portion of the quantity determined in subparagraph (3) of this paragraph as was disposed of by the handler or the operator of the plant of the second person in a form other than salted butter or one of the designated types of cheese.

(5) Multiply the pounds of butterfat remaining after subtracting the quantity determined pursuant to subparagraph (4) of this paragraph by the butter and cheese differential determined pursuant to subparagraph (2) of this paragraph.

(e) *Use of equivalent prices in formulas.* If for any reason a price for any milk product specified by the regulations in this part for use in computing class prices and for other purposes is not reported or published in the manner described by the order, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price which is specified.

(f) *Announcement of class prices and differentials.* The market administrator shall make public announcements of the class prices and differentials in effect pursuant to this section, as follows:

(1) He shall announce any change in the Class I price on the 25th day of the month preceding the month in which such change is effective.

(2) He shall announce the Class II price and the butter and cheese differential on or before the 5th day after the end of each month.

§ 904.8 *Minimum blended prices to producers*—(a) *Computation of value of milk received from producers.* For each month, the market administrator shall compute the value of milk received from producers which is sold, distributed, or used by each pool handler, in the following manner:

(1) Multiply the quantity of milk in each class by the price applicable pursuant to paragraphs (a) and (b) of § 904.7; and

(2) Add together the resulting value of each class.

(3) Adjust the value determined in subparagraph (2) hereof as provided in § 904.7 (d).

(b) *Computation of the basic blended price.* The market administrator shall compute the basic blended price per hundredweight of milk delivered during each month in the following manner:

(1) Combine into one total the respective values of milk, computed pursuant to paragraph (a) of this section, for each pool handler from whom the market administrator has received at his office, prior to the 11th day after the end of such month, the report for such month and the payments required pursuant to § 904.9 (b) (2) and (g) for milk received during each month since the effective date of the most recent amendment hereof;

(2) Add the total amount of payments required from handlers pursuant to § 904.9 (g)

(3) Add the amount of unreserved cash on hand at the close of business on the 10th day after the end of the month from payments made to the market administrator by handlers pursuant to § 904.9;

(4) Deduct the amount of the plus differentials, and add the amount of the minus differentials, which are applicable pursuant to § 904.9 (e).

(The report of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, dated February 14, 1947, with respect to Order No. 4, contained recommendations for amendment of the provisions of § 904.9 (b) (5) and (6) of the order, as amended. A decision on these recommendations has not yet been made by the Secretary. Therefore, recommendations regarding those provisions in this report are confined to their renumbering as a part of § 904.8, and to the incidental substitution of references necessary to coordinate them with the amendments recommended herein.)

(c) *Announcement of blended prices.* On the 12th day after the end of each month the market administrator shall mail to all pool handlers and shall publicly announce:

(1) Such of these computations as do not disclose information confidential pursuant to the act;

(2) The zone blended prices per hundredweight resulting from adjustments of the basic blended price by the differentials pursuant to § 904.9 (e); and

(3) The names of the pool handlers, designating those whose milk is not included in the computations.

§ 904.9 *Payments for milk*—(a) *Advance payments.* On or before the 10th day after the end of each month, each pool handler shall make payment to producers for the approximate value of milk received during the first 15 days of such month. In no event shall such advance payment be at a rate less than the Class II price for such month. The provisions of this paragraph shall not apply to any handler who, on or before the 17th day after the end of the month, makes final payment as required by subparagraph (1) of paragraph (b) of this section.

(b) *Final payments.* On or before the 25th day after the end of each month, each pool handler shall make payment for the total value of milk received during such month as required to be computed pursuant to § 904.8 (a), as follows:

(a) To each producer at not less than the basic blended price per hundredweight, subject to the differentials provided in paragraphs (d) and (e) of this section, for the quantity of milk delivered by such producer; and

(2) To producers, through the market administrator, by paying to, on or before the 23d day after the end of each month, or receiving from the market administrator, on or before the 25th day after the end of each month, as the case may be, the amount by which the payments required to be made pursuant to subparagraph (1) of this paragraph are less than or exceed the value of milk as required to be computed for such handler pursuant to § 904.8 (a), as shown in a statement rendered by the market administrator on or before the 20th day after the end of such month.

(c) *Adjustments of errors in payments.* Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments pursuant to subparagraph (2) of paragraph (b) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is payable by the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment to any producer for milk delivered to any handler discloses payment to such producer of a less amount than is required by this section, the handler shall make up such payment to the producer not later than the time of making final payment for the month in which such error is disclosed.

(d) *Butterfat differential.* Each pool handler shall, in making the payments to each producer for milk received from him, add for each one-tenth of one percent of average butterfat content above 3.7 percent or deduct for each one-tenth of one percent of average butterfat content below 3.7 percent an amount per hundredweight which shall be calculated by the market administrator as follows: Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream, f. o. b. Boston, as reported by the United States Department of Agriculture for the period between the 16th day of the preceding month and the 15th day inclusive of the month during which such milk is delivered, subtract 1.5 cents, and divide the result by 10: *Provided*, That if no such cream price is reported, multiply the average price reported for such period by the United States Department of Agriculture for U. S. Grade A (U. S. 92-score) butter at wholesale in the Chicago market by 1.4, subtract 1.5 cents, and divide the result by 10.

(e) *Location differentials.* The payments to be made to producers by handlers pursuant to subparagraph (1) of paragraph (b) of this section shall be subject to the differentials set forth in Column B of the table in § 904.7 (c), and to further differentials as follows:

(1) With respect to milk delivered by a producer whose farm is located more than 40 miles but not more than 80 miles from the State House in Boston, there shall be added 23 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to § 904.7 (a) and (c) which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(2) With respect to milk delivered by a producer whose farm is located not more than 40 miles from the State House in Boston, there shall be added 46 cents per hundredweight, unless such addition gives a result greater than the Class I price pursuant to § 904.7 (a) and (c) which is effective at the plant to which such milk is delivered, in which event there shall be added an amount which will give as a result such price.

(f) *Other differentials.* In making the payments to producers set forth in subparagraph (1) of paragraph (b) of this section, pool handlers may make such deductions as follows:

(1) With respect to milk delivered by producers to a city plant which is located outside the marketing area and more than 14 miles from the State House in Boston, 10 cents per hundredweight;

(2) With respect to milk delivered by producers to a country plant, at which plant the average daily receipts of milk from producers are: (i) Less than 17,000 but greater than 8,500 pounds, 4 cents per hundredweight, and (ii) 8,500 pounds or less, 8 cents per hundredweight.

(g) *Payments on outside milk.* (1) Within 23 days after the end of each month, each pool handler, buyer-handler, or producer-handler, whose receipts of outside milk are in excess of his total use of Class II milk after deducting receipts of cream, shall make payment on such excess quantity to producers, through the market administrator, at the difference between the price pursuant to § 904.7 (a) and the price pursuant to § 904.7 (b) effective for the location or freight mileage zone of the plant at which the handler received the outside milk.

(2) Within 23 days after the end of each month, each handler who operates an unregulated plant from which outside milk is disposed of to consumers in the marketing area without intermediate movement to another plant shall make payment to producers, through the market administrator, on the quantity so disposed of. The payment shall be at the difference between the price pursuant to § 904.7 (a) and the price pursuant to § 904.7 (b) effective for the location or freight mileage zone of the handler's plant.

(h) *Adjustment of overdue accounts.* Any balance due pursuant to this section, for any month since August 1, 1937, to or from the market administrator on the 10th day of any month, for which remittance has not been received in, or paid from, his office by the close of business on that day, shall be increased one-half of one percent, effective the 11th day of such month.

(i) *Statements to producers.* In making the payments to producers prescribed by subparagraph (1) of paragraph (b) of this section, each pool handler shall furnish each producer with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month, and the identity of the handler and of the producer;

(2) The total pounds and average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of paragraphs (b), (d), and (e) of this section;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deductions claimed under paragraph (f) of this section and § 904.10 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

§ 904.10 *Payments to cooperative associations.* The report of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, dated February 14, 1947, with respect to Order No. 4, contained recommendations for amendment of the provisions of § 904.11 of the order, as amended. A decision on these recom-

mendations has not yet been made by the Secretary. Therefore, recommendations regarding that section in this report are confined to its renumbering as § 904.10, and to the incidental substitution of references and terms necessary to coordinate it with the amendments recommended herein.

§ 904.11 *Payments of administration expense.* Within 23 days after the end of each month, each handler shall make payment to the market administrator of his pro rata share of the expense of administration of this order. The payment shall be at the rate of 2.5 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, and shall apply to all of the handler's receipts of milk from producers and receipts of outside milk during the month.

§ 904.12 *Effective time, suspension, or termination*—(a) *Effective time.* The provisions hereof, or any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary may suspend or terminate this order or any provision hereof whenever he finds that this order or any provision hereof obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(1) The market administrator, or such other person as the Secretary may designate, shall:

(i) Continue in such capacity until removed by the Secretary,

(ii) From time to time account for all receipts and disbursements and when so directed by the Secretary deliver all funds on hand, together with the books and records of the market administrator or such person, to such person as the Secretary shall direct, and

(iii) If so directed by the Secretary, execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

§ 904.13 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States, or name any bureau or division of the United States Department of Agriculture, to act as his agent or representative in connection with any of the provisions hereof.

HANDLING OF MILK IN QUAD CITIES MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDMENT TO ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Supp., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and to a proposed amendment to the order, as amended, regulating the handling of milk in the Quad Cities marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 7th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and the proposed amendment to the order, as amended, were formulated was conducted at Rock Island, Illinois, on February 27, 1947, after the issuance of notice on February 19, 1947 (12 F. R. 1246).

The only issue discussed at the hearing involved the sales of Class I and Class II milk in the marketing area by persons who are handlers under other milk marketing orders issued pursuant to the act.

Findings and conclusions. Upon the basis of the evidence adduced at such hearing it is hereby found and concluded that:

(1) Class I milk and Class II milk are being sold in the marketing area by a person who is a handler under another Federal milk marketing order issued pursuant to the act. This person is able to purchase such milk at minimum prices under the other Federal order of from 20 cents to 40 cents per hundredweight (approximately ½ cent to 1 cent per quart) less than the minimum prices fixed by the Quad Cities order. Thus the handler subject to the other Federal order is able to market milk in the marketing area at a competitive advantage over handler subject to the Quad Cities marketing order, and this situation constitutes a serious threat to the orderly marketing of milk in the Quad Cities marketing area.

(2) In order to place all handlers who market milk in the marketing area on a more equitable competitive basis with respect to the cost of milk, the Quad Cities order, as amended, should be further amended to provide that the order shall not apply to any handler who, as determined by the Secretary, disposes of the greater portion of his milk as Class I and Class II milk in another marketing area regulated by another Federal milk marketing order, except to the extent that: (a) Such handler shall file, with the market administrator for the Quad Cities area, such reports with respect to his total receipts and utilization of milk as the market administrator may require, and allow verification of those reports; and (b) if the price which such handler is required to pay under the other Federal order for milk which would be classified as Class I or Class II milk under the Quad Cities order is less than the price of such milk under the Quad Cities order, such handler shall pay into the producer settlement fund under the Quad Cities order (with respect to all milk disposed of by him as Class I or Class II milk in the Quad Cities market) an amount equal to the difference.

Rulings on requested findings and conclusions. No requested findings or conclusions have been submitted.

Recommended marketing agreement and amendment to the order, as amended. The following amendment to the order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be effected. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

Amend § 944.6 by adding at the end thereof the following:

(e) *Handlers subject to other Federal orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I and Class II milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this order shall not apply except as follows:

(1) The handler shall, with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with the provisions of § 944.5 (e);

(2) If the price which such handler is required to pay under the other Federal order to which he is subject for milk which would be classified as Class I or Class II milk under this order is less than the price provided pursuant to §§ 944.4 (a) (1) and (2) and 944.4 (c), such handler shall pay to the market administrator for deposit into the producer settlement fund (with respect to all milk disposed of as Class I milk or Class II milk within this marketing area) an amount equal to the difference between the value of such milk as computed pursuant to §§ 944.4 (a) (1) and (2) and 944.4 (c), and its value as determined pursuant to the other order to which he is subject.

This recommended decision filed at Washington, D. C., this 21st day of May, 1947.

Assistant Administrator.

[7 CFR, Part 970]

HANDLING OF MILK IN CLINTON, IOWA, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDMENT TO ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Supps., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and to a proposed amendment to the order, as amended, regulating the handling of milk in the Clinton, Iowa, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 7th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing on the record of which the proposed marketing agreement and the proposed amendment to the order, as amended, were formulated was conducted at Clinton, Iowa, on February 28, 1947, after the issuance of notice on February 19, 1947 (12 F. R. 1247).

The issues developed at the hearing involved:

(1) The status of handlers who sell milk in Clinton as well as in other marketing areas regulated by Federal milk orders; and

(2) The level of the Class I price.

Findings and conclusions. (1) Handlers, who the Secretary determines have their principal business in another area regulated by another order issued pursuant to the act, should be exempt from most of the provisions of the Clinton, Iowa, order. Such a handler, however, should be required to make reports to the market administrator, and in the event the prices fixed in the Clinton order are higher than those fixed in the other order to which he is subject, he should be required to pay into the producer-settlement fund, an amount equal to the difference in value, as computed under the two orders, of the milk disposed of as Class I milk within the Clinton, Iowa, marketing area. It appears that it would be unreasonable and impractical to pool the milk of a handler under two orders simultaneously. However, if a handler were permitted to purchase milk at a lower price than other handlers by virtue of having his prices fixed by another order he would enjoy a competitive advantage over other handlers in the market. Therefore, he should be required to pay any difference into the producer-settlement fund in order to equalize the buying price of all handlers. Where such a handler is required under the terms of the other order to pay prices equal to or higher than those fixed in the Clinton order, no competitive advantage accrues to him and no payment shall be required.

(2) The price of Class I milk should be increased 20 cents per hundredweight. It appears on the record that producers are entitled to some increase in price but there appears to be no basis for an increase of the amount requested. The City of Clinton recently adopted a new public health ordinance regulating the production and sale of milk in the city. While there seems to be very little difference in the terms of the existing ordinance as compared to that previously in effect, all of the evidence indicates that there is a wide difference in the degree of enforcement. That production costs have increased is evident from the fact that the number of producers has declined from 198 in February 1946 to 146 in January 1947. It was in February 1946 that the new ordinance with its strict enforcement became effective. Most of these producers either had their permits revoked by the health department or withdrew voluntarily because they were unwilling or felt unable to produce milk in accordance with the new requirements.

It appears from the record that producers have been required to make capital expenditures of approximately $400.00 per farm on the average. It appears that an increase of 5 cents per hundredweight would be ample to cover depreciation and interest on this investment. In addition to this capital expenditure producers will incur continuing costs for electricity, supplies and increased labor which were not required previously. Based on the record it appears that an additional 10 cents per hundredweight would cover these costs. In arriving at this figure we have disregarded many of the items mentioned by producers such as disinfectants, cleansers, paint, etc. These are costs which are a part of dairying under any conditions and it is very doubtful that expenditures on these items will be increased materially as a result of the enforcement of the ordinance. Since approximately 75 percent of the milk produced for the Clinton market is disposed of as Class I milk, an increase of 20 cents per hundredweight in the Class I price would return to producers an average of 15 cents per hundredweight on their entire production. Thus it appears that the proposed increase would be ample to compensate producers for the costs incurred by them as a result of the strict enforcement of the local health regulations.

With respect to the proposal that the price for Class I milk sold in other markets regulated by other marketing orders, be either the Clinton price or the price prevailing in the market where sold, whichever is higher, we feel that the record is inadequate and fails to justify such an amendment.

Rulings upon proposed findings or conclusions. Proposed findings and conclusions were submitted by the Clinton Cooperative Milk Producers Association, Inc., Elmwood Dairy Farms, and Golden-Mello Dairies. None of these contained any specific proposals with respect to the status of handlers who dispose of milk in the Clinton marketing area as well as in other marketing areas subject to Federal regulation.

The Clinton Cooperative Milk Producers Association, Inc., urged that the Secretary find that the Class I price be increased 50 cents per hundredweight as they had proposed at the hearing. It is their contention that this increase is justified on the record. However, our analysis of the record as set forth above indicates that an increase of 20 cents per hundredweight in the Class I price would be ample to compensate producers for their increased costs.

Elmwood Dairy Farms recommended that no increase in price be granted, largely on the grounds that the new ordinance is virtually identical with the old, and that many of the costs advanced by producers for disinfectants, scouring powders and the like are costs which they have always had and cannot be attributed to the new ordinance.

Granting that there is little difference between the two ordinances as written the record indicates that there is a considerable degree of difference in the extent of enforcement. In the record Mr. Chester Ryder, proprietor of the Elmwood Dairy Farms, testified that the two ordinances were very closely related "with the exception that one was enforced and the other wasn't." The strict enforcement of the new ordinance has resulted in increased costs to producers.

With respect to the point that many of the costs cited by producers are not new expenses resulting from the ordinance, it has been pointed out above that such costs were disregarded in arriving at the amount of increase which should be granted to producers.

Golden-Mello Dairies proposed that an increase of 20 cents be granted on milk disposed of as fluid milk but that no increase be granted on milk disposed of in other uses. Their contention is that such an increase would amply compensate producers for their added costs.

While it is probable that the proposal suggested by Golden-Mello Dairies would return to producers almost the same increase as has been recommended above, it is impossible to fix definitely what the increase would amount to since the record fails to disclose what percentage of Class I milk is disposed of as fluid milk and what percentage is disposed of as cream and milk drinks. The record also fails to show any basis for dividing the present Class I products into other categories. When the original order was issued all products which were required to meet the same health standards were placed in Class I and all other products which were not required to be made from inspected milk were placed in Class II or Class III. The record indicates that the health regulations are unchanged in this respect, and it contains no evidence in support of a change in classification.

Recommended marketing agreement and amendment to the order as amended. The following amendment to the order, as amended, is recommended as the detailed and appropriate means by which the foregoing conclusions may be effected. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Amend § 970.4 (a) (1) by deleting therefrom the words, "50 cents," and substituting therefor the words, "70 cents."

2. Amend § 970.6 by adding at the end thereof the following:

(f) *Handlers subject to other Federal orders.* In the case of any handler who the Secretary determines disposes of a greater portion of his milk as Class I and Class II milk in another marketing area regulated by another milk marketing order issued pursuant to the act, the provisions of this order shall not apply except as follows:

(1) The handler shall, with respect to his total receipts and utilization of milk, make reports to the market administrator at such time and in such manner as the market administrator may require and allow verification of such reports by the market administrator in accordance with the provisions of § 970.5 (e).

(2) If the price which such handler is required to pay for Class I milk under the other Federal order to which he is subject is less than the price provided pursuant to § 970.4 (a) (1), such handler shall pay to the market administrator for deposit into the producer settlement fund (with respect to all milk disposed of by such handler as Class I milk within the marketing area) an amount equal to the difference between the value of such milk as computed pursuant to § 970.4 (a) (1) and its value as determined pursuant to the other order to which he is subject.

This recommended decision filed at Washington, D. C., this 21st day of May 1947.

Assistant Administrator.

HANDLING OF MILK IN COLUMBUS, OHIO, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND AMENDMENT TO ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders, (7 CFR Supp., 900.1 et seq.; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of the recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a proposed marketing agreement and to a proposed amendment to the order, as amended, regulating the handling of milk in the Columbus, Ohio, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the 10th day after publication of this recommended decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed marketing agreement and the proposed amendment to the order, as amended, were formulated, was held at Columbus, Ohio, on March 10–14, 1947, pursuant to the notice thereof which was published in the FEDERAL REGISTER on February 27, 1947 (12 F. R. 1400).

The material issues presented on the record of the hearing were:

(1) The clarification of the definition of a "fluid milk plant" by the inclusion in the order of a definition covering a "route."

(2) Introduction of a "producer-handler" definition with three conforming changes in the order.

(3) The inclusion of a definition of a "market pool handler" together with conforming changes including a provision for payment to producers by handlers other than market pool handlers on an individual-handler pool basis.

(4) Reports by the market administrator to the cooperative association covering the utilization of producer milk by each handler.

(5) A change in the classification of milk used to produce cottage cheese from Class II milk to Class III milk.

(6) A change in the classification of inventory from Class I milk to Class IV milk.

(7) Revision of the shrinkage provision to permit a cumulative basis for determining shrinkage classification in Class IV milk and a change in the method of allowing shrinkage on milk diverted to the plant of a handler.

(8) The substitution of sworn statements for audits to verify the utilization of milk or cream transferred by handlers to nonhandlers.

(9) Revision of the provisions covering the allocation of milk.

(10) Revision in the method of determining basic price formulas.

(11) A change in the level and seasonal pattern of class prices and in the emergency price provisions.

(12) The determination and announcement of the uniform price to producers on a 3.5 percent butterfat basis replacing the present 4 percent basis.

(13) Replacement of the current market-wide pool by an individual-handler pool.

(14) The inclusion in the order of conversion factors covering certain dairy products.

(15) The elimination of payments into the pool by handlers on receipts from producer-handlers.

(16) Revision of the section providing for administrative assessments.

(17) Revision of the section providing for marketing services.

Findings and conclusions. (1) The term "route" should be defined and the term "fluid milk plant" should be revised in conformance with the new language added by the definition of "route."

There has arisen a question concerning the status as a fluid milk plant, of any plant located outside the marketing area from which Class I milk may be disposed of directly to a state or municipal institution located in the marketing area. The recommended revision will clarify the meaning of "wholesale or retail routes" now contained in the definition of "fluid milk plant" and eliminate any such question.

(2) The inclusion in the order of a definition of "producer-handler" is not necessary at this time.

The inclusion of such a definition would not change the meaning of the the present order, but merely shorten the language in several provisions. It is concluded that this revision should be deferred until such time as the entire order is rewritten. The three other proposals providing for conforming changes with respect to the producer-handler definition should likewise be deferred until such time as an appropriate definition is included in the order.

(3) A definition of a "market pool handler" should not be included in the order.

This definition was intended to distinguish between handlers who sold 25 percent or more of the receipts of their milk from producers and other handlers as Class I milk during the delivery period. Producers furnishing milk to handlers in the former group would receive a uniform price for their milk on the basis of the combined utilization of milk by all handlers in such group while producers supplying the latter handlers would receive a price on the basis of the individual handler's utilization of milk.

There are no handlers marketing less than 25 percent of their producer receipts as Class I milk at the present time. Hence, there is no handler to whom the proposal would apply. There is no substantial evidence to support the percentage proposed or any other specific percentage. A similar proposal was considered at the promulgation hearing, but was not adopted and no evidence was presented to show changed conditions in this respect. For the foregoing reasons, it is concluded also that the four other conforming proposals relative to the proposed pooling arrangements should not be adopted.

(4) The proposal by the Central Ohio Cooperative Milk Producers Association, Inc. that the market administrator should furnish to each cooperative association a monthly report with respect to each handler of "the percent of utilization in each class of milk of producers as qualified in accordance with § 974.9 (b)" should not be adopted at this time.

The health requirements applicable to milk for Class II and Class III uses are the same as those for Class I uses. The recommended price levels for the several classes take this fact into account. There was no evidence to indicate that producer milk is being used in Class III in excessive quantities during the periods when such milk might be used in Class I. In view of this, it does not appear that the adoption of the proposal at this time is necessary to effectuate the market-wide pool provisions of the order or to establish producer prices at the proper level. Likewise the same conclusion and supporting findings are applicable to the alternative proposals offered in this connection.

(5) The proposal with respect to classifying skim milk and butterfat used in cottage cheese as Class III milk rather than as Class II milk should not be adopted.

Cottage cheese is a year-round product which must be made from fresh, inspected milk and cream. There is no evidence to indicate that cottage cheese is utilized merely as an outlet for the "seasonal surplus" milk of the Columbus market, although during the past year larger quantities of cottage cheese were made in May and June than in October and November. The classification of this product in a lower-priced class would tend to encourage the use of milk in cottage cheese when milk is needed for use in the higher-priced classes.

(6) A proposal to classify inventory variation in Class IV milk rather than in Class I milk should not be adopted. The bulk of inventory variation is in the form of whole milk. Its ultimate use has not been determined at the time handlers are required to make reports to the market administrator. Most of inventory variation is ultimately used in and classified as Class I milk. There is no difference in final cost to handlers or in returns to producers resulting from either method of classification.

The reasons given for proposing this change in inventory classification were that the present method results in distorted statistics for the market. The evidence failed to show, however, that the suggested change would lessen this distortion even if inventory were classified in Class IV milk.

(7) (a) The proposal for the accounting for shrinkage in Class IV milk on a cumulative basis from January 1 of each year through the current delivery period should not be adopted.

The proposal has the effect of changing the definition of "delivery period" with respect to the classifying of shrinkage. The great bulk of milk must be utilized within the month during which it is received. The competitive position of handlers relative to milk supplies varies widely from month to month and seasonally. In view of these variations it would appear that the greatest equity would result from the computation of handlers' costs on as current a basis as is practical. The accounting for shrinkage on a cumulative basis would be administratively burdensome because audits would not be closed until the end of the calendar year. Producers recommend that shrinkage classified in Class IV milk should be limited to 1 percent on butterfat and 2 percent on skim milk. The present 2½ percent allowance is reasonable and equitable. In view of these facts there appears to be no substantial reason for changing the present shrinkage allowance at this time.

(b) The shrinkage allowance on milk diverted by a handler to the plant of another handler should be allowed to the latter handler. This would permit the second handler the shrinkage allowance on all milk for which he is the first receiver. This change in shrinkage accounting will not change substantially the total shrinkage of handlers or returns to producers and will provide greater convenience to handlers in settling for interhandler transfers.

(8) The substitution of "sworn statements" for "audits" in the provision covering the transfer of milk and cream by handlers to nonhandlers should not be adopted.

There was no evidence that nonhandlers had refused to buy milk from handlers because of the auditing requirements. Moreover, the evidence indicated that the only practical method of verifying the claimed utilization of milk by a nonhandler is by audit of such nonhandler's accounts.

(9) (a) The proposal to allocate other source milk to Class I milk during the periods when producers fail to deliver milk in an amount equal to 115 percent of the Handlers Class I milk sales should not be adopted.

There is no substantial evidence to support the percentage proposed or any other specific percentage. A portion of "other source milk" received does not meet the health requirements applicable to milk for Class I uses. The only "other source milk" which can be used as Class I milk is controlled by one handler. Under these conditions any preference to other source milk eligible for Class I use would tend to give an undue advantage to the handler controlling it. Other source milk which does not meet the health requirements applicable to milk for Class I uses should not be given preferential treatment over producer milk.

The purpose of the proposal was to encourage producers to supply a quantity of milk sufficient to meet the Class I needs of the market at all times. The Columbus market is available to all dairy farmers who can meet the health requirements and is not limited to the producers now supplying the market. The total milk supply is dependent upon the supply responses of all producers now qualified under prevailing health requirements or who may become so qualified. The proper pricing of milk should do more to bring forth an adequate supply of milk by stimulating an increase in the production of present producers and by providing an incentive for new producers to come on to the market than would the proposals here considered. The seasonal pattern of prices recommended herein should encourage the needed production of milk not only for Class I use but also for all uses requiring qualified milk at all seasons of the year.

(b) The sequence in the allocation provision should not be changed. The current method of allocation is necessary for the proper protection of the classification of producer milk. A change in the sequence would be inconsistent with the classification of producer milk in the higher priced classes. The evidence does not warrant the adoption of the proposed change.

(10) (a) The method of determining the basic formula price for milk should not be changed.

The Columbus basic formula price is based upon the price paid by 18 midwestern condenseries or on a butterfat-nonfat dry milk solids formula price, whichever is the higher. The present basic formula price has reflected very closely the prevailing price for manufacturing milk in the vicinity of the Columbus market. Competitive manufacturing outlets for milk in the Columbus milkshed include condenseries, and butter and powder plants some of which also produce certain specialty milk products. There is little or no direct competition by cheese factories for milk produced in this area. In view of these facts the higher of the condensery pay price or the price resulting from the butter and nonfat dry milk solids formula is currently more representative of competitive manufacturing prices than any combination of formula prices as proposed for the determination of the basic formula price. Moreover, the evidence indicates that Columbus prices must be placed in better alignment with prices in other regulated markets in Ohio in order that Columbus handlers may compete for supplies of milk on an equitable competitive basis. At the present time the class prices in these competitive Federal order markets are based on a for-

mula similar to that contained in the present Columbus order.

(b) The make allowance on butter in the basic formula price should be increased from 3 cents to 3.5 cents per pound, but the present 4 cent make allowance on nonfat dry milk solids should not be changed.

The record indicates the cost of making butter to be slightly above 3 cents per pound and the cost of making nonfat dry milk solids to be approximately 4 cents per pound. The make allowance on butter and nonfat dry milk solids of 3.5 cents and 4 cents per pound, respectively, is therefore reasonable. Except with respect to the make allowance for butter there should be no change in substance of the butter and nonfat dry milk solids formula. However, the language in the current order describing this formula may be simplified and clarified. Since it is recommended that the pricing provisions of the order be revised in the manner hereinafter set forth, it is concluded that, as a part of such revision, the butter-nonfat dry milk solids formula should be rewritten for brevity and to identify more clearly the price quotations for butter and dry milk solids used therein. The latter revision will not change the quotations used or the method of computation.

(c) The respective basic formula prices for skim milk and butterfat should be expressed as direct ratios to the basic formula price per hundredweight of milk.

In the present order the value of butterfat in each class is equivalent to 70 percent of the respective per hundredweight class price of milk (expressed in terms of milk containing 3.5 percent butterfat) and the value of skim milk is the residual amount or 30 percent of such price. Therefore, the per hundredweight price of skim milk in each class is equal to .311 times the respective per hundredweight class price and the per hundredweight price of butterfat is equal to 20 times the per hundredweight class price. The proposed price plan adopts this relationship of skim milk and butterfat prices in the basic formula price. Thus, the basic formula price per hundredweight of skim milk is expressed as .311 times the basic formula price of milk and the basic formula price per hundredweight of butterfat is expressed as 20 times the basic formula price of milk.

To these basic values should be added the appropriate differentials to obtain the class prices which we have found necessary to effectuate the declared policy of the act.[1]

(11) (a) The "bracket" system of establishing Class I, Class II, and Class III prices should be eliminated.

The milk shed for the Columbus marketing area overlaps the milk sheds of other Ohio marketing areas operating under orders issued pursuant to the act and of other alternative outlets for market milk. Price changes resulting from the bracket system have disturbed the balance between the Columbus market price and the prices of such alternative outlets.

[1] See findings and conclusions in paragraph (11).

Moreover, the bracket system has promoted uncertainty with respect to class prices when the basic formula price has fluctuated at a level near the outer limits of a particular bracket.

(b) Class prices for skim milk and butterfat should be established by stated differentials over the basic price for skim milk and butterfat at levels which will result in increased uniform prices to producers.

Practically all costs incurred by producers in the production and marketing of milk, such as feeds, supplies, equipment, and hauling, have increased during the past year and particularly during February and March of this year.

The Columbus market has been short of producer milk in nearly every month of the past year. Substantial quantities of other source milk have been received as supplementary supplies.

Other fluid milk markets and alternative outlets for milk, such as, the Cleveland market, the Dayton-Springfield market, Nestles Milk Products, Inc., and the M & R Dietetics Laboratories, Inc., are in competition with the Columbus market for much of the supply of producer milk. The prices paid farmers for all milk at these outlets ranged from 12 cents to 80 cents per hundredweight over the Columbus order minimum uniform price during the period October, 1946, through February, 1947. Also, at times handlers have paid higher prices for inspected "other source" milk than the minimum uniform price for producer milk.

Columbus handlers paid premiums over the minimum prices to protect supplies during the short production season of 1946.

Economic conditions and business activity in the Columbus market indicates continued strong demand for milk and milk products in the Columbus market. Consumption of fluid milk in the Columbus marketing area during February, 1947, was 3.93 percent higher than during February, 1946.

It is concluded that an increase in the price level to producers of approximately 35 cents per hundredweight for milk of 3.5 percent butterfat content is necessary to insure a sufficient supply of pure and wholesome milk in the Columbus market and will be in the public interest.

The Class I, Class II, and Class III price differentials over the basic formula price on a 3.5 percent butterfat content milk basis should be as follows:

	August through March	April through July
Class I milk	$1.00	$0.75
Class II milk	.75	.50
Class III milk	.60	.35

These proposed class differentials will result in a yearly average increase of approximately 36 cents per hundredweight in each of such classes. The price of Class IV milk should be changed only to provide that butterfat used in the manufacture of butter should be given a make allowance of $4.20 per hundredweight of butterfat so used in conformity with our finding for a 3½ cent per pound make allowance for butterfat in the basic formula. It is estimated that the net result of these price revisions will be an average yearly increase in the price to producers of approximately 35 cents per hundredweight.

The conversion of the class differentials stated above to a skim milk and butterfat price basis (in the same manner as these prices are determined from the basic formula price of milk) results in the following differentials for skim milk and butterfat in Class I milk, Class II milk, and Class III milk:

	Skim milk		Butterfat	
	August through March	April through July	August through March	April through July
Class I milk	$0.311	$0.233	$20.00	$15.00
Class II milk	.233	.156	15.00	10.00
Class III milk	.187	.109	12.00	7.00

(c) The Class I, Class II, and Class III price differentials should be higher during the short production season than during the flush production season.

The four months of relatively high production are April through July. The spread between the high and low production periods in the Columbus market has increased in recent years. There is an extreme shortage of milk in the fall and winter months. The producers association and the handlers have advised producers of the need and benefits of more even production. Other competing markets, such as Cleveland, provide for seasonal pricing of milk. This places the Columbus market in an unfavorable competitive position particularly during the fall and winter months. Handlers of the Columbus market paid premiums during the fall of 1946 to protect their supply. The class differentials should provide higher prices during the short production season than during the flush season to encourage greater production during the fall and winter season.

There usually is a seasonal variation in the basic price and a relatively smaller percentage of milk used in the lower-priced classes during the short season as compared to the flush season. The total effect of all of these factors should result in a seasonal swing in uniform prices received by producers of approximately 75 cents per hundredweight between the highest and the lowest production months. This will be a strong incentive to producers to even out production.

Handlers proposed an even-production incentive plan through a "take-out and pay-back" system of establishing uniform prices on a seasonal basis (sometimes known as "Louisville plan"). Producers objected strenously to this plan. The successful operation of such a plan necessitates wide-spread producer approval and cooperation. For this reason this plan is not recommended for the Columbus market. Many of the objectives of the plan outlined by handlers should be accomplished by the establishment of class prices on a seasonal basis.

(d) The emergency price provision, § 974.5 (g) (2), should be revised to cover Class III milk.

This section provides for the suspension of Class I and Class II milk prices by the Secretary under certain conditions. Under the present wording it would be possible for the Class III milk price to exceed the Class I or Class II price. Such a result would be inconsistent with the classified pricing plan of the order.

The Class IV price should not be included in the emergency price provision. The Class IV price is based upon open market prices of products not requiring inspected milk. No useful purpose could be served by including the Class IV price under this provision.

No change should be made in § 974.5 (g) (1), the general emergency price provision. This provision has not created any problem in the Columbus market.

(12) Uniform prices for milk to producers should be announced on the basis of 3.5 percent butterfat content rather than on a 4 percent basis as in the current order.

This change will not affect the handlers' cost of milk. Because of this the butterfat test upon which the producers' price is announced becomes a matter primarily of concern to the producer. The evidence indicates that producers would prefer to receive payment based on an announced price reflecting a lower butterfat content. Producers' satisfaction with the method of announcing the basis of their payments for milk tends to produce more orderly marketing conditions and should be adopted, particularly when the change in such method of payment does not change in any way the handlers' cost for milk. Moreover, producer prices are announced on the proposed basis in most other Ohio markets as well as many other markets throughout the country. Statistical comparisons of producer prices on the Columbus market and other markets would be facilitated if prices were announced on a 3.5 percent basis.

(13) A proposal under which payments to producers would be computed on the basis of an individual-handler pool should not be adopted.

Under the current market-wide pool all producers receive a uniform price computed on the basis of the combined classification of milk received by all handlers. An individual-handler pool would establish as many different prices as there are handlers. It was indicated this would tend to breed dissatisfaction among Columbus producers. The facilities for handling "surplus" milk are limited to a few plants. Evidence in the hearing record failed to establish any new facts which would change the original conclusions providing for a "market-wide pool" when the original order was promulgated.

(14) A new provision requiring, in connection with the computation of product weights, the use of the "standard of weights" of the Bureau of Dairy Industry, United States Department of Agriculture, should not be included.

The Bureau of Dairy Industry, United States Department of Agriculture, has not issued any official standards of weights for dairy products. The problems indicated in connection with the ascertaining of proper weights by the market administrator are not peculiar to the Columbus market. Weight factors are necessary in the computation of class volumes of milk under any classified price plan. The provisions of several orders under point administration with Columbus are very similar, and appropriate weight factors may better result from rule-making procedure by the market administrator. This will permit a more flexible arrangement for the employment of weight factors to be used under similar order provisions.

(15) The requirement that payments be made into the pool on milk transferred from a producer-handler to a handler should be eliminated.

Producer-handlers transfer an insignificant amount of milk to regular handlers. Most transfers are in the flush season and such milk is used in the lower-priced uses. The milk of producer-handlers is eliminated from the pool in a manner similar to other source milk—in series from the lowest-priced uses. This treatment of producer-handler milk protects adequately the proper classification of producer milk.

(16) The section providing for an assessment covering administrative expense should be revised to provide for (i) changes in the administrative assessment rate below the maximum fixed in such section to be determined by the Secretary rather than by the market administrator (subject to review by the Secretary), and (ii) elimination of the announcement by the market administrator on or before the 10th day after the end of the delivery period of the applicable rate of assessment for the delivery period.

Procedure for making changes in such rates will be less complicated if such rate-making is made a direct function of the Secretary rather than a review function. Since the rate will remain unchanged for each delivery period until altered by a published rule, it will be unnecessary to require monthly public announcements by the market administrator. This revision will simplify the establishment of appropriate rates of assessment any time that the assessment rate must be changed.

(17) The section providing for marketing service deductions should be revised to (i) authorize the Secretary to fix the assessment rate below the maximum prescribed in such section and (ii) eliminate the application of the marketing service deductions to milk of a handler's own production.

The fixing of the rate of marketing service deductions by the Secretary (who must now review the rate established by the market administrator) will simplify the procedure for establishing such rates of assessment below the maximum prescribed in the order.

Marketing service payments are designed primarily to cover the cost of verifying the weights and tests of producer milk. Producers who are not members of a cooperative association usually are not in a position to govern the disposition of milk and it is not practicable for them to verify the weights and tests of deliveries of their own milk. In the case of milk of a handler's own production such service is not necessary as a protection since the handler has full control of the handling of such milk from the farm to its disposition from his plant.

Rulings on proposed findings and conclusions. Briefs were filed on behalf of the Central of Ohio Cooperative Milk Producers, Inc., and all handlers subject to Order No. 74. The briefs contain statements of fact, conclusions, and arguments with respect to nearly all of the proposals discussed at the hearing. Every point covered in the briefs was carefully considered, along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. Although the briefs do not contain specific requests to make the proposed findings and conclusions stated therein, it is assumed that they were submitted with that intention and are treated accordingly. Some of the proposed findings of fact are immaterial to the issues presented or are outweighed by other facts found herein, and some of the proposed conclusions do not logically follow from the proposed findings of fact. To the extent that the proposed findings and conclusions are inconsistent with the findings and conclusions contained herein, the implied request to make such findings or to reach such conclusions are denied because of the reasons stated in connection with the conclusions in this recommended decision.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this recommended decision because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended.

1. Delete § 974.1 (e) and substitute therefor the following:

(e) "Fluid milk plant" means the premises and portions of the building and facilities used in the receipt and processing or packaging of milk all or a portion of which is disposed of from such plant during the delivery period on a route(s), wholly or partially within the marketing area, but not including any portion of such buildings or facilities used for receiving or processing milk or any milk product required by the appropriate health authorities in the marketing area to be kept physically separate from the receiving and processing or packaging of milk for disposition as Class I milk in the marketing area.

2. Add at the end of § 974.1 the following paragraph:

(l) "Route" means a delivery (including a sale from a plant store) of milk, skim milk, buttermilk, or flavored milk drink in fluid form to a wholesale or retail stop(s), including a State or municipal institution, other than to a fluid milk plant(s) or plant(s) manufacturing milk products.

3. At the end of § 974.4 (b) (4) change the period (.) to a colon (:) and add thereafter the following: "*Provided*, That producer milk transferred by a handler

to any plant of another handler without first having been received for purposes of weighing and testing in the transferring handler's fluid plant, shall be included in the receipts at the plant of the second handler for the purpose of computing his plant shrinkage and shall be excluded from the receipts at the fluid milk plant of the transferring handler in computing his plant shrinkage."

4. Delete § 974.5 and substitute therefor the following:

§ 974.5 *Minimum prices*—(a) *Basic formula prices for skim milk and butterfat.* The basic formula prices of skim milk and butterfat respectively shall be computed by the market administrator for each delivery period in the following manner:

(1) Compute the arithmetical average of the basic (or field) prices per hundredweight reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received from farmers during the delivery period at the following places for which prices are reported to the market administrator or to the Department of Agriculture by the companies listed below:

Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

(2) Compute the price per hundredweight by adding together the amounts resulting under subdivisions (i) and (ii) of this subparagraph:

(i) From the arithmetical average of the daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the delivery period in which such milk was received, subtract 3.5 cents, add 20 percent, and then multiply the resulting amount by 3.5, and

(ii) From the arithmetical average of the carlot prices per pound of nonfat dry milk solids (not including that specifically designated animal feed), roller and spray process, f. o. b. Chicago area manufacturing plants, as reported by the Department of Agriculture during the delivery period, deduct 4 cents, multiply by 8.5, and multiply by 0.965.

(3) Multiply the higher of the prices resulting from subparagraphs (1) and (2) of this paragraph by 0.311 (which amount shall be known as the basic formula price per hundredweight of skim milk); and

(4) Multiply the higher of the prices resulting from subparagraphs (1) and (2) of this paragraph by 20 (which amount shall be known as the basic formula price per hundredweight of butterfat).

(b) *Class I milk, Class II milk, and Class III milk prices.* Subject to the provisions of paragraphs (d) and (e) of this section, the minimum prices per hundredweight to be paid by each handler for skim milk and butterfat in producer milk received at his fluid milk plant and classified as Class I milk, Class II milk, and Class III milk, respectively, shall be determined by adding the appropriate amounts set forth in the following schedule to the basic formula prices per hundredweight of skim milk and butterfat, respectively, for the delivery period:

	Skim milk		Butterfat	
	August through March	April through July	August through March	April through July
Class I milk	$0.311	$0.233	$20.00	$15.00
Class II milk	.233	.156	15.00	10.00
Class III milk	.187	.109	12.00	7.00

Provided, That in no event shall the price of skim milk or butterfat in any such class be lower, respectively, than the skim milk and the higher butterfat prices, in Class IV milk.

(c) *Class IV milk prices.* Subject to the provisions of paragraph (e) of this section the minimum prices to be paid by each handler for that portion of skim milk or butterfat in producer milk received at his fluid milk plant and classified as Class IV milk shall be determined as follows:

(1) The price per hundredweight of such skim milk shall be the prices determined pursuant to paragraph (a) (2) (ii) of this section, divided by 0.965; and

(2) The price per hundredweight of such butterfat shall be the arithmetical average of the daily wholesale prices per pound of 92-score butter in the Chicago market as reported by the Department of Agriculture during the delivery period, multiplied by 120: *Provided*, That the price per hundredweight of butterfat made in butter shall be such price per hundredweight less $4.20.

(d) *Prices of Class I milk and Class II milk disposed of outside the marketing area.* The price to be paid by a handler for Class I milk or Class II milk disposed of outside the marketing area shall be the same as the price applicable within the Columbus, Ohio, marketing area: *Provided*, That Class I milk or Class II milk disposed of in another marketing area covered by a Federal milk marketing agreement or order, issued pursuant to the act, shall be the price applicable within the Columbus, Ohio, marketing area, pursuant to this section, or the price applicable for milk of similar use or disposition in the other marketing area, whichever is higher.

(e) *Emergency price provisions.* (1) Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or any milk product for the purpose of determining minimum class prices or for any other purpose, the market administrator shall add to the specified price the amount of any subsidy, or other similar payment, being made by any Federal agency in connection with the milk, or product, associated with the price specified: *Provided*, That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further*, That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

(2) Whenever the Secretary finds and announces that the price of Class I milk, Class II milk, or Class III milk computed for any delivery period pursuant to paragraph (b) of this section is above a level which is in the public interest, the price of Class I milk, Class II milk, or Class III milk for such delivery period shall be the same as the corresponding price for Class I milk, Class II milk, or Class III milk for the delivery period immediately preceding.

5. Delete from § 974.6 (a) the following proviso: "*Provided*, That if such handler received milk, skim milk, or cream from a handler who received no producer milk other than that of his own production and disposed of the skim milk or butterfat contained therein as other than in the lowest-priced use of the receiving handler, there shall be added an amount equal to the difference between (1) the value of such skim milk or butterfat at the price of such lowest-priced use and (2) the value computed in accordance with its class use."

6. Delete from § 974.6 (c) (3) the term "4 percent" wherever it appears and substitute therefor the term "3.5 percent."

7. Delete from § 974.6 (c) (5) the term "4.0 percent" and substitute the term "3.5 percent."

8. Delete from § 974.7 (f) the section reference "§ 974.5 (e) (2)" and substitute therefor the section reference "§ 974.5 (c) (2)."

9. Delete § 974.8 and substitute therefor the following:

§ 974.8 *Expense of administration.* As his pro rata share of the expense incurred pursuant to § 974.2 (c) (3) each handler shall pay the market administrator on or before the 12th day after the end of each delivery period 2 cents per hundredweight, or such lesser amount as the Secretary from time to time may prescribe, with respect to all receipts of skim milk and butterfat (except receipts from other handlers) in (a) producer milk and (b) other source milk at a fluid milk plant.

10. Delete § 974.9 (a) and substitute therefor the following:

§ 974.9 *Marketing services*—(a) *Deductions.* Except as set forth in paragraph (b) of this section each handler shall deduct from his payments, pursuant to § 974.7 (a), 4 cents per hundredweight of milk, or such lesser deduction as the Secretary from time to time may prescribe, with respect to all producer milk (except such handler's own production) received during each delivery period, and shall pay such deduction to the market administrator on or before the 12th day after the end of such delivery period. Such moneys shall be used by the market administrator to check weights, samples, and tests of such producer milk and to provide producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

FEDERAL COMMUNICATIONS COMMISSION

INTERIM POLICY GOVERNING FREQUENCY ASSIGNMENTS IN 30–40 MC BAND

STATIONS IN EMERGENCY, UTILITY, GEOPHYSICAL, SPECIAL PRESS AND INTERMITTENT RADIO SERVICES

MAY 8, 1947.

On February 3, 1947 the Commission heard oral argument on its proposed frequency service allocations to the nongovernment services in the 30–40 Mc band as proposed in Public Notice No. 99168 (October 21, 1946), and later revised in Public Notice No. 2201 (January 7, 1947). Having considered the testimony presented, the Commission issued its final report of frequency service allocations in this band on March 21, 1947 (Public Notice No. 3529). This report, which became effective on April 1, 1947, specifies the particular channels available for use by various radio services and classes of radio stations which will operate between 30 and 40 Mc. The report also states that:

> • • • all services for which channels have been provided in this band will be required to shift no later than July 1, 1950 to frequencies which are in accord with this plan • • •. A committee is to be set up by Panel 13, Radio Technical Planning Board, to study the problems of conversion from the present interspersed service-allocation plan to • • • (the new) plan, and advise the Commission of its findings on or before August 1, 1947.

In accordance with the above, it is necessary to bring all present assignments in the 30–40 Mc band into agreement with the allocations report not later than July 1, 1950. Shifts from the 30–40 Mc band to frequencies above 70 Mc will be required only as provided in item 2 (a) below.

The varying economic and operational factors involved make it necessary to distinguish three general situations in applying the allocations report to particular cases. The policies which govern in these situations are as follows:

1. *Changeover of existing equipment.* (a) It is expected that certain frequency shifts for the services and licensees affected will begin after receipt and study by the Commission of the report of the special committee of Panel 13, Radio Technical Planning Board, which is due August 1, 1947.

(b) All individuals and organizations interested in furthering the objectives of the changeover program for the 30–40 Mc band may submit their written comments and recommendations to the Commission, or they may arrange to participate in the work of the special committee of Panel 13, Radio Technical Planning Board, by communicating with:

Daniel E. Noble
Chairman, Panel 13
Radio Technical Planning Board
4545 Augusta Boulevard
Chicago, Illinois

(c) To allow time for regional and area groups to formulate local allocation plans and changeover schedules, and submit their recommendations, routine requests to change frequency should not be submitted prior to October 1, 1947. However, in cases of severe interference arising from new frequency assignments made in accordance with the allocations report, any licensee who desires to change to a frequency in agreement with the allocations report may file appropriate applications at any time.

(d) To direct the attention of all licensees to the continuing nature of the frequency assignment problem, station authorizations will include, for the present, a statement that the frequency assignment is of a temporary nature and subject to change.

2. *Replacement or addition of equipment for an existing radiocommunication system.* (a) Each licensee (states and territories excepted), presently licensed to operate in the 30–40 Mc band, who requests authority to make additions or replacements which together aggregate 50% or more of the total number of transmitter units authorized on April 1, 1947, must furnish a satisfactory factual showing that a frequency above 70 Mc will not provide adequate radiocommunication.

(b) Subject to the requirement of paragraph 2 (a) above, and prior to July 1, 1950, authority to make transmitter replacements, add transmitter units to an existing system, or add new stations to an existing radiocommunication system will be granted on frequencies previously assigned. However, before requesting such authority, each licensee should first determine whether or not his station (or system) operates on frequencies now allocated to the class of station involved. If any operating frequency is at variance with the allocation report, the licensee is then urged to consider the feasibility of changing to a proper frequency earlier than July 1, 1950, in order to avoid the expense of changing the operating frequency of the new equipment at a later date.

3. *New radiocommunication systems.* Any applicant (states and territories excepted) who seeks to establish a new radiocommunication system to operate in the 30–40 Mc band must furnish a satisfactory factual showing that a frequency above 70 Mc will not provide adequate radiocommunication. If such showing is satisfactorily made, a frequency will be assigned in accordance with the 30–40 Mc allocations report: *Provided, however*, That new applicants who propose a cooperative or coordinated service arrangement with an existing system may be authorized to operate on the frequencies of that system, upon demonstrating the need for such an assignment.

Each applicant for authority to construct, install or operate new, additional or replacement stations, or transmitter units thereof, on a frequency not in accord with the 30–40 Mc allocations report of March 21, 1947, shall submit with the application the following signed statement:

> The undersigned hereby affirms his understanding that all frequency assignments in conflict with the 30–40 Mc frequency allocation report dated March 21, 1947 (Public Notice No. 3529) will be terminated no later than July 1, 1950, and that the application accompanying this statement is in conflict with said allocations report. Further, in the event the application is granted, the undersigned will discontinue operation on the conflicting frequency or frequencies not later than July 1, 1950.

Adopted: May 8, 1947.

[Docket No. 6651]

ALLOCATION OF FREQUENCIES TO VARIOUS CLASSES OF NON-GOVERNMENTAL SERVICES

ORDER FOR FURTHER HEARING IN RESPECT TO GENERAL MOBILE SERVICE

In the matter of allocation of frequencies to the various classes of nongovernmental services in the radio spectrum from 10 kilocycles to 30,000,000 kilocycles.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C. on the 8th day of May 1947;

Whereas, the Commission issued its report of allocations from 25,000 kilocycles to 30,000,000 kilocycles herein on May 25, 1945; and

Whereas, section 17, Part II, of said report provided for the tentative establishment of the General Mobile Service, subject to later consideration on the basis of operational data to be obtained from experimentation in this service; and

It appearing, that the development of service in this field has progressed to the extent that experimental operational data is now available, or will be available at the time stated below for the hearing herein, sufficient to serve as a basis for the determination of the issues relating to the establishment, on a regular basis, of the proposed types of service falling within the general mobile classification;

It is ordered, That a further hearing be held before the Commission, or such members thereof as it may designate, at

the offices of the Commission at Washington, D. C. at 10 a. m. on the 8th day of September 1947, on the following issues:

1. To review the types or classes of General Mobile Service which are being developed on an experimental basis and determine the elements of public interest, convenience and necessity bearing upon the question of recognition of each of such services on a regular or permanent basis.

2. To determine the quality of communications and the efficiency with which radio operations are conducted in the various types of General Mobile Experimental Service.

3. To ascertain whether other General Mobile Services are in prospect of development, although not as yet in operation on an experimental basis.

4. To determine if there is any necessity for establishing specialized categories of service within the general mobile classification and allocating exclusive frequencies to such services.

5. To determine whether, with respect to each type of service, the public interest, convenience and necessity would be best served by permitting uncoordinated private operation, or by requiring service without discrimination to all eligible persons through the medium of nonprofit cooperative organizations, specialized communication common carriers or general communication common carriers.

6. To determine the necessity of providing a general service for miscellaneous users for whom a specialized service has not been provided, and whether such service should be on a common carrier basis.

7. To determine the necessity and propriety of permitting, or requiring, the interconnection of land line facilities of general communication common carriers with the radio facilities of other common carriers competing in the same area in the General Mobile Service.

8. To establish the normal and reliable service range of general mobile operation in the bands 30–40 Mc and 152–162 Mc, and the best method of frequency assignment to avoid mutual interference or interference with other services.

9. To determine whether the General Mobile Service should be confined to land vehicles or should be available, also, to watercraft and aircraft under certain conditions.

10. To determine whether General Mobile Service for the handling of public correspondence of persons on board ships, trains and aircraft should be required to be handled wholly, or in part, on the frequencies allocated to the Maritime Mobile, Railroad Radio and Aeronautical Services, respectively.

11. Whether, and the extent to which, General Mobile Radiocommunication Service is to be authorized in cases where wire or other means of communication may be available.

12. To establish the facts and information necessary to enable the Commission to allocate frequencies and to draft proposed rules and regulations to govern the establishment of, and the operating practices and procedures for, each type of General Mobile Service, on a regular basis.

It is further ordered, That all interested persons may appear and participate fully[5] in such hearing provided, however, that each such person shall file with the Commission, on or before August 15, 1947, a written notice of appearance together with fifteen copies of a statement setting forth the names of the witnesses he intends to call at the hearing and a summary of the testimony and exhibits each witness will offer.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

Secretary.

[Docket No. 6651]

ALLOCATION OF FREQUENCIES TO VARIOUS CLASSES OF NON-GOVERNMENTAL SERVICES

NOTICE OF FURTHER PROCEEDINGS

MAY 8, 1947.

In the matter of allocation of frequencies to the various classes of non-governmental services in the radio spectrum from 10 kilocycles to 30,000,000 kilocycles.

1. Notice is hereby given of further proceedings in the above-entitled matter involving changes in existing frequency service-allocations.

2. The proposed changes are designed to revise the existing frequency service-allocations to make available the entire band 960–1600 Mc for the aeronautical navigational service. The proposed changes are set forth below.

3. This proposal, if adopted, and after consultation with the Interdepartment Radio Advisory Committee, will modify the Commission's table of frequency service-allocations of February 18, 1947 (#4803), and the Commission's proposal of October 22, 1946 (#99615).

4. These proposed changes are issued under the authority of sections 303 (c) and 303 (r) of the Communications Act of 1934, as amended.

5. A hearing and oral argument on the above matter will be held before the Commission en banc, or such members as may be present, beginning at 10:00 a. m., May 26, 1947. Persons desiring to appear at the hearing and oral argument should file a notice of appearance in duplicate with the Commission on or before May 21, 1947.

Frequency allocations to the Aeronautical Navigational Service. The Commission has studied a comprehensive report of the Radio Technical Commission for Aeronautics (Paper 55–47/DO–3, April 25, 1947), paragraphs 1 through 8 of which are especially relevant to this notice and are quoted herein. The Commission considers it unfortunate that the question raised by the RTCA has not been presented at any of the previous oral arguments in Docket 6651, the last of which was February 4, 1947, but nevertheless believes that, if the attainment of the objective of civil aviation to develop a system of all-weather flying depends, even in part, upon the permanent availability of the entire spectrum 960–1600 Mc for the aeronautical navigational service, there is ample justification in proposing the modification to the table of frequency allocations shown herein.

To determine the extent to which aviation interests, including those manufacturers developing electronic systems of air navigation, support this proposal and to determine the relative needs of the amateur, fixed and mobile services for spectrum space between 1215 and 2100 Mc, the Commission will hold a hearing and oral argument as announced above.

The United States Delegation to the forthcoming Radio Administrative Conference of the International Telecommunications Union has asked the Commission for advice in this matter, and it is urged, therefore, that all interested persons be prepared at the hearing and oral argument to state their views on this proposal in appropriate detail.

Study of aeronautical frequency allocations above 400 Mc. 1. The U. S. proposal to the I. T. U. Conference for frequency service-allocations has been examined in the light of the latest aeronautical telecommunication developments to determine the adequacy and probable utilization of the navigational frequency bands above 400 Mc. It is concluded that the total spectrum space proposed for aeronautical services is adequate, but some rearrangement is desirable to obtain the maximum benefits for aviation. The probable utilization of navigational spectrum space is a matter which this study has indicated should be brought immediately to the attention of the U. S. delegation to I. T. U. in order that the present U. S. position may be reviewed with regard for the aviation requirements described herein.

2. An objective of aviation in the United States is to provide safe and efficient air travel under all conditions of weather. To meet this objective, there is a requirement for a standard integrated system of electronic aids to air navigation and traffic control. Continued study of the objective, both internationally and domestically, has culminated in a setting down, in item 2 (a), the functional requirements for a unified system to facilitate the continuous, safe, and efficient movement of air traffic. The results of several studies which led up to these functional requirements are given in Items 2 (b) and 2 (c). A further study which has detailed certain of the requirements is listed under 2 (d).

(a) "Final Report—First Session, Special Radio Technical Division", Doc. 2553, COT/26, Provisional International Civil Aviation Organization, Montreal, Canada, January, 1947.

(b) "Report of Electronic Subdivision Advisory Group on Air Navigation", Air Materiel Command, Wright Field, Dayton, Ohio, June 1946, including "Third Commonwealth Empire Conference on Radio for Civil Aviation", Summer, 1945.

(c) "Recommended United States Policy, Air Navigation-Communication-Traffic Control", Radio Technical Commission for Aeronautics, Washington, D. C., August 28, 1946.

(d) "Recommendations for Safe Control of Expanding Air Traffic", Air Transport Association of America, Washington, D. C., February, 1947 (Part I).

3. At the present time, no single integrated system, either proposed or in development, is capable of fulfilling all of the functional

requirements set forth. In Civil Aviation, because of the extensive operational, technical, and economic aspects of the complete problem, the over-all system must be obtained through an evolutionary plan. As each aid in the evolutionary plan is adopted, it must be integrated with previously adopted aids; and it must provide a period for obsolescence of older standard aids which will be no longer required from an operational standpoint.

4. The functional requirements for air navigation and traffic control are such that the spectrum allocations therefor should be based upon (a) freedom from severe deteriorating effects of atmospheric and precipitation static and attenuation or "black-outs" or other effects caused by weather (clouds, rain, and snow) or ionospheric behavior; (b) the absence of abnormally long propagation paths which would cause intermittent or sporadic interference in locations which are normally interference-free; (c) the need for multi-channel interference-free transmission and reception in the air and on the ground and rapid "push-button" type change of frequency for airborne transmitters and receivers (the functional requirements primarily call for multi-channel airborne transmission and reception in all directions); and (d) a need for integrated airborne elements which provide the minimum in deterioration of aircraft performance through aerodynamic drag, weight, size, power consumption, etc.

5. In establishing an over-all system, the necessity for continuous and reliable performance under all atmospheric and operational conditions is paramount. This requirement is particularly applicable to the safety of aircraft operations conducted under unfavorable weather conditions when aircraft are wholly dependent on radio aids, or are off their established route, or are required to communicate over maximum operational distances. Conditions dictating the choice of frequency spectrum for the elements of such a system are;

(a) Propagation considerations: Atmospheric and precipitation static are materially reduced above approximately 30 Mc., with the intensity decreasing with increase in frequency. Reflections from concentrations of atmospheric moisture, such as clouds, rain, snow, and fog, constitute a serious deteriorating effect, especially to surveillance radar; this effect increases with increasing frequency and precludes reliable surveillance operations above approximately 2000 Mc. Absorption of radio energy likewise increases with increasing frequency. Furthermore, in order to realize the greatest reliability with the least amount of radio interference, frequencies must be kept low enough to minimize the effects of anomalous propagation.

(b) Equipment considerations: The existing status of electronic equipment development makes multi-channel operation possible, using conventional vacuum tube techniques, up to approximately 2000 Mc.; above this, multi-channel operation meeting system requirements is not attainable in the foreseeable future. Airborne transmission and reception in all directions has increasing limitations with increase in frequency because of the greater shadow effect of the aircraft. Due to the reduced size of the antenna elements with increase in frequency, omni-directional transmission and reception of radio energy are less efficient. Integration of airborne equipment becomes feasible when the various functional requirements are performed in a continuous frequency band. The use of a common antenna, transmission cable, transmitter, receiver, power supply, etc., for performing several functions will make implementation of the over-all system practicable for smaller aircraft and more economical for larger aircraft. Such consolidation of equipment is not practicable when the frequency band is divided for the various functions.

Aviation development agencies have determined the spectrum around 1000 Mc. to be the optimum for meeting the functional requirements. This had not been generally recognized by aviation services until very recently and hence the request for this spectrum space was not transmitted to the appropriate agencies previously.

6. The above considerations indicate requirements for frequencies in the 400–2000 Mc. portion of the spectrum as follows:

Function	Transmission path	Space (mc)	Order of frequency (mc)
A. Distance measuring	Air-ground	255	960–1215
B. Surveillance radar (ground)		65	1215–2000
C. Position, altitude, identity reporting	Air-ground 255 mc [1]	320	1215–2000
D. Air traffic control other than A–C above			
(1) Responder beacon	Air-ground, 20 mc		
(2) Flow control	Ground to air, 150 mc		
(3) Occupancy	Air-ground, 150 mc		
(4) Traffic data relay	Ground to air, 150 mc [2]		
Total		640	

[1] Can be multiplexed in 255 mc with Function A.
[2] Can be multiplexed in 150 mc with Function D (2).

7. The order of importance in providing bands of frequencies for these functions in the spectrum 960–2000 Mc. is the same as the order of listing in paragraph 6. It is considered, for reasons cited above and in order to establish an all-weather system, to be of paramount importance to aviation to provide the 640 Mc. stipulated in paragraph 6. It is also highly important that as much as possible of the 640 Mc. be continuous upward from 960 Mc., and in any event, below 2000 Mc. RTCA recommends against any change in the location of the DME band 960–1215 MC.

8. The requirement for the utilization of the 640 Mc. stipulated in paragraph 6 is based on the following considerations:

(a) The DME band (960–1215 Mc.) will contain 101 frequency channels, corresponding to the ultimate total of localizer and omni-range channels.

(b) The DME band (960–1215 Mc.) will be channeled for high stability equipment, with assignable frequencies separated by 2.5 Mc. or less, and pulse multiplexing will be used to convey the following information:

(1) Distance—referred to omni-range and localizer facilities.
(2) Distance reporting—referred to omni-range and localizer locations.
(3) Bearing (azimuth) reporting—referred to omni-range and localizer locations.
(4) Altitude reporting, and
(5) Identity reporting.

(c) The number of frequency channels for each of the functions 6D (2), 6D (3), and 6D (4) should correspond to the required number of omni-range channels, i. e., 60.

PROPOSED TABLE OF FREQUENCY SERVICE-ALLOCATIONS, 960–2100 Mc

Band, Mc	*U. S. Service-Allocation*
960–1215 (1)	Aeronautical navigational.[1]
1215–1600 (2)	Aeronautical navigational.[1]
1600–1700 (3)	(a) Aeronautical navigational.[1] (b) Amateur.
1700–1750	Meteorological aid (radio sonde).
1750–1880	Nongovernment mobile. 1750–1880 mc. Television pick-up.
1880–2100	Nongovernment fixed. 1880–2100 mc. Fixed circuits except common carrier.

[1] Pulsed navigational aids permitted.

(1) This band is for all the following functions and no other: Distance Measuring (101 channels) multiplexed with Position, Altitude, Identity Reporting.

(2) This band is for the following functions and no other:

	Mc
(a) Surveillance radar (ground)	65
(b) Responder beacon	20
(c) Flow control (60 channels) multiplexed with traffic data relay	150
(d) Occupancy (60 channels)	150

(3) This band is to be used temporarily for Aeronautical Navigational Altimeters and is to be exclusively Amateur when no longer required for Altimeters.

DAYTIME SKYWAVE TRANSMISSIONS OF STANDARD BROADCAST STATIONS

NOTICE OF PROPOSED RULE MAKING

MAY 9, 1947.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Under the Commission's rules and regulations and Standards of Good Engineering Practice, standard broadcast stations are not protected against daytime skywave transmissions nor is there any method prescribed for determining the existence or extent of such transmissions.

3. Affidavits have been filed with the Commission alleging that serious interference is resulting to the daytime service area of stations operating on clear channels as a result of skywave transmissions from Class II stations operating daytime on such frequencies which the Commission has authorized.

4. There are many applications still pending which request authority to operate daytime on clear channels. Appeals have been taken to the United States Court of Appeals for the District of Columbia from some orders of the Commission granting such applications. In one such case an order has been issued by that Court staying the effectiveness of a construction permit issued by the Commission.

5. In view of the foregoing, a hearing in the above-entitled matter will be held before the Commission en banc, or such members as may be present, beginning at 10:00 a. m., June 2, 1947, to receive evidence concerning the existence and extent of daytime skywave transmis-

sions of Standard Broadcast Stations and to promulgate whatever rules and regulations may be necessary.

6. The Clear Channel Broadcasting Service, which filed a petition on February 27, 1947, with respect to the subject matter of this proceeding, is hereby made a party to the proceeding. Any other interested person may appear and participate in the hearing by filing a written appearance in duplicate on or before May 26, 1947.

7. Until the hearing is concluded and a decision is announced, the Commission will defer action on all pending applications which seek daytime or limited time operation on United States I–A or I–B frequencies. The Commission will announce its decision as soon as possible after the proceeding is closed so that the processing of such applications may be resumed at the earliest possible date.

8. Authority to promulgate rules and regulations with respect to the subject matter of this proceeding is contained in sections 303 (c), 303 (f), 303 (h) and 303 (r) of the Communications Act of 1934.

Adopted: May 8, 1947.

CHANGES IN DEPRECIATION RATES OF COMMUNICATION COMMON CARRIERS

NOTICE OF PROPOSED RULE MAKING

MAY 9, 1947.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. A new section (§ 43.43) is proposed to be added to Part 43 (Reports) of the Commission's rules and regulations, as follows:

§ 43.43 *Reports of changes in depreciation rates.* (a) Each communication common carrier subject to the Communications Act of 1934, as amended, having annual operating revenues in excess of $250,000 shall, with respect to any proposed change in its depreciation rates, and at least sixty (60) days prior to the last day of the month in the accounts for which the effect of such change is first recorded, file with the Commission, in triplicate, the following information with respect to each depreciation rate proposed to be changed on or after the effective date of this rule:

(1) A statement showing the class or subclass of plant to which applicable, the effective date of the proposed change, the rate in effect immediately before and after such change, and the corresponding service-life and net-salvage estimates;

(2) A general statement describing the method or methods employed in the development of the service-life and the net-salvage estimates, and the reasons for the proposed change in the rate.

(b) When the proposed change in rate applicable to any class or subclass of plant (1) amounts to twenty percent (20%) or more of the rate currently applied thereto, or (2) would have changed by one percent (1%) or more the aggregate annual depreciation charges for all depreciable plant if the new rate applicable to such class or subclass had been in effect during the preceding calendar year, the statements required in foregoing paragraph (a) of this section shall be supplemented by copies of supporting data, calculations, and charts underlying the service-life and net-salvage estimates. (If compliance with this requirement involves submittal of a large volume of data of a repetitive nature, an illustrative portion may be filed.)

(c) The foregoing statements shall be accompanied by a statement, likewise in triplicate, showing the expected net change in the annual depreciation charges resulting from the revised depreciation rates and indicating the basis of determining the expected net change.

3. Excepting the data required with respect to estimates of service lives and net salvage, the foregoing requirements have been in effect since the issuance of Commission Order No. 100, on June 2, 1942. The responses to that order have indicated the need for additional information of the nature specified in the foregoing proposed rule. Such information has been furnished upon request through correspondence with the carriers. It is believed, therefore, that the proposed rule will not impose any unreasonable burden upon the carriers.

4. The proposed rule will be made applicable only to those carriers having annual operating revenues exceeding $250,000, and will thus eliminate from the filing requirements imposed under Commission Order No. 100 and § 1.551 of the Commission's rules and regulations a number of carriers that have annual operating revenues of less than $250,000. Order No. 100 and § 1.551 are proposed to be rescinded upon the adoption by the Commission of proposed § 43.43.

5. This proposed rule is issued under authority of sections 4 (i), 219 (b), and 220 (b) of the Communications Act of 1934, as amended.

6. Any interested person who is of the opinion that the proposed rule should not be adopted, or should not be adopted in the form set forth hereinbefore, may file with the Commission on or before June 15, 1947, a written statement or brief setting forth his comments. The Commission will consider these written comments before adopting the proposed rule and if comments are submitted which appear to warrant the Commission in holding an oral argument, notice of the time and place of such oral argument will be given.

Adopted: May 8, 1947.

OPERATION OF BANKS

PROPOSED AMENDMENT RELATING TO DEPOSITS FROM MEMBERS

MAY 21, 1947.

Pursuant to 24 CFR 8.3 (c), notice is hereby given of the proposed amendment of 24 CFR 4.1 (f) to provide as follows:

§ 4.1 *General powers.* • • •

(f) *Deposits from members.* (1) Banks may accept demand deposits from members, but no interest shall be paid thereon. At least 25% of such funds on deposit shall be reserved in the form of cash and/or U. S. Treasury Bills. The remaining 75% of such funds on deposit shall be invested within the provisions of section 11 (g) of the act. The Governor may, in his discretion, upon the application of a Bank, waive all or a part of these reserve requirements, subject to the provisions of the Federal Home Loan Bank Act, as now or hereafter amended. Immediate withdrawal may be permitted in the form of the check of the Bank or as otherwise authorized from time to time by order of the Federal Home Loan Bank Administration.

(2) Banks may accept time deposits from members but shall reserve the right to require, in writing, thirty days' notice of intention to withdraw such deposits or any part thereof. At least 25% of such funds on deposit shall be reserved in the form of cash and/or U. S. Treasury Bills. The remaining 75% of such funds on deposit shall be invested within the provisions of section 11 (g) of the act. The Governor may, in his discretion, upon the application of a Bank, waive all or a part of these reserve requirements, subject to the provisions of the Federal Home Loan Bank Act, as now or hereafter amended. The rates of interest to be paid on such deposits as remain unwithdrawn for periods of thirty days or more may be established by the board of directors of each Bank, within the ranges established by the Federal Home Loan Bank Administration. Withdrawals of such deposits shall be in the form of the check of the Bank, or in such other manner as may from time to time be authorized by order of the Federal Home Loan Bank Administration.

(3) As used in subparagraphs (1) and (2) of this paragraph, the word "cash" shall not include deposits in any other Bank.

The foregoing amendment is proposed to be adopted under the provisions of sections 11 (e), 11 (g), 12 and 16 of the Federal Home Loan Bank Act, as amended (47 Stat. 733, 735, 736; 48 Stat. 1261; 12 U. S. C. 1431 (e) (g), 1432 and 1436) and the Administrative Procedure Act, 60 Stat. 237.

Governor.
KENNETH G. HEISLER,
General Counsel.
ORMOND E. LOOMIS,
Executive Assistant to the Commissioner.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Part 210]

FORM AND CONTENT OF FINANCIAL STATEMENTS

NOTICE OF PROPOSAL TO ISSUE RELEASE IN ACCOUNTING SERIES REGARDING USE OF PUBLIC ACCOUNTANTS' NAMES IN CONNECTION WITH SUMMARY EARNINGS TABLES INCLUDED IN REGISTRATION STATEMENTS

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to issue a release, pursuant to the Securities Act of 1933, particularly sections 6, 7, 8, 10 and 19 (a), in its Accounting Series indicating the circumstances under which independent accountants may properly express an opinion, and the form of such opinion, with respect to summary earnings tables to be included in registration statements filed under the Securities Act of 1933.

As its name implies, a summary earnings table is a highly condensed form of profit and loss statement designed to apprise the investor, in a convenient fashion, of the financial results of the operation of the business for a reasonable number of years. Such a summary is not required by the Commission's rules to be certified by independent public or independent certified public accountants but it is, nevertheless, common practice for the registrant to include a summary in the registration statement with the explanation that it has been "reviewed" by independent accountants. This use of accountants' names is designed and tends to give added authority to the material presented. It is important, therefore, to consider the extent of the examination to be made by the accountants in such cases and the extent of the responsibility which they as experts can properly assume.

Persons desiring to comment on the proposed release may obtain copies from the principal office of the Commission at the address indicated below.

All interested persons may submit data, views and comments in writing to Earle C. King, Chief Accountant, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, on or before June 10, 1947.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

Fiscal Service: Bureau of The Public Debt

[1947 Department Circ. 807]

7/8 PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES E–1948

OFFERING OF CERTIFICATES

MAY 21, 1947.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States, for certificates of indebtedness of the United States, designated 7/8 percent Treasury Certificates of Indebtedness of Series E–1948, in exchange for Treasury Certificates of Indebtedness of Series E–1947, maturing June 1, 1947. Approximately $1,000,000,000 of the maturing certificates will be retired on cash redemption.

II. *Description of certificates.* 1. The certificates will be dated June 1, 1947, and will bear interest from that date at the rate of 7/8 percent per annum, payable with the principal at maturity on June 1, 1948. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all Federal taxes, now or hereafter imposed. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Treasury Department, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject any subscription, in whole or in part, to allot less than the amount of certificates applied for, and to close the books as to any or all subscriptions at any time without notice; and any action he may take in these respects shall be final. Subject to these reservations, subscriptions for amounts up to and including $25,000 will be allotted in full, and subscriptions for amounts over $25,000 will be allotted to all holders on an equal percentage basis, but not less than $25,000 on any one subscription. The basis of the allotment will be publicly announced, and allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before June 2, 1947, or on later allotment, and may be made only in Treasury Certificates of Indebtedness of Series E–1947, maturing June 1, 1947, which will be acceptable at par, and should accompany the subscription.

V. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] JOHN W. SNYDER,
Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARIZONA

CLASSIFICATION ORDER

MAY 12, 1947.

1. Pursuant to the authority delegated to me by the Secretary of the Interior (43 CFR 4.275 (a) (39) (iii), Order 2238, August 16, 1946, 11 F. R. 9080), I hereby classify under the small tract act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 54 U. S. C. sec. 682a), for leasing, as hereinafter indicated, the following described public lands in the Phoenix, Arizona, land district, embracing 320 acres:

SMALL TRACT CLASSIFICATION NO. 119

ARIZONA NO. 11

For all of the purposes mentioned in the act except convalescent, business, and combination home and business site purposes.

GILA AND SALT RIVER MERIDIAN

T. 13 S., R. 5 W.,
Sec. 25, N½NW¼, SW¼NW¼, N½SE¼ NW¼, W½NW¼SW¼, S½SW¼ (subject to rights-of-way for State Highway No. 86 and Organ Cactus Pipe National Monument Highway, as to the tracts invaded thereby).

For business and for combination home and business purposes.

Sec. 25, S½SE¼NW¼, NE¼SW¼, E½NW¼ SW¼ (subject to rights-of-way for State Highway No. 86 and Organ Cactus Pipe National Monument Highway, as to the tracts invaded thereby).

2. These lands are located in Pima County, Arizona, about 11 miles south of Ajo, less than a mile from the Papago Indian Reservation, and approximately 5 miles from the Organ Pipe Cactus National Monument. They are accessible over both State Highway No. 86 and the Organ Pipe Cactus National Monument Highway. The towns of Ajo and Rowood offer varied facilities, including a school system. It appears that both electricity and telephone service can be made readily accessible to the lands.

3. The lands are about 1,200 to 1,300 feet above sea level and comprise a rolling to level plain with some rises and sand dunes. The climate of this region is hot and dry with long summers and short mild winters.

4. The water supply for this subdivision must be developed from underground sources. Although there appear to be no wells on the lands at present, their development would seem to be entirely feasible, especially if undertaken as a group project.

5. Pursuant to § 257.8 of the Code of Federal Regulations (43 CFR, Part 257, Cum. Supp., as amended by Circ. 1613, February 27, 1946), a preference right to a lease is accorded to those applicants whose applications (a) were regularly filed, under the regulations issued pursuant to the act, prior to 8:30 a. m. on March 20, 1946, and (b) are for the type of site for which the land subject thereunder has been classified. As to such applications, this order shall become effective upon the date on which it is signed.

6. As to the land not covered by the applications referred to in paragraph 5, this order shall not become effective to permit the leasing of such land under the small tract act of June 1, 1938, cited above, until 10:00 a. m. on July 14, 1947. At that time such land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for other preference right filings.* For a period of 90 days from 10:00 a. m. on July 14, 1947, to close of business on October 11, 1947, inclusive, to (1) application under the small tract act of June 1, 1938, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Advance period for simultaneous preference-right filings.* All applications by such veterans and persons claiming preference rights superior to those of such veterans filed at or after 8:30 a. m. on March 20, 1946, together with those presented at 10:00 a. m. on June 24, 1947, shall be treated as simultaneously filed.

(c) *Date for nonpreference-right filings authorized by the public land laws.* Commencing at 10:00 a. m. on October 13, 1947, any of the land remaining unappropriated shall become subject to application under the small tract act by the public generally.

(d) *Advance period for simultaneous nonpreference-right filings.* Applications under the small tract act by the general public filed at or after 8:30 a. m. on March 20, 1946, together with those presented at 10:00 a. m. on September 23, 1947, shall be treated as simultaneously filed.

7. Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

8. All applications for the lands referred to in paragraphs 5 and 6, which shall be filed in the District Land Office at Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circ. 324, May 22, 1914, 43 L. D. 254), to the extent that such regulations are applicable. Applications under the small tract act of June 1, 1938, shall be governed by the regulations contained in Part 257 of Title 43 of the Code of Federal Regulations.

9. Lessees under the small tract act of June 1, 1938, will be required, within a reasonable time after execution of the lease, to construct upon the leased land, to the satisfaction of the Bureau of Land Management officer signing the lease, improvements which under the circumstances are presentable, substantial and appropriate for the use for which the lease is issued. Leases will be for a period of 5 years at an annual rental of $5 for home, cabin, camp, health and recreational sites, payable yearly in advance. The rental for business and for combination home and business sites will be in accordance with a schedule of graduated charges based on gross income, with a minimum charge of $20, payable yearly in advance, the remainder, if any, to be paid within 30 days after each yearly anniversary of the lease.

10. All of the lands classified for all of the purposes in the act except convalescent, business and for combination home and business sites, will be leased in tracts of approximately 5 acres, or aliquot parts thereof, each being approximately 330 by 660 feet, or aliquot dimensions thereof, the longest dimension extending east and west. The lands classified for business and for combination home and business site purposes will be leased in tracts of approximately 2½ acres, or aliquot parts thereof, each being approximately 330 by 330 feet, or aliquot dimensions thereof. The tracts should conform in description with the rectangular system of surveys as one compact unit.

11. Preference right leases referred to in paragraph 5 will be issued for the land described in the application, irrespective of the direction of the tract, provided the tract is made to conform to the areas and dimensions specified above.

12. Where only one 5-acre tract in a 10-acre subdivision or one 2½ acre tract in a 5-acre subdivision is embraced in a preference right application, however, the Acting Manager is authorized to accept applications for the remaining 5-acre, 2½ acre tract or aliquot parts thereof extending in the same direction so as to fill out the subdivision, notwithstanding the direction of the tract may be contrary to that specified above.

13. All inquiries relating to these lands shall be addressed to the Acting Manager, District Land Office, Phoenix, Arizona.

FRED W. JOHNSON,
Director.

FEDERAL COMMUNICATIONS COMMISSION

SOUTHWEST BROADCASTING CO.

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on April 28, 1947 there was filed with it an application (BAL–601) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of WPUV, Pulaski, Virginia, from Howard R. Imboden, trading as Southwest Broadcasting Company to Southwest Broadcasting Corporation, 225 North Washington Avenue, Pulaski, Virginia.

The proposal to assign the license arises out of a contract of February 15, 1947 pursuant to which a 50% stock interest in and to the station, its properties and equipment would be acquired by W. F. White and Allan S. Aden for a consideration of $25,000 in cash. The station, its properties and license would be transferred to Southwestern Broadcasting Corporation, from which would be exempted, however, all cash on hand at the time of transfer and accounts receivable for services to said time. Assignor would assume all liabilities. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321 which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application the Commission was advised by applicants on April 28, 1947 that starting on May 5, 1947 notice of the filing of the application would be inserted in a newspaper of general circulation at Pulaski, Virginia, in accordance with the above rule.

In accordance with the procedure set out in said rule, no action will be had upon the application for a period of 60 days from May 5, 1947 within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

J. E. RODMAN (KFRE) AND TULARE-KINGS COUNTIES RADIO ASSOCIATES (KTKC)

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of J. E. Rodman (KFRE), Fresno, California, Docket No. 7125, File No. BP–3757; J. E. Richmond, Percy M. Whiteside, Homer W. Wood, Charles A. Whitmore and Morley M. Maddox, d/b as Tulare-Kings Counties Radio Associates (KTKC), Visalia, California, Docket No. 7601, File No. BP–3909; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of April 1947;

The Commission having under consideration the above-entitled applications of J. E. Rodman, requesting a construction permit to change the facilities of Station KFRE, Fresno, California, from 1340 kc, 250 w power, unlimited time, to 970 kc, 1 kw power, unlimited time, employing a directional antenna, and J. E. Richmond, Percy M. Whiteside, Homer W. Wood, Charles A. Whitmore and Morley M. Maddox, d/b as Tulare-Kings Counties Radio Associates, requesting a construction permit to change the facilities of Station KTKC, Visalia, California from 940 kc, 5 kw power, unlimited time, employing a directional antenna to 940 kc, 50 kw power, unlimited time, employing a directional antenna and to change transmitter location, install a new transmitter and directional antenna;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the individual applicant and of the applicant partnership and the partners to construct and operate Stations KFRE and KTKC as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of Stations KFRE and KTKC as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of Stations KFRE and KTKC as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operations of Stations KFRE and KTKC as proposed would involve objectionable interference, each with each other, or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations of Stations KFRE and KTKC as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

EUGENE BROADCASTERS, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Eugene Broadcasters, Inc., Eugene, Oregon, Docket No. 7484, File No. BP–4259; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled application for construction permit for a new standard broadcast station to operate on 1280

[1] Section 1.321, Part I, Rules of Practice and Procedure.

kc, 1 kw, using a directional antenna, unlimited time, at Eugene, Oregon, together with a petition of Carl E. Haymond, licensee of station KIT, Yakima, Washington, requesting that the above application be designated for hearing and that he be made a party to such hearing on the ground that a grant of the above application would cause objectionable interference to the area now served by station KIT;

Now, therefore, *It is ordered*, That the petition of Carl E. Haymond, be, and it is hereby, granted;

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of Eugene Broadcasters, Inc., be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with station KIT, Yakima, Washington or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the extent of Station KIT's present interference free service areas, the nature and extent of the primary interference free service that it renders beyond its normally protected contours, the character of its program service to those areas, the populations involved and the character of other broadcast service available thereto and whether, and to what extent, such service should receive protection.

It is further ordered, That Carl E. Hammond, licensee of Station KIT, Yakima, Washington be, and he is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

AMARILLO BROADCASTING CORP. (KFDA)

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Amarillo Broadcasting Corporation (KFDA), Amarillo, Texas, Docket No. 7559, File No. BP-4353; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of April 1947;

The Commission having under consideration the above-entitled application requesting a construction permit to change the frequency of station KFDA, Amarillo, Texas, to 1440 kc, increase power to 1 kw nighttime and 5 kw daytime, change transmitter site, install a new transmitter, and erect a new directional antenna for nighttime use;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate station KFDA as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of station KFDA as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of station KFDA as proposed would involve objectionable interference with station KILO, Grand Forks, North Dakota, or with any other existing or authorized broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of station KFDA as proposed would involve objectionable interference, as defined in the North American Regional Broadcasting Agreement, with Mexican station XEFI, Chihuahua, Chihuahua, or any other existing foreign broadcast station, and the nature and extent of such interference.

6. To determine whether the operation of station KFDA as proposed would involve objectionable interference with the services proposed in the pending application for change in facilities of KEYS, Corpus Christi, Texas (File No. BP-3999: Docket No. 7561), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

7. To determine whether the installation and operation of station KFDA as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, especially with section 4 of the Standards.

It is further ordered, That Dalton Le Masurier, licensee of station KILO, Grand Forks, North Dakota, be, and he is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

MIAMI BROADCASTING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Miami Broadcasting Company, Miami, Oklahoma, Docket No. 7810, File No. BP-4987; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled application requesting a construction permit for a new standard broadcast station to operate on 910 kc, with 1 kw power, unlimited time, employing a directional antenna for use day and night, at Miami, Oklahoma;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with station WCOC, Meridian, Miss. or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That Mississippi Broadcasting Company, Inc., licensee of Station WCOC, Meridian, Mississippi, be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

KANSAS BROADCASTING, INC., AND LINCOLN BROADCASTING CORP.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Kansas Broadcasting, Inc (KANS), Wichita, Kansas, Docket No. 7952, File No. BP-5159; Lincoln Broadcasting Corp., Lincoln, Nebraska, Docket No. 8370, File No. BP-4985; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled application of Kansas Broadcasting, Inc. (KANS), for a construction permit to change frequency to 1480 kc, using 1 kw power, 5 kw-LS, unlimited time, using a directional antenna at night at Wichita, Kansas; a petition of Kansas Broadcasting, Inc., (KANS) to waive a hearing of said application; and the above-entitled application of Lincoln Broadcasting Corp. for a construction permit for a new standard broadcast station to operate on the frequency 1480 kc, with 1 kw power, unlimited time, using directional antenna arrays day and night, at Lincoln, Nebraska;

It appearing that the above-entitled applications involve objectionable daytime interference; and

It further appearing that the above-entitled application of Lincoln Broadcasting Corp. will involve objectionable daytime interference to and from Station KBON, Omaha, Nebraska, operating on 1490 kc, with 250 w power, unlimited time; and

It further appearing that the Commission on November 7, 1946, designated for hearing the above-entitled application of Kansas Broadcasting, Inc., (KANS);

It is ordered, That the aforesaid petition of Kansas Broadcasting, Inc., (KANS) be, and it is hereby, denied; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application of Lincoln Broadcasting Corp. be, and it is hereby, designated for hearing in a consolidated proceeding with the said application of Kansas Broadcasting, Inc., (KANS) at a time and place to be designated by subsequent order of the Commission, the said applications to be heard upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of Lincoln Broadcasting Corp., its officers, directors and stockholders and the technical, financial and other qualifications of Kansas Broadcasting, Inc., its officers, directors and stockholders to construct and operate the proposed Lincoln station and Station KANS as proposed respectively.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed Lincoln station and Station KANS as proposed respectively and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed Lincoln station would involve objectionable interference with Station KBON, Omaha, Nebraska, and whether the operation of the proposed Lincoln station and Station KANS as proposed would involve objectionable interference with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed Lincoln station and Station KANS as proposed would involve objectionable interference with each other or with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed Lincoln station and Station KANS as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's order of November 7, 1946, designating the above-entitled application of Kansas Broadcasting, Inc. (KANS) for hearing be, and it is hereby amended, to delete the issues therein specified.

It is further ordered, That Inland Broadcasting Company, licensee of Station KBON, Omaha, Nebraska, be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

AMERICAN BROADCASTING CO., INC. (KGO) ET AL.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED MEETING ON STATED ISSUES

In the matter of applications of American Broadcasting Company, Inc. (KGO), San Francisco, California, docket No. 8011, file No. BMP-2157; for modification of construction permit; Denver Broadcasting Company, Denver, Colorado, Docket No. 8012, file No. BP-5141; for construction permit; modification of broadcast license of General Electric Company (WGY), Schenectady, New York, Docket No. 8162, file No. BS-264; KCMO Broadcasting Company (KCMO), Kansas City, Missouri, Docket No. 8338, file No. BMP-2556; for modification of construction permit; A. Frank Katzentine (WKAT), Miami Beach, Florida, Docket No. 8339, file No. BP-5973.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of April 1947;

The Commission having under consideration the above-entitled applications of KCMO Broadcasting Company requesting a modification of construction permit to authorize a change in the facilities of Station KCMO, Kansas City, Missouri, from 810 kc, 10 kw, 50 kw local sunset power, unlimited time, employing a directional antenna at night to 810 kc, 50 kw power, unlimited time, and changes in the directional antenna, and A. Frank Katzentine requesting a construction permit to change the facilities of Station WKAT, Miami Beach, Florida from 1360 kc, 1kw, 5kw local sunset power, unlimited time to 810 kc, 50 kw power, unlimited time, employing a directional antenna at night;

It appearing, that the Commission on December 17, 1946, designated for hear-

ing in a consolidated proceeding the applications of American Broadcasting Company, Inc. (KGO) (File No. BMP-2157; Docket No. 8011), requesting a modification of construction permit to authorize changes in the directional antenna of Station KGO, San Francisco, California and Denver Broadcasting Company (File No. BP-5141; Docket No. 8012), requesting a construction permit for a new standard broadcast station to operate on 810 kc, 25 kw, 50 kw local sunset power, unlimited time, employing a directional antenna day and night, at Denver, Colorado and the request of American Broadcasting Company, Inc. (KGO) that Station WGY, Schenectady, New York, be required to install a directional antenna which would afford nighttime protection to Station KGO operating as proposed and General Electric Company, licensee of Station WGY was, in such order and as a part of said proceeding, afforded the opportunity to show cause why its license should not be so modified;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications of KCMO Broadcasting Company and A. Frank Katzentine be, and they are hereby, designated for hearing in the above consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the individual applicant and of the applicant corporation, its officers, directors and stockholders to construct and operate Stations KCMO and WKAT as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of Stations KCMO and WKAT as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of Stations KCMO and WKAT as proposed would involve objectionable interference with Station WGY, Schenectady, New York, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operations of Stations KCMO and WKAT as proposed would involve objectionable interference, each with the other, or with the services proposed in the other pending applications in this proceeding, or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installations and operations of Stations KCMO and WKAT as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the Commission's order, dated December 17, 1946, designating the aforementioned applications of American Broadcasting Company, Inc. (KGO) and Denver Broadcasting Company and the show cause order of General Electric Company (WGY) for modification of license, be, and it is hereby, amended to include the aforementioned applications of KCMO Broadcasting Company (KCMO) and A. Frank Katzentine (WKAT), and to include among the issues for hearing, Issue No. 7, stated above.

It is further ordered, That General Electric Company, licensee of Station WGY, Schenectady, New York, be, and it is hereby, made a party to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of April 1947;

The Commission having under consideration the above entitled applications of Louis F. Leurig and F. F. McNaughton, d/b as Seminole Broadcasting Company requesting a construction permit for a new standard broadcast station to operate on 720 kc, 250 w power, daytime only, at Wewoka, Oklahoma and West Central Broadcasting Company requesting a construction permit for a new standard broadcast station to operate on 740 kc, 25 kw, 50 kw local sunset power, unlimited time, employing a directional antenna, at Tulsa, Oklahoma;

It appearing that the Commission on March 20, 1947, designated for hearing in a consolidated proceeding the application of Ellis County Broadcasting Company (File No. BP-5339; Docket No. 8257) requesting a construction permit for a new standard broadcast station to operate on 730 kc, 250 w power, daytime only, at Waxahachie, Texas, and Roy Hofheinz and W. N. Hooper, d/b as Texas Star Broadcasting Company (File No. BP-5820; Docket No. 8258) requesting a construction permit for a new standard broadcast station to operate on 740 kc, with 5 kw, 10 kw local sunset power, unlimited time, employing a directional antenna, at Dallas, Texas;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications of Louis F. Leurig and F. F. McNaughton, d/b as Seminole Broadcasting Company and West Central Broadcasting Company be, and they are hereby, designated for hearing in the above consolidated proceeding, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant partnership and the partners, and of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed stations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operations of the proposed stations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program services proposed to be rendered and whether they would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operations of the proposed stations would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operations of the proposed stations would involve objectionable interference, each with the other, with the services proposed in the other pending applications in this proceeding or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operations of the proposed stations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine the overlap, if any, that will exist between the service areas of the proposed station of West Central Broadcasting Company and of station WKY at Oklahoma City, Oklahoma, the nature and extent thereof and whether such overlap, if any, is in contravention of § 3.35 of the Commission's rules.

8. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That, the Commission's order, dated March 20, 1947, designating the above entitled applications of Ellis County Broadcasting Company and Roy Hofheinz and W. N. Hooper, d/b as Texas Star Broadcasting Company, for hearing in a consolidated proceeding be, and it is hereby, amended to include the above entitled applications of Louis F. Leurig and F. F. In re applications of Western Pennsylvania Broadcasting Corporation, Pittsburgh, Pennsylvania, Docket No. 8170, File No. BP-5344; East Liverpool Broadcasting Company, East Liverpool, Ohio, Docket No. 8171, File No. BP-5799; United Broadcasting Corporation, Pittsburgh, Pennsylvania, Docket No. 8348, File No. BP-5863; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 29th day of April 1947;

The Commission having under consideration the above-entitled application of United Broadcasting Corporation requesting a construction permit for a new standard broadcast station to operate on 1470 kc, with 5 kw power, unlimited time, using a directional antenna, at Pittsburgh, Pennsylvania, and also having under consideration a petition filed March 17, 1947 by Lehigh Valley Broadcasting Company, licensee of station WSAN, Allentown, Pennsylvania, requesting that said application be designated for hearing, and a similar petition filed April 25, 1947 by Calcasieu Broadcasting Company, licensee of station KPLC, Lake Charles, Louisiana;

It appearing that the Commission on March 6, 1947, designated for hearing in a consolidated proceeding the applications of Western Pennsylvania Broadcasting Corporation (File No. BP-5344; Docket No. 8170) requesting a construction permit for a new standard broadcast station to operate on 1490 kc, with 250 w power, unlimited time, in Pittsburgh, Pennsylvania, and East Liverpool Broadcasting Company (File No. BP-5799; Docket No. 8171) requesting a construction permit for a new standard broadcast station to operate on 1490 kc, with 250 w power, unlimited time, at Liverpool, Ohio;

It is ordered, That the said petitions of Lehigh Valley Broadcasting Company and Calcasieu Broadcasting Company be, and they are hereby, granted, and that pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of United Broadcasting Corporation be, and it is hereby, designated for hearing in the above consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with station WSAN, Allentown, Pennsylvania, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with services proposed in any of the other applications in the consolidated proceeding, in the pending applications of Calcasieu Broadcasting Company (KPLC) (File No. BP-3623; Docket No. 6664), KRIC, Inc. (KRIC) (File No. BP-4410; Docket No. 7321), or in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the operation of the proposed station would involve objectionable interference, as defined in the North American Regional Broadcasting Agreement, with Canadian station CFOS, Owen Sound, Ontario, or any other existing foreign broadcast station, and the nature and extent of such interference.

7. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

8. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the order of the Commission dated March 6, 1947, designating for hearing the applications of Western Pennsylvania Broadcasting Corporation and East Liverpool Broadcasting Company, be, and it is hereby, amended to include said application of United Broadcasting Corporation and to change Issue No. 7 of said order to read as issue No. 8 above stated.

It is further ordered, That Lehigh Valley Broadcasting Company, licensee of station WSAN, Allentown, Pennsylvania, Calcasieu Broadcasting Company, licensee of station KPLC, Lake Charles, Louisiana, and KRIC, Inc., licensee of station KRIC, Beaumont, Texas, be, and they are hereby, made parties to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

WMPS INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of WMPS, Inc., Memphis, Tennessee, Docket No. 8316, File No. BMP-2388; for modification of construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 24th day of April 1947;

The Commission having under consideration: (1) The above-entitled application (File No. BMP-2388) for modification of construction permit. File No. BP-4310 as modified (which authorized this applicant to change the operating frequency of WMPS, Memphis, Tennessee, from 1460 kc to 680 kc to increase power from 500 w night and 1 kw day to 5 kw night and 10 kw day, to install a new transmitter and directional antenna for night use, and to change transmitter location), so as to increase nighttime operating power from 5 kw to 10 kw using a directional antenna at night; (2) a petition and a corrected petition of KFEQ, Inc., licensee of Station KFEQ (680 kc, 5 kw, U, DA-2), St. Joseph, Missouri, alleging that a grant of the above application would cause objectionable interference within the protected service area of Station KFEQ, and requesting that said application be designated for hearing and that KFEQ, Inc., be made a party to such proceedings; (3) the above applicant's opposition to the KFEQ, Inc., petition and corrected petition; (4) petitioner's reply to applicant's opposition to petition; and (5) applicant's answer to the reply to the opposition to the petition to designate; and

It appearing, that from an examination of the above application and the respective pleadings, together with the exhibits filed in support thereof, the Commission is unable to determine the objectionable interference, if any, that would occur within the KFEQ service area by the operation of WMPS as proposed;

Now, therefore, it is ordered, That the petition of WFEQ, Inc., be, and it is hereby, granted: and

It is further ordered, Pursuant to section 309 (a) of the Communications Act of 1934, as amended, that the said application of WMPS, Inc., be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WMPS as proposed and the character of other broadcast services available to those areas and populations.

2. To determine whether the operation of Station WMPS as proposed would involve objectionable interference with Station KFEQ, St. Joseph, Missouri, or with Station WPTF, Raleigh, North Carolina, or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

3. To determine whether the operation of Station WMPS as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

4. To determine whether the installation and operation of Station WMPS as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That KFEQ, Inc., licensee of Station KFEQ, St. Joseph, Missouri, and WPTF Radio Company, licensee of Station WPTF, Raleigh, North Carolina, be, and they are hereby, made parties to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 23d day of April 1947;

The Commission having under consideration the above-entitled applications requesting construction permits for new Class A FM stations in the vicinity of Los Angeles;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the above-entitled application be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by a subsequent order of the Commission each upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicant, its officers, directors and stockholders or partners to construct and operate the proposed station.

2. To obtain full information with respect to the character of the proposed program service.

3. To determine the areas and population which may be expected to receive service from the proposed station.

4. To determine whether the operation of the proposed station would involve objectionable interference with any existing FM broadcast station and, if so, the nature and extent thereof, the areas and populations effected thereby, and the availability of other broadcast services to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in the pending applications of the other parties to this proceeding or in any other pending applications for FM broadcast facilities and, if so, the nature and extent thereof, the areas and populations effected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That, the applications of Southern California Associated Newspapers, Glendale, California (BPH-490) and San Pedro Printing and Publishing Company, San Pedro, California (BPH-488), be heard upon the following additional issue.

7. To determine what overlap of service areas, if any, exists between the proposed station and any other existing or proposed stations owned, operated or controlled by the same interests as the proposed station, and whether such overlap, if any, is in contravention of § 3.240 of the Commission's rules and regulations.

It is further ordered, That, the applications of Walter Muller and Frank Muller, d/b as Muller Brothers, Hollywood, California (BPH-1092) and San Pedro Printing and Publishing Company, San Pedro, California (BPH-488) be heard upon the following additional issue:

8. To determine whether a grant of the application would be in contravention of § 3.203 (b) of the Commission's rules and regulations and if so, whether the public interest, convenience and necessity would be served by a waiver of § 3.203 (b).

Notice is hereby given that § 1.857 of the Commission's rules and regulations shall not be applicable to this proceeding.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above entitled applications of Copper Broadcasting Company (KOPR) for a modification of construction permit to authorize Station KOPR, Butte, Montana, to operate on the frequency 580 kc with 1 kw power, unlimited time, with directional antenna at night, instead of on the frequency 550 kc as presently authorized; of Treasure State Broadcasting Company, Inc., for a construction permit for a new standard broadcast station to operate on the frequency 610 kc with 1 kw power, unlimited time, with directional antenna at night, at Butte, Montana; and of Eastern Idaho Broadcasting and Television Company (KIFI) for a construction permit to authorize Station KIFI, Idaho Falls, to change frequency from 1400 kc to 550 kc, increase power to 1 kw, install new transmitter at a new location, and to use directional antenna at night; and also having under consideration a petition filed by Treasure State Broadcasting Company, Inc., requesting that its said application be conditionally granted, pursuant to § 1.385 (e) (2) of the Commission's rules and regulations; and

It appearing that the above-entitled application of Eastern Idaho Broadcasting and Television Company (KIFI) was, pursuant to section 309 (a) of the Communciations Act of 1934, as amended, designated for separate hearing on April 25, 1947, but that no order or issues relative to such hearing have been published; and

It further appearing that the proposed operation of Station KIFI at Idaho Falls, Idaho, would involve problems of objectionable interference with the proposed operation of Station KOPR as presently authorized on 550 kc at Butte, Montana, and that the public interest would be served by hearing the said application of Eastern Idaho Broadcasting and Television Company (KIFI) in a consolidated proceeding with the other above entitled applications; and

It further appearing that the city of Butte, Montana, presently receives local broadcast service from two standard broadcast stations and that the public interest does not require the prompt establishment of new or additional service to that city within the meaning of § 1.385 (e) (2) of the Commission's rules and regulations; but that, in view of the nature of the allegations contained in the said petition of Treasure State Broadcasting Company, Inc., and the fact that Copper Broadcasting Company, by its construction permit and its above-entitled application, is forestalling the utilization of a number of standard broadcast frequencies which would otherwise be available at Butte, an early hearing upon the merits of the aforesaid applications is warranted and would be in the public interest;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications of Copper Broadcasting Company (KOPR) (File No. BMP-2567) and Treasure State Broadcasting Company, Inc., (File No. BP-5943) be, and they are hereby, designated for hearing to be heard in a consolidated proceeding with the said application of Eastern Idaho Broadcasting and Television Company (KIFI) (File No. BP-5978), and that the three applications be heard upon the following issues:

1. To determine the legal qualifications of the applicant, Treasure State Broadcasting Company, Inc., its officers, directors and stockholders, and the technical, financial and other qualifications of all the applicants, including the individual partners of the applicant partnership and the officers, directors and stockholders of the several corporations, to construct and operate the stations as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the proposed operations would involve objectionable interference with any existing or authorized broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the proposed operations would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

It is further ordered, That the said hearing upon the above entitled applications, for reasons aforesaid, be, and it is hereby, scheduled to commence at 10 a. m., June 2, 1947, at Washington, D. C.

It is further ordered, That, for the reasons aforesaid, the said petition of Treasure State Broadcasting Company, Inc., for conditional grant of its said application be, and it is hereby, denied.

Notice is hereby given, that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

In re applications of Albert E. Furlow, Frank G. Forward, Roy M. Ledford, Fred H. Rohr and Mary W. Hetzler, 4/b as Silver Gate Broadcasting Company (KYOR), San Diego, California, Docket No. 8361, File No. BP-5438; Luther E. Gibson (KHUB), Watsonville, California, Docket No. 8362, File No. BP-5586; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled applications of Silver Gate Broadcasting Company (File No. BP-5438) requesting a construction permit to increase power of station KYOR, operating on 1130 kc at San Diego, California, from 250 watts to 5 kw, extend operating time to unlimited and install directional antenna, and of Luther E. Gibson (File No. BP-5586) for construction permit to authorize station KHUB, Watsonville, California, to operate on 1130 kc with 5 kw power, unlimited time using a directional antenna;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the individual applicant and of the applicant partnership and the partners to construct and operate the stations as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the stations as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the stations as proposed would involve objectionable interference with any existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the stations as proposed would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the proposed installations and operations would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

7. To determine on a comparative basis which, if either, of the applications in this consolidated proceeding should be granted.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

It is ordered, That the petition of Eugene P. O'Fallon, Inc., be, and it is hereby, granted; and

It is further ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate Station WAAF as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station WAAF as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station WAAF as proposed would involve objectionable interference with Stations WWJ, Detroit, Michigan; WSPA, Spartanburg, South Carolina; WKNA, Charleston, West Virginia; KFEL, Denver, Colorado; and WSBT, South Bend, Indiana; or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station WAAF as proposed would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station WAAF as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That The Evening News Association, licensee of Station WWJ, Detroit, Michigan; Spartanburg Advertising Company, licensee of Station WSPA, Spartanburg, South Carolina; Joe L. Smith, Jr., licensee of Station WKNA, Charleston, West Virginia; Eugene P. O'Fallon, Inc., licensee of Station KFEL, Denver, Colorado; and The South Bend Tribune, licensee of Station WSBT, South Bend, Indiana, be, and they are hereby made parties to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

By the Commission.

FEDERAL POWER COMMISSION

[Docket No. G-704]

TRANS-CONTINENTAL GAS PIPE LINE CO., INC.

ORDER FIXING DATE OF HEARING

Upon consideration of the first amended application filed in this matter on December 11, 1946, in lieu of the original application filed on March 1, 1946, by Trans-Continental Gas Pipe Line Company, Inc., (Applicant), a Texas corporation with its principal place of business at Longview, Texas, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing it to construct and operate the following described natural-gas pipeline facilities (including all necessary meter stations and other appurtenant facilities) subject to the jurisdiction of the Commission:

1,380 miles of 26-inch natural-gas transmission pipeline beginning at Applicant's proposed #1 compressor station near Hemphill, Sabine County, Texas, and extending in a northeasterly direction to various points of delivery located in the States of Maryland, Delaware, Pennsylvania, New Jersey and New York.

200 miles of 26-inch transmission line from the Old Ocean gas field in Brazoria County, Texas, to the #1 compressor station at Hemphill, Texas.

65 miles of 20-inch transmission line from the Carthage gas field, Panola County, Texas, extending in a southeasterly direction to the #1 compressor station at Hemphill, Texas.

7 miles of 12-inch transmission line from the Pledger gas field and 24 miles of 16-inch transmission line from the Chocolate Bayou gas field, both in Brazoria County, Texas, extending in a southeasterly and northwesterly direction respectively to intersections with the 26-inch transmission line from the Old Ocean gas field to the #1 compressor station at Hemphill, Texas.

5 miles of 14-inch transmission line extending from Applicant's main transmission line to a point near the city limits of Baltimore, Maryland.

12 miles of 10-inch transmission line extending from Applicant's main transmission line to a point near the city limits of Wilmington, Delaware.

10 miles of 12-inch transmission line extending from Applicant's main transmission line to a point near the south city limits of Philadelphia, Pennsylvania.

10 miles of 12-inch transmission line extending from Applicant's main transmission line to a point near the north city limits of Philadelphia, Pennsylvania.

8 miles of 8-inch transmission line extending from Applicant's main transmission line to a point near the city limits of Trenton, New Jersey.

Compressor stations. One compressor station having eleven 1,000 H. P. units, to be located near Hemphill, Texas.

Thirteen compressor stations each having ten 1,000 H. P. units to be located in the vicinity of the following towns: Winfield, Tallulah, Louisiana; Canton, Macon, Mississippi; Bessemer, Edwardsville, Alabama; Buford, Georgia; Piedmont, South Carolina; Lincolnton, Reidsville, North Carolina; Buckingham, Manassas, Virginia; Dublin, Maryland.

Gas dehydration plants. Two gas dehydration plants in the Carthage gas field, and one each in the Old Ocean, Chocolate Bayou and Pledger gas fields, all in Texas.

It appears to the Commission that:

(a) Due notice of the filing of the first amended application at Docket No. G-704 has been given, including publication thereof in the FEDERAL REGISTER on January 16, 1947 (12 F. R. 330, 331, 332).

(b) Among the issues presented by such application, and other pleadings filed in connection therewith, are the following:

(1) Whether the proposed facilities as designed and the proposed method of operation thereof are adequate to render the service proposed.

(2) Whether the construction and operation of the proposed facilities by the Applicant is economically feasible.

(3) Whether the construction and operation of the proposed facilities is in the public interest.

(4) Whether the estimated cost of constructing the proposed facilities is reasonable.

(5) Whether the Applicant has available sufficient financial resources to construct, operate and maintain the facilities proposed.

(6) Whether Applicant has a reasonably adequate natural gas reserve dedicated to assure a continuing natural gas supply for the proposed pipeline project.

The Commission, therefore, orders that:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, as amended, and the Commission's rules of practice and procedure (effective September 11, 1946), a hearing be held commencing on the 9th day of June, 1947, at 10:00 a. m. (e. d. s. t.) in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by the first amended application, and other pleadings herein.

(B) Interested State commissions may participate as provided by Rules 8 and 37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure (effective September 11, 1946).

Date of issuance: May 20, 1947.

[Docket No. G-896]

UNITED GAS PIPE LINE CO.

NOTICE OF APPLICATION

MAY 19, 1947.

Notice is hereby given that on April 29, 1947, United Gas Pipe Line Company (Applicant), a Delaware corporation having its principal place of business at Shreveport, Louisiana, and authorized to do business in the States of Alabama, Louisiana, Mississippi and Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, approving the construction and authorizing the continued operation of certain facilities already installed and described as follows:

(a) A sales meter constructed at Station 3740+50 on Applicant's Latex-Port Neches Line serving the Village of Bronson, Sabine County, Texas.

(b) A sales meter on Temple Lumber Company's 2-inch gas line to measure gas delivered to the City of Pineland, Texas, at a point near Station 4112 +79 on Applicant's said Latex-Port Neches Line.

The application recites that on November 16, 1944, Applicant began selling natural gas to the City of Pineland (now Temple Lumber Company) at the point described above, for resale in the City of Pineland, which City in 1945 had a population of approximately 1,410. The application further recites that on September 15, 1945, Applicant also began selling natural gas to Hugh N. Wood at the point described above for resale in the Village of Bronson, which village in 1945 had a population of approximately 500.

Applicant states that the application is filed for the sole purpose of complying with the Commission's request and is filed without prejudice to the position heretofore taken by Applicant, i. e., that no certificate was necessary before installation of said facilities since these facilities were constructed on one of Applicant's "grandfather" lines, and without in any manner conceding that Applicant has in any way not complied with the Natural Gas Act and the rules and regulations of the Federal Power Commission thereunder.

The over-all capital cost of the facilities constructed was $1,232.91, all of which Applicant financed out of cash on hand.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with reasons for such request.

The application of United Gas Pipe Line Company is on file with the Commission and is open to public inspection. Any person desiring to be heard or to make any protest with reference to the application shall file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition to intervene or protest. Such petition or protest shall conform to the requirements of the rules of practice and procedure (effective September 11, 1946), and shall set out clearly and concisely the facts from which the nature of the petitioner's or protestant's alleged right or interest can be determined. Petitions for intervention shall state fully and completely the grounds of the proposed intervention and the contention of the petitioner in the proceeding so as to advise the parties and the Commission as to the specific issues of fact or law to be raised or controverted, by admitting, denying, or otherwise answering, specifically and in detail, each material allegation of fact or law asserted in the proceeding.

DELAWARE POWER & LIGHT CO. AND EASTERN SHORE PUBLIC SERVICE CO. OF MARYLAND

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of May A. D. 1947.

Delaware Power & Light Company ("Delaware"), a registered holding company, and its subsidiary, Eastern Shore Public Service Company of Maryland ("Eastern Shore"), a public utility company, having filed a joint application-declaration, with amendments thereto, pursuant to sections 6 (b), 9 (a), 12 (d) and 12 (f) of the Public Utility Holding Company Act of 1935 and Rules U-43 and U-44 promulgated thereunder with respect to the following transactions:

Eastern Shore will issue and sell, from time to time, but not later than December 31, 1948, up to $2,000,000 principal amount of its 3½% promissory notes due October 1, 1973 and 20,000 shares of its common stock of the par value of $100 per share. Delaware will purchase said securities at the principal amount or par value, respectively, and upon the purchase of any notes, Delaware will purchase common stock of an aggregate par value equal to the principal amount of such notes. The major portion of the proceeds from the sale of said notes and common stock, which will not exceed $4,000,000 is to be used to finance its construction program and the remaining portion will be used to reimburse Eastern Shore's treasury for money previously expended for such construction program. The notes and stock to be acquired by Delaware will be pledged by it with the Trustee under its mortgage dated October 1, 1943 in accordance with the provisions of the Indenture of Mortgage.

The proposed issue and sale of securities by Eastern Shore have been approved by the Public Service Commission of Maryland.

The application-declaration having been filed March 24, 1947 and amendments thereto subsequently having been filed, and notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application-declaration, as amended, within the period specified or otherwise, and not having ordered a hearing thereon; and

The Commission finding with respect to the application-declaration, as amended, that the requirements of the applicable provisions of the act and rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration, as amended, be granted and permitted to become effective and deeming it appropriate to grant the request of declarants that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24 that said joint application-declaration, as amended, be, and the same hereby is, granted and permitted to become effective forthwith.

By the Commission.

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

PART 1596—FOOD IMPORTS

STATEMENT OF POLICY RE ISSUANCE OF IMPORT AUTHORIZATIONS FOR BABASSU KERNELS AND BABASSU OIL FROM BRAZIL

Pursuant to the authority vested in me under the provisions of War Food Order No. 65, as amended (12 F. R. 459) and in order to assure equitable distribution of available supplies of imported Babassu kernels and Babassu oil, it is hereby declared to be the policy of the United States Department of Agriculture to issue or deny the issuance of import authorizations for Babassu kernels and Babassu oil from Brazil under said War Food Order No. 63 as provided herein.

§ 1596.6 *Statement of policy re issuance of import authorizations for Babassu kernels and Babassu oil from Brazil under War Food Order No. 63*—(a) *Conditions of issuance.* An initial authorization to import Babassu kernels or Babassu oil, or both, from Brazil for domestic consumption, will be granted, within the limits of the 1947 allocations to the United States by the International Emergency Food Council, to any person, upon application, in any amount not in excess of 250 tons. Second and subsequent authorizations not in excess of 250 tons each will be granted to any person to import Babassu kernels or Babassu oil, or both, from Brazil for domestic consumption, within the limits of the 1947 allocations to the United States by the International Emergency Food Council, if such person makes application therefor and presents to the Administrator of War Food Order No. 63 satisfactory evidence that the quantity of Babassu kernels and Babassu oil covered by the preceding authorization granted to him has been purchased for importation in accordance with such authorization.

(b) *Procedure.* Applications for import authorizations under this section for Babassu kernels or Babassu oil, or both, may be made by properly executing and filing with the Administrator of War Food Order No. 63, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., Form WFO 63-2, obtainable from said Order Administrator.

(c) *Petition for relief from hardship.* Any person who considers that the policy and procedure set forth in this section work an exceptional or unreasonable hardship on him may file a petition for relief with the Administrator of War Food Order No. 63, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any lawful action with reference to such petitions which is consistent with the authority delegated to him by the Administrator of the Production and Marketing Administration, United States Department of Agriculture. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Administrator of the Production and Marketing Administration. After said review, the Administrator may take such lawful action as he deems appropriate, which action shall be final.

(d) *Effective date.* The policy and procedure set forth in this section shall be effective upon publication hereof in the FEDERAL REGISTER.

PART 30—FOREIGN TRADE STATISTICS

BOND TO PRODUCE COMPLETE CARGO MANIFEST AND EXPORT DECLARATIONS AFTER CLEARANCE OF VESSEL REINSTITUTED; DUPLICATE COPIES OF EXPORT DECLARATIONS TO BE FILED FOR VESSEL SHIPMENTS

1. Section 30.30 (a) is amended to read as follows:

§ 30.30 *Manifests of vessels; Shipper's Export Declarations; clearance.* (a) Before clearance shall be granted to any vessel bound to a foreign place or noncontiguous territory of the United States, the master shall file a manifest with the Collector of Customs on Customs Form 1374 of all cargo on board his vessel. There shall also be filed with the Collector declarations of the owners, shippers, or consignors of the cargo shipped by them, specifying the kinds, quantities, values, and the places to which ultimately destined. These declarations will be made in duplicate on Commerce Form 7525 in accordance with the instructions printed thereon, and the original copy of every declaration shall be verified by oath before a customs officer, notary public, or other authorized person. The oath is not required on Shipper's Export Declarations covering shipments made between the United States and its territories and possessions.

2. Section 30.31 is amended to read as follows:

§ 30.31 *Clearance on incomplete manifest under bond.* Clearance may be granted on incomplete cargo manifest and before all Shipper's Export Declarations have been filed, upon the application to the Collector of Customs on Customs Form 7301 and the execution of the bond printed thereon. The condition of the bond is that a complete outward manifest of all cargo laden on board the vessel, together with all the export declarations covering all cargo, shall be filed with the Collector of Customs not later than the fourth business day (T. D. 51504) after clearance of the vessel. If required by the Collector, pro forma declarations on Customs Form 7303 must be filed enumerating shipments for which declarations are missing.

3. Paragraphs (a), (c) and (e) of § 30.42 are amended to read as follows:

§ 30.42 *Shipments from the interior for export; shipments or declarations originating at a port of exportation.* (a) For goods shipped on a through export bill of lading from an interior point to a foreign country or to a noncontiguous territory of the United States, the shipper must prepare and deliver to the carrier the export declaration in duplicate to accompany the waybill to the seaport, airport, or border port of exportation.

* * * * * *

(c) Upon arrival of the goods at the seaboard, or airport, the carrier will deliver two copies of the Shipper's Export Declaration to the Collector of Customs who will retain the original, certify and deliver the duplicate to the party designated to attend to the exportation, to be delivered to the exporting vessel or aircraft as a permit to export and evidence that the original Shipper's Export Declaration has been filed with the Collector.

* * * * * *

(e) If the shipment originates or the Shipper's Export Declaration is prepared at the port of exportation, the shipper must deliver the declaration in duplicate to the Collector of Customs. Collectors shall retain the original and indicate on the duplicate copy, which is for presentation by the shipper to the transportation company to be attached to the outward vessel, aircraft, or car manifest, that it has been verified as a copy of the declaration retained by the Collector. This duplicate copy when returned to the Collector shall be forwarded by the Collector to the Customs Statistics Section, Foreign Trade Division, Bureau of the Census, Customhouse, New York 4, New York.

4. Section 30.43 is amended to read as follows:

§ 30.43 *Divided shipments.* If a shipment is divided at the port of exit by accident or intention, part being exported in one vessel, airplane, or car and part in another, the agent of the carrier will note the amount shipped on the declaration attached to the vessel, air, or car manifest. Declarations covering subsequent shipments must be prepared by the carrier's agent in duplicate from records of the previous shipment and be presented to the Collector when the remainder is shipped. The number of the original declaration must be noted on the original and duplicate copy of the declaration covering the remainder of the shipment.

5. Section 30.44 is amended to read as follows:

§ 30.44 *Exportations from Alaska, Hawaii, and Puerto Rico via the United States.* Shipper's Export Declarations in duplicate must accompany merchandise shipped from Alaska, Hawaii, and Puerto Rico for transshipment and exportation from a port in the United States and be delivered by the shipping agent to the Collector of Customs at such port of exportation, with the name of the exporting vessel noted thereon.

This decision is effective immediately, and Foreign Commerce Statistical Decisions 2, 3, 6, 9, 33, 36 and 46 are accordingly amended.

[Priorities Reg. 28, as Amended May 9, 1947, Direction 26]

PART 803—PRIORITIES REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

USE OF MATERIALS AND EQUIPMENT OBTAINED WITH CC RATINGS

The following amended direction is issued pursuant to Priorities Regulation 28:

(a) *What this direction does.* Priorities Regulation 28 and Direction 18 to PR-28 formerly provided for the issuance of CC ratings to obtain materials and equipment required by manufacturers of critical building products, and by certain other persons. Issuance of CC ratings was discontinued at the end of the 1st quarter of 1947.

Materials and equipment obtained with CC priorities assistance were required to be used if possible for the production of the specific item or items for which the assistance was granted. This direction provides that if it becomes impossible for a building product manufacturer who obtained materials and equipment with CC priorities assistance to use the materials and equipment in the kind of production for which the assistance was given, he may use them instead for the production of any of the housing items listed on Schedule A to PR-33. If even this use is impossible for the manufacturer, he may appeal for relief in accordance with the Appeals Order.

(b) *Use of materials or equipment obtained with CC ratings.* Materials and equipment obtained with CC priorities assistance under Priorities Regulation 28 or Direction 18 to PR-28 by producers of building products must be used if possible for the production of the specific item or items for which the priorities assistance was granted. If this becomes impossible, such materials or equipment may be used for the production of any of the items listed on Schedule A to PR-33. (12 F. R. 2118)

(c) *Appeals.* Any person who is unable to comply with the provisions of paragraph (b) of this direction may appeal for relief in accordance with the Housing Expediter Appeals Order. (12 F. R. 2121)

PART 807—SUSPENSION ORDERS

ELMER W. MOTTERN

Elmer W. Mottern, 702 Trail Avenue, Frederick, Maryland, on March 21, 1947, filed with the Federal Housing Administration, application Form OHE 14-56 for authorization to construct a single-person dwelling, located at 28 Rosemont Avenue, Frederick, Maryland. In the said application, he represented the proposed structure would have a floor area of 1,480 square feet. Based upon this representation, the Federal Housing Administration authorized construction of the dwelling. In submitting the application, Elmer W. Mottern wilfully made false and misleading statements, and concealed material facts from the Federal Housing Administration, in that he failed to disclose the building was more than 50% completed, and had a floor area amounting to 2,281 square feet. This misrepresentation and concealment subjected Elmer W. Mottern to action provided in paragraph (j) of Veterans' Housing Program Order 1. This action has diverted critical materials to uses not authorized by the Office of t[illegible] Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.29 *Suspension Order No. S-29.* (a) The authorization granted Elmer W. Mottern on Form OHE 14-56, dated March 25, 1947, is hereby revoked.

(b) Neither Elmer W. Mottern, his successors or assigns, nor any other person shall do any further construction on the premises located at 28 Rosemont Avenue, Frederick, Maryland, including putting up, completing or altering the structure.

unless specifically authorized in writing by the Federal Housing Administration o. the Office of the Housing Expediter.

(c) Elmer W. Mottern shall refer to this order in any application or appeal which he may file with the Federal Housing Administration or the Office of the Housing Expediter for authorization to carry on construction.

(d) Nothing contained in this order shall be deemed to relieve Elmer W. Mottern, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter except insofar as the same may be inconsistent with the provisions hereof.

Issued this 23d day of May 1947.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Gen. RO 19]

PART 705—ADMINISTRATION

DISTRIBUTION OF BASES TO CERTAIN NEW USERS

General Ration Order 19 is issued to read as follows:

Preamble. Section 1 (b) (3) of the Sugar Control Extension Act of 1947 provides that the Secretary of Agriculture shall "in a manner consistent with the maintenance of an effective national allocation and rationing program, make available, for other than provisional allotment users, not less than 12,500 tons of refined sugar during the period from the date of enactment of this act to and including June 30, 1947, and not less than 12,500 tons of refined sugar during the period from July 1, 1947 to and including October 31, 1947, to provide for the needs of hardship cases, for the needs of new industrial sugar users (with particular reference to the needs of shortage areas caused by population shifts) and for the needs of those who have an insufficient base period history to operate currently at competitive levels (and shall consider, as a determining factor in those cases where there is such insufficient base period history, the rate of growth of such user prior to the base period year)." This general ration order and companion amendments to the sugar rationing regulations are designed to effectuate this mandate.

New businesses. The sugar rationing regulations permit any person to apply for and obtain sugar for a new business which will be engaged in canning of fruits and vegetables and for the processing of certain other foods. Unrestricted entry into such businesses is designed to permit preservation of important food commodities in ways which require relatively small use of sugar in relation to total food involved. In addition, anyone may obtain sugar for the serving of meals. Such rations are obtained at a limited rate for each meal service. This was designed to facilitate expansion of necessary public feeding facilities during the war and to fit the issuance of rations for that purpose to the needs of a rapidly shifting population. Moreover, anyone may open an establishment for the production or distribution of sugar. Thus, any person may open a retail, wholesale or primary distributor establishment to deal in or produce sugar.

The short supply situation, however, required that the total amount allocated for most industrial uses and for refreshment services be curtailed. This curtailment was accomplished by giving such businesses a percentage of their use during the base period prior to the rationing of that food. Since established businesses were thus restricted, it was felt inequitable to permit free opening of new businesses. On March 22, 1945, however, in order to give recognition to the intent of Congress as indicated in "The Servicemen's Readjustment Act of 1944", General Ration Order 18 provided for the establishment of bases to certain former members of the armed forces for industrial use and for the service of refreshments. In addition, throughout the period of rationing, sugar was made available for use in connection with the needs of the national defense, as for example, for use in production of bomber parts, even though no base period use for such purpose existed. However, aside from these provisions, there were no generally applicable methods provided by which any person, not a veteran, could enter into such businesses.

Congress, however, in the Sugar Control Extension Act, set forth its intention that, at this stage in the general reconversion from a war-time to a civilian economy, persons other than veterans should also be permitted to enter into sugar using businesses. It was recognized, however, that only a limited amount of sugar could be made available for this purpose without seriously impairing the effectiveness of the rationing program. Provision was therefore made, as stated above, that 25,000 tons of sugar should be available for such new users (and for the other specified cases) during the period from April 1, 1947, through October 31, 1947. Of course, if sugar is distributed to the extent provided during the second quarter of 1947 for "new businesses," it must be assumed that these same new businesses must be provided with a similar amount for the period July 1 to October 31, 1947, if they are to be permitted to continue in operation. Therefore, issuance of sugar during the second quarter for this purpose will almost automatically create a charge against, and a using of, the allocation for the same purpose for the remaining life of the rationing program.

This order, therefore, provides that, within the limited quantity available, any person who wishes to enter into a sugar using business may apply for a sugar base for such purpose.

There have been two major possible ways suggested for determining sugar bases for new users:

(1) The productive capacity of the new user could be determined. This capacity, or a reasonable percentage thereof, could be set up as the new user's base, and allotments granted by application to that base of a percentage factor in light of the sugar supply available for such use.

(2) A procedure similar to that used for veterans under Revised General Order 18 could be adopted. Under this method, fixed bases would be set up for the production of various products or groups of products, without regard to the productive capacity of, number of employees, or investment made in the business.

Either of these methods could be used on a "first come—first served" basis, permitting issuance of bases to new users only up to a fixed over-all amount available for that purpose, rather than free entry of all new users without over-all quantity limitation.

Experience has shown that the first plan, "the capacity formula", is extremely difficult of administration and that it is time-consuming if properly applied. If, as is expected, many thousands of new users would enter business if permitted so to do, the administrative job of individual capacity determination in these thousands of cases would be so great that many applicants would not receive bases and allotments without long delays up to many months in length. In practice then, this breakdown in the "capacity formula" could be avoided only by acceptance of the capacity claims of the users themselves, without investigation into the bona fides of these claims. In view of the multitude of methods for determining "capacity" this would inevitably lead to grave inequities among such new users, and, equally clearly, as between new users and established users.

It is clear also that if the capacity formula for all new users were adopted, only a small number of new users could enter into business within the limited amounts of sugar allotted to that purpose, unless there were a limitation on the amount each user could obtain, which in practice would reduce this plan to a mere variation of the other. Moreover, it is clear from the legislative debates and hearings that Congress intended to encourage the development of as many new businesses as the limited amount of sugar available could accomplish. Experience under the veterans' regulations has demonstrated that the amounts available thereunder are sufficient to establish new businesses and will provide for a maximum number of new businesses. This order therefore provides, as does the veterans' order, that a new user who applies for a sugar base will be granted a base in the amount of the sugar requested, that of a comparable establishment in the same area serving the same class of customers, or the maximum set up in the order for that class of product, whichever is smaller.

Since it is clear that Congress intended sugar bases to be distributed to new industrial and refreshment service users, and not for the purpose of increasing supplies of existing users, these regulations also provide, as does the veterans' order, that, generally, a person who now has a sugar using establishment or who has had a sugar using establishment under rationing will not be eligible to obtain a base hereunder. For similar reasons this order provides that a new user who is financed or otherwise controlled by established industrial or institutional users is not eligible for a new user base, nor will new users be permitted to make products which are generally destined for industrial or institutional user rather than for consumer use. Thus, an applicant will not be permitted to establish a base for making fondant, which is a product generally sold only to bakers and other industrial users, nor would the applicant be permitted to make fountain syrup other than that which he would package in consumer size containers. Various other restrictions which experience under the veterans' order has indicated are necessary in order to guard against fraud in the obtaining of allotments and use of sugar by established industrial users under the guise of new users are also made a part of this regulation. Thus, there are provisions against tolling, use of the premises and equipment of established users, and limitations on the transfer of business.

Congress was interested not only in the granting of sugar bases to new users, but also with the geographical distribution of the new bases. In the express terms of the act the new bases should be allocated "with particular reference to the needs of shortage areas caused by population shifts." In order to effectuate this intent the sugar available for this purpose is being apportioned to the various Branch Offices of the Sugar Rationing Administration in proportion to the population of the areas served by them. It is believed that processing at the Branch Offices will afford the most expeditious method of handling the issuance of the sugar allocations in the proper geographical proportions. The population figures are computed in accordance with the latest information available to the Sugar Rationing Administration, from the registration figures for War Ration Book Four in 1945, adjusted in accordance with information supplied by other government agencies, State Boards of Education and other reliable data submitted by various state and county organizations since that time. To assure that both types of operations are taken care of in the distribution of sugar bases, each Branch Office's quota is further divided into quotas for industrial use and quotas for institutional refreshment bases in the same proportion that the amount of sugar for industrial use granted under General Ration Order 18 bears to the amounts granted for institutional refreshment use.

Obviously the amount of sugar available for this purpose will not be sufficient to provide bases for every individual who wishes to enter into a sugar using business. The most reasonable method for handling applications, therefore, seems to be to consider only those applications filed since March 31, 1947 on the basis of "first come—first served" until all of the sugar available for this purpose has been allocated. Each other method considered presents insurmountable administrative difficulties or inequitable results. For example, all applications filed for new businesses since the beginning of the rationing program could have been revived and considered in connection with this new program. Even assuming that it would be administratively possible to identify all of the thousands of applications for this purpose which were made during the past five years the rationing program has been in effect, it is clear that, in view of the great number of such applications, all the sugar allocated for this purpose would be used up in supplying these applicants without recognition of the claims of persons who applied for the first time with specific knowledge of and specific reference to the mandate stated, for the first time, in the Sugar Control Extension Act of 1947. On the other hand, consideration, in addition to those made on or after March 31, 1947, of only those applications filed prior to that

date on which decision had not yet been rendered, creates, first, an inequity in favor of such persons against the multitude who applied previously and were denied, and, second, a lesser but still real inequity against those persons who applied, and would apply, for the first time in contemplation of the new legislative provisions. Accordingly, it was believed most equitable to consider for this purpose only those applications as to which a reasonable presumption could be indulged that they had been filed with knowledge of and in contemplation of the mandate requiring establishment of new sugar using businesses. It is, therefore, provided that all applications made on or after March 31, 1947, the date of enactment of the Sugar Control Extension Act, shall be processed in the order of their filing on and after that date

Hardship and insufficient base period history adjustments. The act also requires the Secretary of Agriculture to provide "in a manner consistent with maintenance of the national allocation and rationing program . . . for the needs of hardship cases . . . and for the needs of those who have an insufficient base period history to operate currently at competitive levels . . .". Since the inception of the sugar rationing program adjustments of various kinds have been granted to persons who were found to suffer hardships imposed by the operation of the rationing system, or to be placed thereby in an unrepresentative competitive position. Thus, for example, a person whose sugar use during the base period, 1941, was curtailed by a fire, strike or other catastrophe was granted an adjustment to compensate for the unrepresentative nature of his base period history occasioned thereby. In the case of persons who, during the base period, invested in productive equipment and facilities it was clear that their base period history could not adequately reflect utilization of such new equipment or facilities, and that allotment of sugar to them on the basis of their actual base period usage was unrepresentative of their proper competitive position in the industry, and caused hardship. Accordingly, a pre-rationing investment adjustment which permitted increases in base period usage to reflect the additional sugar using capacity thus acquired by such individuals was made. These are merely two examples of the various kinds of adjustments which have been made from time to time in the course of the sugar rationing program to mitigate hardship caused by the operation of that program, other than the general hardship necessarily imposed by the shortage of sugar itself, and to equalize the competitive positions of persons who, as of the inception of the rationing program, possessed similar facilities and equipment.

No hardship has generally been deemed to be imposed by the operation of the rationing program upon persons who, during the course of such program, purchased additional equipment or set up a new plant, since they did so with full knowledge of the existence of the limitations imposed by the rationing program. It is the opinion of the Secretary of Agriculture that, as a general rule, such situations still do not constitute hardship cases within the meaning of the statutory mandate to make some provision for such cases, and that treatment at this time of such situations as constituting an insufficient base period history for current operation at competitive levels would be inconsistent with maintenance of the national allocation and rationing program.

On the other hand, many industrial users who have been in business since before 1941, the base period for the rationing program, operated during 1941 at a level which, in terms of the capacity of their equipment, was below that of the lowest percentage of operation of a substantial portion of the industry. Continued operation during rationing on an allotment which reflected this very low rate of use during their base period can be presumed to impose hardship upon them in that their rate of operations seems clearly unrepresentative of the normal rate of operation of the industry of which they are a part. Whether such cases be considered to fall within the "hardship" or the "insufficient base period history" cases envisaged by the Sugar Control Extension Act, it seems clear that this is one of the types of situations that Congress had in mind for correction by that act.

Under the rationing program individuals who purchased sugar using businesses for continued operation received the bases which were then assigned to the businesses purchased. In many cases, however, although the business which was purchased was entitled to receive an increased base by way of adjustment under one or another of the adjustment rules outlined above, no application therefor had been made by the original owner up to the time the business was sold. It was believed that since the purchaser knew the size of the business and of its base which he was purchasing, he suffered no hardship in being required to continue to operate on that base without adjustment, and, accordingly no adjustment in base was made in such a case to the purchaser of a business. It seems clear however that such businesses are, by operation of this rule, caused to operate at levels below the normal competitive level which they would have achieved but for the institution of rationing, since the base period history of the purchased business had been rendered unrepresentative of its true competitive position in the industry by virtue of the fire, strike, pre-rationing investment or other circumstance which would have entitled the original owner of that business to receive an adjustment.

It is the opinion of the Secretary of Agriculture that granting of appropriate adjustments to any person whose base is below the level at which, in terms of the productive capacity of his facilities, the lowest substantial segment of his industry operated in 1941, to increase his base to that level, and to any person now owning a business which, because of an unrepresentative or insufficient base period history, would have been entitled to an adjustment had the original owner thereof applied for such adjustment, will relieve many hardship cases heretofore unrecognized, and will permit current operation of such businesses at the competitive levels which they could have attained but for rationing.

It is further the opinion of the Secretary that these adjustments give as full consideration to the "rate of growth" of such users prior to 1941 as is administratively practicable, consistent with effective maintenance through October 1947 of the rationing program. The potential business growth factor inherent in changes in investments is fully recognized in the adjustments hereby provided and those already in effect.

The Secretary is of the opinion, therefore, that the adjustments hereby authorized satisfy fully the requirements respecting "hardship" and "insufficient base period history" cases contained in section 1 (b) (3) of the Sugar Control Extension Act of 1947.

The statutory mandate requires allocation of not less than 12,500 tons of refined sugar for all the declared purposes for each of the periods designated. It has been impossible to calculate how this amount could be so divided among the various purposes for which, under the new program, it is required to be allocated, as to give a fair share thereof of each purpose. Accordingly, since a major concern of the Congress was with the establishment of new businesses, the Secretary has concluded that full compliance with the statutory intention, so far as new businesses are concerned, can best be assured by assigning, for that purpose alone, the full minimum allocation of 12,500 tons of sugar per quarter. In order to permit uniform processing of all allotment issuances for established and for these new users, this quantity is being issued in the form of bases rather than allotments, so calculated that, at the current allotment rates, the issuances will result in a total actual issuance of 12,500 tons. For the other program changes additional sugar will be made available above this minimum amount so long as such additional allocations will not endanger effective operation of the rationing program itself. In this way, in the opinion of the Secretary of Agriculture, there can be no question but that there will be made available for these special purposes at least as much sugar as was intended to be made available under the terms and intention of the legislation.

AUTHORITY: Section 705.5 issued pursuant to the authority vested in the Secretary of Agriculture by the "Sugar Control Extension Act of 1947."

ARTICLE I—NEW BUSINESS

SECTION 1.1 *Who may apply.* (a) Any person who qualifies under the provisions of section 1.4 of this order and who wishes to open an industrial user establishment or to obtain a base for refreshment services, or a combination of both, may apply for registration and a base or bases for one or both of these purposes. However, any person who, at the time of application, has a administrative order or a court order outstanding against him which suspends his right to deal in sugar or prohibits him from dealing in sugar may not apply under this order.

SEC. 1.2 *Where he applies.* (a) Application must be made to the Branch Office for the place where his establishment will be located.

SEC. 1.3 *How application is made.* (a) Application may be made on or after March 31, 1947. The application must be in writing and may be either on SRA Form R–1234 or in any written form. However, if an application is not made on SRA Form R–1234, all of the information required by that form, as set forth in section 4.5 of this order, must be submitted by the applicant in accordance with the provisions of section 1.5 of this order before final action will be taken.

SEC. 1.4 *Eligibility requirements.* No person may be granted on his application a base under this order unless he meets the following requirements:

(a) The applicant is or will be either the principal owner and active head of the business covered by the application, or is or will be a joint owner of the business and will be actively engaged in the operation of such business and the financial interest held by himself and by members of his immediate family or persons who are themselves eligible for a base under this order aggregate the principal ownership of the business. (Principal ownership means that the applicant himself or the applicant along with members of his immediate family or other eligible persons owns more than 50% interest in the proposed establishment.)

(b) He must have or will acquire the premises and equipment needed for the operation of the business for which he is applying. The equipment must consist of the size and type of productive sugar using equipment necessary to produce the type of product and to utilize the amount of sugar for which a base is requested. If a person make application for a base before he acquires such premises and equipment, he must state the size and type of equipment and premises which he will obtain if he is granted a base under this Order and he will be given a written statement as to the amount of the base he may obtain upon acquiring the equipment and premises as stated in the application. However, allotments will not be issued until the applicant notifies the Branch Office that he has obtained the necessary premises and equipment. If it is found that the productive equipment for the establishment for which the base has been granted is not sufficient to utilize the amount of sugar obtained with respect to the base which has been granted, the Branch Office may reduce the base so that the amount of sugar obtained with respect to such reduced base can be utilized with the productive equipment which the registrant has or acquires.

(c) He must not be financed directly or indirectly in the operation of his business by any person already registered as an industrial user under Third Revised Ration Order 3, Revised General Ration Order 18, or as an institutional user under Revised General Ration Order 5, or Revised General Ration Order 18. (An industrial or institutional user may not have any financial interest in the applicant's business, or profits derived therefrom. Thus, the applicant may not owe an industrial or institutional user money under any arrangement where such person supplies on credit to him premises, equipment or materials needed to operate the applicant's business. However, an industrial or institutional user may sell or deliver to a person who has been granted a base under this Order the ingredients contained in products such person will make or serve under an arrangement whereby payment in full is made within a period not exceeding thirty days after each separate delivery of such ingredients. Moreover, a bona fide lease between the applicant and such persons for premises or equipment is permissible under the order).

(d) He will not use the premises in use by an industrial or institutional user and he will not use the equipment in use by any person for commercial purposes. (For example, he may not lease equipment for only part time use by himself).

(e) Except as otherwise provided herein and in paragraph (f), he must not at the time of application have any sugar using business for which he receives an allotment or allowance under Third Revised Ration Order 3, Revised General Ration Order 18, or Revised General Ration Order 5 and must not have had any sugar using business at any time since April 20, 1942 for which he received an allotment or allowance which he was entitled to receive as an industrial or institutional user under the Sugar Rationing Regulations. (The provisions of this paragraph do not apply to persons who receive or have received allotments for experimental, testing or educational purposes, persons who receive or have received sugar or evidences for industrial use under a tolling arrangement, persons who receive or have received sugar or evidences for manufacturing products for an exempt agency).

(f) Even though a person has an institutional user meal service base under the provisions of Revised General Ration Order 5, he may apply for an incidental refrshment base for his establishment. If a person has had at any time since April 20, 1942, a meal service base, but has not had a refreshment base, he may apply only for a refreshment base under this order and is not eligible for a base as an industrial user.

SEC. 1.5 *Action on the application.* (a) The Branch Office shall accept applications under this order only if filed in writing on or after March 31, 1947. Applications shall be considered and determined in the order they are filed. For the purposes of determining the order of filing, the postmark date shall be used if the application was mailed, the date of receipt if the application was personally delivered or made by telegraph. If, after the effective date of this Order, any application is received at the National Office, Regional Office, or any Branch Office other than the one at which the application should properly be filed, the date of filing of such application will be the date on which it is received by the Branch Office at which it should have been filed, after forwarding by the Office at which it was originally received. If it is necessary, in order to process applications filed on or after March 31, 1947, to have additional information, the Branch Office shall send to the applicant by registered mail, return receipt requested, a copy of SRA Form R–1234 which shall be completed and returned by the applicant within 14 days after such application form has been received by him. However, if such application form, or any written document containing all of the information required in section 4.5 of this order, is not returned to the Branch Office within the 14 day period, the submission of the additional information must be treated as the filing of a new application by the applicant. Completed information returned to the Branch Office within the 14 day period shall be deemed to have been filed as of the time the original application was filed.

(b) If the Branch Office finds that the applicant qualifies under the provisions of this order, it shall establish a base or bases in accordance with the following procedure:

(1) If the person applies for a base for industrial use to make one of the products or uses listed in section 4.3, it shall register the applicant on OPA Form R–1200 and grant him a base. The base granted, however shall be the base of a comparable establishment in the area in which his establishment is located, the amount requested, or the maximum for that group of products as listed in section 4.3, whichever is smallest. If the products or uses which the applicant wishes to make are not included in section 4.3, the Branch Office may not act upon the application but must send it, together with any other

information received, to the Washington Office for decision, or take such other action as the Washington Office may authorize or direct.

(2) If the person applies for a base to make refreshment services of a type listed in section 4.4, it shall register him as an institutional user and grant him a refreshment base. The base granted, however, shall be the base of a comparable establishment in the area in which his establishment is located, the amount requested or the maximum for his type of refreshment service as listed in section 4.4, whichever is smallest. If the type of refreshment service which the applicant wishes to make is not included in section 4.4, the Branch Office may not act upon the application but must send it, together with any other information received, to the Washington Office for decision, or take such other action as the Washington Office may authorize or direct.

(3) If the person applies for bases to make more than one group of products or uses listed in section 4.3, or to make more than one type of refreshment services listed in section 4.4 or for a combination industrial and institutional use, it shall register the applicant as an industrial user or as an institutional user, or both, as the case may be, and grant him a base or bases for the operations for which he applies. However, the base or bases granted shall be the smallest of the following:

Base or bases of a comparable establishment in the area in which the establishment is located, the amount requested, or with respect to each group of products or type of refreshment service for which he requests a base, the percentage requested by him of the base for that group of products or type of refreshment service which he could obtain under subparagraph (1) or (2) of this section, if he were to engage only in making that group of products or providing that type of refreshment service.

In no event, however, shall the Branch Office establish a base or bases for any applicant where the establishment of such base or bases would exceed the quota of sugar authorized to be distributed by the Branch Office under this order. (Thus, if only 20,000 pounds in base quota for industrial use remains available for distribution by a Branch Office, the base established for the applicant, who is then eligible for a base, may not exceed 20,000 pounds. If that applicant refuses to accept this amount, the next eligible applicant shall be granted the amount of base to which he is entitled but not in excess of 20,000 pounds, and so on, until the 20,000 pounds is fully distributed.)

(c) The filing of an application for the establishment of a base under this order will also be deemed to be an application for the allotment to be issued during the quarter in which the base is established. The issuance of an allotment during the quarter in which the base is established will not be subject to the provisions of section 2.2 (b) of Third Revised Ration Order 3 or section 5.3 (c) of Revised General Ration Order 5.

(d) If two or more persons eligible for a base under this order apply for a base for the same establishment, the base granted for the establishment may not be larger than if only one applies.

SEC. 1.6 *Use of allotments.* (a) No person who obtains a base under this order may use his allotments of sugar for any product or refreshment service, not included in the group of products or type of refreshment service, for which he was granted the base or bases. Furthermore, no such person may use more sugar in an allotment period for any group of products or type of refreshment service, for which he has been granted a base, than his allotment for that period plus any unused part of his allotments for earlier periods.

SEC. 1.7 *Excess inventory.* (a) The determination of excess inventory and the manner in which adjustments and charges for such excess inventory are made, as set forth in section 2.8 of Third Revised Ration Order 3 and 9.7 of Revised General Ration Order 5, shall apply with equal force and effect in this order.

ARTICLE II—TRANSFER AND MOVING

SEC. 2.1 *Transfer of establishment.* (a) If an establishment for which a base has been granted under this order is transferred after registration, the transferee may not receive the base granted pursuant to this order or the current allotment or any unused parts of prior allotments issued with respect to that base for the transferred establishment. However, if the registrant dies after the registration the transferee of the establishment may be granted the base and the current allotment and unused parts of prior allotments, and the transferee is not subject to the restrictions of this order but is subject to the provisions of Third Revised Ration Order 3 or Revised General Ration Order 5, whichever is applicable.

SEC. 2.2 *Moving of establishment.* (a) A person who is granted a base under this order may move that establishment only if he gets permission from the Branch Office with which he is registered. The applicant must apply in writing to the Branch Office with which he is registered and must state the city and state to which he wishes to move his establishment. Permission to move an establishment shall not be granted in any case unless the new location to which the applicant wishes to move is in the area over which the Branch Office from whose quota his base was established had jurisdiction on April 1, 1947.

(1) If the base of a comparable establishment in the new location to which the applicant wishes to move is the same as or greater than the applicant's base, permission to move shall be granted. However, the applicant's base shall not be increased to that of the comparable establishment in the new location nor to the maximum base established under the order if the applicant does not have the maximum base.

(2) If the base of a comparable establishment in the new location is less than the applicant's base, permission to move shall be granted but his base shall be reduced to that of the comparable establishment.

ARTICLE III—PROHIBITIONS AND REVOCATION

SEC. 3.1 *Prohibitions and restrictions.* (a) A person who has been granted a base under this order shall not do any of the following:

(1) Transfer (toll) any sugar or evidences obtained on the base received under this order to another person for industrial or institutional use;

(2) Use the premises in use by an industrial or institutional user or use the equipment in use by any person for commercial purposes;

(3) Be financed directly or indirectly in the operation of his business by any industrial or institutional user so that the conditions imposed by section 1.4 (c) are no longer true;

(4) Transfer the ownership interest in the business or cease to be actively engaged in the operation of the business so that the conditions imposed by section 1.4 (a) are no longer true;

(5) Use his allotments of sugar for any product, or refreshment service, not included in the group of products or type of refreshment service for which he was granted a base or bases;

(6) Package the finished product, for which he was granted the base or bases, in a container greater than the maximum consumer size authorized for such product.

(b) In addition, the record-keeping requirements, the restrictions, prohibitions and conditions of Revised General Ration Order 5, General Ration Order 8 and Third Revised Ration Order 3 apply with respect to any base granted under this order except where otherwise specifically provided by this order.

SEC. 3.2 *Revocation of base.* (a) Whenever a person who has been granted a base under this order, does any of the things prohibited by paragraph (a) of section 3.1 of this order, the Branch Office may revoke such base after a notice and hearing, or opportunity for a hearing, has been given in accordance with the procedure set forth in Article XXIV of Third Revised Ration Order 3.

ARTICLE IV—MISCELLANEOUS

SEC. 4.1 *Population increase adjustment not permitted.* (a) Population increase adjustments under section 2.3 of Third Revised Ration Order 3 may not be granted to persons receiving a base under this order.

SEC. 4.2 *Adjustment under section 17.7 of Third Revised Ration Order 3.* (a) Any person who is eligible to and does receive a base or adjustment under section 17.7 of Third Revised Ration Order 3, after having received a base under this order, will no longer be entitled to the base which he received under this order.

SEC. 4.3 *Group of products, maximum sizes, and maximum annual industrial user base for such products authorized to be established.*

INSTRUCTIONS

Who may apply for a base

You may use this form in applying for a base as a new industrial user of sugar or an institutional user refreshment base provided that:

1. You do not have a sugar base business as of the time of application, and you have not operated a business at any time since April 26, 1942 for which you were entitled to and did receive an allotment or personal allowance of sugar under the Sugar Rationing Regulations except as it has been used sugar or sugar ration evidence that you received

(a) as a follow-up person who received sugar or sugar ration evidence for the purpose of manufacturing a product for another industrial user, or
(b) for educational, experimental, or testing purposes, or
(c) from an overseas business outside the Army or Navy) for industrial use, or
(d) for a charitable use in the service of meals, and

2. You do not have an administrative order or a court order outstanding against you which suspends your right to deal in sugar or prohibits you from dealing in sugar.

Where to file application

File your application (original only) with the SRA Branch Office serving the area in which your establishment is or will be located.

Caution

You are advised NOT to invest in premises and equipment until notified by the SRA Branch Office that your request for a base will be granted.

Your base may be revoked

Your base may be revoked if you do not comply with the provisions of GRO 19. To insure your full understanding of the duty requirements of a sugar base become to read the Order.

Explanation of terms

An "institutional user" or an "industrial user" is a person who uses sugar to make a product which he will sell. If the product is made for consumption on the premises, he is generally an *institutional* user. If the product is made for consumption off the premises he is generally an *industrial* user. Thus, a person who makes and sells ice cream which he serves in dishes or cones is an institutional user, but if he packages ice cream in bulk containers for consumption off his premises he is an industrial user with respect to the sugar used in producing that ice cream.

"*Base*." The industrial user "base" is not the amount of sugar you will receive as an allotment, but is the basis upon which an allotment is computed. The annual base for industrial users will be divided into four equal quarterly amounts. An institutional user refreshment base is established on a monthly rather than an annual basis.

The base established for you will be the lowest of (1) the amount requested or (2) the base of a comparable establishment or (3) the maximum amount established by GRO 19 for the product(s) you will make or serve.

Allotment

Industrial user allotments are issued for a quarterly period of three months. The percentages in effect for all industrial users during the quarter in which your allotments are issued will be applied to your base.

Institutional user refreshment allotments are issued for a two-month period.

PART I—GENERAL

1	Are you now receiving, or have you ever received an institutional or industrial allotment or prior personal allowance of sugar (to which you were entitled) under sugar rationing? If "Yes," explain	Yes ☐ No ☐	5		Have you been, or will you be financed directly or indirectly in the operation of your establishment by an industrial or institutional user? *Example.* Purchase of equipment or premises from an industrial or institutional user on the installment plan or any other credit arrangement is indirect financing. Borrowing money or credit from an industrial or institutional user is direct financing.	Yes ☐ No ☐
2	Is there an administrative order or a court order outstanding against you which suspends your right to deal in sugar or prohibits you from dealing in sugar?	Yes ☐ No ☐	6	a	Will you share premises with another industrial or institutional user?	Yes ☐ No ☐
3	Will you be actively engaged in the operation of the proposed establishment?	Yes ☐ No ☐		b	Will the equipment that you will use be used by any other person for commercial purposes?	Yes ☐ No ☐
4	Do you (and members of your immediate family or other persons eligible for a base under General Ration Order 19) own more than 50% interest in the proposed establishment? NOTE: Immediate family means wife, husband, mother, father, daughter, son, brother or sister of the applicant.	Yes ☐ No ☐	7		Do you have another application for a base pending? If "Yes," give the address of the Office where filed. _____ (Number and Street) _____ (City and State)	Yes ☐ No ☐

If you are applying for an industrial user base, fill in Part II. If you are applying for an institutional user refreshment base, fill in Part III. If you are applying for a combined industrial-institutional user operation, fill in Part II and Part III.

PART II—INDUSTRIAL USER

8 *Instructions.* Bases may be granted for making one or more groups of products. If you will produce only one group of products read the instructions designated (a); more than one, read (b); combined industrial-institutional use, read (c). Obtain from your SRA branch office maximum bases allowed for each product or group of products, and the package sizes permitted for certain products.

(a) *One group of products.* Enter the group of products you will produce in Column A and in Column B the size in which the product will be packaged, if applicable. Enter in Column C the amount of sugar base you wish and in Column D enter 100%.

(b) *More than one group of products.* Enter the groups of products you will produce in Column A. Enter the size in which the product will be packaged (if applicable) in Column B. Determine the percentage of the maximum base that you wish for each product and enter the amount of sugar base that you wish for each group of products in Column D. The total of the percentage figures in Column D must not be more than 100%. *Example:* X applies for bases to operate a bakery. The major portion of his business will be devoted to making sweet goods. He will also make bread and rolls. He decides that he wants a base of 25,380 lbs. of sugar per year for his sweet goods operation. This is 80% of the maximum base allowed by SRA for this product. Since 80% of his total operation is to be given over to the production of sweet goods, he can not apply for more than 10% of the maximum amount allowed for bread and rolls, or a base of 1,280 lbs. of sugar. He therefore makes the following entries in Item 8: In Column A he writes "Bread and rolls only;" in Column B he makes no entry; in Column C he writes "1,280 lbs.;" and in Column D, "80%." On the next line, in Column A, he writes "General baking products;" in Column B he makes no entry; in Column C he writes "25,380 lbs.;" in Column D, "10%." The total of the percentage figures therefore equals 100%.

(c) *Combined industrial-institutional user operation.* Give the information required in Items 8 and 12. The total of the percentage figures in Column D for Items 8 and Column C for Item 12 must not be more than 100%. *Example:* Z wishes to operate an establishment manufacturing candy and serving fruitades. He decides that he wants a base of 23,175 lbs. of sugar annually for making candy. This is equal to 75% of the maximum base allowed. He therefore enters in Item 8, Column A "Candy," in Column C, "23,175 lbs.," and in Column D "75%." Since 75% of his business will be given over to the manufacture of candy, his monthly base for serving fruitades cannot exceed 25% of the maximum base for this item, or 100 lbs. (25% of 400 lbs. equals 100 lbs.). He therefore enters in Item 12, Line 5, Column B, "100 lbs." and in Column C, "25%." The combined total of the percentage figures in Items 8 and 12 therefore equals 100%.

GROUPS OF PRODUCTS

1 Bread and rolls only
2 General baking products (excluding bread and rolls)
3 Ice cream, ices, sherbets, frozen custards (excluding mixes used for any of these products)
4 Bottled beverages (non-alcoholic)
5 Candy
6 Caramel popcorn
7* Mayonnaise
8* Salad dressing
9* Baking mixes
10* Fruit compote
11* Gelatins, puddings, powdered desserts (a) in powder form (b) in prepared form
12* Insecticides
13* Jams, jellies, marmalades, preserves, fruit butters
14* Meat spreads
15* Peanut butter
16* Pharmaceuticals (a)* cough drops, (b) cough syrups, (c) general
17* Sauces (for meat, fish, poultry, etc.)
18* Spaghetti, macaroni, and noodle products packed in sauce
19* Stews (Brunswick, etc.)
20* Flavoring extracts
21* Glaced fruit for baking purposes
22* Pickles, relishes, etc.
23* Shredded sweetened coconut
24* Syrups (a) table, except chocolate (b) chocolate (c) concentrated (liquid or powder)
25* Maraschino cherries
26* Other—Specify

*Limited to consumer size packages as shown in GRO 19.

Product	Package size	Amount of sugar base requested per year	Percent of maximum base for each group of products for which sugar is requested
A	B	C	D
		Total	%

9 Give below the estimated hourly capacity of your operation for each type of product that you expect to make. *Example:* Bread and rolls, 30 lbs. per hour; bottle beverages 20 cases per hour, etc.

Group(s) of products	Estimated hourly capacity

10 Report in Column A the name of each major piece of sugar using equipment to be used in actual production of finished products in your operation. *Example:* For a bakery operation, list ovens, mixers, etc., for beverage operation, list washers and filling machines; for candy, list kettles, enrobers, etc.; for ice cream, list freezers; for doughnuts, list frying kettles and frying machines, etc.

Report in Column B the type, size and/or capacity of the equipment listed in Column A.

Example:

Column A	*Column B*
Mixer	40 quart
Filler	CEM 14 spout
Freezer	5 gal. batch type

In Columns C and D—Place a check mark (✓) indicating whether the equipment is on hand or to be acquired.

Name of equipment	Type, size and/or capacity of equipment	On hand (check)	To be acquired (check)
A	B	C	D

11 Describe the type of premises you will occupy. *Example:* Home bakery—Kitchen operation. Candy operation—Shop 15' x 20' in rear of store.

NOTE: Applications for bases for "Other" or the most listed in Items 8 and 12 forwarded by the SRA Branch Office to the Washington Office. Before forwarding such applications be sure that the information for the comparable establishment has been obtained. Applications for "Other" must also include the information that the products are to be packaged in consumer sizes for direct consumer use only.

PART III—INSTITUTIONAL USER

12 *Instructions.* Refreshment bases may be granted for institutional use establishment for the service of one or more types of refreshment services listed below in Column A. If you will serve only one type of refreshment read the instructions designated (a); more than one, read (b). Obtain from your SRA branch office maximum bases allowed for each type of refreshment.

(a) *One type of refreshment service.*—Select in Column A the type of refreshment you will serve. Enter in Column B the amount of sugar base you wish and in Column C write 100%.

(b) *More than one type of refreshment service.*—Select in Column A the types of refreshments you will serve. Determine the percent of the maximum base that you wish for each type of refreshment service and enter this percentage figure in Column C. In Column B enter the amount of sugar base requested per month for each type of refreshment. If your operation is confined to institutional use only, the total of the percentages in Column C must not be more than 100%. *Example:* Y wishes to prepare and serve snow balls. He will also serve candy floss. The major portion of his business will consist of the preparation and service of snow balls. He decides that he wants a base of 75 percent for snow balls. Since 75% of his total operation is to be given over to snow balls, he cannot apply for more than 25% of the maximum amount allowed for candy floss, or a base of 50 lbs. per month. He therefore makes the following entries. In Line 2, Column B he writes "50 lbs." and in Column C "75%." In Line 11, Column B he writes "50 lbs." and in Column C, "25%." The total of the percentage items in Column C therefore equals 100%.

(c) *Combined industrial-institutional user operation.*—Refer to the instructions in Part II for this type of operation.

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 17.1 (b) (3) is amended to read as follows:

(3) A transferee of such user or his successor may apply under the provisions of this section.

2. Section 17.3 (c) is amended to read as follows:

(c) A transferee of such person or his successor may apply under the provisions of this section.

3. Section 17.7 (c) is amended to read as follows:

(c) A transferee of such person or his successor may apply under the provisions of this section.

4. A new section 17.8 is added to read as follows:

SEC. 17.8 *Certain persons may apply for a base or an adjustment in base.* (a) The following persons may apply for a base or adjustment in base under the provisions of this section:

[1] 11 F. R. 177, 14281.

(1) Any registered industrial user who used sugar during the base period and whose sugar base, less any adjustment granted under the provisions of section 17.7, is lower than it would have been if his sugar base had been established on the basis of the capacity of the plant as of April 20, 1942, may apply for an adjustment in such base.

(2) Any person who used sugar-containing products in the manufacture of other products for sale or transfer between January 1, 1941 and April 20, 1942, may apply for a base, or for an increase in his base, if the amount of sugar contained in such sugar-containing products is less than the sugar base computed under the provisions of this section on the basis of the capacity of the plant as of April 20, 1942.

(b) Application shall be made on SRA Form R-1235 and the applicant must give all of the information required by the form. The application must be filed:

(1) At the Sugar Branch Office for the place where the industrial user establishment is registered if the application is for an adjustment in base of a registered industrial user establishment;

(2) With the Sugar Branch Office serving the area in which the applicant's establishment is located if:

(i) He does not have a registered establishment and the application covers only one establishment;

(ii) He has one establishment already registered and wishes to register separately the establishment for which application is made. (If the applicant desires to register more than one establishment and desires to register them separately, a separate application must be filed for each such establishment).

(3) With the Sugar Branch Office serving the area in which the applicant's principal office is located, if:

(i) The application covers more than one establishment and the applicant desires to register such establishments together; or

(ii) If he has more than one establishment already registered and they are registered together; or

(iii) If he has one establishment already registered and wishes to register the establishment for which application is made with it.

(c) From the information given on SRA Form R-1235 the capacity of the plant as of April 20, 1942, will be computed. For the purposes of this computation, "Capacity of the plant" means the maximum amount in units, e. g., cases, pounds, etc., of products that could be produced per hour on April 20, 1942, using all of the equipment normally used for the production of such product in the way such equipment was used on that date. In determining capacity of machinery, the manufacturer's rated capacity must be used where available. The following formula, adjusted for each individual case, will be used in computing the base or adjustment in base to be established on the basis of the capacity of the plant as of April 20, 1942:

(1) The capacity (as defined above) multiplied by the sugar content equals the capacity in pounds of sugar per hour;

(2) The capacity of sugar in pounds per hour multiplied by the number of hours per normal work week in 1941 for that industry, multiplied by 52 equals the capacity of the plant in pounds of sugar per year;

(3) Capacity of the plant in pounds of sugar per year multiplied by the figure representing the lowest percent of operation of a substantial number of firms in the industry equals the base which would be established on the basis of the capacity of the plant as of April 20, 1942. (However, if sugar-containing products were used in the base period, the amount determined herein will be reduced by the amount of sugar contained in such products).

NOTE: A similar formula is used in determining the capacity as of April 20, 1942 for using sugar-containing products, rather than sugar in producing products.

(d) The amount of adjustment, if any, to be granted under the provisions of this section shall be determined as follows:

(1) The amount by which the capacity base of the plant as of April 20, 1942, for using sugar or sugar-containing products, as determined in paragraph (c), exceeds the amount of his present base (excluding the amount of any adjustment received under section 17.7); or

(2) If the applicant does not have a sugar base, the amount by which the capacity base of his plant for using sugar-containing products as of April 20, 1942, as determined in paragraph (c), exceeds the amount of sugar used in sugar-containing products between January 1, 1941 and April 20, 1942.

(e) A person may not receive a base or adjustment under this section with respect to:

(1) His use of jams, jellies, preserves, marmalades or fruit butters as a sugar-containing product for the manufacture of any other product;

(2) His use of equipment for the production of jams, jellies, preserves, marmalades or fruit butters;

(3) His use of a sugar-containing product for which a provisional allowance may be obtained in making his product; and

(4) His use of equipment for the production of a sugar-containing product for which a provisional allowance may be obtained.

(f) A Sugar Branch Office may not act on an application filed under this section but must send the application, together with all other information received, including the entire file, to the Regional Office for decision.

(g) Any person who has received a base under the provisions of General Ration Order 19 and who is eligible for a base or an adjustment in base under this section, must give up the base which was established for him under the provisions of General Ration Order 19 before he may receive a base or adjustment in base under this section.

This amendment shall become effective May 21, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of May 1947.

N. E. DODD,
Acting Secretary of Agriculture.

Rationale Accompanying Amendment No. 46 to Third Revised Ration Order 3

Proposed amendment. 1. This amendment deletes the provision that a transferee of the person who had the industrial user establishment on April 20, 1942 may not apply for an adjustment under section 17.1 (b) or section 17.3 unless: (1) he obtained the establishment by inheritance or will; (2) the change in ownership is only as to the form of the business organization; (3) he is a member of the immediate family of the transferor who was the owner or part owner of the establishment on April 20, 1942; or (4) one or more of the owners of the establishment at the time of application for an adjustment is a person who had an ownership interest in the establishment continuously from April 20, 1942 to the date of application.

2. Section 17.7 is similarly amended by deleting the restriction that a transferee may not apply for an adjustment under the provisions of that section.

3. A new section 17.8 is added which provides that any registered industrial user whose sugar base, less any adjustment granted under the provisions of section 17.7, is lower than it would have been if his sugar base had been established on the basis of the capacity of the plant as of April 20, 1942, may apply for an adjustment in base and any person who used sugar containing products in the manufacture of other products between January 1, 1941 and April 20, 1942 may apply for a sugar base if the amount of sugar in such sugar-containing products is less than the sugar base computed under this section on the basis of the capacity of the plant as of April 20, 1942. The amount of sugar base or the amount of adjustment in sugar base to be granted to these persons is computed on the same basis as adjustments are granted to persons who invested in productive equipment during the base period or who invested in productive equipment during the war for the purpose of manufacturing sugar-containing products for the armed forces and other designated agencies.

4. A person who used jams, jellies, preserves, marmalades or fruit butters or used a sugar-containing product for which a provisional allowance may be obtained in making his product or who made jams, jellies, preserves, marmalades or fruit butters or any product for which a provisional allowance may be obtained may not receive a base or adjustment in base for such products under the provisions of this action.

5. Application for a base or adjustment in base under this section may be made on SRA Form R-1235 at the Branch Office of the Sugar Rationing Administration.

Reasons for amendment. This amendment is issued in conjunction with General Ration Order 19, the order establishing bases for new sugar businesses,

and implements the provisions contained in that order to provide for hardship and insufficient base period history adjustments under the requirements of the Sugar Control Extension Act of 1947. The reasons for the adoption of the type of adjustment, as provided by this amendment, and the justification for this type of adjustment under the express terms of the act, are fully explained in the preamble to General Ration Order 19 which is issued simultaneously with this amendment.

However, the exclusion from this adjustment provision of manufacturers who used or made jams or jellies in making their product needs further clarification herein. During 1944, manufacturers of preserves, jams, jellies, etc., were encouraged to increase the over-all supply of such items and in order to provide for such increase in supply in these items, were permitted to receive a provisional allowance of sugar for the production of fruit spreads. This meant that such persons were able to operate their plants at full capacity without restrictions as to the amount of sugar which they could obtain for this purpose. The present sugar base for such manufacturers is established on the amount of sugar used in producing these items for civilians in 1941 or the amount of sugar used in producing these items for civilians in 1944 plus 50% of the amount of sugar used in 1944 for making these products for exempt agencies, whichever is greater. Since such manufacturers were able to operate in 1944 at a level commensurate with the capacity of their plant and were not restricted in their operations, as were other industrial users, by the sugar rationing regulations, it is not necessary to grant them an adjustment based on the capacity of the plant as of April 20, 1942.

[CGFR 47-28]

PART 402—AIDS TO NAVIGATION

MISCELLANEOUS AMENDMENTS

Pursuant to the provisions of section 4 of the Administrative Procedure Act (June 11, 1946, 60 Stat. 237), a notice of a public hearing to consider regulations for lights, signals and colors for mooring buoys was published in the FEDERAL REGISTER, dated April 12, 1947 (12 F. R. 2410). The proposed amendments were published in that Notice, and since no comments were submitted and no one attended the public hearing, I therefore, by virtue of the authority vested in me by the act of June 17, 1910, as amended (33 U. S. C. 713, 759) prescribe the following amendments to the regulations to become effective on the thirty-first day after the date of publication in the FEDERAL REGISTER.

Part 402 is amended by the addition of two new sections, reading as follows:

§ 402.01 *Basis and purpose.* Pursuant to the authority in the act of June 17, 1910, as amended (33 U. S. C. 713, 759) the regulations in this part are prescribed to provide a standard by which devices relating to the general safety of navigation are established and maintained, also to provide an efficient, uniform and economic administration of this service.

§ 402.17 *Mooring buoys: lights, signals and colors.* The approval of lights, signals and colors for properly authorized mooring buoys (33 U. S. C. 403) must be obtained, prior to establishment, from the District Commander of the Coast Guard district in which the structure will be situated. Applications for such approval shall be submitted on Coast Guard Form 2554 in accordance with the procedure set forth in § 402.4, insofar as they are applicable to the particular case.

(34 Stat. 324 as amended; 33 U. S. C. 759)

Dated: May 21, 1947.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 16—RAILROAD RADIO SERVICE

FREQUENCIES

In the matter of amendment to § 16.61 of the Commission's rules and regulations governing Railroad Radio Service.

At a meeting of the Federal Communications Commission held at its offices in Washington, D. C., on the 8th day of May 1947;

It appearing, that, pursuant to proceedings in Docket No. 6651, a final decision was rendered by the Commission on May 25, 1945, allocating a stated number of channels in the frequency spectrum from 25,000 to 30,000,000 kilocycles to the various nongovernment radio services, and providing that further reports allocating specific frequencies in these bands would be made at a later date; and

It further appearing, that on July 12, 1946, the Commission issued its proposal for the final allocation of specific frequencies in the band 152–162 megacycles; that copies of this proposal were served upon all interested parties; and

It further appearing, that written comments, briefs and recommendations were filed by interested parties, and oral argument was held on February 3, 1947, and

It further appearing, that some of the recommendations were adopted and others were rejected; and that on March 20, 1947, a final decision was rendered by the Commission allocating specific frequencies in the band 152–162 megacycles to the various nongovernment radio services; and

It further appearing, that a part of the frequency allocations made by the report of March 20, 1947 is at variance with existing provisions of § 16.61 of the Commission's rules and regulations governing Railroad Radio Service, which enumerates the frequencies available for use of railroad radio stations; wherefore it is necessary that § 16.61 be amended to conform with the frequency allocations in the Commission's report of March 20, 1947;

It is ordered, That effective June 15, 1947,[1] § 16.61 of the Commission's rules and regulations governing Railroad Radio Service be and it is hereby amended to read as follows:

§ 16.61 *Frequencies.* The following frequencies (in megacycles) are allocated to the following classes of stations in the Railroad Radio Service:

(a) To train radio stations primarily for stations on board railroad rolling stock and for land stations primarily for use in communicating with stations on board railroad rolling stock:

158.37	159.09	159.81	160.53	161.25
158.43	159.15	159.87	160.59	161.31
158.49	159.21	159.93	160.65	161.37
158.55	159.27	159.99	160.71	161.43
158.61	159.33	160.05	160.77	161.49
158.67	159.39	160.11	160.83	161.55
158.73	159.45	160.17	160.89	161.61
158.79	159.51	160.23	160.95	161.67
158.85	159.57	160.29	161.01	161.73
158.91	159.63	160.35	161.07	161.79
158.97	159.69	160.41	161.13	161.85
159.03	159.75	160.47	161.19	161.91

These frequencies may also be used on a secondary basis for intercommunication between adjacent land stations provided interference is not caused to communications involving mobile train radio stations.

(b) To yard and terminal and to railroad utility radio stations:

(1) All frequencies in paragraph (a) of this section except 158.43, 159.09, 159.57, 159.81, 160.53 and 161.01 Mc, provided interference is not caused to train radio stations. Each application requesting assignment of one or more of these six frequencies for use by yard and terminal or by railroad utility stations shall show why interference will not be caused to train radio stations.

(2) Specific frequencies to be designated within the following television channels: 44–50; 54–60; 60–66; 66–72; 76–82; 186–192; 192–198; 198–204; 204–210, and 210–216 Mc. Frequencies so designated will be assigned on a mutually noninterfering basis subject to such additional limitations and restrictions as may be deemed necessary.

(c) The assignment of any of the frequencies enumerated in paragraphs (a) and (b) of this section may be restricted in use to one or more specified geographic areas, and may be authorized for use by one or more licensees.

(d) The frequency or frequencies immediately available for assignment to any particular area or railroad may be ascertained by communicating with the Secretary of the Federal Communications Commission Washington 25, D. C.

(Sec. 303 (e), 303 (f), 48 Stat. 1082; 47 U. S. C. 303 (e), 303 (f))

By the Commission.

[Docket No. 7858]

PART 18—INDUSTRIAL, SCIENTIFIC AND MEDICAL SERVICE

ORDER WITH RESPECT TO MEDICAL DIATHERMY AND INDUSTRIAL HEATING EQUIPMENT AND NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO MISCELLANEOUS EQUIPMENT

At a session of the Federal Communications Commission at its offices in Washington, D. C., on May 8, 1947;

The Commission having under consideration its proposed rules "In the Matter of Promulgation of Rules and Regulations Governing Medical Diathermy Equipment and Industrial Heating Equipment" (Docket No. 7858) which were the subject of hearing and oral argument on December 18 and 19, 1946; and

The Commission having under study and consideration the testimony and other evidence received during the said hearing and oral argument, and having revised the said proposed rules in certain respects upon the basis of such study and consideration, including among such revisions the addition of certain provisions which would make the said rules applicable in part to miscellaneous equipment as defined in § 18.2 (d) thereof; and

The Commission having determined that the said rules as revised should be adopted in final form insofar as they are applicable to the operation of medical diathermy equipment and industrial heating equipment, and that the said rules should be adopted as proposed rules insofar as they would be applicable to the operation of miscellaneous equipment as defined in § 18.2 (d) of such rules; now, therefore, *It is hereby ordered*, That:

1. The rules set forth in the annexed Part 18 of the Commission's rules and regulations be, and the same are hereby, adopted as final insofar as they are applicable to the operation of medical diathermy and industrial heating equipment, effective June 15, 1947.[1]

2. Pursuant to sections 4 (i), 301, and 303 of the Communications Act, the rules set forth in the annexed Part 18 of the Commission's rules and regulations be, and the same are hereby, adopted as proposed rules insofar as the rules therein are applicable to the operation of miscellaneous equipment as defined in § 18.2 (d) of the annexed rules.

Interested parties are given until May 31, 1947,[1] to submit such briefs, comments, or statements with respect to the said proposed rules as they may deem appropriate for consideration by the Commission in a determination whether rules with respect to miscellaneous equipment should be adopted and if so whether such rules should be made final in their present form or whether changes in the said rules should be made before they are made final.

GENERAL

§ 18.1 *Statement of basis and purpose.* (a) Section 301 of the Communications Act of 1934, as amended, provides for the control by the Federal Government over all the channels of interstate and foreign radio communication and further provides, in part, that no person shall use or operate apparatus for the transmission of energy, communications, or signals by radio when the effects of such operation extend beyond state lines or cause interference with the transmission or reception of energy, communications, or signals, of any interstate or foreign character by radio, except under and in accordance with the Communications Act and a license granted under the provisions of that act. The operation in the industrial, scientific and medical service of medical diathermy equipment, industrial heating equipment and miscellaneous equipment of a type which emits radiofrequency energy upon frequencies within the radio spectrum constitutes a serious source of interference to authorized radio communication services operating upon the channels of interstate and foreign communication unless precautions are taken which will prevent the creation of any substantial amount of such interference.

(b) The following rules and regulations are designed to have a twofold effect:

(1) They set forth the conditions under which the operation of the equipment in question is not regarded as a cause of interference to the authorized radio communication services and is therefore not required to be operated pursuant to license under the Communications Act.

(2) They provide a procedure for the licensing of medical diathermy, industrial heating and miscellaneous equipment which in operation constitute a source of interference to authorized communication services, directly affect the control of the Federal Government over the channels of interstate and foreign radio communication, and are therefore required to be licensed.

§ 18.2 *Definitions.* For purposes of the provisions of this part of the rules and regulations the following definitions in the industrial, scientific, and medical service shall be applicable.

(a) "Radiofrequency energy" shall include electromagnetic energy generated at any frequency in the radio spectrum between 10 kilocycles and 30,000 megacycles.

(b) "Medical diathermy equipment" shall include any apparatus (other than surgical diathermy apparatus designed for intermittent operation with low power) which utilizes a radiofrequency oscillator or any other type of radiofrequency generator and transmits radiofrequency energy used for therapeutic purposes.

(c) "Industrial heating equipment" shall include any apparatus which utilizes a radiofrequency oscillator or any other type of radiofrequency generator and transmits radiofrequency energy used for or in connection with industrial heating operations utilized in a manufacturing or production process.

(d) "Miscellaneous equipment" shall include apparatus other than that defined in or excepted in paragraphs (b) and (c) of this section which uses radiofrequency energy for heating, ionization of gases, or other purposes in which the action of the energy emitted is directly upon the work load and does not involve the use of associated radio receiving equipment.

§ 18.3 *When license is required.* Any medical diathermy equipment, industrial heating equipment or miscellaneous equipment which complies with the provisions of §§ 18.11 to 18.17, inclusive, 18.21 to 18.24, inclusive, or 18.31 for operation without a license may be operated without a station license. A license is required for any such equipment operated otherwise.

§ 18.4 *Full information; inspection by Commission representatives.* Upon request by the Commission the owner or operator of any medical diathermy equipment, industrial heating equipment, or miscellaneous equipment shall promptly furnish the Commission with such information as may be requested concerning the operation of such equipment. The premises in which medical diathermy, industrial heating, or miscellaneous equipment are operated, and any license or certification required hereby, shall be available for inspection by representatives of the Commission at all reasonable hours.

OPERATION WITHOUT A LICENSE; MEDICAL DIATHERMY EQUIPMENT

§ 18.11 *Operation within assigned frequency bands.* A station license is not required for the operation of medical diathermy equipment within assigned frequency bands provided such operation meets the following conditions:

(a) Such operation shall be confined to one or more of the following bands of frequencies and in accordance with the general conditions of operation set out in the guarantee or certification required by paragraphs (c) or (d) of this section.

Assigned band	Center frequency of channel	Tolerance (from center frequency)
	Mc	*Kc*
13.6525–13.6775 mc	13.66	±7.5
27.160–27.480 mc	27.32	±160
40.960–41.000 mc	40.98	±20

[1] By public notice and order dated December 26, 1946, the Commission also announced the availability of the frequency 2450 mc±50 mc as being available for industrial, scientific and medical purposes. It was expressly stated in the said public notice and order that such use of the frequency 2450 mc would be governed by the conditions set forth in that order and set out as Appendix A hereto rather than Part 18 of the Commission's rules.

(b) Such operation may be without regard to the type or power of emissions being radiated. Spurious and harmonic radiations on frequencies other than those specified above shall be suppressed so that such radiations do not exceed a strength of 25 microvolts per meter at a distance of 1000 feet or more from the medical diathermy equipment causing such radiations.

(c) With respect to equipment for which type approval has been received from the Commission in accordance with §§ 18.14 to 18.16, inclusive, hereof there shall be affixed to each unit of equipment operated in accordance with paragraphs (a) and (b) of this section, or posted in the room in which such operation occurs, a dated certificate of a competent engineer, or a dated certificate or name plate of the manufacturer of the equipment; setting forth the F. C. C. type approval number for such equipment, the general conditions under which such equipment should be operated, and certifying that the equipment involved may reasonably be expected to meet the requirements of this section under the described conditions of operation for a period of at least three years. The certification required in this section shall describe with certainty the apparatus covered thereby.

(d) The owners or operators of equipment which has not received type approval but which is manufactured for operation without a license and designed to meet the technical requirements set forth under § 18.11 (a) and (b) shall have posted in the room in which such equipment is operated a dated certificate of a competent engineer, or a dated certificate or name plate of the manufacturer of the equipment, setting forth the general conditions under which such equipment should be operated and certifying that the equipment involved may reasonably be expected to meet the requirements of this section for a period of at least three years under the described conditions of operation. The certification required by this section shall describe with certainty the apparatus covered thereby, and shall include a brief statement of the egineering tests upon which such certification is based and the results thereof. Field intensity measurements in such tests shall be made in accordance with § 18.13.

(e) No regular renewal of certification is required for equipment covered in paragraph (c) of this section. The certification required in paragraph (d) of this section shall be renewed at intervals of three years. Notwithstanding the above provisions with respect to renewal of certification, the certification required by paragraph (c) or (d) of this section shall be renewed for particular equipment by such date as the Commission may specify if the Commission has reason to believe that the operation of such equipment may be inconsistent with provisions of these rules or the source of interference to radio communication.

§ 18.12 *Operation outside of assigned frequency bands.* A station license is not required for the operation of medical diathermy equipment outside of the frequency bands specified in § 18.11 (a) provided such operation is in accordance with the general conditions of operation set out in the certification required in paragraph (c) of this section, and meets the following conditions:

(a) The equipment used in such operation shall be provided with a rectified and filtered plate power supply, power line filters, and shall be operated in a completely shielded room or space.

(b) The emission of radio frequency energy generated by such operation, including spurious and harmonic emissions, shall not exceed a strength in excess of 15 microvolts per meter at a distance of 1000 feet or more from the medical diathermy equipment on frequencies other than those specified in § 18.11 (a).

(c) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certification of a competent engineer, or a dated certificate or name plate of the manufacturer of the equipment setting forth the general conditions under which such equipment should be operated and certifying that under the described conditions of operation the requirements of this section may reasonably be expected to be met for a period of at least three years. The certification required by this section shall describe with certainty the equipment covered thereby, and shall include a brief statement of the engineering tests upon which the certification is based and the results thereof. Field intensity measurements in such tests shall be made in accordance with the provisions of § 18.13.

(d) The certification required in paragraph (c) of this section shall be renewed every three years; *Provided*, That such certification shall be renewed for particular equipment by such earlier date as the Commission may specify if the Commission has reason to believe that the operation of such equipment may be inconsistent with the provisions of these rules or a source of interference to radio communication.

§ 18.13 *Measurement of field intensity.* Measurements to determine the field intensity of radio frequency energy generated by medical diathermy equipment shall be made in accordance with standard engineering procedures and shall include the following:

(a) An approved type of field intensity meter using loop pickup shall be used for measurements on frequencies below and including 18 mc, and such a meter with a doublet antenna shall be used for measurements for frequencies above 18 mc. Appropriate techniques shall be resorted to for measurements in the microwave region of the spectrum.

(b) The field intensity at 1,000 feet from the medical diathermy equipment, or at any other point at which it becomes necessary to determine such intensity, shall be determined by measurements at approximately 100 feet intervals along 5 radials approximately 72° apart, provided that additional measurements shall be taken when necessary in particular cases. An average curve shall be drawn through the points obtained for each radial and then either (1) the field intensity at 1,000 feet taken from the curve or (2) the curve extended to the 1,000 feet point to obtain the field intensity at that point. If points of measurement along a radial are such that marked changes of field intensity over short distances are noted because of standing waves, multipaths, etc., continuous measurements shall be made along any such radial at points 100 feet apart in order to obtain average values for such points.

(c) The field intensities specified herein refer to the maximum field intensity regardless of polarization, measured at a height of 12 feet above the immediate terrain or at such lower height at which the field intensity may exceed that at 12 feet.

(d) If due to the location of equipment in a large city, or for some other reason, measurements as outlined above are impractical because of shadows or shielding of large buildings or other objects, every effort should be made to obtain necessary measurements at clear locations such as atop adjacent buildings, etc., with the measurements corrected to the height specified in paragraph (c) of this section in accordance with best available engineering information.

§ 18.14 *Submission of equipment for type approval tests.*[2] (a) Manufacturers of medical diathermy equipment designed to operate within the frequency bands specified in § 18.11 (a) may submit units of such equipment to this Commission for type approval upon the grant of request therefor made in writing by the manufacturer to the Secretary of the Commission. Such a request will not be granted unless at least 5 units of the model to be submitted are scheduled for manufacture and the manufacturer agrees to bear all forwarding and return charges in connection with the shipment of the unit to be tested between the Federal Communications Commission, Laboratory Division, Laurel, Maryland, and the manufacturer.

(b) Any such equipment which is submitted will be tested and a certificate of type approval will be issued to the manufacturer for each type of equipment which meets the following tests:

(1) The frequency at all times during the tests below shall be within the middle 70% of the frequency bands specified in § 18.11 (a).

(i) From a cold start the machine will be operated continuously at full load for 6 hours, except that machines classified as portable will be subject to a 2 hour test.

(ii) From a cold start the machine will be operated at no load for 5 minutes and then the frequency deviation determined over a normal treatment cycle. A treatment cycle will be simulated by artificial varying loads and varying settings of the resonance and other operating controls. Similar treatment cycle tests will be conducted after periods of continuous full load operations up to six hours (2 hours for portable operation) to determine the maximum deviation. The number of such tests normally will be determined by the results of test a. *Provided, however,* That equipment designed to operate within the frequency bands set forth in § 18.11 (a) may be granted type approval regardless of frequency stability, provided such equipment meets the other requirements hereof and contains a power cut-off mechanism which is effective in rendering the machine inoperative when the deviation from the assigned center frequency exceeds 70% of the tolerance provided for.

(2) The equipment must be designed to prevent the emission of spurious and harmonic radiations to the extent required in § 18.11 (b).

(3) The electrical and mechanical components of the machine and their installation must be such as to give reasonable assurance of compliance with the requirements of permissible frequency tolerance for at least 5 years.

(4) In the case of withdrawal of a certificate of type approval as hereinafter provided for the manufacturer shall make no further sale of equipment under such certificate.

§ 18.15 *Effect of certificate of type approval.* A certificate of type approval constitutes a recognition that on the basis of the tests made the equipment appears to have the capability of functioning in accordance with the provisions of § 18.11 (a) and (b) provided such equipment is properly constructed, maintained and operated, and no change whatsoever is made in the construction of equipment sold under the Certificate of Type Approval issued by the Commission except on specific approval by the Commission to any changes made.

§ 18.16 *Withdrawal of certificate of type approval.* A certificate of type approval may be withdrawn if the type of equipment for which it was issued proves defective in service and under usual conditions of maintenance and operation such equipment cannot be relied on to meet the conditions set forth in this part for the operation of the type of equipment involved.

§ 18.17 *Interference from equipment operated in accordance with §§ 18.11 and 18.12.* In the event of interference to any authorized radio service caused by the equipment operated in accordance with the provisions of §§ 18.11 and 18.12, such steps as may be necessary to remedy such interference condition shall promptly be taken.

OPERATION WITHOUT A LICENSE; INDUSTRIAL HEATING EQUIPMENT

§ 18.21 *Operation within assigned frequencies.* A station license is not required for the operation of industrial heating equipment within assigned frequency bands provided such operation meets the following conditions.

(a) Such operation shall be confined to one or more of the following bands of frequencies and in accordance with the general conditions of operation set out in the certification required by paragraph (c) of this section:

Assigned band [1]	Center frequency of channel	Band width of channel (from center frequency)
	Mc	*Kc*
13.6525–13.6775 mc	13.66	±7.5
27.160–27.480 mc	27.32	±160
40.960–41.000 mc	40.98	±20

[1] See footnote to table in § 18.11 (a).

(b) Such operation may be without regard to the type or power of emissions being radiated. However, spurious and harmonic radiations shall be suppressed so that such radiations do not exceed a strength of 10 microvolts per meter at a distance of one mile or more from the radiating equipment. Filtering between the radiating equipment and power lines must be provided to the extent necessary to prevent the radiation of energy from power lines on frequencies outside of the assigned bands with a strength in excess of 10 microvolts per meter at a distance of one mile or more from the industrial heating equipment, when measured at a distance of 50 feet from the power line.

(c) There shall be affixed to each unit of equipment so operated, or posted in the room in which such operation occurs, a dated certificate of a duly qualified engineer, or a dated certificate or name plate of the manufacturer of the equipment, setting forth the general conditions under which such equipment should be operated, and certifying that the equipment involved may reasonably be expected to meet the requirements of this section under the described conditions of operation for a period of at least

[2] Medical diathermy equipment operated on the frequency 2450 mc as indicated in note 2, *supra*, will be eligible for type approval upon a determination by the Laboratory Division of compliance with the requirements of the public notice and order referred to in footnote to table in § 18.11 (a).

three years. The certification required by this section shall describe with certainty the apparatus covered thereby, and shall include a brief statement of the engineering tests upon which the certification is based and the results thereof. Field intensity measurements in such tests shall be made in accordance with the provisions of § 18.23.

(d) The certification required in paragraph (c) of this section shall be renewed for particular equipment, by such date as the Commission may specify if the Commission has reason to believe that the operation of such equipment may be inconsistent with the provisions of these rules or the source of interference to radio communication.

§ 18.22 *Operation outside of assigned frequency bands.* A station license is not required for the operation of industrial heating equipment outside of the frequency bands specified in § 18.21 (a), provided such operation is in accordance with the general conditions of operation set out in the guarantee or certificate required in paragraph (b) of this section, and meets the following conditions:

(a) The equipment used in such operation shall be operated within a room or space with sufficient shielding and power line filtering so that the emissions of radiofrequency energy generated by such operation, including spurious and harmonic emissions will not exceed a strength of 10 microvolts per meter at a distance of one mile from the industrial heating equipment on frequencies other than those specified in § 18.21 (a). The radiofrequency field from power lines due to radiofrequency energy originating with such equipment at distances beyond one mile must be less than 10 microvolts per meter when measured at one mile from such equipment and 50 feet from the power line.

(b) There shall be affixed to each unit of equipment so operated or posted in the room in which such operation occurs, a dated certificate of a duly qualified engineer, or a dated certificate or name plate of the manufacturer of such equipment, setting forth the general conditions under which such equipment should be operated and certifying that the equipment involved may reasonably be expected to meet the requirements of this section under the described conditions of operation for at least three years. The certification required by this section shall describe with certainty the apparatus covered thereby, and shall include a brief statement of the engineering tests upon which the certification is based and the results thereof. Field intensity measurements in such tests shall be made in accordance with the provisions of § 18.23.

(c) The certification required in paragraph (b) of this section shall be renewed for particular equipment by such date as the Commission may specify if the Commission has reason to believe that the operation of such equipment may be inconsistent with the provisions of these rules or source of interference to radio communication.

§ 18.23 *Measurement of field intensity.* Measurements to determine the field intensity of radiofrequency energy generated by industrial heating equipment shall be made in accordance with standard engineering procedures and shall include the following:

(a) An approved type of field intensity meter employing loop pickup shall be used for measurements on the frequencies of 18 mc and below, and such a meter with a doublet antenna shall be used for measurements on frequencies above 18 mc. Appropriate techniques shall be resorted to for measurements in the micro-wave region of the spectrum.

(b) Prior to the determination of the maximum field intensity at one mile, a sufficient number of measurements shall be made in the vicinity of the industrial heating equipment to enable plotting of the polar radiation pattern. Where conditions permit, these measurements shall be made at intervals of not more than 20 degrees in azimuthal directions and at distances not exceeding 1000 feet from the equipment. The measurements so obtained shall be reduced to the equivalent field intensities at 1000 feet.

(c) The measurements for the maximum field intensity at one mile shall be made along the radial corresponding to the lobe of maximum radiation as determined from the polar radiation pattern. If two or more lobes of radiation of approximately the same intensity are present, measurements to determine field intensity shall be made along the several radials for such lobes. Where possible, field intensity measurements shall be made along each radial at intervals of not greater than 500 feet and an average curve drawn for measured field intensity in microvolts per meter versus distance in feet. Where necessary, the average curve shall be extended to show the extrapolated field intensity at one mile. In those cases where it is impractical to conduct measurements along the radial of maximum radiation a sufficient number of field intensity measurements will be made to clearly indicate the magnitude of the radiation field in the sector containing the lobe of maximum radiation.

(d) Where there is evidence of radiation from power lines field intensity measurements shall be made at not less than three points along the power line located approximately one mile from the industrial heating equipment causing such radiation and to include a length of power line not less than 500 feet. One point of measurement shall lie within the one-mile distance and the other beyond. At each of these points at least three measurements of field intensity shall be made along a line normal to the power line and out to a distance from the power line not exceeding 50 feet.

(e) The field intensities specified herein refer to the maximum field intensity, regardless of polarization, measured at a height of 12 feet above the immediate terrain or at such lower height at which the field intensity may exceed that at 12 feet.

§ 18.24 *Interference from equipment operated in accordance with §§ 18.21 or 18.22.* In the event of interference to any authorized radio service from equipment operated in accordance with the provisions of §§ 18.21 and 18.22, steps to remedy such interference condition shall promptly be taken.

OPERATION WITHOUT A LICENSE; MISCELLANEOUS EQUIPMENT

§ 18.31 *Miscellaneous equipment.* The operation without a license of miscellaneous equipment, as defined in § 18.2 (d), generating radiofrequency power of 500 watts or less, shall be in compliance with the provisions of these rules for medical diathermy apparatus. Operation of such equipment generating radiofrequency power in excess of 500 watts shall be in compliance with the requirements for medical diathermy apparatus except that the maximum radiated field permitted shall be increased as the square root of the ratio of the generated power to 500 watts; *Provided*, That the radiated field shall in no case exceed the fields permitted industrial heating apparatus; *Provided further*, That equipment used in predominantly residential areas and operating on frequencies below 1,000 mc shall not be permitted the increase in field with power as indicated above, but shall be subject to the restrictions contained herein for diathermy equipment. Miscellaneous equipment, as defined in § 18.2 (d), may be type approved under procedures similar to that for diathermy equipment with such changes in the above procedure as may be required because of the nature of the partcular equipment involved.

OPERATION FOR WHICH A LICENSE IS REQUIRED

§ 18.41 *When a license is required.* (a) No medical diathermy equipment, industrial heating equipment or miscellaneous equipment which does not comply with §§ 18.11 to 18.17, inclusive, or 18.21 to 18.31, inclusive, shall be operated except pursuant to a station license issued by the Commission authorizing such operation.

(b) Whenever the Commission on complaint or on its own motion determines that medical diathermy equipment, industrial heating equipment or miscellaneous equipment is not in fact operating in compliance with the provisions of §§ 18.11 to 18.17, inclusive, or 18.21 to 18.31, inclusive, and so advises the operator of such equipment, further operation of such equipment without a station license shall be unlawful unless within 10 days of the receipt of such notice, or within such further time as the Commission may for good cause allow, the operator of such equipment shall file with the Commission a certificate of a competent engineer stating that the equipment is now capable of complying with the requirements of the rules.

§ 18.42 *Showing required.* A station license for the operation of medical diathermy equipment, industrial heating equipment or miscellaneous equipment will be granted upon proper application therefor in accordance with the provisions of this part and a showing that in the light of the following considerations the public interest, convenience, and necessity would be served by such a grant: (a) The purpose for which the equipment sought to be licensed will be used; (b) the reasons why the equipment involved may not be operated in compliance with the provisions of this part for the operation of such equipment without a license; and (c) the nature and extent of interference that may be caused to authorized communication services by the operation of such equipment.

§ 18.43 *Applications for station licenses.* Each applicant for a station license authorizing the operation of medical diathermy, industrial heating equipment, or miscellaneous equipment, or requesting the modification or renewal of such a license, shall file with the Commission in Washington, D. C., three copies of each application on the appropriate form designated by the Commission and a like number of any exhibits and other papers incorporated therein and made a part thereof. Only the original copy need be sworn to. Application for a license shall be made up on the appropriate form prescribed by the Commission, and separate application should be made for each unit of equipment for which a license is sought. Application for modification or renewal of a license shall also be upon appropriate form prescribed by the Commission.

§ 18.44 *Full information.* Each application for a license authorizing the operating of medical diathermy, industrial heating equipment or miscellaneous equipment shall contain full and complete information concerning all matters and things required to be disclosed by the application form.

§ 18.45 *License period.* Each station license authorizing the operation of medical diathermy, industrial equipment or miscellaneous equipment will expire at the hour of 3 a. m. and will be issued for a normal license period of five years or such other period as the Commission may specify upon consideration of the facts in a particular case. Each such license shall be non-transferable.

§ 18.46 *Renewal of license.* Unless otherwise directed or permitted by the Commission, applications for renewal of a station license for the operation of medical diathermy, industrial heating equipment or miscellaneous equipment shall be filed with the Commission upon prescribed forms at least 60 days prior to the expiration date of such license.

§ 18.47 *Station license, posting of.* The original of each station license shall be posted in the room in which the equipment is operated. Licenses covering equipment not used in a fixed place shall be attached to the equipment itself.

§ 18.48 *Operator requirements.* Equipment for which a station license is issued pursuant to the provisions of this part of the Commission's rules and regulations may be operated by persons who do not hold an operator license or permit issued by this agency.

§ 18.49 *Cessation of operation pursuant to license.* If any equipment for which a license has been issued hereunder shall cease to be operated pursuant to such license, or is transferred, sold, assigned, leased, loaned, stolen, destroyed, or otherwise removed from the possession of the licensee, the licensee shall within five days of such occurrence notify the Commission thereof and, where possible, include in such notification the name and address of the recipient of such equipment.

§ 18.51 *Existing equipment.* The provisions of this part shall not be applicable for a period of five years from the effective date hereof to the operation of equipment, the manufacture and assembly of which is completed prior to July 1, 1947, *Provided*, That the foregoing provisions of this section shall be applicable only if in the event of interference to authorized radio services resulting from the operation of equipment manufactured prior to July 1, 1947 such steps as may be suitable under the circumstances are promptly taken to eliminate such interference.

By direction of the Commission.

Secretary.

APPENDIX A

PUBLIC NOTICE AND ORDER WITH RESPECT TO PROMULGATION OF RULES AND REGULATIONS GOVERNING MEDICAL DIATHERMY EQUIPMENT AND INDUSTRIAL HEATING EQUIPMENT

Public notice. By public notice of September 20, 1946, the Commission announced proposed rules and regulations governing the operation of medical diathermy equipment and industrial heating equipment and specified November 6, 1946, for oral argument and hearing on such proposed rules and regulations. In its public notice of September 20, 1946, the Commission also stated that in the oral argument and hearing referred to above consideration would be given to the question whether an additional frequency band should be assigned for the operation of medical diathermy equipment and industrial heating equipment in the 3000 megacycle region of the spectrum. By subsequent notice dated October 9, 1946, the said oral argument and hearing was postponed to December 18, 1946, and in a further notice of November 14, 1946, particular attention was called to the fact that consideration would be given to allocation of a frequency in the 3000 megacycle region of the spectrum for industrial, medical, and scientific purposes and all interested parties were invited to submit comments and participate in the scheduled oral argument and hearing.

The oral argument and hearing referred to above was held on December 18 and 19, 1946, and upon the basis of the evidence received at that time the Commission has determined that the public interest would be served by a grant of the request for allocation of space in the 3000 megacycle region of the spectrum which would be available for industrial, medical, and scientific purposes. Accordingly, the Commission has adopted the order set out below providing for allocation of the frequency 2450 megacycles for such purposes and requiring that emissions radiated in the course of operation on that frequency be confined within the range 2400–2500 megacycles.

The regulations under consideration in Docket 7858 with respect to operation of industrial heating and medical diathermy equipment in the 13, 27, and 40 megacycle regions of the spectrum are inapplicable to this operation on 2450 megacycles and detailed regulations with respect to operation on that frequency have not yet been promulgated. However, rather than postpone the availability of the ferquency in question for general use until such standards have been determined, the Commission is making the frequency 2450 megacycles available for immediate nonexclusive use without a license for industrial, medical, and scientific purposes in compliance with certain conditions set forth in the order. It should be noted particularly that operation at this time rather than at a later date after the promulgation of engineering standards is expressly made subject to such regulations as the Commission may in the future decide to be appropriate with respect to operation upon the frequency in question. Persons who make use of that frequency now are accordingly placed on notice that such regulations may be adopted and be applicable to their operation.

Order. At a meeting of the Federal Communications Commission in its offices in Washington, D. C. on December 26, 1946.

The Commission having under consideration a request for assignment of a frequency in the 3000 megacycle region of the radio spectrum for industrial, medical, and scientific purposes without a license, and

The Commission on December 18 and 19, 1946, having held a public hearing, after due notice to all interested parties, to receive evidence upon the question whether such a band should be assigned for such purposes; and

The Commission having considered the evidence presented during such hearing and having determined upon such consideration that the public interest, convenience, and necessity would be served by such an allocation:

Now, therefore, *It is hereby ordered*, That the frequency 2450 megacycles be, and the same is hereby, assigned, for industrial, medical, and scientific purposes upon a nonexclusive basis. Operation for such purposes upon the frequency 2450 megacycles may be conducted without a license only upon the following conditions:

(1) The emissions of radiofrequency energy resulting from such operation shall be confined to that portion of the spectrum between 2400–2500 megacycles.

(2) The energy radiated and the band width of emissions of all industrial, medical and scientific equipment operated as provided for herein shall be reduced to the greatest extent practicable. No interference shall be caused to authorized communication services from spurious or harmonic radiations. In the event of such interference from spurious or harmonic radiations, operation of the equipment causing such interference shall cease and shall not be resumed until steps necessary to eliminate such interference have been taken.

(3) Operation upon the assigned frequency as specified above shall be subject to such future regulations as may be found by the Commission to be appropriate.

By direction of the Commission.

T. J. SLOWIE,
Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR, Ch. IX]

[Docket No. AO-184]

HANDLING OF MILK IN NASHVILLE, TENN., MARKETING AREA

PROPOSED MARKETING AGREEMENT AND ORDER

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Cum. Supp., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held at the Andrew Jackson Hotel, Nashville, Tennessee, beginning at 9:00 a. m., c. s. t., June 23, 1947.

This public hearing is for the purpose of receiving evidence with respect to a proposed marketing agreement and order, regulating the handling of milk in the Nashville, Tennessee, marketing area, the provisions of which are hereinafter set forth, and any modifications thereof. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposed marketing agreement and order and any modifications thereof. The provisions of the proposals for a marketing agreement and order, heretofore filed with the undersigned, are as follows:

Marketing Agreement and Order Proposed by the Nashville Milk Producers, Inc., Nashville, Tennessee

SECTION 1. *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

(c) "Department of Agriculture" means the United States Department of Agriculture or such other Federal agency as may be authorized to perform the price reporting functions of the United States Department of Agriculture.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Nashville marketing area," hereinafter called the "marketing area," means all the territory within the corporate limits of the cities of Nashville, and Belle Meade, and the territory within the civil districts Nos. 2, 3, 4, 5, 6, 7, 8, 10, 11, 12, and 13, all located in Davidson County, Tennessee.

(f) "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(g) "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers.

(h) "Delivery period" means the calendar month or the total portion thereof during which this order is in effect.

(i) "Fluid milk plant" means the premises and the portions of the building and facilities used in the receipt and processing or packaging of milk, all, or a portion of which is disposed of from such plant within the delivery period as Class I milk in the marketing area, but not including any portion of such building or facilities used for receiving or processing milk or any milk product required by the appropriate health authorities in the marketing area to be kept physically separate from the receiving and processing or packaging of milk for disposition as Class I milk in the marketing area.

(j) "Producer" means any person who produces, under a dairy farm inspection permit issued by the appropriate health authority in the marketing area, milk which is:

(1) Received at a plant from which milk or cream is disposed of in the marketing area for human consumption as fluid milk or fluid cream;

(2) Received at a plant approved by the appropriate health authority in the marketing area to furnish milk or cream to a plant described under subparagraph (1) of this paragraph; or

(3) Diverted from any plant described under either subparagraph (1) or subparagraph (2) of this paragraph to any other milk distributing or milk manufacturing plant, including any plant described under subparagraphs (1) or (2) of this paragraph: *Provided*, That any such milk so diverted shall be deemed to have been received at the plant from which it was diverted.

(k) "Handler" means:

(1) Any person who receives milk, produced under a dairy farm inspection permit issued by the appropriate health authority in the marketing area, at a plant described in paragraphs (j) (1) or (j) (2) of this section; and

(2) Any cooperative association of producers with respect to milk diverted from a plant described under subparagraphs (1) or (2) of paragraph (j) of this section to any milk distributing or milk manufacturing plant not operated by a handler, for the account of such association.

(l) "Non-handler" means any person who is not a handler but who operates a milk manufacturing, processing, or bottling plant.

(m) "Other source milk" means all skim milk (including reconstituted skim milk) and butterfat not derived from producer milk;

(1) Contained in milk, skim milk, or cream, or

(2) Used to produce any milk product. "Other source milk" shall include milk, skim milk, cream, or any milk product received at a fluid milk plant under an emergency permit issued by the appropriate health authorities in the marketing area.

(n) "Producer milk" means milk produced by one or more producers under the conditions set forth in paragraph (j) of this section.

SEC. 2. *Market Administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have the power to:

(1) Administer the terms and provisions hereof,

(2) Report to the Secretary complaints of violations hereof,

(3) Make rules and regulations to effectuate the terms and provisions hereof, and

(4) Recommend to the Secretary amendments hereto.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Within 45 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary.

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(3) Pay, out of the funds provided by section 10:

(i) The cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator,

(ii) His own compensation, and

(iii) All other expenses, except those incurred under section 11 hereof, which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(4) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 5 days after the day upon which he is required to perform such acts, has not made;

(i) Reports pursuant to section 3 (a), or

(ii) Payments pursuant to section 9;

(6) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times;

(7) Prepare and disseminate for the benefit of producers, consumers, and handlers, such statistics and information concerning the operations hereunder as do not reveal confidential information;

(8) Audit all reports and payments by each handler by inspection of each handlers records and of the records of any person upon whose utilization the classification of milk depends;

(9) Publicly announce prices and butterfat differentials for each delivery period, as follows:

(i) On or before the 6th day after the end of each delivery period the class prices and butterfat differentials computed pursuant to section 5; and

(ii) On or before the 10th day after the end of each delivery period, the uniform prices computed pursuant to section 8 (b) and the butterfat differential to be paid pursuant to section 9 (f).

SEC. 3. *Reports of handlers*—(a) *Periodic reports.* On or before the 6th day after the end of each delivery period, each handler, who purchases or receives milk from producers, with respect to all skim milk and butterfat contained in milk, skim milk, cream, and milk products which were, during each delivery period received from (1) producers; (2) other handlers; (3) own farm production; (4) any other sources, shall report to the market administrator in the detail and on forms prescribed by him as follows:

(i) The receipts at each plant from producers who are not handlers;

(ii) The receipts at each plant from any other handler;

(iii) The receipts at each plant from producer-handlers;

(iv) The receipts at each plant from such handler's own farm production;

(v) The receipts at each plant from any other source;

(vi) The utilization of all skim milk and butterfat disposed of; and

(vii) The quantity of skim milk and butterfat on hand at the beginning and end of the delivery period.

(b) *Reports of producer-handlers and handlers who receive no milk from producers.* Producer-handlers and handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) *Reports as to producers.* Each handler shall within 20 days after the end of the delivery period, submit to the market administrator his producer pay roll for such delivery period which shall show for each producer (1) the total pounds of milk delivered with the average butterfat test thereof, and (2) the net amount of such handler's payments to such producer together with the prices, deductions, and charges involved.

(d) *Other reports.* On or before the day a handler receives "other source" milk, he shall report to the market administrator his intentions to receive such milk.

(e) *Verification of reports.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records, and the records of any other handler or person upon whose utilization the classification of milk depends. Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to:

(1) Verify the receipts and utilization of all skim milk and butterfat and in the case of errors or omissions, ascertain the correct figures.

(2) Weigh, sample, and test for butterfat content, milk and milk products;

(3) Verify payments to producers; and

(4) Make such examinations of operations, equipment, and facilities as the market administrator deems necessary.

SEC. 4. *Classification of milk*—(a) *Basis of classification.* All skim milk and butterfat received in milk, (including producer milk diverted) skim milk, cream, and milk products purchased or received by a handler at a fluid milk plant shall be reported by the handler and shall be classified by the market administrator in the classes set forth in paragraph (b) of this section.

(b) *Classes of utilization.* Subject to the conditions set forth in paragraphs (a), (d), and (e) of this section, the classes of utilization shall be as follows:

(1) Class I milk shall be all skim milk and butterfat disposed of for consumption in the form of (i) milk, skim milk (including reconstituted skim milk), cream, sweet or sour (including any mixture of cream and milk or skim milk), buttermilk, and flavored milk drinks, and (ii) all skim milk and butterfat not specifically accounted for as Class II milk.

(2) Class II milk shall be all skim milk and butterfat specifically accounted for as disposed of (i) in a milk product other than those specified in (1) of this paragraph, (ii) inventory variations, and (iii) as actual plant shrinkage not in excess of 1 percent of the total receipts of skim milk and butterfat from producers, hereinafter known as allowable shrinkage.

(c) *Responsibility of handlers.* In establishing the classification of milk as required in paragraph (b) of this section the burden rests upon the handler, who first receives or diverts milk from producers, to account for the skim milk and butterfat contained in such milk and to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk.

(d) *Transfers of milk and cream.* (1) Skim milk and butterfat shall be classified as Class I milk when disposed of in the form of any item specified in paragraph (b) (1) of this section by a handler (i) to other handlers who receive milk from producers: *Provided*, That if the market administrator is furnished with a statement signed by both the buying and the selling handler that such skim milk or butterfat was used to produce a Class II item, it shall be classified accordingly subject to verification by the market administrator; (ii) to a producer-handler; and (iii) to a handler who purchases or receives no producer milk.

(2) Skim milk and butterfat contained in skim milk, milk or cream when disposed of by a handler to a plant of a "non-handler" shall be Class I milk, except where during the delivery period ice cream, ice cream mix, evaporated or condensed milk, butter, milk powder, or cheese (including cottage cheese) is manufactured such milk shall be classified under paragraph (b) of this section according to its use at such latter plant: *Provided*, That, if such milk is disposed of more than 50 miles from the Nashville, Tennessee, City Hall it shall be classified Class I milk.

(e) *Correction of classification and reclassification of milk.* (1) The classification of any skim milk and butterfat shall be corrected by the market administrator if upon his audit it is found that such classification was reported incorrectly or incompletely by the handler.

(2) Any skim milk or butterfat reported by a handler as having been disposed of in any class which is found by the market administrator to have been redisposed of (whether in original or other form) in a different class by such handler, by other handler(s) or by any nonhandler(s) shall be reclassified by the market administrator in accordance with such latter use or disposition.

(f) *Computation of the milk in each class.* For each delivery period the market administrator shall correct for mathematical and other obvious errors the report submitted by each handler and shall compute on the basis of the corrected report the amount of milk disposed of in each class as defined in paragraph (b) of this section as follows:

(1) Determine the total pounds of milk received by adding into one sum the total pounds of skim milk and butterfat contained in the milk, skim milk, cream, and milk products received from all sources;

(2) Determine the total pounds of milk in Class I by adding into one sum the total pounds of skim milk and butterfat disposed of in each of the several products of Class I, and the total pounds of skim milk and butterfat unaccounted for or accounted for as actual plant shrinkage in excess of allowable shrinkage;

(3) Determine the total pounds of milk in Class II by (i) adding into one sum the pounds of skim milk and butterfat disposed of in each of the several products of Class II and (ii) the pounds of skim milk and butterfat accounted for as actual plant shrinkage not in excess of allowable shrinkage.

(g) *Allocation of milk classified.* The pounds of skim milk and butterfat remaining after making the following computations shall be the pounds in each class allocated to producer milk:

(1) Subtract from the pounds of skim milk and butterfat in Class II milk the pounds of allowable shrinkage pursuant to paragraph (b) (2) of this section;

(2) Subtract from the pounds of skim milk and butterfat in Class II the pounds of skim milk and butterfat which were received from sources other than producers, and other handlers: *Provided,* That if the receipts of skim milk or butterfat from other sources other than producers, and other handlers are greater than the remaining pounds of skim milk or butterfat in Class II an amount equal to the difference shall be subtracted from the pounds of skim milk or butterfat in Class I;

(3) Subtract from the remaining pounds of skim milk and butterfat in each class the pounds of skim milk and butterfat which were received from other handlers and allocated to each class pursuant to paragraph (d) (1) (i) of this section;

(4) Add to the remaining pounds of skim milk and butterfat in Class II the pounds subtracted pursuant to subparagraph (1) of this paragraph; or if the remaining pounds of skim milk and butterfat in both classes exceed the pounds of skim milk and butterfat in milk received from producers, subtract such excess from the remaining pounds in each class in series beginning with the lower price class;

(5) Add the pounds of skim milk and butterfat in each class and determine the percentage of butterfat for each class; and

(6) The result shall be known as the "net pooled milk" in each class.

SEC. 5. *Minimum prices*—(a) *Basic Class I formula price.* For each delivery period the basic formula price to be used in determining the prices of Class I milk shall be the highest prices per hundredweight of milk of 4.0 percent butterfat content computed by the market administrator pursuant to subparagraphs (1), (2) and (3) of this paragraph or paragraph (b) of this section;

(1) The arithmetical average of the basic (field) prices per hundredweight reported to have been paid or to be paid during such delivery period to farmers for milk containing 3.5 percent butterfat at each of the following listed plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator;

Concern and Location
Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mt. Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopervilie, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

To convert the price computed under subparagraph (1) of this paragraph to a 4.0 percent basis there shall be added $0.40 per hundredweight of milk.

(2) The price per hundredweight resulting from the following formula:

(i) Multiply the average wholesale price per pound of 92-score butter at Chicago for the delivery period as reported by the United States Department of Agriculture, by six (6);

(ii) Add 2.4 times the average weekly prevailing price per pound of "Twins" during the delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided,* That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price of "Cheddars" shall be deemed to be the prevailing price for "Twins" and shall be used in determining the price pursuant to this formula:

(iii) Divide by seven (7),

(iv) Add 30 percent thereof; and

(v) Multiply by 4.0.

(3) The price per hundredweight computed by the market administrator by adding together the plus values pursuant to subdivisions (i) and (ii) of this subparagraph:

(i) From the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, add 20 percent thereof and then multiply by 4.0; and

(ii) From the average of the carlot prices per pound of non-fat dry milk solids for human consumption, spray and roller process, f. o. b. manufacturing plants, as published for the Chicago area for the delivery period by the Department of Agriculture, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determinations of such non-fat dry milk solids for the previous delivery period, deduct 3.0 cents, multiply by 8.5 and then multiply by 0.96.

(b) *Basic Class II formula price.* For each delivery period the basic formula price to be used in determining the prices of Class II milk shall be the arithmetical average of the basic (field) prices per hundredweight reported to have been paid or to be paid during such delivery period to farmers for milk containing 4.0 percent butterfat at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator:

Concern and Location
Carnation Co., Murfreesboro, Tenn.
Borden Co., Lewisburg, Tenn.
Pet Milk Co., Mayfield, Ky.
Kraft Cheese Co., Gallatin, Tenn.
Wilson and Co., Murfreesboro, Tenn.
Giles County Dairy Products, Pulaski, Tenn.
Swift and Co., Lebanon, Tenn.

(c) *Class prices*—(1) *Class I milk.* The price for Class I milk shall be the Class I basic formula price plus $1.35: *Provided,* The Class I price shall not be less than $5.35 per hundredweight of milk 4.0 percent basis.

(2) *Class II milk.* The price for Class II milk shall be the Class II basic formula price plus $0.15.

(3) Prices set out in subparagraphs (1) and (2) of this paragraph are minimum prices and any handler may make payments in excess of the minimum price: *Provided,* That any payments so made shall be made to all producers delivering milk of the same grade and quality to that handler.

(d) *Butterfat differential to handlers.* If the average butterfat content of the milk disposed of by any handler as the net pooled milk in any class of utilization is more or less than 4.0 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of one percent that such average butterfat test is above or below, respectively, 4.0 percent, an amount computed by the market administrator for each class of utilization as follows:

(1) *Class I milk.* Multiply by 1.4 the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, and divide the result by 10;

(2) *Class II milk.* Multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, and divide the result by 10.

(e) *Emergency price provisions.* (1) Whenever the provisions hereof require the market administrator to use a specific price (or prices) for milk or for any milk product for the purpose of determining class prices or for any other purpose, the market administrator shall add to the specific price the amount of any subsidy or other similar payment being made by any Federal agency in connection with the milk or product associated with the price specified: *Provided,* That if for any reason the price specified is not reported or published as indicated, the market administrator shall use the applicable maximum uniform price established by regulations of any Federal agency plus the amount of any such subsidy or other similar payment: *Provided further,* That if the specified price is not reported or published and there is no applicable maximum uniform price, or if the specified price is not reported or published and the Secretary determines that the market price is below the applicable maximum uniform price, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price specified.

SEC. 6. *New producers.* Any producer who did not regularly sell milk during a period of 30 days next proceeding the effective date of this order for consumption in the marketing area as defined in section (1) (e), payments to such producers for the period beginning with the first regular delivery by such producer and continuing until the end of two full calendar months following the first day of the next succeeding calendar month, shall be made at the price for the lowest use classifications specified in section (4).

SEC. 7. *Application of provisions*—(a) *Handlers who receive no milk from producers.* Sections 4, 5, 8, 9, 10, and 11 shall not apply to the handling of milk by producer-handlers or by handlers whose sole source of supply are receipts from other handlers.

(b) *Producer-handlers.* Producer-handlers shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of their qualifications as producer-handlers pursuant to section 1 (g), as of the effective date hereof, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing that milk that affects their qualification as producer-handlers.

(c) Milk received by a handler from his own farm production shall be considered as "producer milk."

(d) Milk received from handlers under any marketing agreement or order issued pursuant to the act for any other fluid milk marketing area shall be considered as "other source milk."

SEC. 8. *Determination of uniform prices to producers*—(a) *Computation of the value of the milk of each handler.* For each delivery period the market administrator shall compute the value of producer milk received by each handler in the following manner:

(1) Multiply the net pooled milk in each class computed pursuant to section 4 (g) (6) by the class prices computed pursuant to section 5 (c) subject to the differentials set forth in section 5 (d);

(2) Add an amount calculated by multiplying the applicable class prices by the pounds subtracted pursuant to section 4 (g) (4); and

(3) Add together the resulting amounts.

(b) *Computation of the uniform price.* The market administrator shall compute the uniform price per hundredweight of producer milk containing 4 percent of butterfat for each delivery period, as follows:

(1) Combine into one total the respective values computed pursuant to paragraph (a) of this section, for all handlers who made the report prescribed by section 3 (a) for such delivery period, except those in default of payments required pursuant to section 9 (c) for the preceding delivery period;

(2) Subtract, if the average butterfat content of all milk received from producers is in excess of 4 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to section 9 (f) and multiply the result by the total hundredweight of milk received from producers;

(3) Add an amount representing the unobligated balance in the producer-settlement fund;

(4) Divide the amount computed pursuant to subparagraph (3) of this paragraph by the total hundredweight of milk received from producers;

(5) Subtract from the figure computed pursuant to subparagraph (4) of this paragraph not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payment by handlers. This result shall be known as the uniform price for such delivery period for milk of producers containing 4 percent butterfat content f. o. b. fluid milk plant.

(c) *Announcement of uniform prices.* On or before the 10th day after the end of each delivery period the market administrator shall notify each handler of his uniform price computed pursuant to paragraph (b) of this section and the butterfat differentials pursuant to section 9 (f).

SEC. 9. *Payments to producers*—(a) *Time and method of payment.* (1) On or before the last day of each delivery period each handler shall make payment to each producer at not less than $3.00 per hundredweight for the milk received from each producer, delivering to such handler on that date, during the first 15 days of such delivery period.

(2) On or before the 15th day after the end of each delivery period, each handler shall make payment to each producer for milk received from him during the delivery period at not less than the uniform price per hundredweight computed by the market administrator pursuant to section 8 (b), subject to the following adjustments:

(i) The butterfat differential pursuant to paragraph (f) of this section,

(ii) Less payment made pursuant to subparagraph (1) of this paragraph,

(iii) Less marketing service deductions pursuant to section 11,

(iv) Less deductions authorized by the producer, and

(v) Any error in calculating payments to such individual producer for past delivery periods.

(b) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the producer-settlement fund into which he shall deposit all payments made by handlers pursuant to paragraphs (c) and (e) of this section and out of which he shall make all payments pursuant to paragraphs (d) and (e) of this section: *Provided,* That payments to any handler shall be offset by payments due from such handler.

(c) *Payments to the producer-settlement fund.* On or before the 13th day after the end of each delivery period each handler shall pay to the market administrator the amount by which the total value of milk received by him from producers during the delivery period is greater than the amount of the minimum required to be made by such handler pursuant to paragraph (a) of this section.

(d) *Payments out of the producer-settlement fund.* On or before the 15th day after the end of each delivery period the market administrator shall pay to each handler for payment to producers the amount, if any, by which the total value of the milk received from producers by such handler is less than the amount of the minimum payments required to be made by such handler pursuant to paragraph (a) of this section. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. No handler who on the 15th day after the end of each delivery period has not received the balance of payment due him from the market administrator shall be deemed to be in violation of paragraph (a) of this section if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund. However, the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(e) *Adjustment of errors in payments.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (c) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to paragraph (d) of this section the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by this section, the handler shall make up such payment not later than the time of making payment to producers next following such disclosure.

(f) *Butterfat differential to producers.* If, during the delivery period, any han-

dler has purchased or received from any producer, milk having an average butterfat content other than 4.0 percent, such handler in making the payments prescribed in paragraph (a) (2) of this section, shall add to the uniform price per hundredweight paid to such producer for each one-tenth of one percent of butterfat content in milk above 4.0 percent not less than, or shall deduct from the uniform price per hundredweight for each one-tenth of one percent of butterfat content in milk below 4.0 percent not more than an amount computed by the market administrator as follows: multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the delivery period, and divide the result by 10, and adjust to the nearest one-tenth of a cent.

(g) *Statement to producers.* In making the payments required by paragraph (a) (2) of this section, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is required under the provisions of paragraphs (a) and (f) of this section;

(4) The rate which is used in making the payment if such rate is other than the applicable minimum;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction made pursuant to section 11, together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

SEC. 10. *Expenses of administration.* As his pro rata share of the expense of the administration hereof, each handler, on or before the 15th day after the end of each delivery period, shall pay to the market administrator a sum not exceeding 6 cents per hundredweight with respect to all skim milk and butterfat received from producers except that the Secretary may prescribe a lesser rate.

SEC. 11. *Marketing service*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler shall deduct an amount not exceeding 6 cents per hundredweight (the exact rate to be determined by the market administrator subject to review by the Secretary) from the payments made to producers pursuant to section 9 with respect to all milk received by such handler from producers during the delivery period and shall pay such deductions to the market administrator not later than the 15th day after the end of the delivery period. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from producers during the delivery period and to provide such producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association which the Secretary determines to be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to section 9, as are authorized by such producers, and, on or before the 15th day after the end of each delivery period, pay over such deductions to the association rendering such services.

SEC. 12. *Effective time, suspension, and termination*—(a) *Effective time.* The provisions hereof or any amendments hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions hereof, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all of the provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate (1) shall continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so desired by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions hereof, the market administrator, or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 13. *Separability of provisions.* If any provisions hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

SEC. 14. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Proposal by Certain Handlers in the Nashville, Tennessee, Marketing Area

SEC. 1. *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended.

(b) "Secretary" means the Secretary of Agriculture or any officer or employee of the United States who is authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

(c) "Department of Agriculture" means the United States Department of Agriculture or such other Federal Agency as may be authorized to perform the price reporting functions of the United States Department of Agriculture.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Milk" means whole milk, skim milk, cream, butterfat, and all dairy products, unless the context manifests a different meaning.

(f) "Nashville marketing area," hereinafter called the "marketing area" means all the territory within the corporate limits of the cities of Nashville, and Belle Meade, and all the territory located in Davidson County, Tennessee.

(g) "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and to be engaged in making collective sales or marketing of milk or its products for the producers thereof.

(h) "Producer-handler" means any person who is both a producer and a handler and who receives no milk from other producers.

(i) "Delivery period" means the calendar month or the total portion thereof during which this order is in effect.

(j) "Fluid milk plant" means the premises and the portions of the building and facilities used in the receipt and processing or packaging of milk, all, or a portion of which is disposed of from such plant within the delivery period as Class I milk in the marketing area, but not including any portion of such building or facilities used for receiving or processing milk or any milk product required by the appropriate health authorities in the marketing area to be kept physically separate from the receiving and processing or packaging of milk for disposition as Class I milk in the marketing area.

(k) "Producers" means a person who, under a dairy farm permit issued by the appropriate health authority in the marketing area produces milk:

(1) Which is received at a fluid milk plant, or

(2) Which is caused by a handler to be diverted from a fluid milk plant to another plant not a fluid milk plant for the account of such handler.

(l) "Handler" means:

(1) Any person who operates a fluid milk plant, or

(2) Any person pursuant to subparagraph (1) of this paragraph who with respect to the milk of any producer who, under a dairy farm permit issued by the appropriate health authority in the marketing area, produces milk which is part of the dairy farm supply of a fluid milk plant, but which is caused to be diverted from a fluid milk plant to any other plant not a fluid milk plant for the account of such person.

(m) "Nonhandler" means any person who is not a handler but who operates a milk manufacturing, processing, or bottling plant.

(n) "Other source milk" means all skim milk (including reconstituted skim milk) and butterfat not derived from producer milk:

(1) Contained in milk, skim milk, or cream, or

(2) Used to produce any milk product. "Other source milk" shall include milk, skim milk, cream, or any milk product received at a fluid milk plant under an emergency permit issued by the appropriate health authorities in the marketing area.

(o) "Producer milk" means milk produced by one or more producers under the conditions set forth in paragraph (k) of this section.

(p) "Frozen cream" means milk, the butterfat from which is held in an approved cold storage warehouse at an average temperature below zero degrees Fahrenheit for seven (7) consecutive days, as shown by charts of a recording thermometer.

(q) "Out-of-area sales" means sales of "milk" in the cities of:

Columbia, Tenn.
Springfield, Tenn.
Ashland City, Tenn.
Dickson, Tenn.
Murfreesboro, Tenn.

SEC. 2. *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator who shall be a person selected by the Secretary. Such person shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have the power to:

(1) Administer the terms and provisions hereof,

(2) Report to the Secretary, complaints of violations hereof,

(3) Make rules and regulations to effectuate the terms and provisions hereof, and

(4) Recommend to the Secretary amendments hereto.

(c) *Duties.* The market administrator, in addition to the duties hereinafter described, shall:

(1) Within 45 days following the date on which he enters upon his duties execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties as market administrator and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary.

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer the terms and provisions hereof;

(3) Pay, out of the funds provided by section 9,

(i) The cost of his bond and of the bonds of those of his employees who handle funds entrusted to the market administrator,

(ii) His own compensation, and

(iii) All other expenses, except those incurred under section 10 hereof, which will necessarily be incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(4) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to his successor or to such other person as the Secretary may designate;

(5) Publicly disclose to handlers and producers, unless otherwise directed by the Secretary, the name of any person who, within 10 days after the day upon which he is required to perform such acts, has not made:

(i) Reports pursuant to section 3 (a) or

(ii) Payments pursuant to section 8;

(6) Furnish such information and verified reports as the Secretary may request, and submit his books and records to examination by the Secretary at any and all times;

(7) Prepare and make available for the benefit of producers and handlers, such statistics and information concerning the operations hereunder as are necessary and essential to the proper functioning of this marketing order, provided such statistics and information do not reveal confidential information;

(8) Verify the information contained in the reports submitted by handlers.

(9) Notify each handler in writing and publicly announce the prices and butterfat differentials for each delivery period, as follows:

(i) On or before the 6th day after the end of each delivery period, the minimum prices for skim milk and butterfat in each class computed pursuant to section 5, and

(ii) On or before the 14th day after the end of each delivery period, the uniform prices computed pursuant to section 7 (b).

SEC. 3. *Reports of Handlers*—(a) *Periodic reports.* On or before the 10th day after the end of each delivery period, each handler, who purchases or receives milk from producers, with respect to all skim milk and butterfat contained in milk, skim milk, cream, and milk products which were, during such delivery period received from (1) producers; (2) other handlers; (3) own farm production; (4) any other sources, shall report to the market administrator in the detail and on forms prescribed by him as follows:

(i) The receipts at each plant from producers who are not handlers;

(ii) The receipts at each plant from any other handler;

(iii) The receipts at each plant from producer-handlers;

(iv) The receipts at each plant from such handler's own farm production;

(v) The receipts at each plant from any other source;

(vi) The utilization of all skim milk and butterfat disposed of, indicating those portions disposed of as out-of-area sales; and

(vii) The quantity of skim milk and butterfat on hand at the beginning and end of the delivery period.

(b) *Reports of producer-handlers and handlers who receive no milk from producers.* Producer-handlers and handlers who receive no milk from producers shall make reports to the market administrator at such time and in such manner as the market administrator may require.

(c) *Reports as to producers.* Each handler, upon the request of the market administrator shall, within 20 days after the end of the delivery period, submit to the market administrator his producer payroll for such delivery period which shall show for each producer (1) the total pounds of milk delivered with the average butterfat test thereof, and (2) the net amount of such handler's payment to such producer together with the prices, deductions, and charges involved.

(d) *Other reports.* On or before the day a handler receives "other source" milk, he shall report his intentions to receive such milk.

(e) *Verification of reports.* The market administrator shall verify all reports and payments of each handler by audit of such handler's records, and the records of any other handler or person upon whose utilization the classification of milk depends. Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to:

(1) Verify the receipts and utilization of all skim milk and butterfat and, in the case of errors or omissions, ascertain the correct figures;

(2) Weigh, sample, and test for butterfat content, milk and milk products;

(3) Verify payments to producers.

SEC. 4. *Classification of milk*—(a) *Skim milk and butterfat to be classified.* Skim milk and butterfat contained in milk, skim milk, and cream, used to produce milk products, received from all sources by each handler at a fluid milk plant shall be classified separately (as skim milk or butterfat) pursuant to the following provisions of this section.

(b) *Classes of utilization.* Skim milk and butterfat described in paragraph (a) of this section shall be classified by the market administrator on the basis of the following utilization:

(1) Class I milk shall be all skim milk (including reconstituted skim milk) and butterfat:

Disposed of in fluid form as milk; skim milk; and as buttermilk and flavored milk or flavored milk drinks having a butterfat content in excess of 1 percent; excepting livestock feed; and all milk not specifically accounted for as Class II milk, Class III milk, and Class IV milk.

(2) Class II milk shall be all skim milk and butterfat disposed of as cream (for consumption as cream) including any cream disposed of in fluid form which contains less than the minimum butterfat content required for fluid cream, and all skim milk and butterfat disposed of as buttermilk or milk drinks, whether plain or flavored not disposed of in Class I.

(3) Class III milk shall be all skim milk and butterfat:

(i) Used to produce ice cream, imitation ice cream, and other frozen desserts and mixes for similar products (liquid or powdered); or frozen cream; cheese (including cottage cheese), bulk condensed skim milk or whole milk (sweetened or unsweetened); evaporated or condensed milk (or skim milk) in hermetically sealed cans; nonfat dry milk solids; dry whole milk; powdered malted milk; and all products other than those specified in Class I milk, Class II milk, and Class IV milk.

(4) Class IV milk shall be the skim milk and butterfat accounted for as:

(i) Used to produce butter, butter oil, casein, lactose, condensed or dry buttermilk; whey; and skim milk or buttermilk disposed of for livestock feed; and

(ii) Actual plant shrinkage not in excess of 3 percent of the total receipts of skim milk and butterfat from all sources.

(c) *Responsibility of handlers.* In establishing the classification of milk as required in paragraph (b) of this section the burden rests upon the handler, who first receives or diverts milk from producers, to account for the skim milk and butterfat contained in such milk and to prove to the market administrator that such skim milk or butterfat should not be classified as Class I milk.

(d) *Transfers of milk and cream.* For skim milk and butterfat disposed of in the form of any item specified in paragraph (b) (1) of this section by a handler;

(i) To other handlers who receive milk from producers,

(ii) To a producer-handler,

(iii) To a handler who purchases or receives no producer milk, or

(iv) to a nonhandler,

the market administrator must be furnished with a statement by both the selling handler and the buyer as to disposition of the milk with respect to classification, whether as Classification I, Classification II, Classification III, or Classification IV, and it shall be classified accordingly, subject to verification by the market administrator.

In the absence of such statement to the administrator, such skim milk and butterfat shall be classified as Class I.

(e) *Correction of classification and reclassification of milk.* (1) The classification of any milk and butterfat shall be corrected by the market administrator if upon his audit it is found that such classification was reported incorrectly or incompletely by the handler.

(2) Any skim milk or butterfat reported by a handler as having been used or disposed of in any class which is found by the market administrator to have been reused or redisposed of (whether in original or other form) in a different class by such handler, by other handler(s) or by any nonhandler(s) shall be reclassified by the market administrator in accordance with such latter use or disposition.

(3) *Provided,* That no such correction of classification or reclassification shall be made or billing thereon issued after the expiration of 90 days from the close of the delivery period, except only in the event of intentional falsification of handlers' reports.

(f) *Computation of the skim milk and butterfat in each class.* (1) For each delivery period the market administrator shall correct for mathematical and other obvious errors the delivery period report submitted by each handler and compute the total pounds of skim milk and butterfat, respectively, in Class I milk, Class II milk, Class III milk, and Class IV milk for such handler.

(2) Should the actual plant shrinkage of the total receipts of skim milk and butterfat from all sources exceed the allowable 3 percent, the amount in excess shall be prorated into four portions according to the total quantities represented in the four classifications, and these prorated quantities shall be added to the amounts in the classifications.

(3) If the total utilization of skim milk and butterfat in the various classes, for any handler, is less or more than the actual receipts by the handler, the market administrator shall increase or decrease the amounts in the classification by a pro rata amount to make the utilization conform to total receipts by the handler.

(g) *Allocation of butterfat classified.* The pounds of butterfat in each classification allocated to milk received from producers shall be determined as follows:

From the total butterfat in each classification deduct therefrom the quantities obtained from other source milk, and the remainder will represent the quantity allocable to milk received from producers.

If adequate records are not available to determine the distribution of butterfat from other source milk into the classifications, the amount of butterfat in each classification allocable to producer milk shall be determined as follows:

From the total quantity of butterfat from all sources in Class II milk subtract the pounds of butterfat obtained in other source milk: *Provided,* That if the receipts of butterfat from other source milk are greater than the total pounds of butterfat in Class II, the excess quantity of butterfat from other source milk shall be deducted from the total quantity of butterfat in Class III.

Should that portion of butterfat from other source milk which is in excess of the total butterfat in Class II be greater than the total pounds of butterfat in Class III the difference between these two quantities shall be subtracted from the total butterfat in Class I.

After making the deductions as provided for above in the appropriate classifications the quantities of butterfat remaining in each classification will represent the butterfat to be allocated to producer milk.

(h) *Allocation of skim milk classified.* Allocate the pounds of skim milk in each class to milk received from producers in a manner similar to that prescribed for butterfat in paragraph (g) of this section.

If adequate records are not available and milk solids nonfat are received in form other than whole milk or skim milk, a conversion factor of 8.5 percent of nonfat solids shall be used.

SEC. 5. *Minimum prices*—(a) *Basic formula price.* For each delivery period the basic formula price to be used in determining the prices of Class I milk, in Class II milk and Class III milk, shall be the average of the prices per hundredweight of milk of 4.0 percent butterfat content computed by the market administrator pursuant to subparagraphs (1), (2), and (3) of this paragraph:

(1) The arithmetical average of the basic (or field) prices, delivery plant, per hundredweight ascertained to have been paid or to be paid during the preceding delivery period to farmers for milk containing 4.0 percent butterfat at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator:

Concern and Location

Cudahy Packing Co., Lafayette, Tenn
Lakeshire Marty Cheese Co., Carthage, Tenn.
Carnation Co., Murfreesboro, Tenn.
Kraft Cheese Co., Gallatin, Tenn.
Wilson and Co., Murfreesboro, Tenn.
Borden Co., Fayetteville, Tenn.
Swift and Co., Lebanon, Tenn.
Swift and Co., Lawrenceburg, Tenn.
Borden Co., Lewisburg, Tenn.
Giles County Dairy Products, Pulaski, Tenn.

(2) The price per hundredweight resulting from the following formula:

(i) Multiply the average wholesale price per pound of 92-score butter at Chicago for the preceding delivery period as reported by the United States Department of Agriculture, by six (6);

(ii) Add 2.4 times the average weekly prevailing price per pound of "Twins" during the preceding delivery period on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided,* That if the price of "Twins" is not quoted on the Wisconsin Cheese Exchange the weekly prevailing price of "Cheddars" shall be deemed to be the prevailing price for "Twins" and shall be used in determining the price pursuant to this formula;

(iii) Divide by seven (7);

(iv) Add 30 percent thereof; and

(v) Multiply by 4.0.

(3) The price per hundredweight computed as follows:

(i) From the average wholesale price per pound of 92-score butter in the Chicago market as reported by the United States Department of Agriculture (or by such other Federal agency as may hereafter be authorized to perform this price reporting function) for the preceding delivery period, subtract one cent;

(ii) Multiply by 4;

(iii) Add 20 percent thereof; and

(iv) Add 3½ cents per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids by roller process for human consumption is above 5½ cents, or subtract 3½ cents per hundredweight for each full ½ cent that the price per pound of nonfat dry milk solids by roller process for human consumption is below 5½ cents. For the purpose of determining this adjustment the price per pound of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids by roller process for human consumption, f. o. b. manufacturing plants, as published by the agency described in subdivision (i) of this subparagraph, for the Chicago market during the preceding delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available at the time such average price was determined for the previous delivery period. In the event the carlot prices for nonfat dry milk solids by roller process for human consumption, f. o. b. manufacturing plants, for such delivery period, are not so published, the price of nonfat dry milk solids to be used shall be the average of the carlot prices for nonfat dry milk solids for human consumption, delivered at Chicago, during such delivery period, as published by such agency, and the adjustment to be made be as follows: Add 3½ cents per hundredweight for each full ½ cent that such price is above 6½ cents per pound, or subtract 3½ cents per hundredweight for each full ½ cent that such price is below 6½ cents per pound.

(b) *Class I milk prices.* The respective minimum prices per hundredweight, to be paid by each handler, f. o. b. his plant, for skim milk and butterfat received from producers, which is classified as Class I milk, shall be as follows, as computed by the market administrator:

(1) Add $0.90 to the basic formula price.

(2) The price of butterfat shall be the sum obtained in subparagraph (1) of this paragraph, multiplied by 20.

(3) The price of skim milk shall be computed by:

(i) Multiplying the price of butterfat pursuant to subparagraph (2) of this paragraph by 0.040;

(ii) Subtracting such amount from the sum obtained in subparagraph (1) of this paragraph;

(iii) Dividing such net amount by 0.96; and

(iv) Rounding off to the nearest full cent.

(c) *Class II milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant, for skim milk and butterfat in milk received from producers, which is classified as Class II milk shall be as follows, as computed by the market administrator;

(1) Add $0.40 to the basic formula price.

(2) The price of butterfat shall be the sum obtained in subparagraph (1) of this paragraph, multiplied by 20.

(3) The price of skim milk shall be computed by:

(i) Multiplying the price for butterfat pursuant to subparagraph (2) of this paragraph by 0.040;

(ii) Subtracting such amount from the sum obtained in subparagraph (1) of this paragraph;

(iii) Dividing such net amount by 0.96; and

(iv) Rounding off to the nearest full cent.

(d) *Class III milk prices.* The respective minimum price per hundredweight to be paid by each handler, f. o. b. his plant, for skim milk and butterfat in milk received from producers, which is classified as Class III milk, shall be as follows, as computed by the market administrator:

(1) Use the basic formula price.

(2) The price of butterfat shall be the amount in subparagraph (1) of this paragraph, multiplied by 20.

(3) The price of skim milk shall be computed by:

(i) Multiplying the price for butterfat pursuant to subparagraph (2) of this paragraph by 0.040;

(ii) Subtracting such amount from the sum obtained in subparagraph (1) of this paragraph;

(iii) Dividing such net amount by 0.96; and

(iv) Rounding off to the nearest full cent.

(e) *Class IV milk prices.* The respective minimum prices per hundredweight to be paid by each handler, f. o. b. his plant, for skim milk and butterfat in milk received from producers which is classified as Class IV milk shall be as follows, as computed by the market administrator:

(1) The price per hundredweight of butterfat shall be the average price per pound of 92-score butter at wholesale in the Chicago market, as reported by the Department of Agriculture for the preceding delivery period, multiplied by 110.

(2) The price per hundredweight of skim milk (calculated to the nearest full cent) shall be determined as follows:

Subtract 5½ cents from the average carlot price per pound of nonfat dry milk solids for human consumption, roller process, f. o. b. manufacturing plants, as published for the Chicago area for the preceding delivery period by the Department of Agriculture; divide this difference by 0.5; multiply by 3.5; then multiply by 0.96.

SEC. 6. *Application of provisions*—(a) *Handlers who receive no milk from producers.* Sections 4, 5, 7, 8, 9, and 10 shall not apply to the handling of milk by producer-handlers or by handlers whose sole source of supply is receipts from other handlers.

(b) *Producer-handlers.* Handlers shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence of their qualification as producer-handlers pursuant to section 1 (h), as of the effective date hereof, and they shall furnish evidence of subsequent changes made in the manner of producing or distributing that milk that affects their qualification as producer-handlers.

(c) Milk received by a handler from his own farm production shall be considered as "producer milk."

(d) Milk received from handlers under any marketing agreement or order issued pursuant to the act for any other fluid milk marketing area shall be considered as "other source milk."

SEC. 7. *Determination of uniform price to producers*—(a) *Computation of the value of the milk of each handler.* The pool value for each delivery period of each handler shall be a sum of money computed by the market administrator by adding the quantities computed in subparagraphs (1) and (2) of this paragraph.

(1) The total skim milk and butterfat in each classification from producers (excluding those quantities disposed of as out-of-area sales) shall be multiplied by the applicable prices for skim milk and butterfat in each class pursuant to section 5 (b), and the resulting amounts added together.

(2) (i) Compute the average price paid by the following dairy plants per hundredweight of 4 percent butterfat milk for the preceding delivery period.

Murfreesboro Pure Milk Co., Murfreesboro, Tennessee
Jersey Pride Products Co., Columbia, Tennessee
Tuell Dairy Products Co., Columbia, Tennessee
Supreme Dairy Products Co., Springfield, Tennessee
Avon Dairies, Inc., Dickson, Tennessee
Castlewood Dairy, Murfreesboro, Tennessee

(ii) The price of butterfat to be applied to out-of-area sales shall be the average figure from subdivision (i) above multiplied by 20.

(iii) The price of skim milk to be applied to out-of-area sales shall be computed by:

Multiplying the price for butterfat pursuant to subdivision (ii) of this subparagraph by 0.40; subtracting such amount from the average price found in subdivision (i) of this subparagraph; dividing such net amount by 0.96; and rounding off to the nearest full cent.

(iv) Multiply the total quantity of skim milk and of butterfat disposed of as out-of-area sales by the applicable prices from subdivisions (ii) and (iii) of this subparagraph and add the resulting amounts.

(b) *Computation and announcement of uniform price.* For each delivery period, the market administrator shall compute the "uniform price" per hundredweight for milk of 4.0 percent but-

terfat content received from producers by:

(1) Combining into one total the pool values computed under paragraph (a) of this section for all handlers for such delivery period;

(2) Subtracting, if the weighted average butterfat test of all milk received from producers represented by the values included in subparagraph (1) of this paragraph is greater than 4.0 percent, or adding, if the weighted average butterfat test of such milk is less than 4.0 percent, for each one-tenth percent difference, an amount obtained by multiplying the total hundredweight of milk received from all producers by a factor obtained as follows:

Multiply by 1.2 the average wholesale price per pound of 92-score butter at Chicago, as reported by the Department of Agriculture for the preceding delivery period, divide the result by 10, and adjust to the nearest one-tenth of a cent.

(3) (i) For each of the delivery periods of April, May, and June, subtract an amount equal to 20 cents per hundredweight of the total amount of milk received from producers by the handlers whose milk values are included under subparagraph (1) of this paragraph.

(ii) Add for each of the delivery periods of September, October, and November an amount equal to one-third of the aggregate amount withheld pursuant to section 7 (b) (3) (i).

(4) Add an amount representing the cash balance in the producer-settlement fund, less the amount due handlers pursuant to section 8 (f) and less the aggregate of the amount held pursuant to subparagraph (3) of this paragraph.

(5) Divide the amount computed pursuant to subparagraph (4) of this paragraph by a figure equal to the total hundredweight of milk received by handlers from producers.

(6) Subtract from the figures computed pursuant to subparagraph (5) of this paragraph not less than 4 cents nor more than 5 cents, for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers. This result shall be known as the uniform price per hundred weight of producer milk of 4.0 percent butterfat content for such delivery period.

(7) On or before the 14th day after the end of each delivery period the market administrator shall notify each handler of such uniform price, and the butterfat differential.

SEC. 8. *Payment to producers.* (a) On or before the last day of each delivery period each handler shall make payment to each producer on a basis of not less than 70 percent of the price established for the preceding delivery period, for the milk received from each producer, and delivered to such handler during the first 15 days of the current delivery period.

(b) (1) On or before the 20th day after the end of each delivery period each handler shall make payment to each producer for milk received from such producer, on the basis of the total hundredweight received from such producer and the "uniform price," basis 4 percent butterfat, subject to the following adjustments:

(i) The butterfat differential pursuant to section 7 (b) (2),

(ii) Less payment made pursuant to paragraph (a) of this section,

(iii) Less marketing service deductions pursuant to section 10,

(iv) Less deductions authorized by the producer,

(v) Adjustments of error in calculating payments to such individual producer pursuant to section 8 (f).

(2) *Provided*, That if by such date such handler has not received final payment for such delivery period pursuant to paragraph (e) of this section, he shall not be deemed to be in violation of this paragraph if he reduces uniformly to all producers his payments per hundredweight by a total amount not in excess of the per hundredweight reduction in payment from the market administrator; however, the handler shall make such balance of payment uniformly to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator.

(c) *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to paragraphs (d) and (f) of this section, and out of which he shall make payments pursuant to paragraphs (e) and (f) of this section.

(d) *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator any amount by which the classification value of his milk, computed pursuant to section 7 (a) for the delivery period, is greater than an amount computed by multiplying the hundredweight of milk received by him from producers during the delivery period at the uniform price corrected for butterfat differential.

(e) *Payments out of the producer-settlement fund.* (1) On or before the 18th day after the end of such delivery period, the market administrator shall pay to each handler for payment to producers any amount by which the classification value of his milk, computed pursuant to section 7 (a) for the delivery period, is less than an amount computed by multiplying the hundredweight of milk received by him from producers during the delivery period by the uniform price, corrected for butterfat differential. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(f) *Adjustment of errors in payments.* Whenever verification by the market administrator of payments by and handler discloses any errors made in payments to the producer-settlement fund pursuant to paragraph (d) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to paragraph (e) of this section, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by this section, an adjustment therefor shall be made not later than the time of making payment to producers next following such disclosure: *Provided*, That there shall be no adjustment of errors as herein described in section 8 (f) after the expiration of 90 days from the date of the error, except only in the case of fraud or intentional falsification.

(g) *Statement to producers.* In making payment to producers, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The delivery period and the identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of milk delivered by the producer;

(3) The rate per hundredweight used in computing the payment;

(4) Such deductions or adjustments as have been made to arrive at the net amount of payment to the producer;

(5) The net amount of payment to the producer;

(6) *Producers cooperative associations.* In the case of producers for whom a cooperative association, which the secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act" is actually performing, as determined by the Secretary, the services set forth in section 10 (a), each handler shall make, in lieu of the deductions specified in paragraph (a) of section 10, such deductions from the payments to be made directly to producers pursuant to section 8, as are authorized by such producers, and, on or before the 22d day after the end of each delivery period, pay over such deductions to the association rendering such service.

SEC. 9. *Expenses of administration*—(a) *Payments by handlers.* As his pro rata share of the expense of the administration hereof, each handler, on or before the 15th day after the end of each delivery period, shall pay to the market administrator a sum not exceeding 2 cents per hundredweight with respect to all skim milk and butterfat received from producers except that the Secretary may prescribe a lesser rate.

(b) *Suits by the market administrator.* The market administrator may maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expense set forth in this section.

SEC. 10. *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in section 8 (g) (6), each handler shall deduct an amount not exceeding 3 cents per hundredweight (the exact rate to be determined by the market administrator subject to review by the Secretary) from the payments made to producers pursuant to section 8 with respect to all milk received by such handler from producers during the delivery period and shall pay such deductions to the market administrator not later than the 22d day after the end of the delivery period. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from producers during the delivery period and to provide such producers with market information, such services to be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

SEC. 11. *Auditing accounts of the market administrator.* During each yearly period after the effective date of this order, there shall be an audit of the records and the accounts of the market administrator for their correctness, such audit to be made by a licensed auditing firm in the State of Tennessee, and to be paid for out of the funds controlled by the market administrator.

SEC. 12. *Effective time, suspension and termination*—(a) *Effective time.* The provisions hereof or any amendments hereto shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated pursuant to paragraph (b) of this section.

(b) *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions hereof, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This order shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

(c) *Continuing power and duty of the market administrator.* If, upon the suspension or termination of any or all of the provisions hereof, there are any obligations arising hereunder, the final accrual or ascertainment of which require further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

The market administrator, or such other person as the Secretary may designate (1) shall continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so desired by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

(d) *Liquidation after suspension or termination.* Upon the suspension or any or all provisions hereof, the market administrator, or such person as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions hereof, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

SEC. 12. *Separability of provisions.* If any provisions hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

SEC. 13. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

Copies of this notice of hearing may be procured from the Director, Dairy Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., or from the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Room 0306, South Building, Washington 25, D. C., or may be there inspected.

Dated: May 20, 1947.

[SEAL] F. R. BURKE,
Acting Assistant Administrator, Production and Marketing Administration.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 60]

AIR TRAFFIC RULES

NOTICE OF PROPOSED RULE MAKING

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives public notice that the Bureau, immediately after 30 days from date of this notice, will recommend to the Board that Part 60 of the Civil Air Regulations, Air Traffic Rules, be revised.

On October 1, 1946, the Safety Bureau circulated to the aviation industry for comment Draft Releases No. 46-5, Proposed Revision of Part 60, Air Traffic Rules. Comments received concerning that draft release have been carefully considered. The proposed regulations published herein have been developed after many conferences with representatives of all branches of the aviation industry. This study, together with experience gained with existing air traffic rules since the last revision on August 1, 1945, indicate that certain modification and clarification are necessary in the interest of safety, and that rules should be promulgated to provide for increasing helicopter operations, for the operation of aircraft on the surface of the water, and for certain essential minimums for instrument flight.

The proposed air traffic rules are as follows:

§ 60.0 *General.*

§ 60.00 *Scope.* The following air traffic rules shall apply to aircraft operated anywhere in the United States, including the several States, the District of Columbia, and the several territories and possessions of the United States, including the territorial waters and the overlying airspace thereof, except:

(a) Military aircraft of the United States armed forces when appropriate military authority determines that noncompliance with the regulations in this part is required and prior notice thereof is given to the Administrator, or

(b) Aircraft engaged in special flight operations, requiring deviation from the regulations in this part, which are conducted in accordance with the terms and conditions of a certificate of waiver issued by the Administrator.

§ 60.01 *Authority of the pilot.* The pilot in command of the aircraft shall be directly responsible for its operation and shall have final authority as to operation of the aircraft. In emergency situations which require immediate decision and action the pilot may deviate from the regulations prescribed in this part to the extent required by considerations of safety. When such emergency authority is exercised, the pilot, upon request of the Administrator, shall file a written report of such deviation.

§ 60.1 *General flight rules (GFR).*

§ 60.100 *Application.* Aircraft shall be operated at all times in compliance with the following general flight rules and also in compliance with either the visual flight rules or the instrument flight rules, whichever are applicable.

§ 60.101 *Preflight action.* Before beginning a flight, the pilot in command of the aircraft shall familiarize himself with all available information appropriate to the intended operation. Preflight action for flights away from the vicinity of an airport, and for all IFR flights, shall include a careful study of available current weather reports and forecasts, taking into consideration fuel requirements and an alternate course of action, if the flight cannot be completed as planned.

§ 60.102 *Careless or reckless operation.* No person shall operate an aircraft in a careless or reckless manner so as to endanger the life or property of others.

§ 60.103 *Airspace restricted areas.* No person shall operate an aircraft within an airspace reservation or danger

area unless permission for such operation has been issued by appropriate authority.

§ 60.104 *Right-of-way.* An aircraft which is obliged by the following rules to keep out of the way of another shall avoid passing over or under the other, or crossing ahead of it, unless passing well clear.

(a) *Distress.* An aircraft in distress has the right-of-way over all other air traffic.

(b) *Converging.* Aircraft converging shall give way to other aircraft of a different category in the following order: airplanes and rotorcraft shall give to airships, gliders, and balloons; airships shall give way to gliders and balloons; gliders shall give way to balloons. When two or more aircraft of the same category are converging at approximately the same altitude, each shall give way to the other on its right. In any event, mechanically driven aircraft shall give way to aircraft which are seen to be towing other aircraft.

(c) *Approaching head-on.* When two aircraft are approaching head-on, or approximately so, each shall alter its course to the right.

(d) *Overtaking.* An aircraft that is being overtaken has the right-of-way, and the overtaking aircraft, whether climbing, descending, or in horizontal flight, shall keep out of the way of the other aircraft by altering its course to the right, and no subsequent change in the relative positions of the two aircraft shall absolve the overtaking aircraft from this obligation until it is entirely past and clear.

(e) *Landing.* Aircraft, while landing or on final approach to land, have the right-of-way over other aircraft in flight or operating on the surface. When two or more aircraft are approaching an airport for the purpose of landing, the aircraft at the lower altitude has the right-of-way, but it shall not take advantage of this rule to cut-in in front of another which is on final approach to land, or to overtake that aircraft.

§ 60.105 *Proximity of aircraft.* No person shall operate an aircraft in such proximity to other aircraft as to create a collision hazard. No person shall operate an aircraft in formation flight when passengers are carried for hire. No aircraft shall be operated in formation flight except by prearrangement between the pilots in command of such aircraft.

§ 60.106 *Acrobatic flight.* No person shall engage in acrobatic flight:

(a) Over congested areas of cities, towns, settlements, or over an open-air assembly of persons, or

(b) Within any control zone, or in any area or lane of high traffic density, or

(c) When the flight visibility is less than 3 miles, or

(d) Below an altitude of 1,500 feet above the surface.

§ 60.107 *Minimum safe altitudes.* Except when necessary for landing or taking off, no person shall operate aircraft:

(a) Over the congested areas of cities, towns, or settlements, or over an open-air assembly of persons, except at such an altitude as will permit, in the event of the failure of a power unit, an emergency landing without undue hazard to persons or property on the surface, and such altitude, except for helicopters, shall not be less than 1,000 feet above the highest obstacle within a radius of 2,000 feet from the aircraft;

(b) When elsewhere than specified in paragraph (a) of this section, at an altitude of less than 500 feet above the surface, except when over open water or sparsely populated areas. In such event, the aircraft shall not be operated closer than 500 feet to any person, or to any vessel, vehicle, structure, livestock, or other similar property of others on the surface.

§ 60.108 *Operation on and in the vicinity of an airport.* Aircraft shall be operated on and in the vicinity of an airport in accordance with the following rules:

(a) When approaching for landing, all turns shall be made to the left unless the airport displays standard visual markings approved by the Administrator and which indicate that all turns are to be made to the right, or unless otherwise authorized by air traffic control.

(b) If air traffic control is in operation at the airport, contact shall be maintained with such control, either visually or by radio, to receive any air traffic control instructions which may be issued.

(c) Aircraft operating on or from an airport shall conform to the traffic patterns prescribed for that airport. The Administrator may, when necessary in the interest of safety, prescribe traffic patterns for an airport which shall supersede any other traffic patterns previously prescribed.

(d) When light signals are used for the control of air traffic, they shall be of the color and have the meaning prescribed by the Administrator.

NOTE: Light signals and their meanings are published in the CAA Flight Information Manual.

§ 60.109 *Air traffic control instructions.* No person shall operate an aircraft in areas where air traffic control is exercised except in accordance with air traffic control instructions.

§ 60.110 *Notification of arrival.* If a flight plan has been filed, the pilot in command of the aircraft, upon landing or completion of the flight, shall file an arrival or completion notice with the nearest Civil Aeronautics Administration communications station or control tower.

§ 60.111 *Adherence to air traffic clearances.* When an air traffic clearance has been obtained under either the VFR or IFR rules, the pilot in command of the aircraft shall not deviate from the provisions thereof unless an amended clearance is obtained. In case emergency authority is used to deviate from the provisions of an air traffic clearance, the pilot in command shall notify air traffic control as soon as possible and, if necessary, obtain an amended clearance.

§ 60.112 *Water operations.* An aircraft operated on the water shall, insofar as possible, keep clear of all vessels and avoid impeding their navigation. The following rules shall be observed with respect to other aircraft or vessels operated on the water:

(a) *Crossing.* The aircraft or vessel which has the other on its right shall give way so as to keep well clear.

(b) *Approaching head-on.* When aircraft, or an aircraft and vessel, approach head-on, or approximately so, each shall alter its course to the right to keep well clear.

(c) *Overtaking.* The aircraft or vessel which is being overtaken has the right-of-way, and the one overtaking shall alter its course to keep well clear.

(d) *Special circumstances.* When two aircraft, or an aircraft and vessel, approach so as to involve risk of collision, each shall proceed with careful regard to existing circumstances and conditions including the limitations of the respective craft.

§ 60.113 *Aircraft lights.* During the hours of darkness:

(a) All aircraft in flight or operated on the ground shall display position lights.

(b) All aircraft parked or moved within or in dangerous proximity to that portion of any airport used for, or available to, night flight operations shall be clearly illuminated or lighted, unless the aircraft is parked or moved in an area marked with obstruction lights.

(c) All aircraft under way on the water shall display position lights.

(d) All aircraft at anchor shall display an anchor light, or anchor lights, unless in an area within which lights are not required for vessels at anchor.

§ 60.2 *Visual flight rules (VFR).*

§ 60.200 *Distance from clouds.* Aircraft shall be flown:

(a) *Within control zones.* Not less than 500 feet vertically and 2,000 feet horizontally from any cloud formation, unless air traffic control has authorized flight clear of clouds; and

(b) *Elsewhere.* At any altitude more than 700 feet above the surface, 500 feet vertically and 2,000 feet horizontally from any cloud formation; at an altitude of 700 feet or less above the surface, clear of clouds.

§ 60.201 *Visibility*—(a) *Ground visibility within control zones.* When the ground visibility is less than 3 miles, no person shall take off or land an aircraft at an airport within a control zone, or enter the traffic pattern of such an airport, unless an air traffic clearance is obtained from air traffic control.

(b) *Flight visibility within control zones.* When the flight visibility is less than 3 miles, no person shall operate an aircraft in flight within a control zone, unless an air traffic clearance is obtained from air traffic control.

(c) *Flight visibility within control areas.* When the flight visibility is less than 3 miles, no person shall operate an aircraft in flight within a control area.

(d) *Flight visibility elsewhere.* When outside of control zones and control areas, no person shall operate an aircraft in flight when the flight visibility is less than one mile. However, helicopters may be flown at or below 700 feet above the surface when the flight visibility is less than one mile if operated at a reduced speed which will give the pilot of such helicopter adequate opportunity to see other air traffic or any obstacle to flight in time to avoid hazard of collision.

NOTE: When traffic conditions permit, air traffic control will issue an air traffic clearance for flights within, entering, or departing control zones when the ground visibility or the flight visibility is less than 3 miles.

§ 60.202 *Cruising altitudes.* Outside of control zones and control areas, at any altitude of 2,000 feet or more above the surface when the flight visibility is less than 3 miles, aircraft shall be operated at cruising altitudes above set level appropriate to the magnetic course being flown as follows:

(a) 0° to 89° inclusive, at odd thousands (3,000; 5,000; etc.),
(b) 90° to 179° inclusive, at odd thousands plus 500 (3,500; 5,500; etc.),
(c) 180° to 269° inclusive, at even thousands (2,000; 4,000; etc.),
(d) 270° to 359° inclusive, at even thousands plus 500 (2,500; 4,500; etc.).

§ 60.203 *VFR flight plan.* If a VFR flight plan is filed, it shall contain such of the information listed in § 60.300 as air traffic control may require.

§ 60.3 *Instrument flight rules (IFR).*

§ 60.300 *Application.* When aircraft cannot be flown in accordance with the distance-from-cloud and visibility rules prescribed in the visual flight rules (§ 60.2), aircraft shall be flown in accordance with the following rules.

§ 60.301 *IFR flight plan.* Prior to take-off from a point within a control zone or prior to entering a control area or control zone, a flight plan shall be filed with air traffic control. Such a flight plan shall contain the following information unless otherwise authorized by air traffic control:

(a) Aircraft identification, and if necessary, radio call sign,
(b) Type of aircraft, or in the case of a formation flight, the types and number involved,
(c) Full name, address, and number of pilot certificate of pilot in command of the aircraft, or of the flight commander if a formation flight is involved,
(d) Point of departure,
(e) Cruising altitude, or altitudes, and the route to be followed,
(f) Point of first intended landing,
(g) Proposed true air speed at cruising altitude,
(h) Radio transmitting and receiving frequencies to be used,
(i) Proposed time of departure,
(j) Estimated elapsed time until arrival over the point of first intended landing,
(k) Alternate airport or airports, in accordance with the requirements of § 60.301,
(l) Amount of fuel on board expressed in hours,
(m) Any other information which the pilot in command of the aircraft, or air traffic control, deems necessary for air traffic control purposes.

§ 60.302 *Alternate airport.* An airport shall not be listed in the flight plan as an alternate airport unless current weather reports and forecasts show a trend indicating that the ceiling and visibility at such airport will be at or above the following minimums at the time of arrival:

(a) *Airport served by radio directional facility.* Ceiling 1,000 feet, visibility one mile; or, ceiling 900 feet, visibility 1½ miles; or, ceiling 800 feet, visibility 2 miles;

(b) *Airport not served by radio directional facility.* Ceiling 1,000 feet with broken clouds or better, visibility 2 miles.

§ 60.303 *Fuel supply.* Sufficient fuel and oil, considering weather and other factors, shall be carried to:

(a) Complete the flight to the point of first intended landing, and thereafter

(b) Fly to the alternate airport, and thereafter

(c) Fly at normal cruising consumption for 45 minutes.

§ 60.304 *Air traffic clearance.* Prior to take-off from a point within a control zone or prior to entering a control area or control zone, an air traffic clearance shall be obtained from air traffic control.

§ 60.305 *Minimum altitude.* Except during take-off or landing or when operating in accordance with procedures approved by the Administrator, no person shall operate an aircraft in flight at an altitude of less than 1,000 feet above the highest obstacle located within a horizontal distance of 5 miles from the aircraft in flight.

§ 60.306 *Cruising altitudes.* Aircraft shall be flown at the following cruising altitudes:

(a) *Within control areas and control zones.* At altitudes authorized by air traffic control.

(b) *Elsewhere.* At an altitude appropriate to the magnetic course being flown as follows:

(1) 0° to 89° inclusive, at odd thousands (1,000; 3,000; etc.),
(2) 90° to 179° inclusive, at odd thousands plus 500 (1,500; 3,500; etc.),
(3) 180° to 269° inclusive, at even thousands (2,000; 4,000; etc.),
(4) 270° to 359° inclusive, at even thousands plus 500 (2,500; 4,500; etc.).

§ 60.307 *Right-side traffic.* Aircraft operating along a civil airway shall be flown to the right of the center line of such airway, unless otherwise authorized by air traffic control.

§ 60.308 *Landing minimums.* No person shall land an aircraft at an airport for which the Administrator has prescribed ceiling and visibility minimums unless the ceiling and visibility minimums are at or above those minimums, or unless otherwise authorized by the Administrator.

NOTE: Airport landing minimums prescribed by the Administrator are published in the CAA Flight Information Manual.

§ 60.309 *Instrument approach procedure.* When instrument letdown to an airport is necessary, a standard instrument approach procedure prescribed for that airport by the Administrator shall be used, unless:

(a) A different instrument approach procedure specifically authorized by the Administrator is used, or

(b) A different instrument approach procedure is authorized by air traffic control for the particular approach.

NOTE: Standard instrument approach prescribed by the Administrator are published in the CAA Flight Information Manual.

§ 60.310 *Radio communications.* Within control zones and control areas the pilot in command of the aircraft shall ensure that a continuous watch is maintained on the appropriate radio frequencies and shall report by radio as soon as possible the time and altitude of passing each designated reporting point, or the reporting points specified by air traffic control, together with unanticipated weather conditions being encountered and other information pertinent to the safety of flight.

NOTE: Designated reporting points are published in the CAA Airman's Guide, for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

§ 60.311 *Radio failure.* If unable to maintain two-way radio communication, the pilot in command of the aircraft shall:

(a) Proceed under VFR conditions, or
(b) Land as soon as practicable, or
(c) Proceed according to the latest traffic clearance to the airport of intended landing, maintaining the minimum safe altitude or the last acknowledged assigned altitude, whichever is higher. Descent shall start at approach time last authorized or, if not received and acknowledged, at the estimated time of arrival indicated by the elapsed time specified in the flight plan.

§ 60.9 *Definitions.*

§ 60.900 *Acrobatic flight.* Maneuvers intentionally performed by an aircraft involving an abrupt change in its attitude, an abnormal attitude, or an abnormal acceleration.

§ 60.901 *Aircraft.* Any contrivance invented, used, or designed for navigation of or flight in the air, except a parachute or other contrivance designed for such navigation but used primarily as safety equipment.

§ 60.902 *Airplane.* A mechanically propelled aircraft the support of which in flight is derived dynamically from the reaction on surfaces in a fixed position relative to the aircraft but in motion relative to the air.

§ 60.903 *Airport.* A defined area on land or water, including any buildings and installations, normally used for the take-off and landing of aircraft.

§ 60.904 *Airship.* A mechanically propelled aircraft whose support is derived from lighter-than-air gas.

§ 60.905 *Airspace restricted areas.* Designated areas in which flight is restricted, which are established by appropriate authority, and are shown on aeronautical charts and published in notices to airmen and aids to air navigation:

(a) *Airspace reservation.* An area established by Executive Order of the Pres-

ident of the United States or by any State of the United States.

(b) *Danger area.* An area designated by the Administrator within which an invisible hazard to aircraft in flight exists.

§ 60.906 *Air traffic.* Aircraft in operation anywhere in the airspace and on that area of an airport normally used for the movement of aircraft.

§ 60.907 *Air traffic clearance.* Authorization by air traffic control, for the purpose of preventing collision between known aircraft, for an aircraft to proceed under specified conditions within a control zone or a control area.

§ 60.908 *Air traffic control.* A service operated by appropriate authority to promote the safe, orderly, and expeditious flow of air traffic.

§ 60.909 *Alternate airport.* An airport specified in the flight plan to which a flight may proceed when a landing at the point of first intended landing becomes inadvisable.

§ 60.910 *Approach time.* The time at which an aircraft is expected to commence its approach procedure preparatory to landing.

§ 60.911 *Balloon.* An aircraft, excluding moored balloons, without mechanical means of propulsion, the support of which is derived from lighter-than-air gas.

§ 60.912 *Ceiling.* The distance from the surface of the ground or water to the lowest cloud layer reported as "broken clouds" or "overcast."

§ 60.913 *Control area.* An airspace of defined dimensions, designated by the Administrator, extending upwards from an altitude of 700 feet above the surface, within which air traffic control is exercised.

§ 60.914 *Control zone.* An airspace of defined dimensions, designated by the Administrator, extending upwards from the surface, to include one or more airports, and within which rules additional to those governing flight in control areas apply for the protection of air traffic.

§ 60.915 *Cruising altitude.* A constant altimeter indication, in relation to sea level, maintained during a flight or portion thereof.

§ 60.916 *Flight plan.* Specified information filed either verbally or in writing with air traffic control relative to the intended flight of an aircraft.

§ 60.917 *Flight visibility.* The horizontal distance that prominent objects may be seen from the cockpit.

§ 60.918 *Glider.* An aircraft without mechanical means of propulsion the support of which in flight is derived dynamically from the reaction on surfaces in motion relative to the air.

§ 60.919 *Ground visibility.* The average range of vision in the vicinity of an airport as reported by the U. S. Weather Bureau or, if unavailable, by an accredited observer.

§ 60.920 *Helicopter.* A type of rotorcraft the support of which in the air is normally derived from airfoils mechanically rotated about an approximately vertical axis.

§ 60.921 *Hours of darkness.* The hours between sunset and sunrise during which any unlighted aircraft or other unlighted prominent objects cannot readily be seen beyond a distance of 3 miles. In any case, "hours of darkness" shall extend from 30 minutes after sunset to 30 minutes before sunrise. Within the Territory of Alaska "hours of darkness" shall constitute those hours specified and published by the Administrator.

§ 60.922 *IFR.* The symbol used to designate instrument flight rules.

§ 60.923 *IFR conditions.* Weather conditions below the minimum prescribed for flights under VFR.

§ 60.924 *Magnetic course.* The true course or track, corrected for magnetic variation, between two points on the surface of the earth.

§ 60.925 *Reporting point.* A geographical location in relation to which the position of an aircraft is reported.

§ 60.926 *Rotorcraft.* An aircraft whose support in the air is chiefly derived from the vertical component of the force produced by rotating airfoils.

§ 60.927 *Traffic pattern.* The flow of aircraft operating on and in the vicinity of an airport during specified wind conditions as established by appropriate authority.

§ 60.928 *VFR.* The symbol used to designate visual flight rules.

§ 60.929 *VFR conditions.* Weather conditions equal to or above the minimums prescribed for flights under VFR.

These rules are proposed under authority of Title VI of the Civil Aeronautics Act of 1938. All interested persons may submit in writing any data, views, and argument concerning this proposal. Such material should be sent to reach the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., not later than June 27, 1947.

KATIE LOHRER

In re: Trusts under the will of Katie Lohrer, also known as Catherine Lohrer and Katherine Lohrer, deceased. File D-28-10049; E. T. sec. 14263.

Under the authority of the Trading with the Enemy Act, as amended, Executive Order 9193, as amended, and Executive Order 9788, and pursuant to law, after investigation, it is hereby found:

1. That Joseph Gries, whose last known address is Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the person named in subparagraph 1 hereof in and to the Trusts created under the will of Katie Lohrer (also known as Catherine Lohrer and Katherine Lohrer), deceased, is property payable or deliverable to, or claimed by, the aforesaid national of a designated enemy country (Germany);

3. That such property is in the process of administration by St. Louis Union Trust Company, Mrs. Katherine Dickinson and Mrs. Lillian Kniest, Administrator and Administratrices, cum testamento annexo, acting under the judicial supervision of the Probate Court of the City of St. Louis, Missouri, File No. 98715; and it is hereby determined:

4. That to the extent that the person named in subparagraph 1 hereof is not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 14, 1947.

FEDERAL TRADE COMMISSION

[Docket No. 5421]

CROWN ZELLERBACH CORP. ET AL.

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 16th day of May A. D. 1947.

In the matter of Crown Zellerbach Corporation, a corporation, Zellerbach Paper Company, a corporation, and General Paper Company, a corporation.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Everett F. Haycraft, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Tuesday, July 1, 1947, at ten o'clock in the forenoon of that day (Pacific standard time), in Room 449, Post Office Building, San Francisco, California.

Upon the completion of the taking of testimony and the receipt of evidence in support of the allegations of the complaint, the Trial Examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondents. The Trial Examiner will then close the taking of testimony and evidence and, after all intervening procedure as required by law, will close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.

INTERSTATE COMMERCE COMMISSION

[S. O. 396, Special Permit 190]

RECONSIGNMENT OF POTATOES AT PITTSBURGH, PA.

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order 396 (10 F. R. 15008), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard entirely the provisions of paragraph (j) of Service Order No. 396 insofar as it applies to the reconsignment at Pittsburgh, Pa., May 20 or 21, 1947, by S. Nightingale & Co., of car WFEX 67610, potatoes, now on the Pennsylvania RR., to Pittsburgh Cash Produce Co., McKeesport, Pa., (P. RR.).

The waybill shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 20th day of May 1947.

OFFICE OF HOUSING EXPEDITER

[C-24]

SACHS, INC.

CONSENT ORDER

Sachs, Inc., 27 West High Street, Springfield, Ohio, is an Ohio corporation engaged in the business of retailing men's furnishings. Herman Sachs is the President of said corporation. Sachs, Inc. is charged by the Office of the Housing Expediter with a violation of Veterans' Housing Program Order 1 in that on or about February 19, 1947, without authorization of the Civilian Production Administration or the Office of the Housing Expediter, it began construction and thereafter carried on and participated in construction in connection with the remodeling of a building used as a clothing store located at 25–27–29 West High Street, Springfield, Ohio, at an estimated cost in excess of $1,000.

Sachs, Inc. admits the violation as charged but denies that it was wilful and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Sachs, Inc., the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Sachs, Inc., its successors and assigns, nor any other person shall do any further construction in connection with the remodeling of the building used as a clothing store located at 25–27–29 West High Street, Springfield, Ohio, including the completing or further altering of said structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Sachs, Inc. shall refer to this order in any application or appeal which it may file with the Office of the Housing Expediter for priorities assistance or for authority to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Sachs, Inc., its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 23d day of May 1947.

BEATRICE FOODS CO.

CONSENT ORDER

Beatrice Foods Company, a corporation, is located at 841 South High Street, Akron, Ohio. Walter L. Dilger is Secretary of said corporation. Beatrice Foods Company is charged by the Office of the Housing Expediter with violating Veterans' Housing Program Order 1 in that on or about October 16, 1946, it began construction and thereafter carried on and participated in construction in connection with the remodeling, altering and repairing of a building to be used as a warehouse for creamery products, located at 841 South High Street, Akron, Ohio, at a cost in excess of $1,000, without authorization of the Civilian Production Administration or the Office of the Housing Expediter.

The Beatrice Foods Company admits the violation as charged but denies that it was wilful and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of the Beatrice Foods Company, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Beatrice Foods Company, its successors and assigns, nor any other person shall do any further construction on the premises at 841 South High Street, Akron, Ohio, including completing or further altering or remodeling or repairing the building used as a warehouse for creamery products, located on said premises unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Beatrice Foods Company shall refer to this order in any application or appeal which it may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve the Beatrice Foods Company, its successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 23d day of May 1947.

DANIEL CARVALHO AND MANUEL DUTRA

CONSENT ORDER

Daniel Carvalho is the owner of a building located at 49 Columbia Street, Fall River, Massachusetts, and Manuel Dutra of Sprague Street, Portsmouth, Rhode Island, is the contractor engaged by Daniel Carvalho to perform work on the premises at 49 Columbia Street, Fall River, Massachusetts. Daniel Carvalho and Manuel Dutra are charged by the Office of the Housing Expediter with having begun alterations and an addition to the above described building for the purpose of enlarging the building and making increased space for two stores, without authorization from the Civilian Production Administration or the Office of the Housing Expediter. Most of the work accomplished to date consists of demolition and excavation and only a small part is construction within the meaning of VHP–1. The construction done was not permitted under any exemption provided for in the Order and, therefore, constituted a violation of Veterans' Housing Program Order 1.

Daniel Carvalho and Manuel Dutra admit the violation as charged but state that the violation was due to a misunderstanding and deny that it was willful.

Wherefore, upon the agreement and consent of Daniel Carvalho and Manuel Dutra, the Regional Compliance Director, and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) The temporary suspension order issued by the Civilian Production Administration by telegram dated March 6, 1947, is hereby revoked.

(b) Neither Daniel Carvalho nor Manuel Dutra, their successors or assigns, nor any other person shall do any further construction on the alterations or additions to the building at 49 Columbia Street, Fall River, Massachusetts, including completing or altering the structure in any way, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(c) Daniel Carvalho and Manuel Dutra shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter or any other federal agency to do any further construction on this project.

(d) Nothing contained in this order shall be deemed to relieve Daniel Carvalho and Manuel Dutra, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 23d day of May 1947.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 24—FORMAL EDUCATION REQUIREMENTS FOR APPOINTMENT TO CERTAIN SCIENTIFIC, TECHNICAL, AND PROFESSIONAL POSITIONS

METALLURGIST POSITIONS AND ENGINEER TRAINEE

The following sections are added to this part:

§ 24.45 *Metallurgist positions (P-2 through P-8) involving highly complicated or fundamental scientific research or similar difficult scientific duties*—(a) *Educational requirement.* Certification for these positions will be restricted to those eligibles who show the successful completion of a four-year course in a college or university of recognized standing, leading to a bachelor's degree in metallurgy or metallurgical engineering. This study must have included courses in metallurgical subjects consisting of lectures, recitations, and practical laboratory work totaling at least 20 semester hours.

(b) *Duties.* The duties of these positions are as follows:

(1) Critical investigative work requiring a sound knowledge of the fundamental principles, theories, practices, and terminology of metallurgy and related sciences and having for its objective the development or extension of new theories or principles, or a new interpretation of known facts leading to a revision of accepted theories and practices.

(2) The application of the known laws and facts of the physical sciences and principles of metallurgy to the development of new processes or products.

(3) The coordination of a broad research program requiring the combined efforts of several specialists in different scientific fields. The leader of such a program must have an understanding of the metallurgical principles, practices, and potentialities of the scientific fields involved, and the ability to coordinate the activities of the various specialists.

(c) *Knowledge and training requisite for performance of duties.* The advances in metallurgy have been dependent upon and related to the advances made in the various physical sciences. A knowledge of the principles and theories of metallurgy and of the related physical sciences, particularly physics and chemistry, is indispensable in formulating new concepts in metallurgy, in interpreting experimental data, in establishing new processes, and in developing new products. Further advances in metallurgy will be dependent upon the number of highly qualified and properly trained metallurgists who are competent to explore the field and are able to bring new scientific knowledge or established scientific concepts to bear on the problems met in research. Consequently those engaged in highly complicated fundamental research or similar difficult scientific duties in metallurgy must of necessity possess a fundamental knowledge of metallurgy, chemistry, physics, mathematics, and in addition that of pertinent allied fields in order that they may successfully attack complex problems.

Private industry using metallurgists for research positions has long recognized the necessity for broadly trained men for professional metallurgist positions who are well grounded in the fundamentals of the related sciences. They are required to have education represented by at least the attainment of a Bachelor's degree in metallurgy, and in many cases, a higher degree with specialization in a particular field is demanded.

(d) *Method of obtaining basic knowledge and training.* The above are statements of the minimum knowledge and training required to carry on successfully professional research work in the field of metallurgy. The only method by which such knowledge and training may be acquired is by attending a college or university where competent instruction and guidance are available, where courses are arranged in a systematic progressive schedule, and where adequate laboratory facilities and libraries are provided, and where objective evaluations are made of a person's progress in acquiring professional and scientific information.

§ 24.46 *Engineer Trainee, Bureau of Reclamation*—(a) *Educational requirement.* Applicants must have successfully completed two years of a standard professional engineering curriculum leading to a bachelor's degree in engineering, in

a college or university of recognized standing.

(b) *Duties.* The duties of an engineer trainee will consist of a combination of on-the-job training in one of the branches of engineering by the Bureau of Reclamation, and scholastic training in the last two years of a college engineering curriculum in a college or university designated by the Bureau of Reclamation. Upon successful completion of the program, trainees will be considered for advancement to the professional engineering service in the Bureau of Reclamation.

(c) *Justification for educational requirement.* Since the duties of the position are twofold—to perform actual engineering work while in training, and to pursue academic studies in the last two years of a college engineering curriculum in order to attain the capacity needed to perform successfully duties at the professional engineering level in the Bureau of Reclamation—applicants must have the education specified in order to be qualified to enroll in the third year of a standard college engineering curriculum in a college or university designated by the Bureau of Reclamation.

PART 502—MILITARY RESERVATIONS

POST COMMANDER

Section 502.18, Part 502, Chapter V, Title 10, Code of Federal Regulations, is superseded by the following:

§ 502.18 *General duties*—(a) *Assignment of quarters, civilians.* The post commander may grant permission to civilian employees and other civilians whose presence on the post is desirable because of the nature of their duties, to occupy such quarters as are available, and will be responsible that payment for or deduction from salary of the value of such quarters is affected as prescribed in Civilian Personnel Regulations. Bona fide servants occupying rooms built in existing quarters for such purpose will not be required to pay rental.

(b) *Employment of civilian mess attendants*—(1) *Units stationed outside the zone of interior.* The employment and payment from voluntary contributions of civilians as mess attendants is authorized in Army messes of units stationed outside the zone of interior under the following conditions:

(i) When the oversea commander determines that local conditions are favorable and such employment is in the best interest of the service.

(ii) Payment for such employment will be from moneys contributed, strictly on a voluntary basis, from military personnel using the mess.

(iii) The contributions collected will be taken into and disbursed from unit funds in order to insure adequate control.

(iv) Such attendants will be used only as KP's, dining room orderlies, dishwashers, and other personnel who do not perform duties of cooks, cook's helpers, bakers, and butchers.

(2) *Units stationed within zone of interior.* The employment and payment from voluntary contributions of civilians as mess attendants is not authorized in Army messes of units stationed within the zone of interior.

(c) *Welfare*—(1) *Young Men's Christian Association.* At posts where Young Men's Christian Association buildings

have been constructed pursuant to the act of 31 May, 1902 (32 Stat. 282); 10 U. S. C. 1346; M. L. 1939, sec. 1001, the Young Men's Christian Association will be permitted to continue to conduct thereat helpful physical, intellectual, and nonsectarian religious activities. The post commander will assist and facilitate these activities in such ways as he may deem appropriate and desirable.

(2) *American National Red Cross.* The activities of the American National Red Cross at posts will be as prescribed or implied in AR 850–75, and the post commander will assist and facilitate such activities in every appropriate manner.

(d) *Competition with civilian enterprises.* The post commander is charged with the responsibility that no military member of his command will be detailed, ordered, or permitted to leave his post to engage in any pursuit, business or performance in civil life, for emoluments, hire, or otherwise, when it will interfere with the customary employment and regular engagement of local civilians in the respective arts, trades or professions. He will prohibit the use of military personnel or civilian employees of the Army during normal working hours, in conducting cooperatives (other than Army exchanges and Army Motion Picture Service) which operate in competition with civilian enterprises.

(e) *Construction*—(1) *New construction.* New construction will be performed only in accordance with and within limitations of War Department and implementing directives. See AR 100–70, AR 100–80, and TM 5–600 (administrative regulations relative to the Corps of Engineers.)

(2) *Construction of buildings other than public.* No buildings other than public will be erected or constructed on military reservations unless authority is granted by the Secretary of War under a revocable license in which the conditions for occupancy will be clearly set forth. Exceptions may be made with respect to unimportant or temporary structures such as are necessary and incident to the work of contractors on Government work, provided that such temporary buildings will be removed at the expiration of the permit. Construction outside the continental United States will conform to such instructions as may be issued by the War Department from time to time. [AR 210–10, May 6, 1947] (R. S. 161; 5 U. S. C. 22)

§ 03.02 *Airplane categories.* • • •

Utility—Suffix "U"

• • • • • •

(CAA Interpretation)

The phrase "limited acrobatic maneuvers" as used in § 03.02 of the Civil Air Regulations (14 CFR § 03.02, 11 F. R. 13368) is interpreted to include steep turns, spins, stalls (except whip stalls), lazy eights and chandelles.

§ 03.05 *Changes.* • • •

(CAA Statement of Policy)

There are currently available newly designed engines of approximately the same size and weight as previously designed engines, but with considerable variations in power. It is possible to interchange these engines with little or no installation changes, and although minor changes in engine weight may be involved, it will still be practical to operate the aircraft at the originally approved gross weight. Under § 03.2111 of the Civil Air Regulations (14 CFR § 03.2111, 11 F. R. 13374), the maneuvering load factor is not dependent upon engine power, and under § 03.2110 of the Civil Air Regulations (14 CFR § 03.2110, 11 F. R. 13374), the design airspeeds can be independent of engine power. Therefore, a change which involves or permits a practical power increase by exchange of engines shall be approved by the Administrator: *Provided*, That such exchange of engines is not accompanied by increase in the gross weight of the aircraft or an increase in placard speeds. Under these conditions it will not be necessary to restrict the maximum continuous horsepower by a placard because of the airplane speed limitations, since the latter are indicated on the speed placards. Aircraft alterations involving weight or speed changes beyond those set forth above will be approved by the Administrator only if the applicant shows compliance with all of the applicable sections of Part 04a of the Civil Air Regulations (14 CFR Part 04a), or all of the applicable sections of Part 03 of the Civil Air Regulations (14 CFR Part 03, 11 F. R. 13368), or relies on the provisions of § 03.01 of the Civil Air Regulations (14 CFR § 03.01, 11 F. R. 13368) by complying with certain particular and related items of the requirements under Part 03 of the Civil Air Regulations, and certain of the requirements under Part 04a of the Civil Air Regulations, i. e., the level of safety for certain particular and related items is equivalent to the requirements under Part 03 of the Civil Air Regulations and the level of safety for the remaining items is equivalent to the requirements under Part 04a of the Civil Air Regulations. Under § 03.05 of the Civil Air Regulations (14 CFR § 03.05, 11 F. R. 13369) it will be necessary to require such investigations of local structure, weight and balance, powerplant installations and flight tests as are normally involved in a change of engine type.

§ 03.121 *Definition of stalling speeds.* • • •

(a) • • •

(CAA Interpretation)

As used in §§ 03.121 (a) (1) and (b) (1) of the Civil Air Regulations (14 CFR §§ 03.121 (a) (1) and (b) (1), 11 F. R. 13370) the term "zero thrust" contained in the phrase "engines idling, throttles closed (or not more than sufficient power for zero thrust)" is interpreted to permit "zero thrust at a speed not greater than 110% of the stalling speed."

§ 03.1210 *Stalling speed.* • • •

(CAA Interpretation)

In connection with any application to have an aircraft certificated for airworthiness under a combination of the requirements of Part 03 of the Civil Air Regulations (14 CFR Part 03, 11 F. R. 13368), and Part 04A of the Civil Air Regulations (14 CFR Part 04a) as authorized by the provisions of § 03.01 of the Civil Air Regulations, the stalling speed of "not to exceed 70 M. P. H." established in § 03.1210 of the Civil Air Regulations (14 CFR § 03.1210, 11 F. R. 13371) is interpreted to apply only to airplanes which comply with all of the following sections of the Civil Air Regulations which are construed by the Administrator to cover "related items:"

§ 03.122 (Takeoff) (14 CFR § 03.122, 11 F. R. 13371); § 03.124 (Landing) (14 CFR § 03.124, 11 F. R. 13371); § 03.134 (Stalling) (14 CFR § 03.134, 11 F. R. 13373); § 03.1340 (Climbing Stalls) (14 CFR § 03.1340, 11 F. R. 13373); § 03.1341 (Turning Flight Stalls) (14 CFR § 03.1341, 11 F. R. 13373); § 03.1342 (One-engine-inoperative Stalls) (14 CFR § 03.1342, 11 F. R. 13373); § 03.14 (Ground and Water Characteristics) (14 CFR § 03.14, 11 F. R. 13373).

§ 03.122 *Takeoff.* • • •

(CAA Statement of Policy)

To meet the requirements of § 03.122 of the Civil Air Regulations (14 CFR § 03.122, 11 F. R. 13371) pertaining to certification of takeoff performance and to provide the Airplane Flight Manual performance data required in §§ 03.632 (c) and (d) of the Civil Air Regulations (14 CFR §§ 03.632 (c) and (d)) (11 F. R. 13397), it is necesary that a suitable method be used for the purpose of determining these items during official type tests. The Administrator will accept the following procedure for this purpose:

The ground and climb distances may be determined separately and the corrected data placed together (as is now done in the transport category). Thus, for the simplest procedure, the airplane shall be accelerated on (or near) the ground with gear extended to a speed not less than 1.3 V_{s_1}, and a climb segment to the 50 ft. height point with gear extended shall be determined by saw-tooth climb data. If it is desired to assume retraction of the landing gear at an earlier point, such point shall be assured to occur not earlier than that which would be used in normal takeoffs. The acceleration to 1.3 V_{s_1}, shall then be measured as above, with gear retraction being initiated at the selected speed. If gear retraction is completed before reaching 1.3 V_{s_1}, only one climb segment, with gear retracted, need be determined. If retraction is not completed during acceleration to 1.3 V_{s_1}, two climb segments shall be determined; one with gear extended for the time period necessary to complete retraction; the second with gear retracted. The acceleration segment shall be determined photographically, and a minimum of three trials shall be made up to speeds equal to or greater than 1.3 V_{s_1}.

NOTE: (CAA camera equipment may be obtained on a loan basis).

NOTE: It is permissible for other methods to be used in accomplishing these tests, providing that any method used is one which the average pilot may be reasonably expected to duplicate without use of unusual skill or experience, and one which produces equivalent accuracy. The operating procedure which must be followed to achieve the measured performance, shall in all cases be described in the Airplane Flight Manual.

§ 03.123 *Climb.* • • •

(CAA Statement of Policy)

To meet the requirements of § 03.123 of the Civil Air Regulations (14 CFR § 03.123, 11 F. R. 13371) it is necessary that a suitable method be employed for the purpose of determining the rates of climb. The Administrator will accept the following procedure for this purpose:

This method of obtaining rates of climb is through the derivation of a polar curve obtained from a series of sawtooth climbs at various speeds. When sawtooth climbs are employed, a minimum of five different speeds is required. However, demonstration climbs to prove the article meets the minimum climb requirement may be made at one given airspeed. In such cases, the minimum number of climbs at one airspeed shall be not less than three. This may not be interpreted to mean the best three of a number of climbs. In the event additional climbs are made the average of the total shall be the value to be accepted. It shall be permissible, however, to discard any climbs which are obviously in error due to such factors as turbulent air.

§ 03.123 *Climb*—(a) *Normal climb condition.* • • •

(CAA Interpretation)

In connection with any application to have an aircraft certified for airworthiness under a combination of the requirements of Part 03 of the Civil Air Regulations (14 CFR, Part 03, 11 F. R. 13368), and Part 04a of the Civil Air Regulations (14 CFR, Part 04a) as authorized by the provisions of § 03.01 of the Civil Air Regulations (14 CFR, § 03.01, 11 F. R. 13373) the items of "normal climb" (14 CFR, § 03.123 (a), 11 F. R. 13371) and "cooling test procedure for single-engine airplanes" (14 CFR, § 03 4403, 11 F. R. 13390) shall be construed by the Administrator as "related items."

§ 03.123 *Climb.* • • •

(c) *Balked landing conditions.* • • •

(CAA Interpretation)

The Administrator will consider retraction of flaps in two seconds or less as compliance with the factor of "rapid retraction" as that phrase is used in § 03.123 (c) of the Civil Air Regulations (14 CFR, § 03.123 (c), 11 F. R. 13371).

For multi-engine airplanes in which the design landing weight (14 CFR, § 03.240, 11 F. R. 13379) is less than the maximum weight (14 CFR, § 03.113, 11 F. R. 13370) for which certification is desired, the weight for items of performance and flight characteristics shall be construed by the Administrator as the maximum weight defined in 14 CFR, § 03.113. Such items of performance and flight characteristics shall consist of balked landing (climb) conditions (14 CFR, § 03.113, 11 F. R. 13370), landing over 50 foot obstacles (14 CFR, § 03.124, 11 F. R. 13371), and all flight characteristics tests in the landing configuration. The design weight covered in § 03.240 of the Civil Air Regulations (14 CFR, § 03.240, 11 F. R. 13379) is intended for use for structural design purposes only.

§ 03.132 *Trim.* • • •

(b) • • •

(CAA Interpretation)

(2) Section 03.132 (b) (2) of the Civil Air Regulations (14 CFR § 03.132 (b) (2), 11 F. R. 13372) provides that for airworthiness certification an airplane must maintain longitudinal trim under the following conditions: During a glide with power off at a speed not in excess of 1.4 times stall speed, landing gear extended, wing flaps both retracted and extended under the forward center of gravity position approved with the maximum authorized weight and under the most forward center of gravity position approved, regardless of weight.

In the case of new airplane designs which, due to their being equipped with high life devices, cannot meet the required trim at 1.4 times stall speed with the landing gear and flaps extended, the Administrator, as authorized in § 03.00 of the Civil Air Regulations (14 CFR § 03.00, 11 F. R. 13368), will accept, as being of equivalent safety, performance with the flaps extended based on the following standards:

(a) The flap down, power off, stalling speed shall not exceed 90% of the flap retracted, power off, stalling speed.

(b) The minimum trim speed with power off, flaps and landing gear extended, under the forward center of gravity position approved with the maximum authorized weight, and under the most forward center of gravity position approved, regardless of weight, shall not exceed 1.5 times the stall speed for that configuration.

(c) The force required to maintain steady flight in this configuration at 1.4 V_{s_1}, shall not exceed 10 pounds.

(d) It shall be possible trimmed in this configuration to execute a normal power off landing without exceeding a stick force of 40 pounds.

(e) It shall be possible with the stick free, to reduce the rate of descent to zero and simultaneously bring the airplane to an attitude suitable for landing, using not more than maximum continuous power. During this demonstration the flaps extended speed shall not be exceeded.

When the standards set forth above are relied upon to determine compliance with this section of the Civil Air Regulations, the Administrator will accept as equivalent safety a demonstration of the following items at 1.5 times stall speed instead of 1.4 times stall speed:

Longitudinal control (14 CFR §§ 03.13100, 03.13101 (a) (2), (b) (2) and (c), 11 F. R. 13371).

Specific Conditions (14 CFR § 03.13310 (a), 11 F. R. 13372).

§ 03.13330 *Three control airplanes.* • • •

(CAA Statement of Policy)

(e) The tests made necessary in § 03.13330 (c) of the Civil Air Regulations (14 CFR § 03.13330 (c), 11 F. R. 13372) may be conducted at speeds up to 1.2 times stall speed, flaps up and down, and with power up to 75% of maximum continuous rating.

§ 03.134 *Stalling.* • • •

(CAA Statement of Policy)

To meet the requirements of § 03.134 of the Civil Air Regulations (14 CFR § 03.134, 11 F. R. 13373) pertaining to the maximum loss of altitude permitted during the stall, it is necessary that a suitable method be used for the purpose of measuring such loss during the investigation of stalls. Unless special features of an individual type being investigated render the following instructions inapplicable, the procedure described shall be used for this purpose:

(a) The standard procedure for approaching a stall shall be used as specified in § 03.134 of the Civil Air Regulations (14 CFR § 03.134, 11 F. R. 13373).

(b) The loss of altitude encountered in the stall (power on or power off) shall be the distance as observed on the sensitive altimeter testing installation from the moment the airplane pitches to the observed altitude reading at which horizontal flight has been regained.

(c) Power used during the recovery portions of a stall maneuver may be that which, at the discretion of the inspector, would be likely used by a pilot under normal operating conditions when executing this particular maneuver. However, the power used to regain level flight shall not be applied until the airplane has regained flying control at a speed of approximately 1.2 V_{s_1}. This means that in the investigation of stalls with the critical engine inoperative, the power may be reduced on the operating engine (S) before re-applying power on the operating engine or engines for the purpose of regaining level flight.

§ 03.202 *Strength and deformations.* • • •

(CAA Statement of Policy)

Section 03.202 of the Civil Air Regulations (14 CFR § 03.202, 11 F. R. 13374) permits dynamic testing in lieu of stress analysis or static testing in the proof of compliance of the structure with strength and deformation requirements. In demonstrating, by dynamic tests, proof of strength of landing gears for the stipulated landing conditions contained in §§ 03.2421, 03.2422, and 03.2423 of the Civil Air Regulations (14 CFR §§ 03.2421, 03.2422, and 03.2423, 11 F. R. 13380), it is necessary to employ a procedure which will not result in the accepting of landing gears weaker than those qualified for acceptance under present procedures, i. e., stress analysis or static testing. The Administrator will accept, as an adequate procedure for this purpose, the following dynamic tests:

The structure shall be dropped a minimum of ten times from the limit drop height, and at least one time from the ultimate drop height, for each basic design condition for which proof of strength is being made by drop tests.

With regard to the extent to which the structure can be proved by dynamic tests, such dynamic tests shall be accepted as proof of strength for only those elements of the structure for which it can be shown that the critical limit and ultimate loads have been reproduced.

§ 03.21110 *Maneuvering load factors.* • • •

(CAA Statement of Policy)

In connection with any application to have an aircraft certified for airworthiness under a combination of the requirements of Part 03 of the Civil Air Regulations (14 CFR Part 03, 11 F. R. 13368), and Part 04a of the Civil Air Regulations (14 CFR Part 04a) as authorized by the provisions of § 03.01 of the Civil Air Regulations (14 CFR § 03.01, 11 F. R. 13373), reduced maneuvering load factors may be used provided it is shown: (a) that the basic flight envelope for the airplane meets the requirements of the applicable provisions of Part 03 of the Civil Air Regulations (14 CFR Part 03, 11 F. R. 13368) and, (b) that the related operating limitations found in § 03.6 of the Civil Air Regulations (14 CFR § 03.6, 11 F. R. 13395) are complied with. The actual analysis may be done on the basis of the requirements contained in Part 04a of the Civil Air Regulations. These requirements specify wing load factors. The net load factor for each condition, n_n, should be determined from the balancing computations. This net load factor shall be equal or greater than the airplane load factor as determined from the Part 03, Civil Air Regulations flight envelope. This analysis procedure may also be used for airplanes certificated entirely under Part 03, Civil Air Regulations.

§ 03.21120 *Gust load factors.* • • •

(CAA Statement of Policy)

For purposes of gust load computations as required in § 03.21120 of the Civil Air Regulations (14 CFR § 03.21120, 11 F. R. 13375) the slope of the lift curve may be assumed equal to that of the wing alone.

§ 03.2131 *Rolling conditions.* • • •

(b) • • •

(CAA Statement of Policy)

Aileron Rolling Conditions

Section 03.2131 of the Civil Air Regulations (14 CFR § 03.2131, 11 F. R. 13375) requires that airplane structure be investigated for the loads resulting from the aileron deflections and speeds specified in § 03.223 (11 F. R. 13378), in combination with an airplane load factor of at least two-thirds of the positive

maneuvering factor used in the design of the airplane. The Administrator will accept the following simplified procedure as complying with this action in the investigation of airplanes of small to medium size and speed:

(1) *Steady roll.* Determine the C_n value, corresponding to $\frac{2}{3}$ the symmetrical maneuvering load factor. The C_n distribution over the span may be assumed the same as that for the symmetrical flight conditions. Modify the wing moment coefficient over the aileron portions of the span, as described in the "note" under § 03.2131 of Civil Air Regulations (14 CFR § 03.2131, 11 F. R. 13375), corresponding to the required aileron deflections. The wing may be critical in torsion on the up as well as the down aileron side, depending upon airfoil section, elastic axis location, aileron differential, etc. (For the up aileron, the moment coefficient increment will be positive).

(2) *Maximum angular acceleration.* This condition need be investigated only for wings carrying large mass items outboard. In such cases instantaneous aileron deflection (zero rolling velocity) may be assumed and the local value of C_n and C_{m} over the aileron portions of the span modified accordingly to obtain the spanwise airload distribution. The average C_n of the entire wing should correspond to $\frac{2}{3}$ of the symmetrical maneuvering load factor. The resulting rolling moment should be resisted by the rolling inertia of the entire airplane.

§ 03.2201 *Pilot effort.* • • •

(CAA Statement of Policy)

Section 03.2201 of the Civil Air Regulations (14 CFR § 03.2201, 11 F. R. 13576) establishes a criterion for the pilot control forces used in determining the loads on control surfaces, and provides that "in applying this criterion, proper consideration shall be given to the effects of • • •, and automatic pilot systems in assisting the pilot." The Administrator will accept the following procedure as giving proper consideration of automatic pilot systems in assisting the pilot under this section: the autopilot effort need not be added to human pilot effort but the autopilot effort shall be used for design if it alone can produce greater control surface loads than the human pilot.

§ 03.230 *Primary flight controls and systems.* • • •

(CAA Statement of Policy)

Section 03.230 of the Civil Air Regulations (14 CFR § 03.230, 11 F. R. 13379) requires that flight control systems and supporting structures shall be designed for loads corresponding to 125% of the computed hinge moments of the movable control surface in the conditions prescribed in § 03.22, subject to certain maxima and minima.

The 125% factor on computed hinge moments need be applied only to elevator, aileron and rudder systems. The Administrator will accept a factor as low as 1.0 when hinge moments are based on test data, the exact reduction which the Administrator will accept, depending to an extent upon the accuracy and reliability of the data.

§ 03.230 *Primary flight controls and systems.* • • •

(a) • • •

(CAA Statement of Policy)

Section 03.230 (a) of the Civil Air Regulations (14 CFR § 03.230 (a), 11 F. R. 13379) provides that the system limit loads need not exceed those which can be produced by the pilot and automatic devices operating the controls. The Administrator will accept the following procedure as compliance with this section:

When the autopilot is acting in conjunction with the human pilot, the autopilot effort need not be added to human pilot effort but the autopilot effort shall be used for design if it alone can produce greater control surface loads than the human pilot. When the human pilot acts in opposition to the autopilot, that portion of the system between them shall be designed for the maximum effort of human pilot or autopilot, whichever is the lesser.

§ 03.231 *Ground gust conditions.* • • •

(CAA Interpretation)

Section 03.231 of the Civil Air Regulations (14 CFR § 03.231, 11 F. R. 13379) requires ground gust loads to be investigated when a reduction in minimum pilot effort loads is desired. In such cases the entire system shall be investigated for ground gust loads. However, in instances where the designer desires to investigate ground gust loads without intending to reduce pilot effort loads, the ground gust load need be carried only from the control surface horn to the nearest stops or gust locks, including the stops or locks and their supporting structures.

§ 03.2421 *Level landing.* • • •

(CAA Statement of Policy)

Section 03.2421 of the Civil Air Regulations (14 CFR § 03.2421, 11 F. R. 13380), requires that spin-up loads be taken into account in structural designs.

Section 03.242 of the Civil Air Regulations (14 CFR § 03.242, 11 F. R. 13380), permits the use of arbitrary drag loads for this purpose. If it is desired to use a method more rational than the arbitrary drag components, referred to in § 03.242, in determining the wheel spin-up loads for landing conditions, the Administrator will accept the following method from NACA T. N. 663 for this purpose: (However, the minimum drag component of 0.25 times the vertical will still apply).

$$F_{H_{\max}} = \frac{1}{r_e}\sqrt{\frac{2I_w (V_H - V_c)\ nF_{V_{\max}}}{t_z}}$$

$F_{H_{\max}}$ = maximum rearward horizontal force acting on the wheel-pounds.

r_e = effective rolling radius of wheel under impact-feet based on recommended operating tire pressure (may be assumed equal to the rolling radius under a static load of $n_j W_e$).

I_w = rotational mass moment of inertia of rolling assembly slug feet required.

V_H = linear velocity of airplane parallel to ground at instant of contact, assumed $1.2V_{s_0}$, in feet/sec.

V_c = peripheral speed of tire if pre-rotation is used (feet per second)—a positive means of pre-rotation should be provided before pre-rotation can be considered.

= effective coefficient of friction, 0.80 is acceptable.

$F_{V_{\max}}$ = maximum vertical force on wheel, (pounds) = $n_j W_e$, where W_e and n_j are defined in §§ 03.3611 and 03.3612 of the Civil Air Regulations (14 CFR §§ 03.3611 and 03.3612, 11 F. R. 13384).

t_z = time interval between ground contact and attainment of maximum vertical force on wheel (seconds). If the value of $F_{H_{\max}}$ from the above equation exceeds $0.8F_{V_{\max}}$, the latter value should be used for $F_{H_{\max}}$.

NOTE: This equation assumes a linear variation of load factor with time until the peak load is reached and under this assumption determines the drag force at the time that the wheel peripheral velocity at radius r_e equals the airplane velocity. Most shock absorbers do not exactly follow a linear variation of load factor with time. Hence, rational or conservative allowances should be made to compensate for these variations. On most landing gears the time for wheel spin up will be less than the time required to develop maximum vertical load factor for the specified rate of descent and forward velocity. However, for exceptionally large wheels, a wheel peripheral velocity equal to the ground speed may not have been attained at time of maximum vertical gear load. This case is covered by the statement above that the drag spin up load need not exceed 0.8 of the maximum vertical load.

Dynamic spring back of the landing gear and adjacent structure at the instant just after the wheels come up to speed may result in dynamic forward acting loads of considerable magnitude. This effect may be simulated in the level landing condition by assuming that the wheel spin up loads are reversed. Dynamic spring back is likely to be critical only for landing gear units having wheels of large mass supported by relatively flexible cantilever struts.

The arbitrary drag loads referred to in § 03.242 (Fig. 03–12) are usually sufficient to provide for wheel spin-up except for airplanes having large diameter wheels or high stalling speeds. For the latter, it is recommended that a more rational investigation, such as that described above, be made.

§ 03.310 *Material strength properties and design values.* • • •

(CAA Statement of Policy)

Section 03.310 of the Civil Air Regulations (14 CFR § 03.310, 11 F. R. 13382) provides: (a) that strength properties shall be based on a sufficient number of tests of material conforming to specifications to establish design values on a statistical basis, and (b) that the design values shall be so chosen that the probability of any structure being understrength because of material variability is extremely remote.

With reference to section 5.00 of ANC–5, Amendment No. 1, it will be noted that allowable design property columns headed "Army-Navy" represent design properties which will be equalled or exceeded by the properties possessed by approximately 90% of the material. All other allowable design property columns relate to the minimum guaranteed properties and are based on values given in the various material specifications. The Administrator will permit uses of these design properties as outlined in I and II below, based on the objectives of § 03.310.

I. In the case of structures where the applied loads are eventually distributed through single members within an assembly, the failure of which would result in the loss of the structural integrity of the component involved, the guaranteed minimum design mechanical properties listed in ANC–5 shall be used.

NOTE: Typical examples of such items are:
1. Wing lift struts
2. Spars in two-spar wings
3. Sparcaps in regions such as wing cutouts and wing center sections where loads are transmitted through caps only
4. Primary attachment fittings dependent on single bolts for load transfer.

II. Redundant structures wherein partial failure of individual elements would result in the applied load being safely distributed to other load carrying members, may be designed on the basis of the "90% probability" allowable.

NOTE: Typical examples of such items are:
1. Sheet-stiffener combinations
2. Multi-rivet or multiple bolt connections.

Certain manufacturers have indicated a desire to use design value greater than the guaranteed minimums even in applications where only guaranteed minimum values would be permitted under I above, and have advocated that such allowables be based on "premium selection" of the material. Such increased design allowables will be acceptable to the Administrator: *Provided*, That a specimen or specimens of each individual item are tested prior to its use, to determine that the actual strength properties of that particular item will equal or exceed the properties used in design. This, in effect, results in the airplane or materials manufacturer guaranteeing higher minimum properties than those given in the basic procurement specifications.

When strength testing is employed to establish design allowables, (such as in the case of sheet-stiffener compression tests) the test results shall be reduced to values which would be met by material having the design allowable material properties for the part under consideration, as covered in I and II above.

NOTE: Sections 1.543 and 1.544 of ANC–5 outline two means of accomplishing this, but are by no means considered as the only methods available.

§ 03.31100 *Castings.* • • •

(CAA Statement of Policy)

With reference to paragraphs (b) and (c) of § 03.31100 of the Civil Air Regulations (14 CFR § 03.31100, 11 F. R. 13383), the Administrator has approved specific proposals which permit the use of lower casting factors as specified in (b), with 100% radiographic inspection on initial runs, but with radiographic inspection gradually reduced on production lots as it becomes evident that adequate quality control has been established. All such procedures require the submittal and execution of a satisfactory process specification and statistical proof that adequate quality control has been achieved.

§ 03.3300 *Ribs.* • • •

(CAA Statement of Policy)

Section 03.3300 of the Civil Air Regulations (14 CFR § 03.3300, 11 F. R. 13383) was drafted so as to allow the proof of strength of ribs in stressed skin wings to be made as part of 100% ultimate load test of the wings, in cases where the complete wing is tested in such a manner as to stimulate the actual air load distribution. In such cases the Administrator will not require that separate rib tests be made. When ribs of stressed skin wings are tested separately from the wing and a rational load distribution is made, a suitable variability factor (see § 03.8110 of the Civil Air Regulations (14 CFR § 03.8110, 11 F. R. 13383)) shall be employed in determining the test loads. Although no specific value is stated in § 03.8110 of the Civil Air Regulations, a factor of 1.15 is considered acceptable. However, consideration may be given to a lower factor if such lower factor were substantiated by tests on a large number of ribs.

§ 03.3571 *Cable systems.* • • •

(CAA Interpretation)

Section 03.3571 of the Civil Air Regulations provides that "cables smaller than $\frac{1}{8}$-inch diameter shall not be used in primary control systems". Primary control systems are normally considered to be the aileron, rudder, and elevator control systems. Hence this minimum of $\frac{1}{8}$ inch need not be applied to tab control cables having high strength margins. However, in cases where the airplane would not be safely controllable in flight and landing with tabs in the most adverse positions required for the various critical trim, weight and center of gravity conditions, the Administrator will require that tab systems be so designed as to provide reliability equivalent to that required for primary systems. Examples are pulley sizes, guards, use of fairleads, inspection provisions, etc.

Landing Gear Drop Tests

Section 03.3610 of the Civil Air Regulations (14 CFR § 03.3610, 11 F. R. 13384) provides: "It shall be demonstrated by energy absorption tests that the limit load factors selected for design in accordance with § 03.241 (14 CFR § 03.241, 11 F. R. 13379) will not be exceeded in landings with the limit descent velocity specified in that section."

Several questions concerning landing gear drop tests have been received recently.

(a) The first question concerns acceptable methods of determining the effective mass to be dropped in drop tests of nose wheel landing gear assemblies. The Administrator has approved the following method as acceptable for this purpose:

For aircraft with nose wheel type gear, the effective mass to be used in free drop test of the nose wheel shall be determined from the formula for W_e (sections 03.3611 and 03.3613 of the Civil Air Regulations) using $W = W_n$ where W_n is equal to the vertical components of the resultant force acting on the nose wheel, computed under the following assumptions: (1) the mass of the airplane concentrated at the c. g. and exerting a force of 1.0 g downward and 0.33 g forward, (2) the nose and the main gears and tires in static position, and (3) the resultant reactions at the main and nose gears acting through the axles and parallel to the resultant force at the airplane c. g.

NOTE: By way of explanation, the use of an inclined reactions condition as the basis for determining the mass to be dropped with a nose wheel unit is based on rational dynamic investigation of the landing condition, assuming the landing is made with simultaneous three point contact, zero pitching velocity, and a drag component representing the average wheel spin-up reactions during the landing impact. Although spin-up loads on small airplanes may be less than the value implied by the formula, such airplanes are more likely to be landed with a nose dropping pitching velocity, or in soft ground. The vertical component of the ground reaction is specified above because the method of defining the direction of the inertia force at the c. g. gives a resultant effective mass greater than that of the airplane.

(b) The second question concerns the attitude in which the landing gear unit is dropped. The Administrator has approved the following procedure as acceptable for this purpose:

The attitude in which a landing gear unit is dropped shall be that which simulates the airplane landing condition which is critical from the standpoint of energy to be absorbed by the particular unit, thus: (1) For nose wheel type landing gear, the nose wheel gear shall be drop tested in an attitude which simulates the three point landing inclined reaction condition. (2) The attitude selected for main gear drop tests shall be that which simulates the two-wheel level landing with inclined reactions condition.

NOTE: In addition, it is recommended that the main gear be dropped in an attitude simulating the tail down landing with vertical reactions condition if the geometry of the gear is such that this condition is likely to result in shock strut action appreciably different from that obtained in level attitude drop tests; for example, when a cantilever shock strut has a large inclination with respect to the direction of the ground reaction.

(3) Tail wheel units shall be tested in such a manner as to simulate the tail down landing condition (3 point contact). Drag components may be covered separately by the tail wheel "obstruction" condition.

(c) The third question concerns the use and determination of slopes of inclined platforms when such are used in drop tests. The Administrator has approved the following procedure as acceptable for this purpose:

When the arbitrary drag components given on Fig. 03–12 (a), Part 03, Civil Air Regulations, are used for the design of the landing gear in the level landing conditions, the drag loads in the drop tests for these conditions may be simulated by dropping the units onto inclined platforms, so arranged as to obtain the proper direction of the resultant ground reactions in relation to the landing gear. (If wheel spin-up loads for these conditions are determined by rational methods and found to be more severe than the arbitrary drag loads, it is suggested that the spin-up loads be simulated by dropping the gear onto a level platform with wheels spinning.) In at least one limit drop test the platform should simulate the friction characteristics of paved runways and the rotational speed of the wheel just prior to contact should correspond to an airplane ground speed of 1.2 V_{s_0}. (It is suggested that additional limit drops be made onto surfaces of lower friction coefficient and at several wheel rotational speeds; coefficients for example, corresponding to 0.6, 0.8, and 1.0 V_{s_0}.) The direction of wheel rotation in the drop test should be opposite to that which would occur in landing the airplane. Spin up loads which are slightly greater than the arbitrary drag loads can probably be simulated satisfactorily by inclined platforms, but platforms having greater inclinations may not simulate spin up loads correctly and are not recommended.

§ 03.3622 *Position indicator and warning device.* • • •

(CAA Interpretation)

Section 03.3622 of the Civil Air Regulations (14 CFR § 03.3622, 11 F. R. 13385) requires that when retractable landing wheels are used, means shall be provided for indicating to the pilot when the wheels are secured in the extreme positions. These means may consist of lights of various colors. The signal "all lights out" will be considered by the Administrator as satisfactory if used to indicate intermediate gear positions but it will not be considered as providing adequate safety if used to indicate either extreme gear locked position.

§ 03.4 *Power-plant installation, reciprocating engines.*

§ 03.40 *General.* • • •
(b) • • •

(CAA Statement of Policy)

Section 03.40 (b) of the Civil Air Regulations (14 CFR § 03.40 (b), 11 F. R. 13386) requires that: "All components of the power-plant installation shall be constructed, arranged, and installed in a manner which will assure the continued safe operation of the airplane and power plant. Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness."

(a) The Administrator has received numerous requests and applications for permission to install reverse thrust propeller installations in various types of aircraft. The Administrator will approve as providing adequate safety only those reverse thrust propeller installations which conform in all details with the following standards:

(1) Exceptional pilot skill shall not be required in taxiing or any condition in which reverse thrust is to be used.

(2) Recommended operating procedures and operating limitations and placards shall be established.

(3) Throttle movement shall be such that the motion is in the direction of the desired acceleration of the airplane.

(4) The airplane control characteristics shall be satisfactory with regard to control forces encountered, and buffeting shall not be such as to be likely to cause structural damage.

(5) The directional control shall be adequate using normal piloting skill.

(6) It shall be determined that no dangerous condition is encountered in the event of a sudden failure of one engine in any likely operating condition.

(7) The operating procedures and airplane configuration shall be such as to provide a reasonable safe-guard against serious structural damage to parts of the airplane due to the reverse airflow.

(8) It shall be determined that the pilot's vision is not dangerously obscured under normal operating conditions on dusty or wet runways and where light snow is on the runway.

(9) It shall be impossible to place the propellers in the reverse thrust position until the airplane is on the ground, unless it is demonstrated that it is safe to reverse the propellers in any likely flight condition. Consideration shall be given to possible rebound of the airplane following initial contact, at which point propeller reversal has taken place.

(10) The mechanism actuating the propeller and controlling the engine shall maintain sufficient power to keep the engine running at an adequate speed to prevent engine stalling during or after the propeller reversing operation.

(11) It shall not be possible under any likely condition to cause excessive overspeed of the propeller during the propeller reversing operation.

(12) The propeller control arrangement shall be such as to provide adequate safeguards against inadvertent reversal of propellers.

(13) The engine cooling characteristics shall be satisfactory when operated within the operating limitations.

(14) If it is desired to certificate reverse thrust for use in taxiing only, it will be permissible to omit requirement of items 3 and 9, if the following are complied with.

a. Deliberate action with intent to reverse the propellers is required.

b. Placard in plain view of pilot must warn not to reverse the propellers in the air and to be used for taxiing only.

(b) The Administrator also has received requests and applications for permission to use reverse thrust in the performance item of determining the landing distance to be used in establishing airport lengths. (See § 03.124 Civil Air Regulations, 14 CFR § 03.124, 11 F. R. 13371.) The Administrator will not approve the use of landing distances obtainable with reverse thrust propellers in establishing landing field lengths until such time as sufficient experience with their use is available for proper consideration of all related factors involved in the establishment of adequate airport lengths for routine landings.

§ 03.43 *Oil system.* * * *

(CAA Interpretation)

The word "capacity" as used in § 03.43 of the Civil Air Regulations (14 CFR § 03.43, 11 F. R. 13389–13390) is interpreted by the Administrator as follows:

(a) Only the usable fuel system capacity need be considered.

(b) In a conventional oil system (no transfer system provided) only the usable oil tank capacity shall be considered. The quantity of oil in the engine oil lines, the oil radiator, or in the feathering reserve shall not be included. When an oil transfer system is installed, and the transfer pump is so located that it can pump some of the oil in the transfer lines into the main engine oil tanks, the quantity of oil in these lines which can be pumped by the transfer pump may be added to the oil capacity.

§ 03.5222 *Fuel quantity indicator.* * * *

(CAA Interpretation)

Section 03.5222 of the Civil Air Regulations (14 CFR § 03.5222, 11 F. R. 13393) provides: "Means shall be provided to indicate to the flight personnel the quantity of fuel in each tank during flight."

The Administrator will accept, as compliance with this provision, a fuel tank calibrated to read in either gallons or pounds, providing the gage is clearly marked to indicate which scale is being used.

§ 03.632 *Performance information.* * * *

(CAA Statement of Policy)

Section 03.632 of the Civil Air Regulations (14 CFR § 03.632, 11 F. R. 13397) requires that the calculated effects of variations in temperature and altitude on: (a) the take-off distance (14 CFR § 03.122, 11 F. R. 13371), (b) the landing distance (14 CFR § 03.124, 11 F. R. 13371), and (c) the steady rate of climb (14 CFR § 03.123 (a), (b), and (c), 11 F. R. 13371), shall be included in the airplane flight manual. The following ranges of these variables will be considered acceptable by the Administrator:

(1) The altitudes and temperatures for which performance in take-off distance, landing distance, take-off climb and balked landing climb shall be calculated are sea-level to 7,000 ft. and 0° F. to 100° F. respectively, except that take-off and landing distances for a seaplane need not show temperatures below 30° F. at altitudes above 1,000 ft.

(2) For multi-engined aircraft, the climb with the critical engine inoperative shall be calculated for an altitude range of sea-level to absolute ceiling and a temperature range from 60° F. below the standard temperature to 40° F. above the standard temperature at the altitude involved.

PART 04b—AIRPLANE AIRWORTHINESS REGULATIONS EFFECTIVE ON NOVEMBER 9, 1945

STATEMENT OF POLICY

The following statement of policy relating to Part 04b of the Civil Air Regulations (14 CFR Part 04b) was issued by the Administrator of Civil Aeronautics on May 15, 1947.

§ 04b.4 *Power plant installation; reciprocating engines.*

§ 04b.40 *General.* * * *
(b) * * *

(CAA Statement of Policy)

Section 04b.40 (b) of the Civil Air Regulations (14 CFR § 04b.40 (b)) requires that: "All components of the power plant installation shall be constructed, arranged, and installed in a manner that will assure their continued safe operation between normal inspections or overhaul periods. Accessibility shall be provided to permit such inspection and maintenance as is necessary to assure continued airworthiness."

(a) The Administrator has received numerous requests and applications for permission to install reverse thrust propeller installation in various types of aircraft. The Administrator will approve, as providing adequate safety, only those reverse thrust propeller installations which conform in all details with the following standards:

(1) Exceptional pilot skill shall not be required in taxiing or any condition in which reverse thrust is to be used.

(2) Recommended operating procedures and operating limitations and placards shall be established.

(3) Throttle movement shall be such that the motion is in the direction of the desired acceleration of the airplane.

(4) The airplane control characteristics shall be satisfactory with regard to control forces encountered, and buffeting shall not be such as to be likely to cause structural damage.

(5) The directional control shall be adequate using normal piloting skill.

(6) It shall be determined that no dangerous condition is encountered in the event of a sudden failure of one engine in any likely operating condition.

(7) The operating procedures and airplane configuration shall be such as to provide a reasonable safeguard against serious structural damage to parts of the airplane due to the reverse airflow.

(8) It shall be determined that the pilot's vision is not dangerously obscured under normal operating conditions on dusty or wet runways and where light snow is on the runway.

(9) It shall be impossible to place the propellers in the reverse thrust position until the airplane is on the ground, unless it is demonstrated that it is safe to reverse the propellers in any likely flight condition. Consideration shall be given to possible rebound of the airplane following initial contact, at which point propeller reversal has taken place.

(10) The mechanism actuating the propeller and controlling the engine shall maintain sufficient power to keep the engine running at an adequate speed to prevent engine stalling during or after the propeller reversing operation.

(11) It shall not be possible under any likely condition to cause excessive overspeed of the propeller during the propeller reversing operation.

(12) The propeller control arrangement shall be such as to provide adequate safeguards against inadvertent reversal of propellers.

(13) The engine cooling characteristics shall be satisfactory when operated within the operating limitations.

(14) If it is desired to certificate reverse thrust for use in taxiing only, it will be permissible to omit requirement of items 3 and 9, if the following are complied with.

a. Deliberate action with intent to reverse the propellers is required.

b. Placard in plain view of pilot must warn not to reverse the propellers in the air and to be used for taxiing only.

(b) The Administrator also has received requests and applications for permission to use reverse thrust in the following performance items: (1) Showing that a duplicate set of wheel brakes is unnecessary (§ 04b.365 of Civil Air Regulations, 14 CFR § 04b.365), (2) Establishment of the accelerate-stop distance in combination with the brakes installed (§ 04b.1221 of Civil Air Regulations, 14 CFR § 04b.1221) and (3) Determination

of the landing distance to be used in establishing airport lengths (§ 04b.1240 (c) of the Civil Air Regulations, 14 CFR § 04b.1240 (c)).

The Administrator will approve, as providing adequate safety, reverse thrust for the purposes outlined in b (1) and (2) above only in instances when it is shown that such use provides a level of safety equivalent to that contemplated by the present regulations when wheel brakes alone are used, including proper consideration of pilot skill required and likelihood of attaining the necessary performance under conditions of simulated brake failure in item b (1) above and engine failure in item b (2) above.

The Administrator will not approve the use of landing distances obtainable with reverse thrust propellers in establishing landing field lengths until such time as sufficient experience with their use is available for proper consideration of all related factors involved in the establishment of adequate airport lengths for routine landings.

Issued this 15th day of May 1947.

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the substitute answers filed by the respondents National Retail Liquor Package Stores Association, Inc., a corporation; I. E. Eber, individually and as vice president of National Retail Liquor Package Stores Association, Inc., and as president of, and as representative of the entire membership of, the Colorado Package Liquor Association; M. H. Block, individually and as a director of National Retail Liquor Package Stores Association, Inc., and as executive secretary of Colorado Package Liquor Association; and William E. Stein (named in the complaint herein as William E. Stern), individually and as director of National Retail Liquor Package Stores Association, Inc., and as treasurer of Colorado Package Liquor Association, in which substitute answers said respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts, and the Commission having made its findings as to the facts and its conclusion that the respondent National Retail Liquor Package Stores Association, Inc., a corporation, has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent National Retail Liquor Package Stores Association, Inc., a corporation, and its officers, directors, representatives, agents, and employees in connection with the sale and distribution of wines, spirits, and liquors in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from either directly or indirectly entering into, continuing, cooperating in, or carrying out any agreement, understanding, combination, or conspiracy with any one or more of its membership associations, their respective members, or others to act as a medium or central agency for the purpose of cooperating with or assisting said associations, the members thereof, or others to do or perform any of the following acts or practices:

1. Establishing, fixing, or maintaining prices for wines, spirits, or liquors or adhering to or promising to adhere to the prices so fixed.

2. Maintaining or attempting to maintain uniform prices for the resale of wines, spirits, and liquors by retail liquor dealers.

3. Fixing, under threat of boycott, the prices at which manufacturers and importers of wines, spirits, and liquors shall sell their products, the prices at which such wholesalers thereof shall resell, and the prices at which retail dealers shall resell such products.

4. Compelling or attempting to compel manufacturers and importers of wines, spirits, and liquors by threats of boycott to sell such products in states having fair trade acts only under resale-price-maintenance contracts and at prices and differentials fixed by the respondent National Retail Liquor Package Stores Association, Inc., and its members.

5. Compelling or attempting to compel manufacturers, importers, and wholesalers of wines, spirits, and liquors by threats of boycott not to sell to retailers reselling or offering to resell wines, spirits, and liquors at prices less than those fixed by the members of respondent National Retail Liquor Package Stores Association, Inc., and fixed by resale-price-maintenance contracts in states having fair trade acts.

6. Compelling or attempting to compel manufacturers, importers, and wholesalers of wines, spirits, and liquors by threats of boycott not to sell to retailers reselling and offering to resell wines, spirits, and liquors at prices less than those fixed by the members of respondent National Retail Liquor Package Stores Association, Inc.

7. Compelling or attempting to compel manufacturers, importers, and wholesalers of wines, spirits, and liquors by threats of boycott to grant to retail liquor dealers who are members directly, or indirectly as members of membership associations of respondent National Retail Liquor Package Stores Association, Inc., uniform discounts and allowances in the purchase by them of wines, spirits, and liquors.

8. Compelling or attempting to compel manufacturers, importers, and wholesalers of wines, spirits, and liquors by threats of boycott to institute and prosecute suits against retailers for reselling wines, spirits, and liquors at prices less than those provided for in fair trade contracts.

9. Spying upon, and reporting to manufacturers, importers, and wholesalers of wines, spirits, and liquors, retailers selling below the prices fixed by respondent National Retail Liquor Package Stores Association, Inc., and its members, and demanding, under threats of boycott, that such manufacturers, importers, and wholesalers refuse to supply further such price-cutting retailers.

10. Bringing about or attempting to bring about the revocation or suspension of the licenses of retailers reselling wines, spirits, and liquors at prices lower than those fixed by respondent National Retail Liquor Package Stores Association, Inc., and its members.

It is further ordered, That the complaint herein be, and the same hereby is, dismissed as to the following named respondents: William Steinberg, Barney Needleman, Theodore A. Jaffee, Peter H. Agins, Ruth Schlanger, John Megson, I. E. Eber, Gerald F. Dunne, Fred Scharfenstein, M. H. Block, J. Fitzsimmons, Irving Wilchins, Manuel Lipsky, Joseph L. Regan, S. J. TITLE 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

APPLICATIONS AND EXEMPTION OF TRANSACTIONS BETWEEN REGISTERED INVESTMENT COMPANIES AND FULLY OWNED SUBSIDIARIES

The Securities and Exchange Commission, acting pursuant to authority conferred upon it by the Investment Company Act of 1940, particularly sections 6 (c), 17 (a), 17 (b), 17 (d) and 38 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby takes the following action:

1. The following new § 270.0–5 (Rule N–5) and § 270.17a–3 (Rule N–17A–3) are hereby adopted:

§ 270.0–5 *Procedure with respect to applications and other matters.* The procedure set forth in this section will be followed with respect to any proceeding initiated by the filing of an application, or upon the Commission's own motion, pursuant to any section of the act or any rule or regulation thereunder, unless in the particular case a different procedure is provided:

(a) Notice of the initiation of the proceeding will be published in the FEDERAL REGISTER and will indicate the earliest date upon which an order disposing of

the matter may be entered. The notice will also provide that any interested person may, within the period of time specified therein, submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, stating his reasons therefor and the nature of his interest in the matter.

(b) An order disposing of the matter will be issued as of course on a date to be specified in the notice, unless prior to such date the Commission orders a hearing on the matter.

(c) The Commission will order a hearing on the matter (1) upon the request of any interested person; or (2) upon its own motion if it appears that a hearing is necessary or appropriate in the public interest or for the protection of investors. In such case the hearing and all further procedure with respect to the matter will be conducted in accordance with the Commission's rules of practice.

§ 270.17a-3 *Exemption of transactions with fully owned subsidiaries.* (a) The following transactions shall be exempt from section 17 (a) of the act:

(1) Transactions solely between a registered investment company and one or more of its fully owned subsidiaries or solely between two or more fully owned subsidiaries of such company.

(2) Transactions solely between any subsidiary of a registered investment company and one or more fully owned subsidiaries of such subsidiary or solely between two or more fully owned subsidiaries of such subsidiary.

(b) The term "fully-owned subsidiary" as used in this section, means a subsidiary (1) all of whose outstanding securities, other than directors' qualifying shares, are owned by its parent and/or the parent's other fully-owned subsidiaries, and (2) which is not indebted to any person other than its parent and/or the parent's other fully-owned subsidiaries in an amount which is material in relation to the particular subsidiary, excepting (i) indebtedness incurred in the ordinary course of business which is not overdue and which matures within one year from the date of its creation, whether evidenced by securities or not, and (ii) any other indebtedness to one or more banks or insurance companies.

2. Section 270.17d-1 (Rule N-17D-1) is amended to read as follows:

§ 270.17d-1 *Applications regarding bonus, profit-sharing and pension plans and arrangements.* (a) No affiliated person of any registered investment company, or of any company controlled by any such registered company, shall participate in, or effect any transaction in connection with, any bonus, profit-sharing or pension plan or arrangement in which any such registered or controlled company is a participant unless an application regarding such plan or arrangement has been filed with the Commission and has been granted by an order entered prior to the submission of such plan or arrangement to security holders for approval, or prior to the adoption thereof if not so submitted.

(b) In passing upon such applications the Commission will consider:

(1) Whether participation in the plan or arrangement by any such registered or controlled company is on a basis substantially different from or less advantageous than that of other participants therein;

(2) Whether the provisions of the plan or arrangement are consistent with the policy and purposes set forth in section 1 (b) of the act; and

(3) Whether the provisions of the plan or arrangements are in contravention of sections 18 or 23 (a) of the act or any other provisions of the act.

(Secs. 6 (c), 17 (a), 17 (b), 17 (d), 38 (a), 54 Stat. 802, 815, 816, 841; 15 U. S. C. 80a-6, 80a-17, 80a-37)

The foregoing action shall become effective June 23, 1947.

By the Commission.

PART 807—SUSPENSION ORDERS

LELAND Z. ARTHUR

Leland Z. Arthur, 185 Athens Street, Jackson, Ohio, during August, 1946, without authorization therefor under Veterans' Housing Program Order 1, began and thereafter carried on the construction of a frozen food locker plant, located at 185 Athens Street, Jackson, Ohio, at an estimated cost in excess of $1,000. The beginning and carrying on of construction as aforesaid constituted a violation of Veterans' Housing Program Order 1. This violation has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.27 *Suspension Order No. S-27.* (a) Neither Leland Z. Arthur, his successors or assigns, nor any other person shall do any further construction on the frozen food locker plant located at 185 Athens Street, Jackson, Ohio, including completing, putting up or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) Leland Z. Arthur shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Leland Z. Arthur, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 27th day of May 1947.

PART 807—SUSPENSION ORDERS

GEORGE ROKRICH

George Rokrich, Belle, West Virginia, on or about September 15, 1946, without authorization of the Civilian Production Administration or Office of the Housing Expediter, began construction and thereafter carried on construction until about March 4, 1947 of a two-story combination commercial and residential building located at the corner of Route 60 and 8th Street, Belle, West Virginia, at an estimated cost of $15,000. This was a violation of Veterans' Housing Program Order 1 and has diverted critical materials to uses not authorized by the Office of the Housing Expediter. In view of the foregoing, it is hereby ordered that:

§ 807.38 *Suspension Order No. S-38.* (a) Neither George Rokrich, his successors or assigns, nor any other person shall do any further construction on the structure located at the corner of Route 60 and 8th Street, Belle, West Virginia, including putting up, completing or altering the structure, unless hereafter authorized in writing by the Office of the Housing Expediter.

(b) George Rokrich shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve George Rokrich, his successors or assigns, nor any other person from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

PART 204—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

AGREEMENT WITH NEW YORK STATE LABOR RELATIONS BOARD

Pursuant to the provisions of section 3 (a) (3) of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.), the National Labor Relations Board hereby separately states and currently publishes in the FEDERAL REGISTER the following statement of general policy or interpretation formulated and adopted by the agency for the guidance of the public.

§ 204.1 *Agreement with New York State Labor Relations Board.* The National Labor Relations Board has agreed with the New York State Labor Relations Board as follows:

(a) In the opinion of both Boards, there is nothing in the decision of the Supreme Court in the cases of Bethlehem Steel Co. v. New York State Labor Relations Board, and Allegheny Ludlum Steel Corp. v. William J. Kelley, et al., Nos. 55 and 76, October Term, 1946, decided April 7, 1947, forbidding or disapproving such collaborative arrangements as are contained in the existing understanding between the New York State Labor Relations Board and the National Labor Relations Board set forth in the appendix to the separate opinion of Mr. Justice Frankfurter in the above cases.

(b) The existing understanding shall be continued in full force and effect in its present form until revoked, modified, or superseded by a new agreement between the Boards. (Secs. 3, 12, Pub. Law 404, 79th Cong., 60 Stat. 238, 244)

Chapter I—Federal Communications Commission

PART 1—ORGANIZATION, PRACTICE AND PROCEDURE

MAIN OFFICES; HOURS

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 22d day of May 1947;

The Commission having under consideration a proposal to change the hours of the Commission at its offices in Washington, D. C., and at its offices outside of Washington, D. C., from the hours of 9:15 a. m. to 5:45 p. m., to the hours of 8:30 a. m. to 5 p. m., Monday through Friday, except on legal holidays; and

It appearing, that such change in hours appears to be conducive to the best interests of the Commission and will be in the public interest;

It is ordered, That, effective on June 2, 1947, § 1.201 *Main offices,* of the Commission's rules and regulations be, and it hereby is, amended so that the last sentence of said section will read as follows: "The hours of the Commission are from 8:30 a. m. to 5 p. m., Monday through Friday, except on legal holidays."

PART 14—RADIO STATIONS IN ALASKA, OTHER THAN AMATEUR AND BROADCAST

FREQUENCIES FOR SHIP STATIONS

In the matter of amendment of Part 14 of the Commission's rules and regulations: Implementing the amended § 14.54.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 14th day of May 1947;

The Commission having under consideration the matter of providing a more effective radio communication system for vessels operating in Alaskan waters, and on May 8, 1947, having adopted an order amending § 14.54 of the Commission's rules to read as follows:

§ 14.54 *Frequencies for ship stations.* (a) The following frequencies are allocated for use by ship stations in Alaskan waters in addition to those set forth in the general regulations: 1892 and 2538 kilocycles; A1, A2, A3 emission, maximum power 100 watts.[1]

(b) The frequency 2134 kilocycles is allocated for use by ship stations in Alaskan waters for communication primarily with Government coastal stations for types A1, A2, and A3 emission with a maximum power of 100 watts, upon the condition that no interference will result to other services. And,

It appearing, that an immediate need exists for use of the additional frequency 2134 kilocycles provided in the amended § 14.54; and,

It further appearing, that there is insufficient time for the filing and processing of individual applications for authorization of the additional frequency to ships operating in Alaskan waters prior to their departure for 1947 seasonal fishing operations;

It is ordered, That the licensees of all presently outstanding valid Alaskan ship station licenses authorizing the use of any one or more of the frequencies specified in §§ 14.51, 14.53 or 14.54 (a) of the Commission's rules be, and they are hereby, authorized immediately to use the frequency 2134 kc in accordance with the provisions of the hereinbefore referred to § 14.54 (b) of the Commission's rules.

It is further ordered, That this order shall be effective immediately.

(§ 303 (b), (c), and (f), 48 Stat. 1082, § 303 (r), 50 Stat. 191; 47 U. S. C. 303 (b), (c), (f), (r))

Subchapter B—Export Control

[Amdt. 335]

PART 801—GENERAL REGULATIONS

PROHIBITED EXPORTATIONS

Section 801.2 *Prohibited exportations* is hereby amended in the following particulars:

Paragraph (b) is amended to read as follows:

§ 801.2 *Prohibited exportations.* • • •

(b) The following commodities may not be exported from the United States to any destination unless and until a validated license authorizing the exportation shall have been applied for and granted by the Office of International Trade, Department of Commerce, except where exportation of such commodities is made in accordance with the provisions of General License "GLV" as set forth in § 802.10 of this subchapter, and except where the prohibition herein imposed is modified with respect to exportation of certain commodities to certain destinations or country groups by the provisions of a footnote relating to such commodity or commodities.

NOTE.—When an asterisk precedes the GLV dollar-value limit for any commodity, all forms, conversions, and derivatives of the commodity, even though not covered by the Schedule B number for the entry, are subject to the value limitations specified.

Chapter XXIII—War Assets Administration

[Operations Notice 1, Amdt. 1]

PART 8401—ORGANIZATION OF WASHINGTON OFFICE OF WAR ASSETS ADMINISTRATION

RULES PERTAINING TO OFFICIAL DOCUMENTS AND DISCLOSURE OF INFORMATION

Part 8401, August 28, 1946, entitled "Organization of the Washington Office of War Assets Administration" (11 F. R. 177A-750) is hereby amended by adding a new § 8401.14a as follows:

§ 8401.14a *Rules pertaining to official documents and the disclosure of information*—(a) *Disposal of documents.* All records, opinions, claims, accounts, correspondence and other official documents and exhibits attached or pertaining thereto, and copies thereof are the property of the Government. While copies of such documents may be temporarily kept in so-called personal custody of officials and employees to provide information for official use, they cannot be construed to be the personal property of officials and employees having such custody even though other copies of such documents may be located in official files or elsewhere. Upon termination of employment in the War Assets Administration any official or employee shall surrender all official documents to his successor or to his immediate superior.

(b) *Confidential material.* No copy of, or information relative to, any such document or to any other official business of the Administration which appears to be of a confidential nature, shall be given to any person unless such person obtains a court order or subpoena therefor, or makes application therefor in the manner prescribed in this section, and it appears to the Administrator, Associate Administrator, or General Counsel, or to the Deputy Administrator, that the furnishing thereof would not be contrary to the public interest. Applications need follow no standard form but shall be addressed to the General Counsel, and must set forth under oath the interest of the applicant in the subject matter and the purpose for which such copy or information is desired. Applications by duly accredited governmental officials need not be under oath.

(c) *Testifying before courts, etc. (excluding Congressional committees).* War Assets Administration officials and employees are prohibited from testifying in court or otherwise with respect to information obtained in their official capacities, without the prior approval of the Administrator, Associate Administrator, or General Counsel.

(d) *Congressional committees.* (1) In order to give direction and coordination to statements reflecting the official policies of the Administration and to assure that such statements truly and adequately reflect such official policies, officials or employees shall coordinate such statements with the General Counsel or his designated representative before making such statements or appearing before any Congressional committees. In those instances where the exigencies of the situation do not permit such coordination, any official or employee concerned shall transmit promptly to the Office of General Counsel a memorandum setting forth the statements furnished and the names of the persons seeking the statements, the committee with which that person is associated and such other relevant facts as may be deemed necessary to reflect a true statement of the information furnished.

(2) In order that the responsible heads of offices may know the whereabouts and activities of employees while on duty during office hours, any employee of this Administration who receives a request or subpoena from an authorized representative of a Congressional committee or any member thereof to appear and give information before such committee, or members of its staff, shall report the receipt of such request to the immediate supervisor of the office or project upon which such employee is engaged.

(3) The provisions of this section shall not impair or affect the right or duty as may be fixed by law of any official or employee of the Administration to testify before or give information to any duly authorized Congressional committee or member thereof; nor shall this regulation require any coordination of information given to Congressional committees with the office of general counsel except as provided above for statements reflecting the official policies of the Administration.

(e) *Application of this section to other Government agencies.* This section shall not be applicable to official requests of other Government agencies or officers thereof acting in their official capacities unless it appears that compliance with such requests would be in violation of law, or contrary to the public interest. Cases of doubt should be referred to the administrator, associate administrator, or general counsel.

(f) *Authority to waive this section.* The provisions of this section may be waived in proper cases by the Administrator, Associate Administrator, or General Counsel, or by the Deputy Administrator in charge of the subject matter involved.

This amendment shall become effective the 20th day of May 1947.

PART 8402—FIELD ORGANIZATION OF WAR ASSETS ADMINISTRATION

RULES PERTAINING TO OFFICIAL DOCUMENTS AND DISCLOSURE OF INFORMATION

Part 8402, August 28, 1946, entitled "Field Organization of the War Assets Administration" (11 F. R. 177A-753) is hereby amended by adding a new § 8402.8 as follows:

§ 8402.8 *Rules pertaining to official documents and the disclosure of information*—(a) *Disposal of documents.* All records, opinions, claims, accounts, correspondence and other official documents and exhibits attached or pertaining thereto, and copies thereof are the property of the Government. While copies of such documents may be temporarily kept in so-called personal custody of officials and employees to provide information for official use, they cannot be construed to be the personal property of officials and employees having such custody even though other copies of such documents may be located in official files or elsewhere. Upon termination of employment in the War Assets Administration any official or employee shall surrender all official documents to his successor or to his immediate superior.

(b) *Confidential material.* No copy of, or information relative to, any such document or to any other official business of the Administration which appears to be of a confidential nature, shall be given to any person unless such person obtains a court order or subpoena therefor, or makes application therefor in the manner prescribed in this section, and it appears to the Administrator, Associate Administrator, or General Counsel, or to the Deputy Administrator, Regional Director, or Regional Counsel having charge of the subject matter involved that the furnishing thereof would not be contrary to the public interest. Applications need follow no standard form but shall be addressed to the General Counsel, or to the Regional Counsel of the region having charge of the subject matter, and must set forth under oath the interest of the applicant in the subject matter and the purpose for which such copy or information is desired. Applications by duly accredited governmental officials need not be under oath.

(c) *Testifying before courts, etc. (excluding Congressional committees).* War Assets Administration officials and employees are prohibited from testifying in court or otherwise with respect to information obtained in their official capacities, without the prior approval of the Administrator, Associate Administrator, or General Counsel, or of the Deputy Administrator, Regional Director, or Regional Counsel in whose office such official or employee is employed.

(d) *Congressional committees.* (1) In order to give direction and coordination to statements reflecting the official policies of the Administration and to assure that such statements truly and adequately reflect such official policies, officials or employees shall coordinate such statements with the General Counsel or his designated representative before making such statements or appearing before any Congressional committees. In those instances where the exigencies of the situation do not permit such coordination, any official or employee concerned shall transmit promptly to the Office of General Counsel a memorandum setting forth the statements furnished and the names of the persons seeking the statements, the committee with which that person is associated and such other relevant facts as may be deemed necessary to reflect a true statement of the information furnished.

(2) In order that the responsible heads of offices may know the whereabouts and activities of employees while on duty during office hours, any employee of this Administration who receives a request or subpoena from an authorized representative of a Congressional committee or any member thereof to appear and give information before such committee, or members of its staff, shall report the receipt of such request to the immediate supervisor of the office or project upon which such employee is engaged.

(3) The provisions of this section shall not impair or affect the right or duty as may be fixed by law of any official or employee of the Administration to testify before or give information to any duly authorized Congressional committee or member thereof; nor shall this regulation require any coordination of information given to Congressional committees with the Office of General Counsel except as provided above for statements reflecting the official policies of the Administration.

(e) *Application of this section to other government agencies.* This section shall not be applicable to official requests of other governmental agencies or officers thereof acting in their official capacities unless it appears that compliance with such requests would be in violation of law, or contrary to the public interest. Cases of doubt should be referred to the Administrator, Associate Administrator, or General Counsel, or to the Deputy Administrator, Regional Director or Regional Counsel having charge of the subject matter involved.

(f) *Authority to waive this section.* The provisions of this section may be waived in proper cases by the Administrator, Associate Administrator, or General Counsel, or by the Deputy Administrator, Regional Director or Regional Counsel in charge of the subject matter involved.

This amendment shall become effective the 20th day of May 1947.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 370]

UTAH

REVOKING PUBLIC LAND ORDERS 256 AND 273, WITHDRAWING PUBLIC LANDS FOR CLASSIFICATION UNDER JURISDICTION OF SECRETARY OF INTERIOR

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Public Land Orders Nos. 256 and 273 of January 4, 1945 and April 17, 1945, respectively, withdrawing certain public lands from all forms of appropriation under the public land laws and reserving such lands for classification under the jurisdiction of the Secretary of the Interior are hereby revoked.

Applications for these lands which are reported to be rough and broken desert lands may be presented under any applicable public land law as hereinafter provided. Non-mineral applications for lands which contain minerals are allowable only if there is authority for the reservation of the minerals to the United States.

This order shall become effective immediately so as to permit the issuance of mineral prospecting permits and leases upon applications which were filed prior to the dates of the respective withdrawals and which are still pending in the Bureau of Land Management or have been rejected solely because of the withdrawals provided such rejected applications are reinstated upon petitions timely filed.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on July 23, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from July 23, 1947, to October 22, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279-283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from July 2, 1947, to July 22, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on July 23, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on October 23, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from October 1, 1947, to October 21, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on October 22, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the district land office at Salt Lake City, Utah, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that Title.

Inquiries concerning these lands shall be addressed to the district land office at Salt Lake City, Utah.

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR, Parts 2, 5, 10, 11, 13, 16, 17]

[Docket No. 8288]

OPERATION OF CERTAIN LICENSED RADIO STATIONS BY UNLICENSED PERSONNEL

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING

1. Supplemental notice is hereby given of proposed rule making in the above-entitled matter.

2. On April 25, 1947, the Commission released a notice of proposed rule making (Mimeograph #7414) to which was attached as an appendix a proposal for the amendment of Commission Order 133, adopted May 10, 1946. The final date for submitting comments on this proposal was set in the notice at May 25, 1947.

3. Order 133, and the outstanding proposal for the amendment of that order, are intended by the Commission to constitute a waiver of the operator license requirements of section 318 of the Communications Act of 1934, as amended, only as to persons who operate a portable or mobile station with the authority and on behalf of the station licensee. In order to clarify this intention, it is proposed to add an additional numbered paragraph to the outstanding proposal for the amendment of Order 133, namely:

"8. This order, insofar as it constitutes a waiver of the operator license requirements of section 318 of the Communications Act of 1934, as amended, applies only to persons whose operation (including the adjustments authorized by paragraphs numbered 6 and 7, above) of a station is with the authority and on behalf of the station licensee."

4. The proposal herein is authorized by sections 303 (f), (l), and (r), and section 318 of the Communications Act of 1934, as amended.

5. In view of the fact that the proposal herein constitutes in effect an interpretation by the Commission of its Order 133 and of its proposal for the amendment of Order 133, it is considered to be unnecessary and not in the public interest to defer beyond May 25, 1947, the final date for submitting comments upon the proposal as herein supplemented for the amendment of Order 133.

6. Except as hereinabove set forth, the notice of proposed rule making released April 25, 1947, in the above-entitled matter is unchanged.

Adopted: May 15, 1947.

By the Commission.

ORDER EXTENDING TIME FOR SUBMISSION OF COMMENTS AND BRIEFS IN PROPOSED RULE MAKING

In the matter of amendment of §§ 5.22, 5.23, 5.25 and 5.28 of Part 5, amendment of §§ 10.61, 10.62, 10.66 and 10.101 of Part 10, amendment of §§ 11.45, 11.51, 11.52 and 11.56 of Part 11, amendment of §§ 16.23, 16.65, and 16.101 of Part 16, amendment of §§ 17.143, 17.146, 17.147 and 17.161 of Part 17, adding new §§ 5.34 and 5.35 of Part 5, adding new §§ 10.65, 10.73 and 10.114 of Part 10, adding new §§ 11.55, 11.63 and 11.72 of Part 11, adding new §§ 16.144, 16.145 and 16.146 of Part 16, and deleting § 17.148 of Part 17 for the purpose of changing and standardizing requirements regarding transmitter emission measurements, changes in equipment, keeping of station records, channel width and modulation, frequency stability, inspection of tower lights and associated control equipment, and remote control in the Experimental, Emergency, Miscellaneous, Railroad and Utility Radio Services.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of May 1947;

The Commission having under consideration its notice of proposed rule making issued on April 11, 1947 (12 F. R. 2498) setting forth proposed changes and amendments in Parts 5, 10, 11, 16 and 17 of its rules and regulations, for the purpose of changing and standardizing requirements regarding transmitter emission measurements, changes in equipment, keeping of station records, channel width and modulation, frequency stability, inspection of tower lights and associated control equipment, and remote control in the Experimental, Emergency, Miscellaneous, Railroad and Utility Radio Services, which Notice provided for the submission of statements, briefs or comments on or before May 20, 1947; and

It appearing, that proposals are before the Commission requesting that the time for the submission of statements, comments and briefs be extended; and

It further appearing, that a grant of such extention will be in the public interest;

It is ordered, That the time for submission of comments, statements or briefs, with respect to the proposed amendments of the provisions of the above-captioned sections, be and the same is hereby extended to and including June 1, 1947.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 6651]

ALLOCATION OF FREQUENCIES TO VARIOUS CLASSES OF NON-GOVERNMENTAL SERVICES IN DESIGNATED RADIO SPECTRUM

ORDER ADOPTING FREQUENCY ALLOCATION PLAN

In the matter of allocation of frequencies to the various classes of non-governmental services in the radio spectrum from 10 kilocycles to 30,000,000 kilocycles.

At a meeting of the Federal Communications Commission, held at its offices in Washington, D. C., on the 15th day of May 1947;

The Commission having under consideration frequencies for the industrial, scientific, medical service [1] proposed in Public Notices 7125 and 7126, dated April 14, 1947, which public notices made provisions for comments or requests for oral argument from interested persons; and

The Commission having received and considered all comments submitted in connection with this proposal; and

The Commission having determined that the public interest, convenience and necessity would be served by allocation for use in the United States by industrial, scientific and medical devices of the frequencies 915 Mc, 5850 Mc, 10,600 Mc, 18,000 Mc, and a frequency at approximately 6 Mc (specific frequency to be announced later) as set forth in the proposal referred to above;

Now, therefore, *It is hereby ordered*, That the frequency allocation plan set out below be, and the same is hereby, adopted, effective June 23, 1947, to supersede any plan heretofore adopted for the said frequency bands, or any portion thereof, and the Commission's proposal of Revised Frequency Service-Allocations Between 1000 and 13000 Megacycles to Non-Government Fixed and Mobile Services (Public Notice 99615) is amended accordingly:

Frequency (mc.)	Band (mc.)	U. S. service-allocation
6 mc. (specific frequency to be announced later).	470–480	Broadcasting: 470–475 mc.: Facsimile. 475–500 mc.: (a) Facsimile.[1] (b) Developmental, Broadcasting. (c) Television.[2]
915	[3] 890–940	500–890 mc.:[3] Television, Broadcasting.
	[4] 940–960	(a) Broadcasting.[5] (b) Fixed.[6] 940–952 mc.: FM studio transmitter links.[7] 952–960 mc.: Fixed circuits except common carrier and television STL.[8]

[1] Assignments to this service may be made in any area from 475 mc. progressing upward whenever the band 470–475 mc. is utilized fully in that area.

[2] Assignments to this service may be made in any area whenever the band 500–890 mc. is utilized fully in that area.

[3] Frequencies for experimental television stations may be made available in any area until they are required in that area for television broadcasting.

[4] The frequency 915 mc. is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 890–940 mc.

[5] This service recognizes that interference to its operations within this band may result from the emissions on the frequency 915 mc. of industrial, scientific and medical devices. Separations between assigned frequencies will be 100 kc. and exact multiples thereof, and assignments will be made, in any area, progressively upward from 890 mc.

[6] This service recognizes that interference to its operations within this band may result from the emissions on the frequency 915 mc. of industrial, scientific and medical devices. Separations between assigned frequencies will be 100 kc. and exact multiples thereof, and assignments will be made, in any area, progressively downward from 940 mc. Assignments to FM studio-to-transmitter links may be made in any area in this band where insufficient space in that area is available in the band 940–952 mc.

[7] Separations between assigned frequencies will be 100 kc. and exact multiples thereof.

[8] Assignments in any area will be made progressively upward from 940 mc.

[9] Assignments in any area will be made progressively downward from 960 mc.

Frequency (mc.)	Band (mc.)	U. S. service-allocation
5850	[1] 5650–5925	Amateur.[2]
	5925–7125	Nongovernment; fixed and mobile.
	7125–8500	Government; fixed and mobile.

[1] The frequency 5850 mc. is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 5775–5925 mc.

[2] This service recognizes that interference to its operations on frequencies within 75 mc. of 5850 mc. may result from emissions on the frequency 5850 mc. of industrial, scientific and medical devices.

[1] Industrial, scientific, medical service: A service other than a radiocommunication service, for industrial, scientific, or medical uses, which results in the transmission of energy by radio.

Frequency (mc.)	Band (mc.)	U. S. service-allocation
10600	[1] 10500–10700	Industrial, scientific, medical.[2]
	10700–13200	Nongovernment; fixed and mobile.
	13200–14000	Government; fixed and mobile.

[1] The frequency 10600 mc. is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 10600–10700 mc.

[2] Sharing by communications services to be determined at a later date.

Frequency (mc.)	Band (mc.)	U. S. service-allocation
18000	[1] 16000–21000	(a) Fixed.[2] (b) Mobile.[2] 16000–18000 mc.—Nongovernment. 18000–21000 mc.—Government.

[1] The frequency 18000 mc. is designated for the operation of industrial, scientific and medical devices. All emissions must be confined to the band 17850–18150.

[2] This service recognizes that interference to its operations on frequencies within 150 mc. of 18000 mc. may result from emissions on the frequency 18000 mc. of industrial, scientific and medical devices.

It is further ordered, That the provisions of the Commission's public notice and order, dated December 26, 1946, governing the operation of industrial, scientific and medical devices upon the frequency 2450 Mc, be and the same are hereby made applicable to operation of such devices on the frequencies 915 Mc, 5850 Mc, 10,600 Mc and 18,000 Mc.

By direction of the Commission.

DAILY NEWS TELEVISION CO. AND PENNSYLVANIA BROADCASTING CO.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Daily News Television Company, Philadelphia, Pennsylvania, Docket No. 7273, File No. BPCT-119; Pennsylvania Broadcasting Company, Philadelphia, Pennsylvania, Docket No. 8287, File No. BPCT-185; for construction permit for television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 15th day of May 1947.

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station in Philadelphia, Pennsylvania, to operate on the same and only unassigned television channel allocated to the Philadelphia metropolitan area;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said applications of Daily News Television Company (File No. BPCT-119) and Pennsylvania Broadcasting Company (File No. BPCT-185) be, and they are hereby, designated for hearing in a consolidated proceeding at a time and place to be named by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant to operate and construct the proposed station.

2. To obtain full information with respect to the nature and character of the proposed program service.

3. To determine the areas and populations which may be expected to receive service from the proposed station.

4. To determine on a comparative basis which, if any, of the applications in this consolidated proceeding should be granted.

HILLSDALE BROADCASTING CO., INC., AND WOODWARD BROADCASTING CO.

ORDER AMENDING AND ENLARGING ISSUES

In re applications of Hillsdale Broadcasting Company, Inc., Hillsdale, Michigan, Docket No. 7941, File No. BP-5281; for construction permit. Woodward Broadcasting Company, Detroit, Michigan, Docket No. 8167, File No. BP-5827; for construction permit.

The Commission having under consideration a reply filed April 9, 1947, by Woodward Broadcasting Company, Detroit, Michigan, to the petition of Courier Journal and Louisville Times, Inc. (WHAS), Louisville, Kentucky, for intervention in the hearing upon the above-entitled applications, in which reply it is requested that if the Commission allows the intervention requested by WHAS, that the issues upon which the applications have been designated for hearing be enlarged to include the following issue:

To determine the type and character of program service rendered by WHAS to the areas and populations that would be lost if the application of Woodward Broadcasting Company were granted and the character of other broadcast services available to those areas and populations;

and an opposition thereto filed May 1, 1947, by Courier Journal and Louisville Times, Inc. (WHAS); and

It appearing, That the Commission on May 2, 1947, allowed intervention by Courier Journal and Louisville Times, Inc. (WHAS), Louisville, Kentucky, in the hearing upon the above-entitled applications for the purpose of showing groundwave interference only to the normally protected contour of petitioner's Station WHAS from operation as proposed by Woodward Broadcasting Company by its application for construction permit (File No. BP-5827);

It is ordered, This 2d day of May, 1947, that the request of Woodward Broadcasting Company, Detroit Michigan, for enlargement of issues, be, and it is hereby granted; and the issues dated February 27, 1947, upon which the above-entitled applications have been designated for hearing, be, and they are hereby, enlarged, to include the following:

To determine the type and character of program service rendered by WHAS to the areas and populations that would be lost if the application of Woodward Broadcasting Company were granted and the character of other broadcast services available to those areas and populations.

INTERSTATE BROADCASTING CO., INC. (WQXR) ET AL.

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Interstate Broadcasting Company, Inc. (WQXR), New York, N. Y., Docket No. 8002, File No. BP-4506; Washita Valley Broadcasting Corporation (KWCO), Chickasha, Oklahoma, Docket No. 8000, File Nos. BP-4373, BMP-1919, BL-2129; El Paso Broadcasting Company (new), El Paso, Texas, Docket No. 7533, File No. BP-4634; Lake Broadcasting Company, Inc. BP-3118, BP-4868; The Montana Network, Butte, Montana, Docket No. 8299, File No. BP-5771; for construction permits.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 10th day of April 1947;

The Commission having under consideration the above-entitled application of The Montana Network requesting a construction permit for a new standard broadcast station to operate unlimited time on the frequency 1560 kc with 1 kw power at Butte, Montana; and

It appearing, that the Commission on December 5, 1946, designated for hearing in a consolidated proceeding the other above-entitled applications, all requesting unlimited time operation on the frequency 1560 kc, upon the following issues:

1. To determine the legal, technical, financial and other qualifications of each applicant, and, if a corporation, its officers, directors, and stockholders, to construct and operate the proposed station.

2. To determine the areas and populations which would gain primary service through the operation of each of the proposed stations and what other broadcast services are available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered by each of the applicants and whether such service would meet the requirements of the areas and populations proposed to be served.

4. To determine whether the operation of the proposed stations would involve objectionable interference with any existing or proposed broadcast service and if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations; or would involve objectionable interference with broadcast service authorized in a foreign country pursuant to the provisions of International Agreements to which the United States is a party.

5. To determine whether any existing or proposed operation on the frequency 1560 kilocycles is, or may be, entitled to protection as a Class I-B station under the Commission's rules and regulations, and the provisions of the North American Regional Broadcasting Agreement and the Interim Agreement (Modus Vivendi) of February 25, 1946.

6. To determine whether, if any existing or proposed operation on the frequency 1560 kilocycles may be afforded Class I-B protection, the according of such I-B classification to any existing or proposed station or stations would contribute to an equitable allocation of facilities and otherwise serve the public interest, convenience, or necessity.

7. To determine which, if any, of the applications in this consolidated proceeding should be granted.

And it further appearing, that the said application of The Montana Network, like the other above entitled applications, involves common issues concerning the availability of the frequency 1560 kilocycles for allocation for Class I-B operation, and the manner in which allocation of stations on the frequency 1560 kilocycles would best serve the public interest and contribute to an equitable distribution of facilities in accordance with the provisions of section 307 (b) of the Communications Act of 1934, as amended;

It is ordered, That the said application of The Montana Network be, and it is hereby, designated for hearing in the same consolidated proceeding and upon the same, above specified, issues as the other above entitled applications, at a time and place to be designated by subsequent order of the Commission.

It is further ordered, That the order of the Commission dated December 5, 1946, designating for hearing in a consolidated proceeding, as aforesaid, the above-entitled applications of Interstate Broadcasting Company, Inc. (WQXR), Washita Valley Broadcasting Corporation (KWCO), El Paso Broadcasting Company, Lake Broadcasting Company, Inc., Unity Corporation, Inc. (WTOD), and Pioneer Mercantile Company (KPMC), be, and it is hereby, amended to include the said application of The Montana Network.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

SHAWANO COUNTY LEADER PUBLISHING CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Shawano County Leader Publishing Company, Shawano, Wisconsin, Docket No. 8307, File No. BP-5518; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 25th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station in Shawano, Wisconsin, to operate unlimited time on the frequency 550 kc with power of 250 watts daytime and 100 watts at night;

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with stations KSD, St. Louis, Mo. (550 kc, 5 kw, DA-N) or WJIM, Lansing, Mich. (550 kc, 1 kw, DA-1) or WIND, Chicago, Ill. (560 kc, 5 kw, DA-2), or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any other pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations, with particular respect to the operation of a Class IV station on a regional channel (see footnote 4, section 1).

It is further ordered, That The Pulitzer Publishing Company, licensee of Station KSD, St. Louis, Mo., and WJIM, Inc., licensee of Station WJIM, Lansing, Michigan, and Johnson-Kennedy Radio Corporation, licensee of Station WIND, Chicago, Illinois, be, and they are hereby made parties to this proceeding.

Notice is hereby given that § 1.857 of the Commission's rules and regulations is not applicable to this proceeding.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Triangle Broadcasting Associates, Inc., Hackensack, New Jersey, Docket No. 8340, File No. BP-4956; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 28th day of April 1947;

The Commission having under consideration the above-entitled application for a construction permit for a new standard broadcast station to operate on the frequency 620 kc, with 250 w power, unlimited time, at Hackensack, New Jersey.

It is ordered, That, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application be, and it is hereby, designated for hearing at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the legal, technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders to construct and operate the proposed station.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of the proposed station would involve objectionable interference with the newly authorized station at Newark, New Jersey, operating on 620 kc, with 5 kw power, using a directional antenna, or with any other existing broadcast stations and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of the proposed station would involve objectionable interference with the services proposed in any pending applications for broadcast facilities and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of the proposed station would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That, Newark Broadcasting Corporation, permittee of the newly authorized station at Newark, New Jersey, be, and it is hereby, made a party to this proceeding.

KFEQ, INC.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of KFEQ, Inc. (KFEQ), St. Joseph, Missouri, Docket No. 8367, File No. BP-4810; for construction permit.

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 30th day of April 1947;

The Commission having under consideration the above-entitled application requesting a construction permit to increase the daytime power of Station KFEQ, St. Joseph, Missouri, to 10 kw, to operate with a non-directional antenna daytime, and to install a new transmitter, and also having under consideration a petition filed April 23, 1947 by World Publishing Company, licensee of Station KOWH, Omaha, Nebraska, requesting that said application be designated for hearing;

It is ordered, That said petition by World Publishing Company (KOWH) be, and it is hereby, granted, and that, pursuant to section 309 (a) of the Communications Act of 1934, as amended, the said application of KFEQ, Inc., be, and it is hereby, designated for hearing, at a time and place to be designated by subsequent order of the Commission, upon the following issues:

1. To determine the technical, financial, and other qualifications of the applicant corporation, its officers, directors and stockholders, to construct and operate Station KFEQ as proposed.

2. To determine the areas and populations which may be expected to gain or lose primary service from the operation of Station KFEQ as proposed and the character of other broadcast service available to those areas and populations.

3. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

4. To determine whether the operation of Station KFEQ as proposed would involve objectionable interference with Stations KOWH, Omaha, Nebraska; WMAQ, Chicago, Illinois; KGGF, Coffeyville, Kansas; or with any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

5. To determine whether the operation of Station KFEQ as proposed would involve objectionable interference with the services proposed in the pending application of Hugh J. Powell (KGGF), or in any other pending applications for broadcast facilities, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other broadcast service to such areas and populations.

6. To determine whether the installation and operation of Station KFEQ as proposed would be in compliance with the Commission's rules and Standards of Good Engineering Practice Concerning Standard Broadcast Stations.

It is further ordered, That World Publishing Company, licensee of Station KOWH, Omaha, Nebraska; National Broadcasting Company, Inc., licensee of Station WMAQ, Chicago, Illinois; and Hugh J. Powell, licensee of station KGGF, Coffeyville, Kansas, be, and they are hereby, made parties to this proceeding.

JACOB NOVICK

CONSENT ORDER

Jacob Novick is the owner of a hotel located at 3-5 Hawthorn Avenue, Yonkers, N. Y. He is charged by the Office of the Housing Expediter with violations of Veterans' Housing Program Order 1 in that (1) on or about January 7, 1947 he began construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000 of a commercial building located at 3-5 Hawthorn Avenue, Yonkers, N. Y.; (2) on and after January 7, 1947 he carried on construction, repairs, additions and alterations, without authorization, and at a cost in excess of $1,000 of a commercial building located at 3-5 Hawthorn Avenue, Yonkers, N. Y.

Jacob Novick admits the violations charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Jacob Novick, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Jacob Novick, his successors and assigns, nor any other person shall do any further construction on the premises located at 3-5 Hawthorn Avenue, Yonkers, N. Y., including the putting up, completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Jacob Novick shall refer to this order in any application or appeal which he may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Jacob Novick, his successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 27th day of May 1947.

CHARLES REDER, HAROLD REDER & GILMORE RUDNICK

CONSENT ORDER

Charles Reder, Harold Reder and Gilmore Rudnick, all of North Adams, Massachusetts, are the owners of a restaurant and bar known as the "1896 House" located on Cold Spring Road, Williamstown, Massachusetts. Charles Reder, Harold Reder and Gilmore Rudnick are charged by the Office of the Housing Expediter with having commenced in July of 1946 the construction of cinder block boiler shed and of an addition to the restaurant at an estimated cost of $5 000 without authorization, which construction was not permitted under any exemption provided for in the Order and therefore constituted a violation of Veterans' Housing Program Order 1.

An authorization from the Civilian Production Administration was obtained to "install a complete heating system utilizing one 1200 square feet capacity boiler and 1,829 square feet of radiation." Under this authorization the boiler shed and addition were completed except for the applying of clapboards to the outside of the addition and except for certain interior alterations. This construction of this addition and boiler shed which were not covered by the authorization granted by the Civilian Production Administration constituted a violation of paragraph (i) of Veterans' Housing Program Order 1.

Charles Reder, Harold Reder and Gilmore Rudnick admit the violations as charged and consent to the issuance of this order.

Wherefore, upon the agreement and consent of Charles Reder, Harold Reder and Gilmore Rudnick, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Charles Reder, Harold Reder nor Gilmore Rudnick, their successors or assigns, nor any other person shall do any further construction on the premises known as the "1896 House" on Cold Spring Road, Williamstown, Massachusetts, including the applying of clapboards or altering the interior unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) The provisions of paragraph (a) above do not apply to the work to be done under CPA authorization dated September 4, 1946, and carried as Case No. 1-2-478.

(c) Charles Reder, Harold Reder, and Gilmore Rudnick shall refer to this order in any application or appeal which they may file with the Office of the Housing Expediter or any other federal agency to do any further construction on this project.

(d) Nothing contained in this order shall be deemed to relieve Charles Reder, Harold Reder, and Gilmore Rudnick, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 27th day of May 1947.

KEN-RAD TUBE & LAMP CORP.

ORDER GRANTING APPLICATION TO STRIKE FROM LISTING AND REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the city of Philadelphia, Pa., on the 22d day of May A. D. 1947.

The New York Curb Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, having made application to strike from listing and registration the Class A Common Stock, No Par Value, of Ken-Rad Tube & Lamp Corporation;

Appropriate notice and opportunity for hearing having been given to interested persons and the public generally;

No request having been received from any interested person for a hearing in this matter; and

The Commission having duly considered the facts stated in the application, and having due regard for the public interest and the protection of investors;

It is ordered, That said application be, and the same is, hereby granted, effective at the close of the trading session on June 2, 1947.

By the Commission.

ST. LOUIS-SAN FRANCISCO RAILWAY CO. VOTING TRUST, EXPIRING JANUARY 1, 1952

FINDINGS AND ORDER GRANTING UNLISTED TRADING PRIVILEGES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 22d day of May A. D. 1947.

The Boston Stock Exchange has made application to the Commission pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 for permission to extend unlisted trading privileges to the Voting Trust Certificates for Common Stock, No Par Value, of the St. Louis-San Francisco Railway Company Voting Trust, Expiring January 1, 1952.

After appropriate notice and opportunity for hearing and in the absence of any request by any interested person for hearing on this matter, the Commission on the basis of the facts submitted in the application makes the following findings:

(1) That this security is listed and registered on the New York Stock Exchange; that the geographical area deemed to constitute the vicinity of the Boston Stock Exchange for the purpose of this application is the New England States exclusive of Fairfield County, Connecticut; that out of a total of voting trust certificates outstanding covering 1,241,157 shares, voting trust certificates covering 10,306 shares are outstanding in the vicinity of the Boston Stock Exchange; and that in the vicinity of the Boston Stock Exchange there were 222 transactions involving voting trust certificates covering 56,238 shares from January 1, 1946 to December 31, 1946;

(2) That sufficient public distribution of, and sufficient public trading activity in, this security exist in the vicinity of the applicant exchange to render the extension of unlisted trading privileges thereto appropriate in the public interest and for the protection of investors; and

(3) That the extension of unlisted trading privileges on the applicant exchange to this security is otherwise appropriate in the public interest and for the protection of investors.

Accordingly it is ordered, Pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934, that the application of the Boston Stock Exchange for permission to extend unlisted trading privileges to the Voting Trust Certificates for Common Stock, No Par Value, of the St. Louis-San Francisco Railway Company Voting Trust, Expiring January 1, 1952, be, and the same is, hereby granted.

By the Commission.

EAST COAST PUBLIC SERVICE CO. ET AL.

FINDINGS AND ORDER RELEASING JURISDICTION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of May 1947.

In the matters of East Coast Public Service Company, Virginia East Coast Utilities, Incorporated, Tidewater Electric Service Company, Floyd W. Woodcock, Applicants, File No. 54-85; East Coast Public Service Company, Virginia East Coast Utilities, Incorporated, Tidewater Electric Service Company, Respondents, File No. 59-90.

The Commission in its findings, opinion and order dated April 2, 1947,[1] approved the Plan, as amended, of East Coast Public Service Company ("East Coast"), Virginia East Coast Utilities, Incorporated ("Virginia"), Tidewater Electric Service Company ("Tidewater"),[2] and Floyd W. Woodcock under section 11 (e) of the Public Utility Holding Company Act of 1935. Our order reserved jurisdiction, among other things, with respect to the terms of the proposed issuance and sale by Virginia at competitive bidding of $1,300,000 principal amount of First Mortgage Bonds, Series A, due in 1977, and 60,000 shares of common stock, and with respect to all the fees and expenses to be paid in connection with the plan. Subsequently, by order dated April 29, 1947, the United States District Court for the District of Delaware approved the plan, as amended, of East Coast and its subsidiary companies.

In its order dated May 8, 1947,[3] the Commission permitted the amended declaration to become effective, with respect to the issuance and sale of the said bonds and common stock, subject to the condition that the proposed public sales of such securities of Virginia shall not be consummated until the results of the competitive bidding have been made a matter of record in these proceedings and a further order shall have been entered by this Commission in the light of the record so completed.

A further amendment has been filed herein and the hearing was reconvened for the purpose of completing the record with respect to the results of the competitive bidding, pursuant to Rule U-50. The record shows that pursuant to the invitation for competitive bids, two bids for the said $1,300,000 principal amount of First Mortgage Bonds of Virginia[4] were submitted as follows:

Underwriter	Coupon rate	Price to company (percent of principal amount)	Annual cost to company
	Percent		*Percent*
Woodcock, McLear & Co....	3¼	102.051	3.02965
Halsey, Stuart & Co., Inc...	3¼	101.079	3.09995

The record shows that East Coast and Virginia have accepted the bid of Woodcock, McLear & Co. for the bonds, as set forth above. The record further shows that Woodcock, McLear & Co. was bidding as the agent for the Provident Mutual Life Insurance Company of Philadelphia, which latter company is acquiring said bonds as an investment and not for resale or distribution. As a result of this transaction the Provident Mutual Life Insurance Company proposes to pay Woodcock, McLear & Co. a fee of $6,000, of which $2,750 is to be paid to Morris, Steel, Nichols and Arsht, counsel for the underwriters. We have examined the record herein and find no basis for imposing terms or conditions with respect to the price to be paid to East Coast and Virginia for said bonds, the interest rate thereon or the redemption prices. The fee to be paid Woodcock, McLear & Co. and its counsel does not appear to be unreasonable.

A witness for the company testified that East Coast publicly invited bids for the common stock at the same time that bids were invited for the bonds, and that as a result three bidders were qualified to submit bids for the common stock, but only one bid was received. Upon learning that certain prospective bidders had decided not to submit bids, the company determined to return the one bid unopened and to postpone the sale of the common stock. While in our opinion this does not amount to a modification of the plan of East Coast and its subsidiaries,[5] but is rather a change in the timing of the proposed transactions, the Commission has been requested to petition the United States District Court for the District of Delaware for a supplemental order approving the action of the company as a procedural matter. We think such action is appropriate and we shall grant the request.

The estimated fees and expenses to be paid by Virginia in connection with the issuance and sale of the bonds are as follows:

Registration fee—S. E. C.	$134
Trustees' fees and expenses	1,600
Counsel to Trustees	1,500
Printing	9,350
Company expenses	4,976
General counsel:	
Miles, Walsh, O'Brien & Morris	6,500
Virginia counsel:	
Frank P. Pulley, Jr.	3,500
Disbursements of counsel	1,500
	29,060

The above fees and expenses do not appear to be unreasonable and jurisdiction with respect to them will be released. All other fees and expenses in connection with the section 11 (e) plan including the merger of Tidewater into Virginia, the recapitalization of Virginia and the liquidation and dissolution of East Coast are to be paid by East Coast, and the reservation of jurisdiction with respect thereto will continue.

It is therefore ordered, That the jurisdiction heretofore reserved with respect to the matters to be determined as a result of competitive bidding for the First Mortgage Bonds of Virginia under Rule U-50 be, and the same hereby is, released and that the amendment filed on May 20, 1947, to the declaration herein be, and hereby is, permitted to become effective, subject to the terms and conditions prescribed in Rule U-24.

It is further ordered, That the jurisdiction heretofore reserved with respect to the payment by Virginia of all the fees and expenses in connection with the issuance and sale of the bonds and the legal fee for counsel to the successful bidder be, and the same hereby is, released.

It is further ordered, That the jurisdiction heretofore reserved with respect to (1) the proposed sale by East Coast of the common stock of Virginia, (2) the amount and allocation of all other fees and other compensation and expenses to be paid in connection with the plan, the transactions incident thereto and the consummation thereof, (3) the proceedings instituted by the Commission under section 11 (b) (2) of the act, and (4) such further proceedings and the making of such supplemental findings and the taking of such further action as the Commission may deem appropriate in connection with the plan, as amended, the transactions incident thereto, and the consummation thereof, be and it is hereby continued.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UNITED GAS IMPROVEMENT CO. AND CONNECTICUT GAS & COKE SECURITIES CO.

NOTICE OF FILING OF PLAN AND NOTICE OF AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of May 1947.

Notice is hereby given that The United Gas Improvement Company ("UGI") and its subsidiary holding company, The Connecticut Gas & Coke Securities Company ("Coke Company"), have filed a joint application, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a plan, designed to effectuate partial compliance with that portion of an order issued by the Commission on May 7, 1942, directing UGI to sever its relationship with New Haven Gas Light Company ("New Haven") and The Hartford Gas Company ("Hartford"), both of which are public utility subsidiaries of Coke Company.

In general, the plan provides for (1) the dissolution of Coke Company and the distribution of its assets, consisting principally of holdings of securities of New Haven and Hartford, to Coke Company's preferred stockholders; the common stockholders of Coke Company receiving nothing in the liquidation, and (2) the transfer by UGI of all its direct holdings of securities of New Haven and part of its holdings of Hartford to Coke Company, the elimination of claims for indebtedness allegedly owned by Coke Company to UGI, and the release and discharge of UGI and Koppers Company, Inc. ("Koppers") of obligations and agreements relating to the guaranty of dividend payments on Coke Company's outstanding preferred stock.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized below:

Coke Company, solely a holding company incorporated in 1926 under the

[1] East Coast Public Service Company et al., — S. E. C. — (1947), Holding Company Act Release No. 7326.

[2] On April 30, 1947, Tidewater was merged into Virginia, and on May 1, 1947, Virginia, the surviving company, changed its name to East Coast Electric Company which, for purposes of this findings and order, we shall refer to as "Virginia".

[3] Holding Company Act Release No. 7392.

[4] Of the total, $800,000 principal amount was offered by East Coast and $500,000 principal amount by Virginia.

[5] The record before both this Commission and the United States District Court for the District of Delaware shows that the applicants originally contemplated a simultaneous sale of Virginia's bonds and common stock.

laws of the State of Connecticut, has outstanding 198,997 shares of $3 Cumulative Preferred Stock and 299,498 shares of no par common stock, which securities are owned as follows:

Owner	Preferred shares	Percent	Common shares	Percent
UGI	----	----	210,617	70.3
New Haven	597	0.3	631	.2
Public	198,400	99.7	88,250	29.5
Total	198,977	100	299,498	100

Coke Company also has open account indebtedness of $171,173.38 owing to UGI for cash loans advanced by it in 1935. It is alleged that Coke Company also has contingent liabilities at March 31, 1947 for $1,326,484.41, representing amounts paid by UGI under the terms of an indemnification agreement made January 11, 1935 between UGI and Koppers. Under this agreement, UGI agreed to indemnify and hold Koppers harmless on account of a guaranty agreement entered into by a predecessor of Koppers in 1926, guaranteeing every future holder of the preferred stock of Coke Company the payment of dividends as provided for in their certificates for a period of 25 years from October 1, 1926. It is stated that this indemnification agreement resulted from the acquisition of the controlling interest in Coke Company by UGI from a predecessor of Koppers in 1927.

Coke Company's principal assets consist of 273,911 shares (99.6%) of the capital stock of New Haven and 20,999 shares (14.00%) of common stock of Hartford.

New Haven and Hartford are both incorporated under the laws of the State of Connecticut and are engaged in the business of rendering gas utility service in and around New Haven and Hartford, Connecticut. New Haven has outstanding 275,000 shares of capital stock with an aggregate par value of $6,875,000, or $25 per share. Hartford has outstanding 30,000 shares of 8% Non-Callable Preferred Stock (par value $25) and 150 000 shares of common stock (par value $25), each of which has equal voting rights.

The outstanding securities of New Haven and Hartford are owned as follows:

	New Haven		Hartford			
	Common	Percent	Preferred	Percent	Common	Percent
UGI	350	0.1	----	----	18,565	12.38
Coke Co	273,911	99.6	----	----	20,999	14.00
Public	739	.3	30,000	100	110,436	73.62
Total	275,000	100	30,000	100	150,000	100

Under the provisions of the plan, both Koppers and UGI would be released and discharged of all obligations in respect of the guaranty of dividend payments on the preferred stock of Coke Company in consideration for delivery by UGI to Coke Company of 10,841 shares of common stock of Hartford, 350 shares of the capital stock of New Haven, the payment of cash for liquidating expenses of Coke Company not in excess of $30,000, and the release by UGI of its claim against Coke Company on account of (a) open account indebtedness of $171,173.38 and interest thereon; and (b) the sum of $1,326,484.41 paid out under UGI's indemnification agreement referred to above.

Coke Company is to be dissolved as of July 1, 1947 and in connection therewith will pay and discharge its debts, if any, and will distribute as full payment and satisfaction of all rights and interests of its preferred stockholders against surrender of their certificates 1⅜ shares of the capital stock of New Haven and 1/25 of a share of common stock of Hartford for each share of preferred stock of Coke Company; no distribution of assets is to be made by Coke Company to the holders of its common stock, whose rights are to cease and become void at the effective date of the dissolution of Coke Company.

Each holder of the preferred stock of Coke Company who is entitled to a fractional share either of the capital stock of New Haven or the common stock of Hartford is to receive in lieu thereof nonvoting scrip in bearer form which, when combined in amounts aggregating one or more full shares of the same stock, may be surrendered within three months after the issuance of such scrip in exchange for full shares of the capital stock covered thereby. The scrip will provide that, as soon as practicable after the expiration of the three months' period, any shares covered by the then outstanding scrip are to be sold and the proceeds held for account of the holders of the scrip without interest, the bearer of the scrip to be entitled to no other rights in respect thereof.

The plan further provides that, after July 1, 1947, the outstanding shares of preferred stock of Coke Company shall represent no rights other than the rights of the holders thereof to receive, on surrender thereof, shares of stock of New Haven and Hartford and scrip therefor and any accrued and unpaid dividends on such preferred stock to July 1, 1947. Pending consummation of this plan, dividends received by Coke Company on the stocks of New Haven and Hartford subsequent to July 1, 1947, less deductions for Coke Company's ordinary expenses, including provision for taxes, are to be paid out by Coke Company quarter annually to the holders of record of its preferred stock, such quarterly payments, however, not to exceed 75¢ per share of preferred stock. All other rights of Coke Company's preferred stockholders against or with respect to Coke Company and the guaranty of any dividends on such stock by UGI or Koppers shall cease and become void. The plan further provides for the discretionary appointment by Coke Company of an exchange agent for the purpose of the plan in connection with the distribution of stock of New Haven and Hartford, the issuance of scrip, the distribution of dividends received on shares of New Haven and Hartford, and the distribution of such stock, and other related matters incident to the effectuation of the plan.

Coke Company will pay such fees, expenses and remuneration in connection with the plan and any amendments thereto as the Commission may duly approve.

Consummation of the plan is subject to the following conditions: (a) the Commission shall find the plan and any amendments thereto necessary to effectuate the provisions of section 11 of the act and fair and equitable to the persons affected thereby and enter an order of approval, such order to conform to the pertinent requirements of the Internal Revenue Code, as amended, including Supplement R of Chapter I and section 1808 (f) of Chapter II thereof; (b) the Commission, shall have instituted proceedings in a court of competent jurisdiction, pursuant to section 18 (f) of the act, and such court shall have entered a decree or order to enforce and carry out the terms of the plan and any amendments thereto.

The Commission being required by the provisions of section 11 (e) of the act before approving any plan thereunder to find, after notice and opportunity for hearing, that the plan as submitted or as modified is necessary to effectuate the provisions of subsection (b) of section 11 and is fair and equitable to the persons affected thereby; and it appearing appropriate to the Commission that notice be given and a hearing be held on the plan filed by UGI and Coke Company to afford all interested persons an opportunity to be heard with respect thereto:

It is ordered, That a hearing on said application, pursuant to applicable provisions of the act and the rules and regulations thereunder be held on June 10, 1947, at 10 a. m. e. d. s. t., at the offices of this Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing shall be held. In the event that amendments to the plan are filed during the course of said proceedings, no notice of such amendments will be given unless specifically ordered by the Commission. Any person desiring to receive further notice of the filing of any additional plans or amendments should file an appearance in these proceedings or otherwise specifically request such notice.

It is further ordered, That Richard Townsend, or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Public Utilities Division of the Commission having advised the Commission that it has made a preliminary examination of the application and amended plan and that, upon the basis thereof, the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the plan, as submitted or as hereafter modified, is necessary to effectuate the provisions of section 11 (b) of the act and constitutes an appropriate step toward compliance with the Commission's order of May 7, 1942 issued pursuant to section 11 (b) (1) of the act;

(2) Whether the proposed amended plan, as submitted or as hereafter modified, is fair and equitable to the persons affected thereby, and more particularly, whether the allocation proposed among the preferred stockholders of Coke Company and the treatment accorded the holders of its common stock are fair and equitable;

(3) Whether the terms and conditions with respect to the proposed issuance of scrip and exchange of such scrip are fair and reasonable and in the public interest and interest of investors, and meet the applicable requirements of the act;

(4) Whether the fees, expenses and other remuneration which may be claimed in connection with the amended plan and transactions incident thereto are for necessary services and are reasonable in amount;

(5) Whether the accounting treatment of the proposed transactions is proper and in conformity with sound accounting principles and the Commission's Uniform System of Accounts for public utility holding companies;

(6) Whether the proposed transactions incident to consummation of the plan, and particularly the proposed sales and acquisitions, are consistent with and meet the requirements of the applicable provisions of the act and rules promulgated thereunder;

(7) Whether, and to what extent, the amended plan should be modified, or terms and conditions imposed, to ensure adequate protection of the public interest and interests of investors and consumers and to prevent the circumvention of the provisions of the act and rules and regulations thereunder;

(8) Whether this amended plan, as submitted or as hereafter modified, or a plan proposed by the Commission, or any person having a bona fide interest, in accordance with the provisions of section 11 (d) of the act, should be approved for the purpose of effectuating the order of the Commission of May 7, 1942, and if proposed by the Commission or a person having a bona fide interest, what the terms and provisions of such plan should be.

It is further ordered, That particular attention be directed at said hearing to the foregoing matters and questions.

It is further ordered, That any person desiring to be heard in connection with this proceeding, or proposing to intervene herein, shall file with the Secretary of the Commission on or before June 5, 1947, his request or application therefor as provided by Rule XVII of the rules of practice of the Commission.

It is further ordered, That the Secretary of the Commission shall serve by registered mail a copy of this order on the applicants herein (UGI and Coke Company) New Haven, Hartford and the Public Utilities Commission of the State of Connecticut, and that notice to all other persons shall be given by publication of this notice and order in the FEDERAL REGISTER, and by a general release of the Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is further ordered, That The Connecticut Gas & Coke Securities Company shall give further notice of this hearing to all of its preferred and common stockholders of record by mailing to each of said persons at his last known address a copy of this notice and order for hearing, at least fifteen days prior to the date of said hearing.

By the Commission.

SUPPLEMENTAL ORDER RELEASING JURISDICTION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of May A. D. 1947.

The Commission on November 29, 1945, having adopted findings and opinion and having issued an order in the above captioned matter, which is concerned primarily with the issuance and sale privately to various banks by American Water Works and Electric Company, Incorporated ("American"), a registered holding company, of short term notes and the application of the proceeds derived therefrom to the discharge of previously outstanding debt obligations of American; said order, among other things, having provided "... that jurisdiction be and it is hereby reserved with respect to American's request herein regarding the proposed allocation of tax reductions to result from the redemption of its outstanding debenture bonds"; American having on May 15, 1947 filed an amendment to its application-declaration in this matter wherein the provisions proposing a special allocation of tax reductions is eliminated;

It is ordered, That jurisdiction heretofore reserved in this matter be and the same hereby is released.

By the Commission.

AMERICAN POWER & LIGHT CO. and TEXAS PUBLIC UTILITIES CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of May A. D. 1947.

Notice is hereby given that a joint declaration and amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and American's non-utility subsidiary, Texas Public Utilities Corporation ("Texas"). Declarants designate sections 12 (b) and 12 (f) of the act and Rules U-44 and U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than May 29, 1947 at 11:30 a. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint declaration, as amended, which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after May 29, 1947 at 11:30 a. m., e. d. s. t., said joint declaration, as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said joint declaration, as amended, which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Texas is a corporation organized under the laws of the State of Texas and owns and operates certain ice and cold storage facilities in that State. All of its issued and outstanding securities, consisting of 10,000 shares of common stock without par value and a past-due 7% income note in the principal amount of $2,200,000, are owned by American. American states that it has invited bids from a limited number of prospective purchasers for the securities of Texas and accepted the highest of six bids submitted, namely, that of a group consisting of 20 residents of Texas ("Thompson Group"), none of whom is affiliated or associated with declarants. American has entered into an agreement with the Thompson Group whereby American will sell and the Thompson Group will purchase the securities of Texas for a cash consideration of $711,000 plus $118.50 for each day elapsed from March 31, 1947 to the closing date. Prior to consummation of the proposed transactions, Texas will pay to American its accumulated cash amounting to $160,556.13.

American has further entered into an agreement with Texas under which Texas agrees to assign to American its claims against Electric Bond and Share Company and the latter's present or former subsidiary service companies and American agrees to reimburse Texas out of any proceeds from such claims for all amounts subsequently paid by Texas as State or Federal income or excess profits taxes on account of the proceeds of such claims and all expenses incurred by

Texas in connection with the claims so assigned. American further agrees to indemnify Texas against liability for Federal income or excess profits taxes in excess of the amounts shown therefor on the books of Texas for the years ended December 31, 1942 to 1946, inclusive, and that portion of 1947 ended the last day of the month preceding the sale of the securities. It is further agreed that American may include Texas in a consolidated income tax return up to the date last above mentioned.

It is stated that no commission was paid or is to be paid in connection with the sale of the securities.

American requests that the order permitting the declaration herein to become effective recite that the proposed sale of the securities of Texas is necessary or appropriate to the integration or simplification of the holding company system of which American is a member and necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935, all in accordance with the meaning and requirements of the Internal Revenue Code, as amended, including section 1808 (f) and Supplement R thereof.

The joint declaration states that it is desired to consummate this transaction before the end of May, 1947 and requests that the Commission's order permitting the declaration to become effective be issued as soon as may be practicable and become effective forthwith.

By the Commission.

SOUTH CAROLINA POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of May 1947.

South Carolina Power Company ("South Carolina"), a public utility subsidiary of The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, having filed an application pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 and Rule U-50 promulgated thereunder regarding the sale by it to the public at competitive bidding of 200,000 shares of its common stock, at a price of not less than $12 per share, and $4,000,000 principal amount of its First and Refunding Mortgage Bonds due 1977; and

This Commission, by order entered herein under date of May 9, 1947, having granted said application, as amended, subject however, to the condition, among others, that the sale should not be consummated until the results of competitive bidding have been made a matter of record in this proceeding and a further order entered by this Commission in the light of the record so completed, jurisdiction being reserved for this purpose; and

By order dated May 15, 1947, the Commission having granted an application-declaration filed jointly by Commonwealth and by South Carolina proposing that Commonwealth would enter into a contract to purchase said 200,000 shares of said South Carolina common stock for $12 per share, provided that a bid of $12 per share or more should not be received; and

South Carolina having filed a further amendment to its application in which it is stated that in accordance with the permission granted by the said order of the Commission dated May 9, 1947, South Carolina has offered its First and Refunding Mortgage Bonds and its common stock for sale pursuant to the competitive bidding requirements of Rule U-50; and

The amendment further stating that no bids were received for the stock and that Commonwealth has entered into a contract to purchase said common stock at $12 per share; and

The amendment further stating that South Carolina has received the following bids with respect to the bonds:

	Price to company	Coupon rate	Cost to company
	Percent	*Percent*	*Percent*
The First Boston Corp.[1]	102.19	3	2.8503
W. C. Langley & Co.[1]	102.069	3	2.8563
Halsey, Stuart & Co., Inc.[1]	102.019	3	2.8988
Harriman, Ripley & Co., Inc.	101.12	3	2.9435
Blyth & Co., Inc.	100.28	3	2.9858

[1] Bidding group headed by.

The amendment further stating that South Carolina has accepted the bid of The First Boston Corporation as set out above, and that said First and Refunding Mortgage Bonds of South Carolina will be offered for sale to the public at a price of 103% of the principal amount thereof, resulting in an underwriter's spread of .81%; and

Revised estimates of fees and expenses totaling $58,766 having been filed, including $12,000 legal fees for Winthrop, Stimson, Putnam & Roberts, counsel to South Carolina, and $7,500 legal fees of Reid & Priest, counsel to the prospective bidders, of which $4;500 is for services in relation to the bonds and $3,000 for services in relation to the common stock; and

South Carolina having agreed to pay the legal fees of counsel for the prospective bidders in the amount of $3,000 for services with regard to its common stock, as to which no bid was received; and

The Commission having been furnished with information with respect to the fees of the aforenamed counsel; and

The Commission having examined said amendment and having considered the record herein and finding no basis for imposing terms and conditions with respect to such matters:

It is ordered, That the jurisdiction heretofore reserved with respect to the results of competitive bidding for the First and Refunding Mortgage Bonds and the common stock and with respect to the fees and expenses of counsel be, and the same hereby are, released, and that the aforesaid application, as amended, be, and hereby is, granted, subject, however, to the terms and conditions prescribed in Rule U-24 and to the other conditions set forth in our order dated May 9, 1947.

By the Commission.

LONG ISLAND LIGHTING CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of May 1947.

Long Island Lighting Company ("Long Island"), a registered holding company, having filed a declaration, as amended, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following transaction:

Long Island proposes to issue and sell for cash at principal amount to four commercial banks an aggregate of $5,000,000 principal amount of eleven month notes which will bear interest at the rate of 1¾% per annum. The net cash proceeds of the sale of the notes are to be used for construction requirements of the company and to repay such other notes as may be outstanding on the fifth day after the date of the Commission order.

Such declaration, as amended, having been duly filed, and notices of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary with respect to the declaration, as amended, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, and deeming it appropriate to grant a request of declarant that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that the declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

NASSAU & SUFFOLK LIGHTING CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 20th day of May 1947.

Nassau & Suffolk Lighting Company ("Nassau & Suffolk"), an indirect subsidiary of Long Island Lighting Company, a registered holding company, having filed a declaration, as amended, pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("act") with respect to the following transaction:

Declarant proposes to issue and sell for cash at principal amount to two commercial banks an aggregate of $500,000 principal amount of eleven month notes which will bear interest at the rate of 2% per annum. The net cash proceeds of the sale of the notes are to be used for construction requirements of the declarant and to repay such other notes as may be outstanding on the fifth day after the date of the Commission order.

Such declaration, as amended, having been duly filed, and notices of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration, as amended, within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that no adverse findings are necessary with respect to the declaration, as amended, and deeming it appropriate in the public interest and in the interest of investors and consumers that said declaration, as amended, be permitted to become effective, and deeming it appropriate to grant a request of declarant that the order become effective at the earliest date possible:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, and subject to the terms and conditions prescribed in Rule U-24, that the declaration, as amended, be, and the same hereby is, permitted to become effective forthwith.

NEW ENGLAND POWER ASSN.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 21st day of May A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by New England Power Association, a registered holding company. Declarant designates section 12 (b) of the act and Rule U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 9, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, 3, Pennsylvania. At any time after June 9, 1947, said declaration, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said declaration which is on file in the offices of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

New England Power Association proposes to guarantee performance of a lease to be entered into between Dartmouth Corporation, a nonaffiliated company, and New England Power Service Company, a wholly-owned subsidiary of declarant, of certain premises located at 441 Stuart Street, Boston, Massachusetts, which declarant now occupies. The proposed new lease is for a term of 15 years commencing July 1, 1947, with an option to renew for a further period of 5 years or 10 years, as New England Power Service Company elects by July 1, 1961 with the assent of New England Power Association. The stipulated rental for the initial 15 year term is to be $207,000 annually and thereafter $207,000 plus any amount by which the then fair yearly rental value of the space, as determined by appraisers, exceeds such yearly rental during the initial term.

It is requested that the Commission's order granting the declaration herein become effective forthwith.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP. AND UNITED FUEL GAS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of May 1947.

Notice is hereby given that a joint application-declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its subsidiary United Fuel Gas Company ("United Fuel"). Applicants-declarants have designated sections 6, 7, 9, 10 and 12 of the act and Rules U-42, U-44, and U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 4, 1947, at 5:30 p. m., e. d. s. t. request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 4, 1947, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

(a) United Fuel will issue and sell to Columbia $22,500,000 principal amount of 3¼% Installment Promissory Notes.

(b) Columbia will make a capital contribution of $1,525,0000 to United Fuel. Such contribution will be credited by United Fuel to Capital Surplus.

(c) From the proceeds of the sale 3¼% notes and the capital contribution, United Fuel will retire its $21,825,000 principal amount of 6% demand notes and will repay its $2,200,000 of 6% demand loans all of which are held by Columbia.

(d) United Fuel will issue and sell to Columbia an additional $6,400,000 principal amount of 3¼% notes, the proceeds of which will be used by United Fuel for the purpose of financing its 1947 construction program estimated in the amount of $9,974,000.

The notes to be issued by United Fuel to Columbia are to be unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual installments on August 15 of each of the years 1950 to 1974, inclusive. Interest on the unpaid principal thereof is to be payable semi-annually on February 15 and August 15. The $6,400,000 principal amount of notes to be issued by United Fuel for construction purposes are to be issued at such time and in such amounts as funds are required in connection therewith but none of such notes will be issued and sold subsequent to December 31, 1947.

Applicants-declarants state that the Public Service Commission of West Virginia has assumed jurisdiction over the proposed transactions and that the order of approval of such Commission will be supplied by amendment.

Applicants-declarants have requested that the order of the Commission granting and permitting the application-declaration to become effective with respect to transactions (a), (b) and (c) above conform to the provisions of sections 371, 373 and 1808 (f) of the Internal Revenue Code and contain the terms and recitals provided for in said sections.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP. AND ATLANTIC SEABOARD CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of May 1947.

Notice is hereby given that a joint declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly-owned subsidiary, Atlantic Seaboard Corporation ("Seaboard"), also a registered holding company. Declarants have designated section 12 of the act and Rule U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 4, 1947, at 5:30 p. m., e. d. s. t. request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 4, 1947, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Columbia proposes to make a capital contribution of $1,935,000 to Seaboard, which, in turn, proposes to make a capital contribution of $150,000 to Amere Gas Utilities Company ("Amere"), $75,000 to Virginia Gas Distribution Corporation ("Distribution") and $560,000 to Virginia Gas Transmission Corporation ("Transmission"), said companies being wholly owned subsidiaries of Seaboard. The remaining cash, amounting to $750,000 will be used by Seaboard for the purpose of financing its 1947 construction program. The cash to be contributed by Seaboard to its three subsidiaries will be used by them to finance their construction programs. Columbia proposes to add the amount of its contribution to the book value of its investment in the common stock of Seaboard, and Seaboard proposes to increase its investments in the common stocks of its three subsidiaries in like manner. Both Seaboard and its three subsidiaries will credit the capital contributions to "paid-in capital surplus."

Declarants state that the financing of Distribution's and Transmission's cash requirements by means of a cash contribution is subject to the jurisdiction of the State Corporation Commission of Virginia and the order of approval of such commission shall be supplied by amendment.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP. and CENTRAL KENTUCKY NATURAL GAS CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 21st day of May 1947.

Notice is hereby given that a joint application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its subsidiary, Central Kentucky Natural Gas Company ("Central Kentucky"). Applicants have designated sections 6, 9, and 10 of the act as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 4, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 4, 1947, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Central Kentucky proposes to issue and sell to Columbia $2,300,000 principal amount of 3¼% Installment Promissory Notes, such notes to be unsecured and non-negotiable. The principal amounts thereof are to be payable in equal annual installments on August 15 of each of the years 1950 to 1974, inclusive; interest upon the unpaid principal amount thereof is to be payable semi-annually on February 15 and August 15. The proceeds of such sale are to be used by Central Kentucky to finance its 1947 construction program, which, it is estimated, will involve expenditures of approximately $2,583,000. The notes are to be issued by Central Kentucky at such time and in such amounts as funds are required in connection with the construction program, but none of such notes will be issued and sold subsequent to December 31, 1947. It is stated that no state commission or other Federal commission has jurisdiction over the issuance and sale by Central Kentucky of such notes.

AMERICAN WATER WORKS AND ELECTRIC CO., INC.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of May A. D. 1947.

Notice is hereby given that a declaration has been filed with this Commission pursuant to section 12 of the Public Utility Holding Company Act of 1935 and Rule U-45 promulgated thereunder by American Water Works and Electric Company, Incorporated, ("American"), a registered holding company.

Notice is further given that any interested person may not later than June 12, 1947 at 5:30 p. m., e. d. t., request the Commission in writing that a hearing be held on such matter stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th & Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 12, 1947 said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

American proposes to make a capital contribution of $125,000 in cash to its subsidiary, Joplin Water Works Company ("Joplin"). American owns all of the issued and outstanding common stock of Joplin, consisting of 10 000 shares, no par value. The proposed capital contribution is to be added by American to its investment in the common stock of Joplin and is to be credited by Joplin to its capital surplus.

Joplin is to use this cash, together with other funds, to carry out a proposed construction program "* * * designed to meet adequately the demand for water service in its territory." It is estimated that the total cost of such construction program during the year 1947 is to be $245,000. It is represented that no expenses are to be incurred in connection with the proposed transaction.

The filing requests that the Commission's order permitting the declaration to become effective be issued as promptly as possible and become effective on the date of issuance.

1. That Ida Strafer, Wilhelm Foellner, Meta Muller, Anna Geyer and Bertha Nickel, whose last known address is Germany, are residents of Germany and nationals of a designated enemy country (Germany);

2. That all right, title, interest and claim of any kind or character whatsoever of the persons named in subparagraph 1 hereof in and to the estate of Friedrich Foellner, deceased, is property payable or deliverable to, or claimed by, the aforesaid nationals of a designated enemy country (Germany);

3. That such property is in the process of administration by Otto Cooper, as Executor, acting under the judicial supervision of the Hudson County Orphans' Court, Hudson County Courthouse, Jersey City, New Jersey;

and it is hereby determined:

4. That to the extent that the persons named in subparagraph 1 hereof are not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on May 19, 1947.

For the Attorney General.

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

LIST OF POSITIONS EXCEPTED

The Commission has considered the request of the Secretary of War and has determined that the positions of Civilian Directors of Studies employed for not to exceed six months in any twelve-month period for service at The National War College, Washington, D. C., should be excepted from the competitive service and appointments thereto made in the same manner as appointments are made to positions under Schedule A. These positions are, therefore, added to the list of positions excepted from the competitive service, effective upon publication in the FEDERAL REGISTER.

§ 6.4 *Lists of positions excepted from the competitive service*—(a) *Schedule A.* • • •

(4) *War Department.* • • •

(xv) Civilian Directors of Studies employed for not to exceed six months in any twelve-month period for service at The National War College, Washington, D. C.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 208—MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM

SALES OF MORTGAGES BY STATE MEMBER BANKS

The following interpretation under this part relating to membership of State banking institutions in the Federal Reserve System was issued by the Board of Governors of the Federal Reserve System on May 13, 1947.

§ 208.101 *Sales of mortgages by State member banks.* The Board of Governors has given consideration to an inquiry with regard to the applicability of standard condition of membership numbered 3, (§ 208.6 (a) (3)) or a similar condition of membership, to the activity of State member banks in selling to other banks in some volume, without recourse, real estate mortgages which they will continue to service for a consideration.

It is noted that the member banks are selling such mortgages at no premium, that each bank has now invested the aggregate amount in real estate mortgages it is permitted to invest under the

limitations imposed by State law and that an active demand for such loans continues in the community served by each. However, these considerations do not appear to have a direct bearing upon the applicability of the condition of membership.

Standard condition of membership numbered 3 reads as follows:

3. Such bank shall not engage as a business in issuing or selling either directly or indirectly (through affiliated corporations or otherwise) notes, bonds, mortgages, certificates, or other evidences of indebtedness representing real estate loans or participations therein, either with or without a guarantee, indorsement, or other obligation of such bank or an affiliated corporation.

A condition of membership having substantially the same effect as the present standard condition numbered 3 has been prescribed for all State banks applying for membership since March 1933. One of the practices that proved most harmful to a number of banks in some sections had been that of selling real estate mortgages or participations therein to the general public with a guarantee expressed or implied, or in circumstances causing the purchasers to assume that such mortgages would be repurchased upon request. Often such obligations were sold without an expressed guarantee or even with the provision that they were sold without recourse but the issuing or selling bank had freely repurchased them upon demand over so long a time that the holders had been led to believe that they were, in fact, obligations of the bank payable on demand. In prescribing the condition of membership, the Board had in mind particularly sales of mortgages to the general public who were not in a position to evaluate real estate loans and might consider the bank at least morally obligated to make good any loss sustained.

It is to be assumed that a bank or other financial institution, such as an insurance company, purchasing real estate loans from a bank, without recourse, is qualified to appraise such loans and would have no reason to feel that the selling bank acts as guarantor of the soundness of the investment. Therefore, the Board of Governors will not consider the sale of real estate mortgages by a State member bank to other banks or financial institutions, such as insurance companies, without recourse, as coming within the purview of standard condition of membership numbered 3, or a similar condition of membership.

While the purpose and effect of the foregoing is to remove from the scope of the condition of membership transactions of the kind set forth, it should be noted that any abuses or unsafe or unsound practices arising in such activity remain subject to supervisory criticism and correction.

S. R. CARPENTER,
Secretary.

PART 222—CONSUMER CREDIT

AUTOMOBILE APPRAISAL GUIDES

The following interpretation under this part relating to Consumer Credit was issued by the Board of Governors of the Federal Reserve System on April 25, 1947:

§ 222.113 *Automobile appraisal guides.* The Board has been asked whether the provisions of § 222.9 (d), which require reference to an automobile appraisal guide in determining the minimum down payment to be obtained on used automobiles, are applicable to credits extended for used 1947 model automobiles. The question arises because a number of the designated appraisal guides are not at present publishing retail values for such models.

The Board has ruled that no such reference need be made until all designated appraisal guides publish retail values for used 1947 automobiles. When such publication occurs, notice will be given in all appraisal guides. This means that the maximum amount of credit which can be extended for used 1947 automobiles at present is two-thirds of the cash price. The rule is the same as that applicable to 1936 and older models for which retail values are published in some of the guides but not in others. In the case of the 1937 to 1946 model automobiles, the maximum amount of credit is two-thirds of the cash price or the appraisal guide value, whichever is lower.

(Sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179; secs. 301 and 302, 55 Stat. 839, 840; 12 U. S. C. and Sup. 95 (a), 50 U. S. C. App. 616, 617; E. O. 8843, Aug. 9, 1941, 3 CFR Cum. Supp.)

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[File No. 21-402]

PART 171—TRADE PRACTICE RULES FOR THE HOUSEHOLD FABRIC DYE INDUSTRY

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 22d day of May 1947.

Due proceedings having been held under the Trade Practice Conference procedure, in pursuance of the act of Congress approved September 26, 1914, as amended (Federal Trade Commission Act), and other provisions of law administered by the Commission;

It is now ordered, That the Trade Practice Rules as hereinafter set forth, which have been approved by the Commission in this proceeding, be promulgated as of May 29, 1947.

Statement by the Commission. Trade practice rules for the Household Fabric Dye Industry are approved and promulgated by the Federal Trade Commission as hereinafter set forth.

The Industry and its products. The industry to which the rules relate is composed of the persons, firms, and corporations engaged in the business of placing on the market household fabric dyes, tints, and color remover. The dyes and tints are those which are blended, prepared, and packaged for use in the home in dyeing, redyeing, coloring, tinting, or retinting fabrics and textile materials used in wearing apparel, home furnishings or home decorations. The color remover products of the industry are marketed for use in the home to remove stains from fabrics and to remove color and stains from fabric material preparatory to redyeing or retinting such material.

Proceedings. Proceedings for establishment of rules for the industry were instituted by the Commission after a general investigation of the practices prevalent in the industry. Thereafter a trade practice conference of the entire industry was held in Washington, D. C., at which suggestions by members of the industry and proposals for rules in respect of the matter were considered and discussed. Following such conference, a consolidated and revised draft of proposed rules under discussion was prepared and made available to all members of the industry and all interested or affected parties and public notice was issued under which all persons concerned were afforded opportunity to study the proposed rules and to submit for consideration of the Commission their views, suggestions, or objections in the premises and to be heard at a time and place of hearing designated in such notice. Accordingly, public hearings were held in Washington, D. C., on February 13, 20, and 27, 1947.

All matters presented at such hearings or received in the proceedings were fully considered. The Commission thereupon approved the rules in the form hereinafter set forth and directed their promulgation.

Objectives of the rules and utilization of cooperative action therein. The rules are designed to foster and promote the maintenance of fair competitive conditions in the industry, to aid in maintaining high standards of ethical business conduct throughout the industry, and to protect purchasers, prospective purchasers, and the public. The unfair practices specified in the rules are considered to be unfair methods of competition, unfair or deceptive acts or practices, or other illegal practices of the type prohibited in respect of interstate commerce under laws administered by the Federal Trade Commission. The provisions of the rules are to be construed in the direction of preventing such practices in harmony with the requirements of law and the public interest.

To the end of maintaining such objectives and purposes, proper cooperative effort may be utilized in applying the rules toward effecting voluntary compliance equitably promptly, and economically throughout the industry in order that the necessity of having to resort to adversary proceedings in individual cases may be minimized.

In furtherance of such cooperative effort and for the purpose of voluntary adjustment and compliance, members of the industry are invited to consult freely with the Commission from time to time relative to matters respecting the operation of the rules in their businesses, and with the view of affording the fullest measure of benefits in preventing the growth or inception of conditions or practices which would be in conflict with the rules and the applicable provisions of law.

In the event any unfair trade practice is not promptly and effectively prevented through such voluntary action and cooperative effort, or where otherwise deemed necessary, appropriate mandatory proceedings in the public interest will be employed by the Commission in accordance with the requirements of law to prevent the use in commerce of the unlawful and unfair practices specified.

Amendments. Proceedings to amend the rules may be authorized in accordance with the Commission's trade practice conference procedure when necessary to deal with new conditions which may arise from time to time in the industry, or when otherwise deemed warranted or required.

Effective date of rules. Members of the industry are afforded opportunity to confer with the Director of Trade Practice Conferences and determine, subject to the Commission's approval, upon such reasonable period of time for making, promptly and diligently, whatever changes or adjustments in their advertising, labeling, and selling programs may be necessary under these rules. Subject thereto, the rules as set forth below become operative thirty (30) days from date of promulgation.

Being directed to the maintenance of fair competititon, the rules do not permit of any agreement, understanding, combination, conspiracy, or concert of action between two or more members of the industry or with one or more other persons to unlawfully fix, maintain, or enhance prices, suppress competition, or restrain trade.

AUTHORITY: §§ 171.0 to 171.15, inclusive, issued under 38 Stat. 717, as amended; 15 U. S. C. 41, et seq.

§ 171.0 *Definitions.* As used in this part, the following terms shall have the respective definitions set forth below:

(a) *Industry product.* Shall mean any dye, tint, or color remover marketed for use in the home in connection with fabrics.

(b) *Fabric.* Shall mean any material (including yarn) which is spun, woven, knitted, or felted from natural and/or man-made textile fibers or filaments, which material is commercially produced and used in garments, household furnishings or decorations in the home.

(c) *Dye.* Shall mean a preparation marketed by industry members for home use in restoring color or imparting a new or different color to fabrics by dyeing or tinting them.

(d) *Color remover.* Shall mean a preparation marketed by industry members for home use in removing color and/or removing stains from fabrics preparatory to re-dyeing or re-tinting them, or for home use in removing stains from white fabrics.

§ 171.1 *Misuse of the terms "all fabric", "all purpose" and similar representations, as applied to industry dyes or tints*—(a) *"All fabric"; unqualified use.* It is an unfair trade practice to use the term "all fabric", or representations of similar import, as descriptive of a dye or tint which, applied as directed, will not dye or tint to the specified or represented color or shade, or to a close simulation thereof, all types and kinds of fabrics commercially produced and used in garments, household furnishings or home decorations; subject, however, to the following:

(1) *"All fabric"; qualified use.* When the product, applied as directed, will effectively dye or tint to the specified or represented color or shade, or to a close simulation thereof, all types and kinds of fabrics commercially produced and in use in garments, household furnishings or home decorations, with the exception of certain fabrics which are commercially produced and in such use in minor proportion, nothing in this section shall be construed as prohibiting the use as descriptive of such dye or tint of the term "all fabric", provided it is accompanied with a statement and qualification in close conjunction which nondeceptively discloses such fabric limitation or exceptions, as for example:

All Fabric
Except Fiber Glass
or

All fabric dye for wool, cotton, linen, rayon, nylon, and silk. Not recommended for use on any other fibers or fabrics than those named.

(2) *Disclosure as to necessity for removal of color.* If to produce any specified or represented color or shade, or close simulation thereof, it is necessary that the fabric to be dyed or tinted be, or be reduced to, white or nearly white, or be of a certain color, nothing in this section shall be construed as prohibiting use of the term "all fabric" by reason of such fact, provided disclosure thereof is made reasonably sufficient to inform the buying public and avoid misunderstanding and deception of purchasers, either by statement on the consumer package, in color cards and instructions, or otherwise.

(b) *"All purpose".* All the foregoing provisions with respect to the term "all fabric" shall also be applicable with like force and effect to the term "all purpose", and representations of similar import, as applied to any dye or tint of this industry: *Provided, however,* That in connection with the use of the term "All Purpose" it shall also be clearly and conspicuously stated that the product is a dye or tint for fabric. It is an unfair trade practice to use the term "all purpose", or representations of similar import, contrary to any of the requirements of this section as herein specified. [Rule 1]

§ 171.2 *Misrepresentations as to coverage of dyes or tints.* It is an unfair trade practice for any member of the industry to give a false or misleading statement or approximation of the size of article or quantity of fabric which the dye or tint in the respective packages offered for sale by such member will satisfactorily color to the respective shades or colors designated: *Provided, however,* That reasonable approximations, truthfully and nondeceptively stated may be given.

NOTE: As to misrepresentation regarding coverage or efficacy of color remover, see § 171.5 (Rule 5).

[Rule 2]

§ 171.3 *Misrepresentations as to colors or shades obtainable.* It is an unfair trade practice to use any form of representation respecting color or shade which directly or by implication is false, misleading, or deceptive. Pursuant to this section:

(a) It is an unfair trade practice, in selling or promoting the sale of packages of dye or tint, to use color cards or color illustrations of any kind in relation to such packages when the respective colors and shades shown by such color cards or illustrations do not accurately represent or closely simulate the colors and shades which the contents of the respective packages produce when applied as directed.

(b) If to obtain any specified or represented color or shade, or close simulation thereof, it is necessary that the fabric to be dyed or tinted be, or be reduced to, white or nearly white, or be of a certain color, this fact is to be truthfully and nondeceptively disclosed in a man-

ner reasonably sufficient to inform the buying public and avoid misunderstanding or deception of purchasers of the product. [Rule 3]

§ 171.4 *Use of the words "fast", "fadeless", "fade-proof", "unfadable", "sunfast", "wash-fast", and representations of similar import.* (a) In respect of any dye or tint, or the color or shade to be produced thereby, it is an unfair trade practice:

(1) To describe such as being "fast", "fadeless", "fade-proof", "unfadable", or by representation of similar import, unless the color and shade produced by such dye or tint, applied as directed, will not show any substantial change, fading, or deterioration of color throughout the useful life of the dyed or tinted article under ordinary conditions of use or

(2) To describe such as being "washfast", "sunfast", or by representations of similar import, unless the color and shade produced by such dye or tint, applied as directed, will show no substantial change, fading, or deterioration of color throughout the useful life of the dyed or tinted article from such washing or exposure to sunlight, respectively, as such article is likely to be subjected to during its useful life.

(b) It is an unfair trade practice to use any other false, misleading, or deceptive representations respecting the fastness or durability of the color or shade produced or to be produced by any dye or tint.

(c) Nothing in this section shall be construed as prohibiting use of the word "fast" as part of the description of the durability of the color or shade produced or to be produced by any dye or tint when used in a representation which clearly, truthfully, and nondeceptively sets forth the measurable minimum degree of fastness or durability of the dye or shade to the respective color-destroying contingencies, factors, or agencies which the fabrics, or products made therefrom, may be or are likely to be subjected, as for example:

Fast to 30 hours exposure to sunlight; or
Fast to perspiration; or
Fast to hand-washing in lukewarm water.

[Rule 4]

§ 171.5 *Deception respecting efficacy of color removers.* It is an unfair trade practice to misrepresent, directly or indirectly, the effectiveness of a color remover, either as to the types or quantity of dyestuffs it will remove or the kinds, types, or quantity of fabric upon which it is effective. Under this section no representation shall be made that a color remover will remove all color or stain from a fabric, or will make a fabric white, or will restore a fabric to its original color, unless such representation be unequivocally true and nondeceptive. [Rule 5]

§ 171.6 *Disclosure of sponsor and other information.* (a) In the interest of avoiding irresponsible and anonymous products, the outside of the packages in which the industry's products are sold to the consuming public should bear the name and location of the place of business of the manufacturer or producer, or of the person or concern placing the product on the market.

(b) Directions for use of industry products should be placed on the outside of the package in which the product is sold or a clear statement placed on the outside of the package that directions for use are contained inside. In the event any special equipment not ordinarily found in the home is required for satisfactory application, such fact should be stated on the outside of the package.

(c) The practice of omitting from the outside of the package the information specified in paragraphs (a) and (b) of this section, with the capacity and tendency or effect of thereby misleading or deceiving the public, is an unfair trade practice. [Rule 6]

§ 171.7 *Guarantees, warranties, etc.* (a) It is unfair trade practice to use any guarantee respecting an industry product, or advertisement or representation in relation thereto, which is false, misleading, or deceptive because it does not make reasonable disclosure of the conditions or limitations of the guarantee or which is false, misleading, or deceptive for any other reason.

(b) Without in any way limiting the foregoing provisions of this section, guarantees of the following type or character shall not be used:

(1) Guarantees containing statements, promises, or assertions which have the capacity or tendency to mislead or deceive any purchaser in any material respect as to the utility or efficacy of the industry product.

(2) Guarantees which are so used or which are of such form, text, or character as to import, imply, or represent that the guarantee is broader or will afford more protection to purchasers or users than is in fact true.

(3) Guarantees in which any condition, qualification, or contingency applied in practice by the guarantor is deceptively concealed and is not fully and nondeceptively stated therein or is stated in such manner or form as to be deceptively minimized, obscured, or concealed in whole or in part.

(4) Guarantees which are stated, phrased, or set forth in such manner that although the words used are literally and technically true, the whole is misleading in that purchasers or users are not made sufficiently aware of certain contingencies or conditions which are applicable to such guarantees and which materially lessen the value thereof as a guarantee to purchasers or users.

(5) Guarantees which purportedly extend for such indefinite or unlimited period of time or for such long period of years as to have the capacity and tendency or effect of thereby misleading or deceiving purchasers or users into the belief that the product has or is definitely known to have a greater degree of serviceability, utility, or efficacy in actual use than is in fact true.

(6) Guarantees issued, or directly or indirectly caused to be used, in respect of an industry product, when or under which the guarantor fails or refuses to observe scrupulously his obligations thereunder or fails or refuses to make good on claims coming reasonably within the terms of the guarantee.

(7) Guarantees which in themselves, or in the manner of their use, are otherwise false, misleading, or deceptive in any material respect.

(c) This section shall be applicable not only to guarantees, but also to warranties, purported warranties and guarantees, and to any promise or representation in the nature of or purporting to be a guarantee or warranty. [Rule 7]

§ 171.8 *Confusion as to "tint" and "dye".* It appears that through the years during which the public has been supplied with home dyes and tints by this industry there has grown up a substantial understanding on the part of consumers that in the main "tinting" requires a dye bath of lesser temperature than does "dyeing;" that, therefore, a tint is in general regarded as easier to apply than a dye and less likely to be injurious to fabrics which may be adversely affected by high temperatures. In view of this situation, it is important that members of the industry safeguard their advertising, labeling, and selling practices against the possibility of misleading or deceiving the public through representations that any of their products is as easy to apply and as harmless to all fabrics as a tint where such is not the fact, or by other use of the words "tint" and "dye" in such manner as to be confusing or misleading to the public. It is an unfair trade practice to mislead or deceive the public in any such respect.

Likewise, it appears to be the consensus of opinion that "dyeing" may be expected to achieve, in most cases, a substantially greater degree of durability of color than "tinting." It is an unfair trade practice to represent that "tinting" achieves durability of color equivalent to the durability of color achieved by "dyeing" except in those cases in which such representation is unequivocally true. [Rule 8]

§ 171.9 *Other forms of deception.* It is an unfair trade practice to offer for sale, sell, or distribute any industry product, or to promote the sale or use thereof, by any method or under any circumstance or condition which has the capacity and tendency to mislead or deceive purchasers, prospective purchasers, or the public, in any material respect, whether concerning the utility or efficacy of the product, its newness or exclusive character, or the results to be achieved by its use, the quantity to be used, the grade, composition, ingredients, ease or method of application, safety, origin, sources of manufacture of the product, or concerning any other matter. [Rule 9]

§ 171.10 *Improper use of demonstrators and payment of spiffs, push money, etc.* (a) It is unfair trade practice for any member of the industry to furnish demonstrators, or pay, reimburse, or allow in whole or in part the compensation of demonstrators, or to pay or grant "push money," "spiffs," or any other bonus, gratuity, payment, or allowance to any dealer or distributor or to any clerk, salesperson, or employee of a dealer or distributor, with the purpose or effect of inducing, encouraging, or causing such customer-dealer, or his clerk, salesperson, or employee, to give preferential sales effort to such member's products over competing industry products or to discourage the purchase of a competitor's products by the public:

(1) Where the capacity and tendency or effect of such practices is to cause the public when making purchases of industry products to be misled or deceived into the erroneous belief that said demonstrators, dealers, or salespersons are free from such special interest or influence or are not so subsidized, paid, or employed by such industry member; [1]

(2) Where the effect of any such practice is to hamper and unduly restrict the legitimate, free, and full use and enjoyment of such trade outlets for the distribution of competing industry products; or

(3) Where the purpose or effect of any such practice is to substantially lessen competition or unreasonably restrain trade or tend to create a monopoly in the marketing of industry products; or

(4) Where the effect of such practices is to bring about, or to serve as a means of bringing about, a discrimination in price, service, facilities, or other practice contrary to the provision of the Robinson-Patman Act.

(b) Nothing in this section shall be construed as prohibiting the furnishing of actual demonstrators, namely, persons who are skilled in the demonstration of, and in educating the public in respect to, the application and use of the product and who actually perform such demonstrations, when such demonstrators are furnished and employed in such manner and under such conditions as not to involve any of the inhibited tendencies, results, or effects specified in paragraph (a), (1), (2), (3), and (4) of this section. [Rule 10]

§ 171.11 *Exclusive or pre-emptive deals to eliminate or suppress competition.* Wherever the effect may be to substantially lessen competition, or tend to create a monopoly, it is an unfair trade practice for any member of the industry to purchase or otherwise acquire, in whole or in part, from a distributor or dealer the stock of competing products of any competitor of such industry member, to make loans to a distributor or dealer, to guarantee a distributor or dealer increased profits as compared with profits previously obtained in the handling of competitive industry products, or to furnish or promise to furnish to a distributor or dealer anything of value, when such acts or practices are done:

(a) Upon any express or implied condition, agreement, or understanding, that the distributor or dealer will discontinue handling competitive industry products and will handle such member's industry products exclusively; or

(b) As an inducement to the distributor or dealer to discontinue handling competitive industry products; or

(c) As an inducement to the distributor or dealer to eliminate or reduce the display space accorded to, or derogate the display of, competing industry products and to grant a greater amount of display space, or accord a more favorable display, to such industry member's products. [Rule 11]

§ 171.12 *Advertising or promotional allowances.* (a) It is an unfair trade practice for any member of the industry to pay or contract for the payment of advertising or promotional allowances or any other thing of value to or for the benefit of any of his customers as a compensation or in consideration for certain services or facilities, unless such payment or consideration is available on proportionally equal terms to all his other customers competing in the distribution of his products or commodities.

(1) Said certain services or facilities referred to in the foregoing paragraph of this section are such as are furnished by or through the customer in connection with the processing, handling, sale, or offering for sale of any product or commodity manufactured, sold, or offered for sale by such industry member in the course of his commerce.[2] [Rule 12]

§ 171.13 *Other discriminations contrary to law.* In the course of marketing industry products in commerce,[2] it is an unfair trade practice to discriminate in price directly or by means of discriminatory discounts, rebates, refunds, or other means; to pay or receive certain brokerage or commissions; or to furnish services or facilities on terms not accorded to all customers on proportionally equal terms; if and when such respective practices are pursued under the circumstances and conditions bringing the practices within the inhibitions of the Robinson-Patman Act as amended. (49 Stat. 1526–1528; 52 Stat. 446). [Rule 13]

§ 171.14 *Miscellaneous unfair trade practices.* It is an unfair trade practice:

(a) To refer, in advertisements or representations in respect of a dye or tint, to weaves or fabrics in such manner as to confuse and mislead or deceive purchasers or prospective purchasers;

(b) To use any trade name, corporate name, trade-mark, or other trade designation in such a manner as to have the capacity and tendency or effect of misleading or deceiving the purchasing or consuming public as to the character, name, nature, or origin of any product of the industry, or any material used therein, or in any other material respect;

(c) For any concern, in the course of or in connection with the distribution of industry products, to represent, directly or indirectly, that it is a manufacturer of industry products, or that it owns or controls a factory or laboratory making such products, when such is not the fact, or in any other manner to misrepresent the character, extent, or type of its business;

(d) To defame competitors by imputing to them falsely any dishonorable conduct, inability to perform contracts, questionable credit standing, or to make any other false representation or false disparagement of such competitor or of any industry product of any such competitor in any respect, or of such competitor's business methods, selling prices, values, credit terms, policies, or services;

(e) Unlawfully to induce or attempt to induce the breach of existing lawful contracts between his industry member and any customer or supplier by any means whatsoever or to interfere with or obstruct the performance of any such contractual duties or services by any such means;

(f) Directly or indirectly to give, offer to give, or permit or cause to be given, money or anything of value to agents, employees, or representatives of customers or prospective customers, or to agents, employees, or representatives of any other industry member's customers or prospective customers, without the knowledge of their employers or principals, as an inducement to influence their employers or principals to purchase or contract to purchase products manufactured or sold by any industry member, or to influence such employers or principals to refrain from dealing in the products of any other industry member or from dealing or contracting to deal with any other industry member;

(g) To employ or otherwise procure any person to disparage deceptively any other industry member or the industry product of any industry member. [Rule 14]

§ 171.15 *Aiding or abetting use of unfair trade practices.* It is an unfair trade practice for any person, firm, or corporation to aid, abet, coerce, or induce another, directly or indirectly, to use or promote the use of any unfair trade practice specified in this part. [Rule 15]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5564]

PART 315—LICENSING UNDER THE FEDERAL FIREARMS ACT OF MANUFACTURERS OF, AND DEALERS IN, FIREARMS OR AMMUNITION

MISCELLANEOUS AMENDMENTS

MAY 23, 1947.

In order to give effect to the provisions of the act approved March 10, 1947 (Public Law 15, 80th Cong., 1st session), amending the Federal Firearms Act, as amended (52 Stat. 1250, 53 Stat. 1222; 15 U. S. C. 901-909), Treasury Decision 4898 approved May 1, 1939, as amended by Treasury Decision 4946, approved September 23, 1939 (26 CFR, Part 315), is further amended as follows:

PARAGRAPH 1. The statement at the beginning of § 315.0 is amended to read as follows:

§ 315.0 *Introductory.* The Federal Firearms Act approved June 30, 1938, as amended August 6, 1939, and March 10, 1947 (52 Stat. 1250, 53 Stat. 1222; 15 U. S. C. 901-909; Public Law 15, 80th Cong., 1st Sess.), provides:

PAR. 2. The quotation in § 315.0 of section 1 (6) of the Federal Firearms Act is amended to read as follows:

(6) The term "crime of violence" means murder, manslaughter, rape, mayhem, kidnaping, robbery, burglary, housebreaking; assault with intent to kill, commit rape, or rob; assault with a dangerous weapon, or assault with intent to commit any offense punishable by imprisonment for more than one year.

PAR. 3. There is inserted immediately preceding the last paragraph of § 315.0 the following:

Section 1 (8) of the Federal Firearms Act as above-quoted reflects the amendment made by the Act approved August 6, 1939 (53 Stat. 1222), and that amendment is effective as of August 6, 1939; and section 1 (6) of the Federal Firearms Act as above-quoted reflects the amendment made by the Act approved March 10, 1947 (Public Law 15, 80th Cong.), and that amendment is effective as of March 10, 1947.

Because the amendment made to the Federal Firearms Act by Public Law 15, 80th Congress, 1st Session, became effective on March 10, 1947, the date of enactment of such Public Law, it is found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[3d Rev. RO 3,[1] Amdt. 48]

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 8.1 is amended to read as follows:

SEC. 8.1 *Delivery of sugar for carriage or storage without giving up evidences.* (a) Any person may deliver sugar to another person for carriage or storage only, without getting evidences.

The sugar may thereafter be delivered by such other person, without getting evidences, either to the person from whom the sugar was received, or to a person to whom the right to receive such sugar has been transferred under this order.

(b) Delivery may not be made under paragraph (a) without getting evidences: (1) Where such delivery is made to any person who is registered as a wholesaler, retailer, industrial user or institutional user, unless he is engaged at a place other than his registered establishment and accepts delivery in his capacity as a public carrier, general warehouseman or operator of general storage facilities; or

(2) Where there is a contract, arrangement, or understanding under which (whether or not conditioned on any contingency), such other person has or is to have any interest in such sugar beyond that of a carrier or warehouseman.

2. Section 8.2 is amended to read as follows:

SEC. 8.2 *Security interests in sugar may be created and released without giving up evidences.* (a) Any person may deliver sugar to another person for security purposes only, without giving up evidences.

The sugar may thereafter be released or returned to the person who originally delivered it for security purposes without the receipt or surrender of evidences.

(b) Delivery may not be made under paragraph (a) without getting evidences: (1) Where such delivery is made to any person who is registered as a wholesaler, retailer, industrial user or institutional user, unless he is engaged publicly at a place other than his registered establishment, in the business of lending money; or

(2) Where there is a contract, arrangement, or understanding under which (whether or not conditioned on any contingency), such other person has or is to have an interest in such sugar beyond that of a pledgee or mortgagee.

3. Section 25.1 (c) (8) is amended to read as follows:

(8) "Delivery" means the transfer of physical possession or the transfer of a document of title. Possession of sugar shall be deemed to be so transferred to another person:

(i) When the sugar comes into the physical possession or control of such person or his agent or representative.

(ii) When the sugar is placed in any plant, warehouse or other place owned or controlled directly or indirectly by such person; or

(iii) When particular sugar wherever located or an undivided interest in such sugar becomes the subject of any contract, arrangement or understanding under which (whether or not conditioned on any contingency) it is sold or is to be sold to such person or disposed of as such person may direct.

The use by any person of sugar which he produces or holds for sale or delivery is considered a delivery of sugar to himself.

This amendment shall become effective May 27, 1947.

Issued this 22d day of May 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

Rationale Accompanying Amendment No. 48 to Third Revised Ration Order 3

Sections 8.1 and 8.2 permit delivery of sugar without getting evidences where the sugar is delivered to another person for carriage, storage, or security purposes only. Under these provisions, a person who was registered as a wholesaler, retailer, industrial user or institutional user, was not permitted to obtain delivery without the surrender of ration evidences unless he was engaged publicly at a place other than his registered establishment as a carrier, general warehouseman or operator of general storage facilities, or engaged in the business of lending money.

In view of the fact that the termination of sugar rationing is now foreseeable, many questions are being raised as to whether or not it is permissible for a dealer in sugar or a user of sugar to take delivery of sugar in his registered establishment for storage, for his ultimate use or resale, without the surrender of ration evidences. Since numerous questions have arisen regarding this matter recently, it is deemed advisable to incorporate the interpretation of the provisions of sections 8.1 and 8.2 in the regulations for the purpose of clarity. In addition, in order to prevent indirect evasions of the purposes of these provisions, it is also provided that delivery to another person for "storage" or "security" may not be made without surrender of evidences, where there is a contract or arrangement under which such other person has or is to have any interest in the sugar beyond that of a carrier, warehouseman, pledgee, or mortgagee.

Further in the interest of clarification, the definition of "delivery" is revised to make it clear that delivery to a person takes place when sugar is placed in any plant or place owned or controlled by him, or when the sugar becomes the subject of a contract or arrangement under which it is to be sold to him or disposed of as he directs.

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq), and in accordance with the applicable rules of practice and procedure, as amended (7 CFR Cum. Supp., 900.1 et seq.; 10 F. R. 11791; 11 F. R. 7737; 12 F. R. 1159), notice is hereby given of a public hearing to be held in Assembly Room, McCracken County Court House, Paducah, Kentucky, beginning at 10:00 a. m., c. s. t., June 16, 1947.

This public hearing is for the purpose of receiving evidence with respect to a proposed marketing agreement and order, regulating the handling of milk in the Paducah, Kentucky, marketing area, the provisions of which are hereinafter set forth, and any modification thereof. The proposed marketing agreement and order have not received the approval of the Secretary of Agriculture, and at the hearing evidence will be received relative to all aspects of the marketing conditions which are dealt with by the proposed marketing agreement and order and any modifications thereof. The provisions of the proposed marketing agreement and order, heretofore filed with the undersigned, are as follows:

Marketing Agreement and Order Proposed by the Paducah Graded Milk Producers Association, Paducah, Kentucky

SECTION 1. *Definitions.* The following terms shall have the following meanings:

(a) "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(b) "Secretary" means the Secretary of Agriculture of the United States or such other officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

(c) "Paducah, Kentucky, marketing area," hereinafter called the "marketing area," means the territory within McCracken County.

(d) "Person" means any individual, partnership, corporation, association, or any other business unit.

(e) "Producer" means any person, irrespective of whether any such person is also a handler, who produces in conformity with or subject to the applicable health regulations, milk which is:

(1) Received at a plant from which milk or cream is disposed of in the marketing area for human consumption as fluid milk or fluid cream;

(2) Received at a plant approved by the appropriate health authority in the marketing area to furnish milk or cream to a plant described under subparagraph (1) of this paragraph;

(3) Diverted from any plant described under either subparagraphs (1) or (2) of this paragraph to any other milk distributing or milk manufacturing plant including any plant described under subparagraphs (1) or (2) of this paragraph: *Provided*, That any such milk so diverted shall be deemed to have been received at a plant from which it was diverted;

(4) Caused to be delivered by a cooperative association of producers as defined in section 10 (b) to any other milk distributing or milk manufacturing plant, wherever located.

(f) "Handler" means: (1) Any person who, on his own behalf or on behalf of others, receives milk from producers, associations of producers, or other handlers at a plant described in paragraphs (e) (1) or (e) (2) of this section; (2) any cooperative association of producers as defined in section 10 (b) with respect to milk diverted from a plant described under paragraphs (e) (1) or (e) (2) of this section to any milk distributing or milk manufacturing plant not operated by a handler, for the account of such association; (3) any cooperative association of producers as defined in section 10 (b) with respect to milk produced under appropriate health regulations applicable in the marketing area and caused to be diverted or delivered for the account of such association, to any other milk distributing or milk manufacturing plant, wherever located.

(g) "Market administrator" means the person designated pursuant to section 2 as the agency for the administration hereof.

(h) "Delivery period" means the calendar month, or the total portion thereof, during which the provisions herein are in effect.

(i) "Other source milk" means milk, skim milk, cream or any milk product received at a plant described in paragraph (e) of this section, from sources other than producers or other handlers. Other source milk shall include, but shall not be limited to milk, skim milk, cream or any milk product received at such plants, under an emergency permit in writing issued by the appropriate health authorities in the marketing area.

(j) "Department of Agriculture" means the United States Department of Agriculture, or such other Federal agency authorized to perform the price reporting function specified in section 5.

SEC. 2. *Market administrator*—(a) *Designation.* The agency for the administration hereof shall be a market administrator, selected by the Secretary,

who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

(b) *Powers.* The market administrator shall have the following powers with respect to this part:

(1) To administer its terms and provisions;

(2) To make rules and regulations to effectuate its terms and provisions;

(3) To receive, investigate, and report to the Secretary complaints of violations; and

(4) To recommend amendments to the Secretary.

(c) *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(1) Within 30 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon such duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(2) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(3) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(4) Pay, out of the funds provided by section 9:

(i) The cost of his bond and of the bonds of his employees;

(ii) His own compensation; and

(iii) All other expenses, except those incurred under section 10, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(5) Keep such books and records as will clearly reflect the transactions provided for herein, and upon request by the Secretary surrender the same to such other person as the Secretary may designate;

(6) Publicly announce, unless otherwise directed by the Secretary, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the name of any person who within 5 days after the day upon which he is required to perform such acts, has not made reports and payments pursuant to this part;

(7) Submit his books and records to examination by the Secretary and furnish such information and reports as may be requested by the Secretary;

(8) Upon request, supply on or before the 25th day after the end of each delivery period to each cooperative association, with respect to producers milk or any portion thereof for which the Association was not a handler during the delivery period and whose membership in such cooperative association has been verified by the market administrator, a record of the pounds of milk received by each handler from member producers and the class utilization of such milk. For the purpose of this report such member milk shall be prorated to each class in the proportions that the total receipts of milk from producers by such handler were classified in each class;

(9) Audit records of all handlers to verify the reports and payments required pursuant to the provisions of this part;

(10) Publicly announce, by posting in a conspicuous place in his office and by such other means as he deems appropriate, the prices determined for each delivery period as follows:

(i) On or before the 6th day after the end of such delivery period, the minimum class prices, pursuant to section 5, and butterfat differential pursuant to section 8.

(ii) On or before the 14th day after the end of such delivery period, the uniform prices computed pursuant to section 7; and

(11) Prepare and disseminate to the public such statistics and information as he deems advisable and as do not reveal confidential information.

SEC. 3. *Report of handlers*—(a) *Submission of reports.* Each handler shall report to the market administrator in the detail and on forms prescribed by the market administrator as follows:

(1) On or before the 6th day after the end of each delivery period:

(i) The receipts at each plant of milk and milk products, with butterfat tests, from all sources, including own production;

(ii) The utilization of all milk, and milk products, received, computed pursuant to section 4, including a separate statement of the disposition of Class I milk outside the marketing area;

(iii) The name and address of each producer from whom milk is received for the first time, and the date on which such milk was first received; and

(iv) The name and address of each producer who discontinues deliveries of milk and the date on which the milk of such producer was last received.

(2) Within 20 days after the end of each delivery period, his producer pay roll, which shall show for such delivery period and for each and every producer:

(i) His total delivery of milk with the average butterfat test thereof; and

(ii) The net amount of the payment made to him with the price, deductions, and charges involved.

(b) *Verification of reports and payments.* (1) The market administrator shall verify all reports and payments of each handler by audit of such handler's records and of the records of any other handler upon whose disposition of milk and milk products such handler claims classification. Each handler shall keep adequate records of receipts and utilization of milk and milk products and shall, during the usual hours of business, make available to the market administrator or his representative such records, reports and facilities as will enable the market administrator to:

(i) Verify the receipts and disposition of all milk, and milk products, required to be reported pursuant to this section, and, in case of errors, or omissions, ascertain the correct figures;

(ii) Weigh, sample and test for butterfat content the milk received from producers and any milk product upon which classification depends; and

(iii) Verify the payments to producers prescribed in section 8.

(2) If, in the verification of the reports of any handler made pursuant to paragraph (a) of this section, it is necessary for the market administrator to examine the records of milk and milk products handled in a plant of a handler from which no milk is disposed of in the marketing area, such handler shall make such records available to the market administrator. If, in the verification of the reports of any handler made pursuant to paragraph (a) of this section, the market administrator finds that, subsequent to the delivery period for which the verification is being made, any milk of producers received during such delivery period was used in a class other than that in which it was first disposed of, such milk shall be reclassified accordingly and the adjustments necessary to reflect the reclassified value of such milk shall be made in the billing computed for such handler for the delivery period following such reclassification.

SEC. 4. *Classification of milk*—(a) *Basis of classification.* The market administrator shall classify on the basis of the classes set forth in paragraph (b) of this section and subject to the conditions of paragraphs (c), (d), and (e), of this section, milk, skim milk, and cream from all sources received by a handler at a plant described under paragraphs (e) (1) and (e) (2) of section 1 and milk handled pursuant to paragraphs (e) (3), (f) (2), and (f) (3) of section 1. In establishing the classification as required in paragraph (b) of this section, the burden rests upon the handler who is the first receiver to account for all milk, skim milk, and cream received and to provide that such milk, skim milk, and cream has been utilized in a class other than in Class I.

(b) *Classes of utilization.* The classes of utilization of milk shall be as follows:

(1) Class I milk shall be all milk, skim milk, and cream disposed of in fluid form as milk, buttermilk, milk drinks (whether plain or flavored) and cream disposed of as fluid cream (including any cream product disposed of in fluid form which contains less than the minimum butterfat content required for fluid cream), and all milk, skim milk, and cream not specifically accounted for as Class II milk.

(2) Class II milk shall be all milk, skim milk, and cream accounted for:

(i) As used to produce a product other than those specified in Class I milk;

(ii) As actual plant shrinkage, but not to exceed 1 percent of the total receipts of milk from producers; and

(iii) As actual plant shrinkage of milk received from sources other than producers and handlers: *Provided*, That if milk from producers is utilized in conjunction with other source milk, the shrinkage allocated to the milk received from producers shall not exceed its pro rata share computed on the basis of the proportion of the volumes received from the various sources to their total.

(c) *Interhandler and nonhandler transfers.* (1) Milk, skim milk, and cream disposed of, either by transfer or diversion, by a handler to another handler or to a person who is not a handler but who distributes milk or manufactures milk products shall be Class I milk: *Provided*, That if a different classification is agreed upon in writing signed by both the transferring handler and receiver and submitted to the market administrator on or before the 6th day after the end of the delivery period, then such milk shall be classified accordingly subject to verification by the market administrator. *And provided, further*, That in no event shall the amount allocated to any class be greater than the amount used in such class by the receiver; *And provided further*, That the classification of any such transfer or diversion of milk, skim milk, or cream between handlers shall be subject to allocation for each handler in the sequence set forth in paragraph (g) of this section.

(2) Milk or skim milk moved in fluid form from a plant of a handler to a plant from which no milk, skim milk, or cream is disposed of for fluid consumption (regardless of whether the latter plant is operated by such handler or a nonhandler) shall be Class II milk. Milk, skim milk, or cream moved in fluid form from the plant of a handler to a nonhandler's plant from which fluid milk, skim milk, or cream is distributed shall be Class I milk, except that any of this milk, skim milk, or cream shall be classified as Class II milk if used or disposed of by such establishment in other than fluid form, provided such use or disposition is made subject to verification by the market administrator.

(d) *Computation of class volumes.* For each delivery period the market administrator shall correct for mathematical and for other obvious errors the report submitted by each handler and compute from the corrected report the amount of Class I milk and Class II milk as follows:

(1) Determine:

(i) The total pounds of milk received from producers (including the handler's own production); and

(ii) The total pounds of milk, skim milk, and other milk products received from other handlers and milk received from sources other than producers and other handlers as defined in section 1 (i); add together the resulting amounts.

(2) Determine the total pounds of butterfat received by multiplying by its respective average butterfat test the milk, skim milk, and other milk products determined under subparagraph (1) of this paragraph; add together the resulting amounts.

(3) Determine the total pounds of Class I milk as follows:

(i) Convert to quarts the quantity of milk and skim milk disposed of in fluid form as milk, buttermilk, and milk drinks, whether plain or flavored, and multiply by 2.15.

(ii) Multiply the result computed pursuant to subdivision (i) of this subparagraph by the average butterfat test thereof;

(iii) Multiply the actual weight of cream and cream products by their respective average butterfat tests;

(iv) Add together the resulting amounts computed pursuant to subdivision (iii) of this subparagraph;

(v) Divide the result obtained in subdivision (iii) of this subparagraph by 4 percent;

(vi) If the sum of the quantities of butterfat computed pursuant to subdivisions (ii) and (iv) of this subparagraph when added to the pounds of butterfat in Class II milk computed pursuant to subparagraph (4) (ii) of this paragraph is less than the total pounds of butterfat received, computed in accordance with subparagraph (2) of this paragraph, the butterfat shrinkage on milk from producers which exceeds 1 percent of such butterfat shall be divided by 4 percent;

(vii) Add together the resulting amounts computed pursuant to subdivisions (i), (v), and (vi) of this subparagraph.

(4) Determine the total pounds of Class II milk as follows:

(i) Compute the total pounds of butterfat used to produce a product other than those specified in Class I;

(ii) Add together the resulting amounts;

(iii) Subtract the total pounds of butterfat in Class I computed pursuant to subparagraphs (3) (ii) and (3) (iv) of this paragraph and the total pounds of butterfat computed pursuant to subdivision (ii) of this subparagraph, from the total pounds of butterfat computed pursuant to subparagraph (2) of this paragraph, which resulting quantity shall be allowed as plant shrinkage for the purpose of this paragraph (but in no event shall such plant shrinkage allowance exceed 1 percent of the butterfat in milk received from producers, plus actual plant shrinkage of butterfat received from sources other than producers and handlers) and shall be added to the result obtained in subdivision (ii) of this subparagraph; and

(iv) Divide the result obtained in subdivision (iii) of this subparagraph by 4 percent.

(e) *Reconciliation of utilization of milk by classes with receipts from producers.* (1) If the total utilization in the two classes for any handler as computed pursuant to paragraph (d) of this section, is less than the actual receipts (not including excess pursuant to section 6 (b)) the market administrator shall increase the total pounds of Class II milk for such handler by an amount equal to the difference.

(2) If the total utilization in the various classes for any handlers, as computed pursuant to paragraph (d) of this section, is greater than the actual receipts (not including excess pursuant to section 6 (b)), the market administrator shall decrease the total pounds of Class II milk for each handler by an amount equal to the difference.

(f) *Classification of producer milk.* The market administrator shall determine the classification of milk received by each handler from producers as follows:

(1) Subtract from the total pounds of milk in each class the total pounds of milk, skim milk, and cream received from other handlers and allocated to such class pursuant to paragraph (c) of this section; (2) Subtract from the remaining pounds of milk in each class, in series beginning with the lower-priced Class II milk, the total pounds of other source milk.

SEC. 5. *Minimum prices*—(a) *Class prices.* Subject to the provisions of section 8, each handler shall pay producers not less than the prices per hundredweight computed by the market administrator as follows:

(1) *Class I milk.* The price for Class I milk shall be the price computed under subparagraph (3) of this paragraph, plus the following amounts per hundredweight: $1.15 for the delivery periods of August, September, October, November, and December; $0.90 for the delivery periods July, January, February, and March; and $0.65 for the delivery periods of April, May, and June.

(2) *Class II milk.* The price for Class II milk shall be the price computed under subparagraph (3) of this paragraph.

(3) *Basic formula price.* The basic formula price to be used in determining the price for Class I and Class II milk pursuant to subparagraph (1) and (2) of this paragraph, shall be the price resulting from the following computation by the market administrator:

Determine, on the basis of milk of 4 percent butterfat content, the arithmetic average of the basic, or field, price per hundredweight reported by, and ascertained by the market administrator to have been paid by the following concerns at the manufacturing plants or places listed below for ungraded milk received during the delivery period:

Concern and Location
Pet Milk Company, Mayfield, Ky.
Ryan Milk Company, Murray, Ky.

Provided, That if the price so determined is less than the price computed by the market administrator in accordance with the following formula, then the higher of the following formula prices as computed under subdivisions (i) and (ii) of this subparagraph shall be used:

(i) (*a*) Multiply by 4.0 the average wholesale price per pound of 92-score butter in the Chicago market as reported by the United States Department of Agriculture (or by such other Federal agency as may hereafter be authorized to perform the price reporting function) for the delivery period during which such milk was received;

(*b*) Add 20 percent thereof; and

(*c*) Add 3½ cents per hundredweight for each full one-half cent that the price of nonfat dry milk solids by spray process for human consumption is above 5½ cents per pound. For the purpose of this formula the price per pound of nonfat dry milk solids to be used shall be the average of the carlot prices by spray process for human consumption, published by the Department of Agriculture (or by such other Federal agency as may hereafter be authorized to perform this

price reporting function) for the Chicago market during the delivery period, including in such average the quotations published for any fractional part of the previous delivery period which were not published and available for the price determination of such milk solids for the previous delivery period. In the event the carlot prices for nonfat dry milk solids by spray process for human consumption, f. o. b. manufacturing plant, are not so published, the average of the carlot prices for such milk solids delivered at Chicago, as published by any such agency, shall be used, and the following shall be used in lieu of the computation provided under subdivision (c): Add 3½ cents per hundred weight for each full one-half cent that the price of such nonfat dry milk solids for human consumption, delivered at Chicago, is above 6½ cents per pound.

(ii) To the average of the basic (or field) prices reported to have been paid, or to be paid, for milk of 3.5 percent butterfat content received during the delivery period at the following places for which prices are reported to the market administrator by the companies listed below or by the agency described in subdivision (i) (a) of this subparagraph:

Companies and Locations

Borden Co., Black Creek, Wis.
Borden Co., Greenville, Wis.
Borden Co., Mt. Pleasant, Wis.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Jefferson, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

Add the higher of either of the amounts computed as follows:

(a) The butterfat differential determined pursuant to section (8) (f) multiplied by 5 or,

(b) The basic (or field) hundredweight prices paid for milk of 3.5 percent butterfat content received during the delivery period at the places listed in subdivision (ii) of this subparagraph divided by 35 and the result multiplied by 5.

(4) The prices used in determining the average manufacturing plant price pursuant to subparagraph (3) or (3) (ii) of this paragraph shall be those quoted for milk received at the respective plants, without deduction for hauling or other charges to be paid by the farm shipper.

(b) *Butterfat differential to handlers.* If any handler has received from producers milk containing more or less than 4 percent of butterfat, such handler shall add or deduct, per hundredweight of milk, for each one-tenth of 1 percent of butterfat above or below 4 percent an amount computed by the market administrator as follows: to the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the agency described in paragraph (a) (3) (i) (a) of this section for the delivery period during which the milk was received, add 20 percent, and divide the result by 10.

(c) *Class volume reconciliation adjustment.* For the amount of milk involved in any reconciliation of class volume of milk, pursuant to section 4 (e) the handler shall be debited or credited, as the case may be, at the higher Class II price: *Provided,* That if such handler received from producers milk with an average test of butterfat of 4 percent or less and disposed of no milk, skim milk, or cream as a Class II milk product, such debit or credit, as the case may be, shall be made at the Class I price.

SEC. 6. *Application of provisions*—(a) *Handlers who are also producers.* No provisions hereof shall apply to a handler who is also a producer and who receives no milk from producers or an association of producers other than that of his own production, except that such handler shall make reports to the market administrator at such time and in such manner as the market administrator may request and shall permit the market administrator to verify such reports.

(b) *Payment for excess milk or butterfat.* In the event that a handler, after subtracting receipts from other handlers and receipts from sources determined as other than producers or handlers, has disposed of milk or butterfat, in excess of the milk or butterfat which, on the basis of his reports, has been credited to his producers as having been received from them, such handler shall pay to producers, through the producer-settlement fund, the value of such milk or the milk equivalent of such butterfat in accordance with its utilization.

SEC. 7. *Determination of uniform prices to producers*—(a) *Computation of value for each handler.* For each delivery period the market administrator shall compute the value of milk of producers received by each handler, by multiplying the quantity in each class by the price applicable to such class and by adding together the resulting class values.

(b) *Computation and announcement of uniform prices.* The market administrator shall compute and announce the uniform price per hundredweight of producer milk containing 4 percent of butterfat for each delivery period, as follows:

(1) Combine into one total the respective values computed pursuant to (a) of this section, for all handlers who made the report prescribed by section 3 (a) for such delivery period, except those in default of payments required pursuant to section 8 (c) for the preceding delivery period;

(2) Subtract, if the average butterfat content of all milk received from producers is in excess of 4 percent or add, if such average butterfat content is less than 4 percent, the total value of the butterfat differential applicable pursuant to section 8 (f);

(3) Subtract for each delivery period an amount representing 60 cents per hundredweight of milk received by handlers, whose milk values are included under subparagraph (1) of this paragraph, from producers who produced under a dairy farm permit or rating issued or publicly designated by the proper health authorities for the production of Grade A milk;

(4) Add an amount representing the cash balance in the producer-settlement fund;

(5) Divide the amount computed pursuant to subparagraph (4) of this paragraph by the total hundredweight of milk of producers;

(6) Subtract from the figure computed pursuant to subparagraph (5) of this paragraph not less than 4 cents nor more than 5 cents per hundredweight for the purpose of retaining in the producer-settlement fund a cash balance to provide against errors in reports and payments or delinquencies in payments by handlers.

SEC. 8. *Payment for milk*—(a) *Time and method of payment.* Each handler shall make payment for milk received from producers during each delivery period as follows:

(1) *Partial payment.* On or before the 25th day of each delivery period each handler shall make payment to each producer at not less than the applicable uniform price of the preceding delivery period for the milk of such producer which was received by such handler during the first 15 days of the current delivery period.

(2) *Final payment.* On or before the 15th day after the end of each delivery period each handler shall make payment, subject to the butterfat differential in paragraph (f) of this section and less the payment made pursuant to subparagraph (1) of this paragraph, to each producer for the milk of such producer received by such handler, an amount computed by multiplying the hundredweight of such milk by the price computed pursuant to section 7 (b) (6).

(3) *Premiums for graded milk.* With respect to milk received by a handler from producers who produced milk during such delivery period under a dairy farm permit or rating issued or publicly designated by the proper health authorities for the production of Grade A, each handler shall pay such producer 60 cents per hundredweight in addition to payments made pursuant to subparagraph (2) of this paragraph.

(b) *Producer-settlement fund.* The market administrator shall establish and maintain in a separate fund known as the producer-settlement fund into which he shall deposit all payments made by handlers pursuant to paragraphs (c) and (e) of this section, and out of which he shall make all payments pursuant to paragraphs (d) and (e) of this section: *Provided,* That payments due any handler shall be offset by payments due from such handler.

(c) *Payments to the producer-settlement fund.* On or before the 15th day after the end of each delivery period, each handler shall pay to the market administrator any amount by which the classification value of his milk, computed pursuant to section 7 (a), for the delivery period is greater than the payments made to producers for such delivery period pursuant to paragraph (a) of this section.

(d) *Payments out of the producer-settlement fund.* On or before the 20th day after the end of each delivery period, the market administrator shall pay to each handler for payment to producers any amount by which the classification value of his milk, computed pursuant to section 7 (a), for the delivery period is less than the payments made to producers for such delivery period, pursuant to paragraph (a) of this section. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available.

(e) *Adjustments of errors in payments.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to paragraph (c) of this section, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to paragraph (d) of this section the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer for milk received by such handler discloses payment of less than is required by this section, the handler shall make up such payment not later than the time of making payment to producers next following such disclosure.

(f) *Butterfat differential.* In making payments to each producer pursuant to paragraph (a) of this section, each handler shall add to the uniform price not less than or subtract from the uniform price not more than, as the case may be, for each one-tenth of 1 percent of butterfat content above or below 4 percent in milk received from such producer, the amount as shown in the following schedule for the butter price range in which falls the average wholesale price per pound of 92-score butter in the Chicago market, as reported by the United States Department of Agriculture or other authorized federal agency, for the delivery period during which such milk was received:

Butter price range (cents):	*Butterfat differential (cents)*
17.499 or less	2
17.50–22.499	2½
22.50–27.499	3
27.50–32.499	3½
32.50–37.499	4
37.50–42.499	4½
42.50–47.499	5
47.50–52.499	5½
52.50–57.499	6
57.50–62.499	6½
62.50–67.499	7
67.50–72.499	7½
72.50–77.499	8
77.50–82.499	8½
82.50–87.499	9
87.50–92.499	9½
92.50 and over	10

SEC. 9. *Expense of administration.* As his pro rata share of the expense incurred pursuant to section 2 (c) (4), each handler shall pay the market administrator on or before the 20th day after the end of each delivery period, five cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 6th day after the end of such delivery period, with respect to all receipts within the delivery period, of milk from producers (including such handler's own production). Each cooperative association which is a handler shall pay such pro rata share of expense on only that milk of producers caused to be delivered by it to plants from which no milk is disposed of in the marketing area.

SEC. 10. *Marketing services*—(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to paragraph (a) of section 8, with respect to all milk received from each producer, shall deduct 5 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, to be announced by the market administrator on or before the 6th day after the end of each delivery period; and, on or before the 20th day after the end of such delivery period, shall pay such deductions to the market administrator. Such moneys shall be expended by the market administrator to verify weights, samples, and tests of the milk of such producers and to provide such producers with market information; such services to be performed in whole or in part by the market administrator, or by an agent engaged by and responsible to him.

(b) *Cooperative associations.* In the case of producers for whom a cooperative association, which the Secretary determines to be qualified under the provisions of the act of Congress of September 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made directly to such producers pursuant to section 8, as are authorized by such producers, and, on or before the 20th day after the end of each delivery period, pay over such deductions to the association rendering such services.

SEC. 11. *Effective time.* The provisions hereof, or of any amendment hereto, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

SEC. 12. *Suspension or termination*—(a) *When suspended or terminated.* The Secretary shall, whenever he finds that this part, or any provision thereof, obstructs or does not tend to effectuate the declared policy of the act, terminate or suspend the operation of this part or any such provision thereof.

(b) *Continuing obligations.* If, upon the suspension or termination of any or all provisions of this part, there are any obligations thereunder the final accrual or ascertainment of which requires further acts by any person (including the market administrator), such further acts shall be performed notwithstanding such suspension or termination.

(c) *Liquidation.* Upon the suspension or termination of the provisions hereof, except this section, the market administrator, or such other liquidating agent as the Secretary may designate, shall, if so directed by the Secretary, liquidate the business of the market administrator's office, dispose of all property in his possession or control, including accounts receivable, and execute and deliver all assignments or other instruments necessary or appropriate to effectuate any such disposition. If a liquidating agent is so designated all assets, books, and records of the market administrator shall be transferred promptly to such liquidating agent. If, upon such liquidation, the funds on hand exceed the amounts required to pay outstanding obligations of the office of the market administrator and to pay necessary expenses of liquidation and distribution, such excess shall be distributed to contributing handlers and producers in an equitable manner.

SEC. 13. *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions hereof.

SEC. 14. *Separability of provisions.* If any provision hereof, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions hereof, to other persons or circumstances shall not be affected thereby.

Dated: May 23, 1947.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR, Parts 230, 240, 250]

DISCLOSURES CONTRAVENING CODE OF WARTIME PRACTICES

PROPOSED REPEAL OF CERTAIN RULES

Notice is hereby given that the Securities and Exchange Commission has under consideration a proposal to repeal § 230.171 (Rule 171) under the Securities Act of 1933, § 240.0-6 (Rule X-6) under the Securities Exchange Act of 1934, and § 250.105 (Rule U-105) under the Public Utility Holding Company Act of 1935, all of which relate to disclosures contravening the Code of Wartime Practices.

The foregoing action is proposed pursuant to the Securities Act of 1933, particularly section 19 (a) thereof, the Securities Exchange Act of 1934, particularly section 23 (a) thereof, and the Public Utility Holding Company Act of 1935, particularly section 20 (a) thereof.

The rules proposed to be repealed no longer appear to serve any useful purpose. In this connection it should be noted that § 230.581 (Rule 581) under the Securities Act of 1933, relating to contracts affecting the national defense, is not proposed to be repealed.

It is contemplated that information which has been filed with the Commission under separate confidential cover pursuant to §§ 230.171, 240.0-6 and 250.105 (Rules 171, X-6, U-105) may be made available from time to time by the Commission to the extent permitted by the declassification program of the War and Navy Departments.

All interested persons may submit data, views, and comments in writing to the Securities and Exchange Commission at its main office, 18th and Locust Streets, Philadelphia, 3, Pennsylvania, on or before June 11, 1947.

By the Commission.

REGISTRATION OF HOUSE FLAG AND FUNNEL MARK

MAY 23, 1947.

House flag and funnel mark of Eastport Steamship Corporation registered in accordance with § 3.81 (a), Customs Regulations of 1943.

The Commissioner of Customs, by virtue of the authority vested in him by section 7 of the act of May 28, 1908 (U. S. C., title 46, sec. 49), as modified by section 102, Reorganization Plan No. 3 of 1946 (11 F. R. 7875), and in accordance with § 3.81 (a) of the Customs Regulations of 1943 (19 CFR 3.61 (a)), has registered the house flag and funnel mark of the Eastport Steamship Corporation described below:

(a) *House flag.* The house flag is rectangular in shap having a Prussian blue field with a white ball on which there is superimposed a Prussian blue letter "E." The hoist is 4 feet in height; the fly is 6 feet. The white ball in the center is approximately 3 feet in diameter. The initial letter "E" is 2½ feet in height, 1 foot in width, and has a stroke of 4 inches.

(b) *Funnel mark.* The funnel mark is to appear on a funnel of a dark yellow color which is 32 feet in height over all. The stack has a black band around the top which is 4 feet in width, including the collar on the stack, followed by a dark yellow band measuring 1 foot in width. The mark itself appears on each side of the stack centered in a fore-and-aft direction and consists of a white ball on a Prussian blue band on which there is superimposed a Prussian blue initial letter "E." The band on which that mark appears is 7 feet in width. The white ball is 5 feet in diameter. The initial letter "E" is 4 feet in heights, 2½ feet in width, and has a stroke of 5 inches.

Colored scale replica drawings of the house flag and of the funnel mark described above are on file with the Division of the Federal Register.

Coal Mines Administration

[Order CMAN-17]

FORD COLLIERIES CO.

CHANGES IN TERMS AND CONDITIONS OF EMPLOYMENT OF SUPERVISORY EMPLOYEES

By agreement dated April 7, 1947, between the Coal Mines Administrator and the United Clerical, Technical and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, and approved by the Secretary of the Interior and the President, United Mine Workers of America, certain changes in terms and conditions of employment of certain supervisory employees of the Francis and Berry Mines of the Ford Collieries Company were agreed upon. Such changes in terms and conditions of employment were ordered by a Special Board, appointed by the Secretary of Labor pursuant to Executive Order No. 9809, pursuant to section 5 of the War Labor Disputes Act which order was approved by the President on May 17, 1947.

Now therefore, pursuant to section 5 of the War Labor Disputes Act and the order of said Board, the Operating Manager for the United States is hereby directed to place into effect the changes in terms and conditions of employment of supervisory employees at the Francis and Berry Mines of the Ford Collieries Company embodied and provided for in the said agreement of April 7, 1947.

Attached hereto and made a part hereof is a copy of said agreement of April 7, 1947.

The changes in terms and conditions of employment covered by this order shall be effective as of April 7, 1947.

This order shall be deemed to be a specific direction or order within the meaning of the terms and provisions of the Revised Regulations for the Operation of Coal Mines Under Government Control. (11 F. R. 7567).

N. H. COLLISSON,
Captain, U. S. N. R.,
Coal Mines Administrator.

MAY 24, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, (hereinafter referred to as the Union) covers for the period of Government possession the terms and conditions of employment with respect to the Francis and Berry Mines of the Ford Collieries Company, Detroit, Michigan.

The term "supervisory employees", as used in this agreement, means only those supervisors of production and maintenance employees of the Francis and Berry Mines of the Ford Collieries Company, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1946, in Case No. 6-R-1213.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees; *Provided*, That it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of its supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A supervisors' Mine Committee of three (3) members of each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the Supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

First. Between the aggrieved party and a representative of the Coal Mines Administrator.

Second. Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

Third. Through a representative of the Union and a representative of the Coal Mines Administrator.

Fourth. By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agrement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part; *Provided, however*, That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Ford Collieries Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable State or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6–R–1213, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6–R–1213, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 7, 1947 subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 7th day of April 1947.

N. H. COLLISSON,
Coal Mines Administrator.
JOHN MCALPINE,
President, The United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America.

Approved:

J. A. KRUG,
Secretary of the Interior.
JOHN L. LEWIS,
President, United Mine Workers of America.

MAY 24, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America (hereinafter referred to as the Union), covers for the period of Government possession the terms and conditions of employment with respect to the Nemacolin Mine of the Buckeye Coal Company, Youngstown, Ohio.

The term "supervisory employees", as used in this agreement, means only those supervisors of production and maintenance employees of the Nemacolin Mine of the Buckeye Coal Company, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated January 9, 1947, in Case No. 6–R–1496.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at the mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

First. Between the aggrieved party and a representative of the Coal Mines Administrator.

Second. Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

Third. Through a representative of the Union and a representative of the Coal Mines Administrator.

Fourth. By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so) a charge of refusal to bargain against Buckeye Coal Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mine under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the ruling of said Board in Case No. 6–R–1496, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the ruling of said Board in Case No. 6–R–1496, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administration reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mine specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 26, 1947 subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 26th day of April 1947.

WENDEL COAL CO.

CHANGES IN TERMS AND CONDITIONS OF EMPLOYMENT OF SUPERVISORY EMPLOYEES

By agreement dated April 26, 1947, between the Coal Mines Administrator and the United Clerical, Technical and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, and approved by the Secretary of the Interior and the President, United Mine Workers of America, certain changes in terms and conditions of employment of certain supervisory employees of the No. 1 and No. 2 Mines of the Wendel Coal Company were agreed upon. Such changes in terms and conditions of employment were ordered by a Special Board, appointed by the Secretary of Labor pursuant to Executive Order No. 9809, pursuant to section 5 of the War Labor Disputes Act which order was approved by the President on May 17, 1947.

Now therefore, pursuant to section 5 of the War Labor Disputes Act and the order of said Board, the Operating Manager for the United States is hereby directed to place into effect the changes in terms and conditions of employment of supervisory employees at the No. 1 and No. 2 Mines of the Wendel Coal Company embodied and provided for in the said agreement of April 26, 1947.

Attached hereto and made a part hereof is a copy of said agreement of April 26, 1947.

The changes in terms and conditions of employment covered by this order shall be effective as of April 26, 1947.

This order shall be deemed to be a specific direction or order within the meaning of the terms and provisions of the Revised Regulations for the Operation of Coal Mines Under Government Control. (11 F. R. 7567)

N. H. COLLISSON,
Captain, U. S. N. R.,
Coal Mines Administrator.

MAY 24, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America (hereinafter referred to as the Union), covers for the period of Government possession the terms and conditions of employment with respect to the No. 1 and No. 2 Mines of the Wendel Coal Company, Wendel, West Virginia.

The term "supervisory employees", as used in this agreement, means only those supervisors of production and maintenance employees of the No. 1 and No. 2 Mines of the Wendel Coal Company, as referred to in the finding and determination in the Report On Cross Check of the National Labor Relations Board, dated October 24, 1946 in Case No. 6–R–1598.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and

exclusive agency and representative of the supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

3. *Check off.* The Coal Mines Administrator will direct the operating manager that the Union dues of supervisory employees who are members of the Union, not exceeding Two Dollars ($2.00) per month, shall be checked off the wages of such supervisory employees (subject to the individual consent of such employees, the continuance of said consent being at the option of such employees but the option being exercisable only on one month's written notice to the management and the International Union) at a rate not to exceed One Dollar ($1.00) per pay period and shall be remitted to the Secretary-Treasurer of the United Clerical, Technical and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America, not later than the first and sixteenth of each month and that no other assessments shall be so checked off except upon the written authorization of the International Executive Board of the United Mine Workers of America.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, *Provided*, That it does not interfere with the orderly operation of the mine.

6. *Seniority.* In accordance with and to the extent consistent with the practice now followed at each mine specified above, in all cases of promotion, demotion, increase or decrease of force, or lay-off, length of service and ability to perform the work shall be the determining factors.

Seniority shall be applied separately at each mine specified above.

Any supervisory employee, who (a) voluntarily leaves his employment, (b) fails to return to work without just cause within seven (7) days after notice to do so, or (c) is discharged for just cause, shall lose his seniority rights.

7. *Changes in classification of work.* In accordance with and to the extent consistent with existing practice, when a supervisory employee is required to fill the place of another employee receiving a higher rate of pay, he shall receive the higher rate of pay. Under no circumstances shall he receive a reduction in pay, when required temporarily to fill another job.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' Mine Committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

First. Between the aggrieved party and a representative of the Coal Mines Administrator.

Second. Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

Third. Through a representative of the Union and a representative of the Coal Mines Administrator.

Fourth. By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board, the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part: *Provided, however,* That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

12. *Wages.* Practice, as of the date of execution of this agreement, with respect to wages and hours of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with Section 17 of this agreement.

13. *Legal rights preserved.* (a) This agreement, directions of the Coal Mines Administrator hereinunder, or compliance therewith by the management, shall in no sense be viewed as a waiver by the affected coal company or the Union of such rights as may be possessed by them including the right to a final judicial determination of the rights of supervisors under the National Labor Relations Act.

(b) The Union agrees that, in accordance with the procedure of the National Labor Relations Board, it will file as soon as practicable (but in no event later than 10 days after it receives a written notice from the Coal Mines Administrator to do so a charge of refusal to bargain against Wendel Coal Company to the end that that company may have an opportunity to obtain a final judicial determination of the rights of supervisors at its mines under the National Labor Relations Act.

14. *Responsibilities of supervisory employees to management.* Supervisory employees shall at all times conduct themselves in a manner wholly consistent with the proper performance of the duties assigned to them. They shall not engage in any conduct which would directly or indirectly impair the lawful position of management in its relationship to any person or persons whose work is directed by management or any union which may represent such person or persons. The Union will use its best efforts to assure that the provisions of this section of the agreement are observed by the supervisory employees.

15. *Safety laws.* Nothing in this agreement shall be construed to modify existing obligations of the supervisory employees to conform to the requirements of applicable state or Federal safety laws or rules.

16. *Changes in law.* In the event that legislation, ultimate court decision, or action of the National Labor Relations Board nullifies or reverses the finding and determination of said Board in Case No. 6–R–1598, the Coal Mines Administrator reserves the right, on such notice as he may deem appropriate, to terminate this agreement. The Union reserves the same right.

In the event that legislation, ultimate court decision, or action of the National Labor Relations Board modifies the finding and determination of said Board in Case No. 6–R–1598, the Coal Mines Administrator and the Union agree that further discussion shall be had looking toward appropriate modification of this agreement. In the event that such modification is not agreed upon within what he may deem to be a reasonable time, the Coal Mines Administrator reserves the right to terminate this agreement on such notice as he may deem appropriate. The Union reserves the same right.

17. *General change in hours or wages or other monetary considerations of employment.* The parties to this agreement agree to meet in the city of Washington, D. C., within ten days of the date of execution of any agreement effecting a general change in the hours or wages or other monetary considerations of employment of rank and file employees in the mines specified above, for the purpose of negotiating a general change in the hours or wages or other monetary considerations of employment of supervisory employees.

Any change in the hours or wages or other monetary considerations of employment of supervisory employees, which is negotiated in accordance with the provisions of this section, shall be effective as of the effective date of the general change in the hours or wages or other monetary considerations of employment of rank and file employees which it is designed to accompany.

18. *Effective date.* This agreement is effective as of April 26, 1947 subject to the approval of appropriate Government agencies.

Signed at Washington, D. C., on the 26th day of April 1947.

MAY 24, 1947.

AGREEMENT

This agreement between the Coal Mines Administrator under the authority of Executive Order No. 9728 (dated May 21, 1946, 11 F. R. 5593) and pursuant to the provision of section 11 of the Krug-Lewis Agreement of May 29, 1946, and the United Clerical, Technical, and Supervisory Employees of the Mining Industry, Division of District 50, United Mine Workers of America (hereinafter referred to as the Union), covers for the period of Government possession the terms and conditions of employment with respect to the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York.

The term "supervisory employees," as used in this agreement, means only those supervisors of production and maintenance employees of the Ehrenfeld No. 3, Ehrenfeld No. 8, and Marsteller No. 22 Mines of the Pennsylvania Coal and Coke Corporation, New York, New York, as defined and described in the Certification of Representatives and Order of the National Labor Relations Board, dated October 15, 1946, in Case No. 6–R–1211.

1. *Existing terms and conditions of employment preserved.* Except as amended and supplemented herein, this agreement carries forward and preserves the terms and conditions of employment for supervisory employees as they existed on May 22, 1946.

2. *Union recognition.* With respect to recognition of the Union as the sole and exclusive agency and representative of the Supervisory employees, the Coal Mines Administrator will be guided by the decisions and procedure laid down by the National Labor Relations Board.

The Coal Mines Administrator will direct the operating manager that initiation fees of the Union, in sums not to exceed One Dollar ($1.00) per supervisory employee Union member in any one pay period, shall (subject to the individual consent of the supervisory employee) be deducted and remitted to the financial secretary of the local Union, in the same manner and subject to the same conditions as dues deductions. Under no circumstances shall the total initiation fee for any one man exceed Ten Dollars ($10.00).

4. *Discrimination and coercion.* The Coal Mines Administrator will use his good offices to the end that there shall be no discrimination, interference, restraint, or coercion directed by management or any of its agents against any supervisory employees because of Union membership or appropriate Union activities.

5. *Vacations.* Practice, as of the date of execution of this agreement, with respect to vacation pay of supervisory employees shall be continued in effect, except as such practice may be changed in accordance with section 17 of this agreement.

In accordance with and to the extent consistent with existing practice, vacations will, so far as practical, be granted at times most desired by the supervisory employees, *Provided*, That it does not interfere with the orderly operation of the mines.

8. *Safety and health.* The Coal Mines Administrator will direct the operating manager to continue to make reasonable provisions for the safety and health of the supervisory employees and to operate the mines specified above in accordance with applicable mining laws of the state, the Federal Mine Safety Code, and other applicable safety rules.

9. *Supervisors' mine committee.* A Supervisors' Mine Committee of three (3) members at each mine specified above shall be selected by the Union. Only supervisory employees may be members of this Committee and each member shall be eligible to serve as such only so long as he continues to be a supervisory employee. The functions of the Supervisors' Mine Committee are as described in section 10 of this agreement.

10. *Settlement of disputes.* Should differences arise between the supervisory employees and the employer as to the meaning and application of the provisions of this agreement (including section 1 hereof), there shall be no suspension of or interference with work on account of such differences but an earnest effort shall be made to settle such differences immediately:

First. Between the aggrieved party and a representative of the Coal Mines Administrator.

Second. Through the Supervisors' Mine Committee and a representative of the Coal Mines Administrator.

Third. Through a representative of the Union and a representative of the Coal Mines Administrator.

Fourth. By a board consisting of four members, two of whom shall be designated by the Union and two by a representative of the Coal Mines Administrator.

Should the board fail to agree, the matter shall be referred to an arbitrator selected by the board. Should the board be unable to agree upon the selection of an arbitrator, he shall be designated by the International President of the Union and the Coal Mines Administrator or his representative.

In case either party shall request it prior to agreement upon a single arbitrator, a three man board of arbitration rather than a single arbitrator shall be constituted. This board shall consist of a chairman who shall be agreed upon in exactly the same manner as the single arbitrator above provided for, a representative chosen by the Union, and a representative chosen by the Coal Mines Administrator.

The arbitrator or the board of arbitration shall render in writing a decision which shall be final and conclusively binding upon the parties.

In the event that either party has requested arbitration by a three man board,

the majority decision of such a board or, if a majority decision cannot be reached, the decision of the chairman shall be final and conclusively binding upon the parties.

11. *Discharge cases.* When a supervisory employee has been discharged from his employment and he believes that he has been unjustly dealt with, it shall be a case arising under the method of settling disputes provided in Section 10 of this agreement. If, in any discharge case, it should be decided that an injustice has been dealt the supervisory employee, he shall be reinstated with or without back pay, in whole or in part, *Provided, however,* That any such case shall be taken up and disposed of within five (5) days from the date of discharge or as soon thereafter as possible.

CIVIL AERONAUTICS BOARD

[Docket No. 2945]

TRANS-CANADA AIR LINES

NOTICE OF HEARING

In the matter of the application of Trans-Canada Air Lines under section 402 of the Civil Aeronautics Act of 1938, as amended, for a foreign air carrier permit authorizing foreign air transportation of persons, property and mail between Winnipeg, Manitoba, Canada and Toronto, Ontario, Canada, via Sault Ste. Marie, Michigan.

Notice is hereby given pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 402 and 1001 of the said act, that a hearing in the above-entitled matter is assigned to be held on May 29, 1947, at 10 a. m. (eastern daylight saving time) in Room 1302, Temporary "T" Building, Constitution Avenue between 12th and 14th Streets, NW., Washington, D. C., before Examiner Richard A. Walsh.

Without limiting the scope of the issues presented by said application, particular attention will be directed to the following matters and questions:

1. Whether the proposed air transportation will be in the public interest, as defined in section 2 of the Civil Aeronautics Act of 1938, as amended.

2. Whether the applicant is fit, willing, and able to perform the proposed transaction and to conform to the provisions of the act and the rules, regulations, and requirements of the Board thereunder.

3. Whether the authorization of the proposed transportation is consistent with any obligation assumed by the United States in any treaty, convention, or agreement in force between the United States and the Dominion of Canada.

Notice is further given that any person desiring to be heard in this proceeding must file with the Board, on or before May 29, 1947, a statement setting forth the issues of fact or law raised by said application which he desires to controvert.

For further details concerning the service proposed and authorization requested, interested parties are referred to the application on file with the Civil Aeronautics Board.

Dated at Washington, D. C., May 22, 1947.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

KVAK, ATCHISON, KANS.

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE [1]

The Commission hereby gives notice that on April 15, 1947, there was filed with it an application (BAPL-23) for its consent under section 310 (b) of the Communications Act to the proposed assignment of license of AM Station KVAK, Atchison, Kansas, from S. H. Patterson to A. A. Almada. The proposal to assign the license arises out of an agreement pursuant to which Patterson agrees to sell and Almada agrees to buy all the assets and properties used or useful in the operation of AM Station KVAK, Atchison, Kansas, for a total consideration of $80,000. Further information as to the arrangements may be found with the application and associated papers which are on file at the offices of the Commission in Washington, D. C.

Pursuant to § 1.321, which sets out the procedure to be followed in such cases including the requirement for public notice concerning the filing of the application, the Commission was advised by applicants on May 16, 1947, that starting on May 16, 1947, notice of the filing of the application would be inserted in The Atchison Globe, a newspaper of general circulation at Atchison, Kansas, in conformity with the above rule.

In accordance with the procedure set out in said rule, no action will be had upon the application for a period of 60 days from May 16, 1947, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above described contract.

FEDERAL TRADE COMMISSION

[Docket No. 5471]

NEW ENGLAND FISH CO.

ORDER APPOINTING TRIAL EXAMINER AND FIXING TIME AND PLACE FOR TAKING TESTIMONY

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 22d day of May A. D. 1947.

In the matter of New England Fish Company, a corporation, Alvah L. Hager, David F. Choate, James S. Eckman, Harald Synnestvedt, and William J. Rich, individually and as officers of the New England Fish Company.

This matter being at issue and ready for the taking of testimony and the receipt of evidence, and pursuant to authority vested in the Federal Trade Commission,

It is ordered, That Everett F. Haycraft, a Trial Examiner of this Commission, be and he hereby is designated and appointed to take testimony and receive evidence in this proceeding and to perform all other duties authorized by law;

It is further ordered, That the taking of testimony and the receipt of evidence begin on Tuesday, July 29, 1947, at ten o'clock in the forenoon of that day (Pacific standard time), in Room 117, Federal Office Building, 1st Avenue & Madison Street, Seattle, Washington.

Upon the completion of taking of testimony and receipt of evidence in support of the allegations of the complaint, the trial examiner is directed to proceed immediately to take testimony and receive evidence on behalf of the respondents. The trial examiner will then close the taking of testimony and evidence and, after all intervening procedure as required by law, will close the case and make and serve on the parties at issue a recommended decision which shall include recommended findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record, and an appropriate recommended order; all of which shall become a part of the record in said proceeding.

By the Commission.

UNLOADING OF SHINGLES AT LOS ANGELES, CALIF.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 23d day of May A. D. 1947.

It appearing, that car ATSF 125464, containing shingles, at Los Angeles, California, on the Southern Pacific Company, has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action. It is ordered, that:

(a) *Shingles at Los Angeles, Calif., be unloaded.* The Southern Pacific Company, its agents or employees, shall unload immediately car ATSF 125464, loaded with shingles, now on hand at Los Angeles, California, consigned shippers order, notify E. N. Funk, Seattle, Washington.

(b) *Demurrage.* No common carrier by railroad subject to the Interstate Commerce Act shall charge or demand or collect or receive any demurrage or storage charges, for the detention under load of any car specified in paragraph (a) of this order, for the detention period commencing at 7:00 a. m., May 26, 1947, and continuing until the actual unloading of said car or cars is completed.

(c) *Provisions suspended.* The operation of any or all rules, regulations, or practices, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Notice and expiration.* Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire.

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission, at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

OFFICE OF HOUSING EXPEDITER

[C-18]

POLLY BLITZ

CONSENT ORDER

Polly Blitz is the operator of a real estate agency located at 1750 North Bronson Avenue, Los Angeles, California. She is charged by the Office of the Housing Expediter with a violation of Veterans' Housing Program Order 1 in that on or about December 4, 1946 she began construction, without authorization and at a cost in excess of $2,000 of an eight unit motel structure and of a three-room manager's quarters located at 12135 Branford Street, Pacoima, California. Polly Blitz admits the violation charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Polly Blitz, the Regional Compliance Director and the Regional Compliance Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Neither Polly Blitz, her successors and assigns, nor any other person shall do any further construction on the premises located at 12135 Branford Street, Pacoima, California, including the putting up, completing or altering of any of the structures located on said premises, unless hereafter specifically authorized in writing by the Office of the Housing Expediter.

(b) Polly Blitz shall refer to this order in any application or appeal which she may file with the Office of the Housing Expediter for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Polly Blitz, her successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Office of the Housing Expediter, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 28th day of May 1947.

[File No. 7-989]

PACIFIC POWER & LIGHT CO.

ORDER DETERMINING EQUIVALENT VALUE OF PREFERRED STOCK

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 22d day of May A. D. 1947

The New York Curb Exchange has made application under Rule X-12F-2 (b) for a determination that the 5% Preferred Stock, Par Value $100, of Pacific Power & Light Company is substantially equivalent to the 7% Preferred Stock, Par Value $100, of that company, which has heretofore been admitted to unlisted trading privileges on the applicant exchange.

The Commission having duly considered the matter, and having due regard for the public interest and the protection of investors;

It is ordered, Pursuant to sections 12 (f) and 23 (a) of the Securities Exchange Act of 1934 and Rule X-12F-2 (b) thereunder, that the 5% Preferred Stock, Par Value $100, of Pacific Power & Light Company is hereby determined to be substantially equivalent to the 7% Preferred Stock, Par Value $100, of that company heretofore admitted to unlisted trading privileges on the applicant exchange.

PUBLIC SERVICE CO. OF NEW HAMPSHIRE

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of May A. D. 1947.

Notice is hereby given that an application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Public Service Company of New Hampshire ("New Hampshire"), a public utility company and a subsidiary of New England Public Service Company, a registered holding company. Applicant designates section 6 (b) of the act and Rule U-50 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 9, 1947, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 9, 1947, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

New Hampshire proposes to issue and sell at competitive bidding, pursuant to the provisions of Rule U-50, $4,500,000 principal amount of First Mortgage Bonds, Series B, —% due 1977. The bonds are to be issued under and secured by the company's presently outstanding Mortgage dated as of January 1, 1943, as supplemented by the First Supplemental Indenture dated as of December 1, 1943 and the Second Supplemental Indenture to be dated as of June 1, 1947. The interest rate of said bonds (which shall be a multiple of ⅛ of 1% and shall not exceed 3%) and the price, exclusive of accrued interest, to be paid to New Hampshire (which shall not be less than the principal amount of said bonds and not more than 102.75% of such principal amount) are to be determined by competitive bidding. The proceeds (excluding accrued interest) from the sale of the bonds, after the payment of expenses, will be used by New Hampshire to reimburse its treasury for amounts expended in the purchase and construction of property and facilities used in its business and for other corporate purposes.

Applicant states that the proposed transactions are subject to the jurisdiction of the New Hampshire Public Service Commission and the Vermont Public Service Commission, and that when such approvals are obtained, copies of the orders will be filed by amendment to the application.

It is requested that the Commission's order granting the application herein become effective forthwith.

By the Commission.

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 22d day of May A. D. 1947.

Notice is hereby given that a joint declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by United Gas Corporation ("United"), a gas utility subsidiary of Electric Power & Light Corporation, a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company, and United's wholly-owned nonutility subsidiary, United Oil Pipe Line Company ("Pipe Line"). Declarants have designated section 12 (c) of the act and Rule U-46 thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than June 9, 1947 at 5:30 p. m., e. d. s. t, request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after June 2, 1947 said joint declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule-100 thereof.

All interested persons are referred to said joint declaration which is on file in the offices of this Commission for a statement of the transactions therein proposed which are summarized as follows:

The outstanding securities of Pipe Line consist of 5,000 shares of no par value capital stock, all of which are pledged under the Mortgage and Deed of Trust dated as of October 1, 1944 securing United's outstanding bonds. As of March 31, 1947 Pipe Line's assets consisted solely of cash in the amount of $1,313,360. As of the same date, Pipe Line's liabilities amounted to $112,579 of which $112,079 represented accrued taxes.

Pipe Line will be merged into United pursuant to the provisions of section 58A of Chapter 65 of the Revised Code of Delaware, as amended, and under such merger United will acquire all of the property and assets of Pipe Line and will assume all of its obligations. It is stated in the declaration that upon consummation of the merger United will be required to deposit $400,000 with its Mortgage Trustee which amount represents the proceeds from the sale of physical assets by Pipe Line to non-affiliated interests.

The declarants have requested that the Commission's order herein be issued as soon as may be practicable and become effective forthwith.

By the Commission.

LIMITATION OF SHIPMENTS

§ 933.347 *Orange Regulation 121*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR, Cum. Supp., 933.1 et seq.; 11 F. R. 9471), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., June 2, 1947, and ending at 12:01 a. m., e. s. t., June 16, 1947, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which grade U. S. Combination Russet, U. S. No. 2 Russet, U. S. No. 3, or lower than U. S. No. 3 grade (as such grades are defined in the United States standards for citrus fruits, as amended (11 F. R. 13239; 12 F. R. 1)); or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size larger than a size that will pack 126 oranges, packed in accordance with the requirements of a standard pack (as such pack is defined in the aforesaid amended United States standards), in a standard box (as such box is defined in the standards for containers for citrus fruit established by the Florida Citrus Commission pursuant to section 3 of Chapter 20449, Laws of Florida, Acts of 1941 (Florida Laws Annotated § 595.09)).

(2) As used in this section, "handler" and "ship" shall have the same meaning as is given to each such term in said amended marketing agreement and order.

(48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.330 *Lemon Regulation 223, as amended*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 53 (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* Lemon Regulation 223 (12 F. R. 3331) is hereby amended as follows:

(1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., May 25, 1947, and ending at 12:01 a. m., P. s. t., June 1, 1947, is hereby fixed at 600 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 223 (12 F. R. 3331) and made a part hereof by this reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order. (48 Stat. 31, 670, 675, 49 Stat. 750, 50 Stat. 246; 7 U. S. C. 601 et seq.)

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter C—The Foreign Service

[Foreign Service Reg. S-32]

PART 102—PERSONNEL ADMINISTRATION

CLASSES AND COMPENSATION OF CONSULAR AGENTS

Under authority contained in R. S. 161 (5 U. S. C. 22), and pursuant to sections 302, 418, 441, and 445 of the Foreign Service Act of 1946 (60 Stat. 1001, 1004, 1005, 1006), the Foreign Service Regulations comprising Part 102 of Title 22 of the Code of Federal Regulations are amended by adding the following section:

§ 102.80 *Classes and compensation of consular agents*—(a) *Compensation of consular agents.* Consular agents shall receive compensation based upon the nature and volume of work performed at the consular agency of which they are in charge.

(b) *Classification.* For the purpose of administrative convenience, the various consular agencies shall be divided into three classes. Consular agents at a class 1 consular agency shall receive compensation at the rate of $1,040 per annum; consular agents at a class 2 consular agency, at the rate of $780 per annum; and consular agents at a class 3 consular agency, at the rate of $520 per annum.

(c) *Delegation of authority to assign consular agencies to classes.* The Chief of the Division of Foreign Service Personnel is hereby authorized to assign the positions occupied by consular agents to one of the three classes set forth in paragraph (b) of this section in accordance with the principles of paragraph (a) of this section.

(R. S. 161, secs. 302, 418, 441, 445, 60 Stat. 1001, 1004, 1005, 1006; 5 U. S. C. 22)

This section shall become effective beginning with the first pay period commencing on or after the date of publication in the FEDERAL REGISTER.

For the Secretary of State.

OFFICE OF THE HOUSING EXPEDITER,
By JAMES V. SARCONE,
Authorizing Officer.

Statement To Accompany Amendment 116 to the Rent Regulation for Housing, Amendment 108 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, and Amendment 43 to Designation and Rent Declaration No. 25

By these amendments the application of the rent regulations is terminated in a portion of the San Francisco Bay defense-rental area in California, consisting of the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) in Sonoma County, in the Salida defense-rental area in Colorado, consisting of Chaffee County; in a portion of the St. Petersburg defense-rental area in Florida, consisting of the Islands lying immediately off the mainland which are known as the Gulf Beaches, extending from Pass-A-Grille Beach northward to and including Clearwater Beach; in the Brunswick defense-rental area in Georgia, consisting of Glynn, Camden, and McIntosh Counties (except Sea and St. Simons Islands which have already been decontrolled); in the Pike defense-rental area in Illinois and Missouri, consisting of Pike County in Illinois and Pike County in Missouri; in a portion of the Quincy defense-rental area, consisting of Lewis County in Missouri; in a portion of the Alexandria-Leesville defense-rental area in Louisiana, consisting of Vernon Parish; in the Lamar defense-rental area in Mississippi, consisting of Lamar County; in the Lewistown defense-rental area in Montana, consisting of Fergus County; and in a portion of the Marshall defense-rental area in Texas, consisting of Cass and Red River Counties.

Also by these amendments the Lancaster-York defense-rental area in Pennsylvania, consisting of Lancaster and York Counties, and the Reading defense-rental area in Pennsylvania, consisting of Berks County, are hereafter combined to form the new Lancaster-York-Reading defense-rental area in Pennsylvania.

It is the judgment of the Housing Expediter, that these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

OFFICE OF THE HOUSING EXPEDITER,
By JAMES V. SARCONE,
Authorizing Officer.

Statement To Accompany Amendment 116 to the Rent Regulation for Housing, Amendment 108 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, and Amendment 43 to Designation and Rent Declaration No. 25

By these amendments the application of the rent regulations is terminated in a portion of the San Francisco Bay defense-rental area in California, consisting of the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) in Sonoma County; in the Salida defense-rental area in Colorado, consisting of Chaffee County; in a portion of the St. Petersburg defense-rental area in Florida, consisting of the Islands lying immediately off the mainland which are known as the Gulf Beaches, extending from Pass-A-Grille Beach northward to and including Clearwater Beach; in the Brunswick defense-rental area in Georgia, consisting of Glynn, Camden, and McIntosh Counties (except Sea and St. Simons Islands which have already been decontrolled); in the Pike defense-rental area in Illinois and Missouri, consisting of Pike County in Illinois and Pike County in Missouri; in a portion of the Quincy defense-rental area, consisting of Lewis County in Missouri; in a portion of the Alexandria-Leesville defense-rental area in Louisiana, consisting of Vernon Parish; in the Lamar defense-rental area in Mississippi, consisting of Lamar County; in the Lewistown defense-rental area in Montana, consisting of Fergus County; and in a portion of the Marshall defense-rental area in Texas, consisting of Cass and Red River Counties.

Also by these amendments the Lancaster-York defense-rental area in Pennsylvania, consisting of Lancaster and York Counties, and the Reading defense-rental area in Pennsylvania, consisting of Berks County, are hereafter combined to form the new Lancaster-York-Reading defense-rental area in Pennsylvania.

It is the judgment of the Housing Expediter, that these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act.

OFFICE OF THE HOUSING EXPEDITER,
By JAMES V. SARCONE,
Authorizing Officer.

Statement to Accompany Amendment 116 to the Rent Regulation for Housing, Amendment 108 to the Rent Regulation for Transient Hotels, Residential Hotels, Rooming Houses and Motor Courts, and Amendment 43 to Designation and Rent Declaration No. 25

By these amendments the application of the rent regulations is terminated in a portion of the San Francisco Bay defense-rental area in California, consisting of the Judicial Townships of Redwood and Sonoma (including the City of Sonoma) in Sonoma County; in the Salida defense-rental area, in Colorado, consisting of Chaffee County; in a portion of the St. Petersburg defense-rental area in Florida, consisting of the Islands lying immediately off the mainland which are known as the Gulf Beaches, extending from Pass-A-Grille Beach northward to and including Clearwater Beach; in the Brunswick defense-rental area in Georgia, consisting of Glynn, Camden, and McIntosh Counties (except Sea and St. Simons Islands which have already been decontrolled); in the Pike defense-rental area in Illinois and Missouri, consisting of Pike County in Illinois and Pike County in Missouri; in a portion of the Quincy defense-rental area, consisting of Lewis County in Missouri; in a portion of the Alexandria-Leesville defense-rental area in Louisiana, consisting of Vernon Parish; in the Lamar defense-rental area in Mississippi, consisting of Lamar County; in the Lewistown defense-rental area in Montana, consisting of Fergus County; and in a portion of the Marshall defense-rental area in Texas, consisting of Cass and Red River Counties.

Also by these amendments the Lancaster-York defense-rental area in Pennsylvania, consisting of Lancaster and York Counties, and the Reading defense-rental area in Pennsylvania, consisting of Berks County, are hereafter combined to form the new Lancaster-York-Reading defense-rental area in Pennsylvania.

It is the judgment of the Housing Expediter, that these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the act.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Sugar Rationing Administration, Department of Agriculture

[Sugar Rationing Administration Delegation Order 4]

PART 705—ADMINISTRATION

DELEGATION OF AUTHORITY TO REGIONAL SUGAR EXECUTIVES AND BRANCH OFFICE DIRECTORS TO SIGN AND ISSUE SUBPOENAS AND INSPECTION REQUIREMENTS IN CONNECTION WITH RICE PRICE CONTROL FUNCTIONS

Pursuant to the authority conferred upon the Administrator, Sugar Rationing Administration, in General Order 3, and by Executive Order 9841, it is ordered:

§ 705.204 *Order delegating authority to sign and issue subpoenas and inspection requirements in connection with price investigations.* (a) In connection with any investigation related to the administration or enforcement of the authority of the Secretary of Agriculture and the Administrator of the Sugar Rationing Administration under the Emergency Price Control Act of 1942, as amended, and under Executive Order 9841, with respect to price control of rice, or any regulation or order issued or continued in force and effect pursuant to that Executive Order, the several Regional Sugar Executives and Branch Office Directors are each authorized within their respective regions or branches to sign and issue: (1) subpoenas requiring any person to appear and testify, or to appear and produce documents, or both, at any designated place; (2) inspection requirements requiring any person who is engaged in the business of dealing in rice, or who uses rice, to permit the inspection and copying of records and any other documents, and to permit the inspection of inventories, property and premises.

(b) *Meaning of terms.* The terms issued herein shall have the same meaning as in the Emergency Price Control Act of 1942, as amended.

(c) *What this order supersedes.* This order supersedes Revised General Order 53 issued, by the Office of Price Administration on May 13, 1944 (9 F. R. 5191), and General Order 75 issued by the Office of Price Administration on November 25, 1946 (11 F. R. 13834), insofar as they relate to the authority to sign and issue subpoenas and inspection requirements with respect to the price control of rice. However, those orders shall remain in full force and effect with respect to any action taken thereunder prior to the effective date of this order.

This order shall become effective May 28, 1947.

[3d Rev. RO 3,[1] Amdt. 49]

PART 707—RATIONING OF SUGAR

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended in the following respects:

1. Section 1.4 (a) (2) is amended to read as follows:

(2) 25 pounds for each acre of sugarcane or sugar beets grown on a farm where he resides or works more than six months a year and harvested from the "1946 crop" or "1947 crop" as the case may be. However, if, at the time of harvest, more than one consumer eligible under this section is entitled to a share of that crop, the per acre allowance for such consumer may be no greater than the proportion of 25 pounds that his share of the crop bears to the total shares of all eligible consumers. (For example, if two sharecropping tenants, both living on a farm on which sugar beets are produced from the "1947 crop" are entitled to 40 percent and 60 percent respectively of the crop, their per acre allowances would be 10 and 15 pounds respectively.)

2. Section 1.4 (b) (3) is amended to read as follows:

(3) The sugarcane or sugar beets must have been harvested from the 1946 crop, or 1947 crop, as the case may be, grown on that farm. (As used in this section, the "1946 crop" of sugarcane means sugarcane harvested between October 1, 1946, and September 30, 1947, inclusive, and the "1946 crop" of sugar beets means sugar beets planted for harvest in the calendar year 1946, except that with respect to sugar beets grown in Yuma County, Arizona, in Imperial County, California, and in those parts of the Imperial and Coachella Valleys which are included in Riverside County, California, the "1946 crop" of sugar beets does not include sugar beets planted for harvest in the calendar year 1946 but includes sugar beets planted for harvest in the calendar year 1947. The "1947 crop" is the crop for the next 12 months following the "1946 crop".)

3. Section 1.4(c)(3) is amended to read as follows:

(3) The number of acres of sugarcane or sugar beets harvested from the 1946 or 1947 crop, as the case may be, grown on a farm where he resides or works more than six months a year

(If, at the time of harvest, more than one consumer, eligible under this section is entitled to a share of that crop, the applicant must state the proportion that his share bears to the total shares of all such consumers);

4. Section 25.1(c)(10) is amended to read as follows:

(10) "District Office" means a Branch Office of the Sugar Rationing Administration, Department of Agriculture.

5. Section 25.1(c) is amended by adding two new subparagraphs (30) and (31) to read as follows:

(30) "Sugar Branch Office" means a Branch Office of the Sugar Rationing Administration, Department of Agriculture.

(31) "Member of the immediate family" means the wife, husband, mother, father, son, daughter, brother or sister of the applicant.

This amendment shall become effective June 2, 1947.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 28th day of May 1947.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

Rationale Accompanying Amendment No. 49 to Third Revised Ration Order 3

Present regulations. The grower of a 1946 crop of sugarcane or sugar beets, under certain conditions may receive, from a primary distributor, without giving up evidences, limited amounts of sugar produced from the sugarcane or sugar beets harvested by him for consumption by him, the members of his family unit, and the employees who work on his sugarcane or sugar beet farm for more than six months a year and for whom he regularly provides meals.

Proposed amendment. This amendment provides that, under the same conditions as prevailed in 1946, the grower of a 1947 crop of sugarcane or sugar beets may receive, from a primary distributor, without giving up evidences, limited amounts of sugar produced from the sugarcane or sugar beets harvested by him for consumption by him, the members of his family unit, and the employees who work on his sugarcane or sugar beet farm for more than six months a year and for whom he regularly provides meals. This amendment also redefines District Office and Sugar Branch Office to mean a Branch Office of the Sugar Rationing Administration, Department of Agriculture.

Reason for amendment. In order to stimulate larger plantings of domestic sugarcane and sugar beets in 1947, the privilege granted to a grower of sugarcane or sugar beets in 1946 to receive, from a primary distributor, either 25 pounds of tax free sugar for each member of his family unit, and 25 pounds for each employee who works more than six months a year on the farm where the sugarcane or sugar beets were produced and for whom he regularly provides meals, or 25 pounds for each acre of sugarcane or sugar beets, whichever is smaller, should be extended to apply to the 1947 crop. Such ration-free deliveries of sugar will be in conformity with the Sugar Act of 1937, which permits the tax-free manufacture of such sugar and will encourage the domestic production of sugar.

Former District Offices and Sugar Branch Offices of the Office of Price Administration are now designated as Branch Offices of the Sugar Rationing Administration, Department of Agriculture. Since the regulations still refer to these offices as District Offices or Sugar Branch Offices, this amendment defines District Offices or Sugar Branch Offices to mean Branch Offices of the Sugar Rationing Administration, Department of Agriculture.

PART 707—RATIONING OF SUGAR

SUGAR

Supplement 1 to Third Revised Ration Order 3 is amended in the following respects:

Section 3.1 is amended by deleting the date "September 30, 1947" in item No. 30 and substituting in place therof the date "October 31, 1947."

Section 3.1 is further amended by adding item No. 31 to read as follows:

Ration period	Stamp valid during ration period	Weight value of stamp
No. 31 (May 26, 1947 through October 31, 1947).	Sugar Ration Book Four and Book 4, Spare Stamp 12	10

This amendment shall become effective May 26, 1947.

Chapter XI—Office of Temporary Controls, Office of Price Administration

[Amdt. 4]

PART 1300—PROCEDURE

ENFORCEMENT EXCEPTIONS GRANTED OR DENIED

The statement of procedures as required by section 3 (a) (2) of the Administrative Procedure Act (11 F. R. 177A-634 to 177A-640, inclusive, 12 F. R. 2951 to 2957, inclusive, of the FEDERAL REGISTER of September 11, 1946, and May 2, 1947) is amended in the following respect:

1. In § 1300.1104 (b) the following subparagraphs are added:

(20) *Case No. 21: Enforcement exception granted—C-3.*

Facts. In July 1945 a manufacturer of phonographs received an order from the National Office establishing ceilings for its products at the manufacturing, wholesale and retail levels, and requiring that the phonographs be pre-ticketed by the manufacturer with the correct retail ceiling price. This order was published in the FEDERAL REGISTER and the manufacturer knew of its provisions. Nevertheless he failed to pre-ticket, he notified his wholesale distributors of his suggested resale prices (at wholesale and at retail), which were in excess of the ceilings established by OPA, and, in fact, represented to his wholesale distributors that OPA had not yet established ceilings for his phonographs at the various distributive levels, but that OPA would probably approve his suggested resale prices.

Several months after issuance of the pricing order to the manufacturer, a retailer purchased a number of these phonographs from a wholesale distributor to whom the manufacturer had made the above representations. The retailer paid a price higher than that at which he was permitted to resell under the order. The phonographs were not pre-ticketed and the retailer was not advised by either his supplier or the manufacturer that OPA had issued any order affecting these phonographs.

The retailer established his selling prices under section 3 (a) of the GMPR, using his cost as a base, and filed with his district office the report required under section 3 (a).

When informed of the existence of the OPA order establishing retail ceilings for these phonographs, the retailer stopped selling at once. A treble damage action has been filed for overcharges during the period before the retailer knew of the order.

Decision. Enforcement exception is granted.

Basis. The only distinction between the facts of this case and those in Enforcement Exception C-2 is that in C-2 the retailer originally established a proper ceiling at the outset, and only fell into violation because an order was issued to the manufacturer after the retailer began making sales, while in this case the manufacturer had received his order before the retailer made any sales or established any price, so that the price he attempted to establish under section 3 (a) of GMPR was never a correct ceiling. However, in neither case did the retailer actually know that his retail ceiling had been fixed by an order issued to the manufacturer, nor had he any reason to inquire. Indeed, in this case the manufacturer had falsely advised the retailer's supplier that no order had yet been issued. The reasoning of Enforcement Exception C-2 applies in all respects to this case.

As in Enforcement Exceptions C-1 and C-2, the exception does not apply to merchandise remaining unsold after the seller has been told or has otherwise learned what the correct legal price is.

Rule. Where the seller's supplier has received from the OPA an order establishing a ceiling price, which order also fixes a price for the seller, and where the seller does not know and has no reason to make further inquiry to determine that such order has been issued, enforcement exception granted as to all sales by seller insofar as seller's price was legal but for such order. No exception as to any sales made after seller learned of the correct ceiling price.

WASHINGTON, D. C., *April 18, 1947.*

(21) *Case No. 22: Enforcement exception denied.*

Facts. RMPR 287 provides a cost plus formula and a highest price line limitation for manufacturers of women's outerwear garments. A manufacturer subject to RMPR 287 abided by his highest price line limitation until July 1, 1946, when the Emergency Price Control Act of 1942 lapsed. During the hiatus in price control from July 1 to July 25, 1946, and for about two weeks after extension of the Emergency Price Control Act, the manufacturer sold garments at $1.00 or $2.00 higher than his highest price line limitation. About August 14, the president of the company, who had been on vacation since the hiatus period, returned and discovered that sales were still being made above the highest price line limitation. He immediately ordered refunds to be credited to purchasers to whom deliveries had been made after July 1945 and ordered that all garments delivered from then on be sold at ceiling. The refunds were credited and the overceiling sales stopped before any investigation was made by OPA. A substantial number of garments were sold over ceiling between July 25 and August 14.

Decision. Enforcement exception is denied.

Basis. The only possible argument for an exception in this case is that the seller acted in good faith, that the overcharges were inadvertent and that refunds were made on the seller's own initiative before there was a threat of enforcement action. The fact that the violations took place immediately after the hiatus period is relevant only to show that the violations were not wilful. These circumstances, perhaps, constitute the Chandler Defense and reduce the Administrator's claim to single damages, but do not make out a case for enforcement exception unless it should be decided to make exceptions in all cases of non-wilful violations accompanied by refunds. We are not prepared to grant so bread an exception.

Rule. Enforcement exception will be denied where the only reason for the exception is that the seller in good faith continued to sell over ceiling after resumption of price control on July 25, 1946, and ceased to overcharge and made refunds as soon as he learned of the violation, even where this occurred prior to discovery of the overcharge by OPA.

WASHINGTON, D. C., *April 22, 1947.*

(22) *Case No. 23: Enforcement exception granted.*

Facts. In the Cluett Peabody & Co. and David D. Doniger Co. cases the regulations (MPR 572, 605, and 607) required the calculation of a division factor by dividing total net sales during 1943 of items covered by the regulation by total direct cost of such items. This has been interpreted as requiring the inclusion of the actual selling price of "seconds" or imperfect garments in total net sales. The regulations required that this division factor be applied to the direct cost of current garments to establish the ceiling price. There was a further provision that under the regulation seconds garments currently being sold be priced by allowing the seller's customary base period discount off the ceiling price for first quality garments calculated as described above.

One of the companies calculated its total net sales by adding to its actual 1943 net sales figure the difference between its actual selling price for "seconds" and the price at which it would have sold those garments if they had been first quality merchandise. In other words, the company added back to its sales figure the amount which it failed to realize because of defects in some of its garments.

The other company eliminated entirely both the direct cost and the selling price of all its "seconds" sold during 1943 in calculating the division factor.

Decision. Enforcement exception is granted.

Basis. The combination of the two described provisions of the regulation results in a "double squeeze". The original calculation of the division factor reflects the seller's base period loss on seconds and to that extent reduces his current price under the regulation for first quality garments. Having thus taken the base period seconds discount into effect, the regulations still require the seller to make an additional reduction in his price for seconds by allowing his customary discount from the first quality prices.

Rule. Where a seller has calculated his division factor under MPR 572, 605 or 607, either by omitting both the costs and selling prices of second quality garments, or by adding back to his actual selling price the amount of the discount which he allowed in the base period for second quality garments, no enforcement suit shall be instituted and enforcement suits—to the extent that they charge violations arising out of calculations made in this manner—shall be dismissed.

Coverage. This exception applies only to violations caused by the miscalculation of division factors described in the statements of facts, and is limited to MPR 572, 605 and 607.

C. 2, 15, 16, 151, 153, 228a, 272a, 691); the act of July 30, 1942 (56 Stat. 730-731; 34 U. S. C. 857-857g); the act of June 27, 1942 (56 Stat. 422; 34 U. S. C. 338); the act of August 27, 1940 (54 Stat. 864, as amended; 34 U. S. C. 737); the act of August 29, 1916 (39 Stat. 610; 34 U. S. C. 632, 633, 636, 639, 667); the act of July 9, 1913 (38 Stat. 103; 34 U. S. C. 634, 1057); the act of May 13, 1908, as amended (35 Stat. 146; 34 U. S. C. 887), and the act of March 3, 1899 (30 Stat. 1008; 34 U. S. C. 634), to procure officers and enlisted personnel for the Naval Service including the Marine Corps, Marine Corps Women's Reserve, Navy Nurse Corps and the WAVES.

(b) *Method of procurement*—(1) *Enlisted personnel, Regular Navy.* (i) The Navy Department maintains recruiting stations in various parts of the country which will receive and process applications for enlistment in the Naval Service.

(ii) Information as to the location of the nearest recruiting station may be obtained from any post office or by writing the Director, Recruiting Division, Bureau of Naval Personnel, Navy Department, Washington 25, D. C.

(2) *Enlisted personnel, Marine Corps.* (i) The Marine Corps maintains recruiting stations in the major centers of population throughout the country which will receive and process applications for the Marine Corps.

(ii) Information as to the location of the nearest recruiting station may be obtained from any post office or by writing the Director of Recruiting, Headquarters U. S. Marine Corps, Washington 25, D. C.

(3) *Officers of the Navy.* The Navy Department maintains ten main offices and seven branch offices of Naval Officer Procurement in the larger cities throughout the country which will receive and process applications for commissions in the Naval Service and applications for enlistment and appointment in the WAVES.

(i) *Naval Reserve Officers' Training Corps, Navy Aviation College Program, and direct appointments from civil life in accordance with section 6 (b) of the act of August 10, 1946, supra.* Information concerning these programs may be obtained by writing to Director of Officer Procurement, Bureau of Naval Personnel, Navy Department, Washington 25, D. C.

(ii) *Admission to the Naval Academy.* Appointments to the Naval Academy at Annapolis are made by the President, Vice-President, Secretary of the Navy, each Senator, Representative and Delegate to Congress. In addition, appointments are made as a result of competitive examination from the Regular Navy and Marine Corps. Regulations governing the admission of candidates into the U. S. Naval Academy as midshipmen and sample examination questions may be obtained from the Bureau of Naval Personnel, Navy Department, Washington 25, D. C.

(iii) *Candidates for assistant surgeon.* (a) Appointees to the grade of assistant surgeon must be between the ages of 21 and 32 at the time of appointment. Their physical, moral, mental, and professional qualifications must be approved by a board of medical officers.

(b) Acting assistant surgeons may be appointed for temporary service after such examination as the Secretary of the Navy may prescribe. (Art. 1636, U. S. Navy Regulations, 1920.)

(iv) *Candidates for assistant dental surgeon.* (a) Appointees to the grade of assistant dental surgeon must be between the ages of 21 and 32 at the time of appointment. They must be graduates of standard medical or dental colleges and trained in the several branches of dentistry. Before appointment they must successfully pass mental, moral, physical and professional examinations before medical and professional examining boards.

(b) The professional board shall consist of one medical officer, who shall be senior member thereof, and two officers of the dental corps. (Art. 1637, U. S. Navy Regulations, 1920.)

(v) *Candidates for assistant paymaster.* (a) A candidate from civil life for original appointment to the Supply Corps of the Navy must be not less than 21 nor more than 25 years of age. His physical, mental, and moral qualifications must be examined and approved by a board of officers of the Supply Corps.

(b) The physical examination of the candidates shall be conducted by a board of medical officers, who shall report the result thereof to the board of officers of the Supply Corps, certifying as to the physical qualifications of the candidate for appointment as assistant paymaster, and such report shall form a part of the record of said board of officers of the Supply Corps.

(c) A chief pay clerk or pay clerk who is a candidate must be between the ages of 21 and 35. He shall fulfill such requirements as the Secretary of the Navy may prescribe. (Art. 1638, U. S. Navy Regulations, 1920.)

(vi) *Candidates for chaplain.* (a) A candidate for the office of chaplain must be not less than 21 nor more than 35 years of age at the time of his appointment. He must be a regularly ordained minister of good standing in his denomination. His moral character, general fitness, and experience shall be established to the satisfaction of a board of chaplains, which shall conduct a written examination to determine his mental attainments. The physical examination of the candidate shall be conducted by a board of medical officers.

(b) Original appointments shall be made to the grade of acting chaplain after such examination as may be prescribed by the Secretary of the Navy, and while so serving acting chaplains shall have the rank of lieutenant (junior grade).

(c) After three years' service each acting chaplain before receiving a commission in the Navy shall establish to the satisfaction of the Secretary of the Navy by examination by a board of chaplains and medical officers of the Navy his physical, mental, moral, and professional fitness to perform the duties of chaplain in the Navy with the rank of lieutenant (junior grade). Acting chaplains shall be commissioned as chaplains when advanced to the rank of lieutenant. (Art. 1659, U. S. Navy Regulations, 1920.)

(vii) *Candidates for Assistant Civil engineer.* A candidate from civil life for the office of assistant civil engineer must be not less than 22 nor more than 30 years of age, must be a graduate in engineering from a technical school or university of approved standing, and must show evidence that he is proficient in the practice of his profession. He shall be required to pass a physical examination and such mental and professional examinations as the Secretary of the Navy may direct. (Art. 1640, U. S. Navy Regulations, 1920.)

(viii) *Appointment of warrant officers.* (a) Appointments as warrant officers shall be made only after competitive professional examination before boards consisting of at least three commissioned officers, from candidates who fulfill all requirements prescribed by the Navy Department.

(b) The qualifications to be possessed by candidates for appointment as warrant officers shall be prescribed by the Bureau of Naval Personnel after consultation with other bureaus concerned. The Bureau of Naval Personnel shall determine the time and manner of holding examinations for warrant officers. (Art. 1641, U. S. Navy Regulations, 1920.)

(ix) *Nurse Corps.* The regulations relating to the Nurse Corps are being changed in accordance with the provisions of the act of April 16, 1947, and will be published in the FEDERAL REGISTER at a later date.

(x) *General*—(a) *Appointment made subject to examination.* No person shall be appointed to any office in the Navy unless he is a citizen of the United States nor until he shall have passed a physical, a mental, and a professional examination.

The physical examination shall precede the mental and professional, and if a candidate be physically unfit he shall not be examined otherwise.

The oath to be taken by any person appointed to any office of honor or profit in the naval service shall be prescribed in section 1757 of the Revised Statutes.

Each candidate shall, before appointment, be required to submit, in addition to his sworn statement, satisfactory proof of citizenship, which proof will be filed with the record of his examination. (Art. 1631, U. S. Navy Regulations, 1920.)

(b) *Persons not presenting themselves for examination.* Any person who fails to present himself for examination for appointment at the time specified after having obtained permission shall not thereafter be examined except upon authority of the Secretary of the Navy. (Art. 1643, U. S. Navy Regulations, 1920.)

(c) *Penalty for giving false certificates, etc.* Any candidate who gives a false certificate of age, time of service, or character, or makes a false statement to a board of examiners, shall be regarded as disqualified. (Art. 1644, U. S. Navy Regulations, 1920.)

(d) *Acceptance and oath.* Every person on receiving an appointment from the Navy Department to any office in the Navy, shall immediately forward a letter of acceptance, together with the oath of office duly signed and certified. (Art. 1645, U. S. Navy Regulations, 1920.)

(4) *Officers of the Marine Corps.* Information concerning appointment to commissioned rank in the Marine Corps may be obtained by writing to the Director of Personnel, Marine Corps, Washington 25, D. C. Officers in Charge of Recruiting Divisions and Districts, Directors of Marine Corps Reserve Districts, and Commanding Officers and Inspector-Instructors of Marine Corps Reserve activities are cognizant of Marine Corps officer procurement programs.

(i) *General qualifications.* (a) Be a male citizen of the United States.

(b) Be more than twenty (20) years of age on appointment, and if from the Naval Reserve Officers Training Corps or from civil life, be not more than twenty-five (25) years of age on 1 July of the calendar year in which appointed.

(c) Be mentally, morally, professionally, and physically qualified.

(ii) *Sources.* (a) The Naval Academy, the Naval Reserve Officers Training Corps, and the Navy Aviation College Program (Aviation Cadet Program).

Admission: Annually, enlisted men are given the opportunity to compete by written examinations for assignment to these officer candidate training programs.

Commissioning upon graduation: Qualified graduates may be commissioned as Second Lieutenant, U. S. Marine Corps, on a voluntary basis.

(b) Commissioned Warrant, Warrant Officers, and Enlisted Men of the Marine Corps.

Qualified enlisted men who have successfully completed a four-year course of instruction at an accredited college or university or demonstrated by test the attainment of an equivalent educational level may be commissioned Second Lieutenant, U. S. Marine Corps (Public Law 729—79th Congress).

Commissioned Warrant Officers, Warrant Officers, and first pay grade noncommissioned officers and other enlisted men who have sufficient previous service and are otherwise qualified may be commissioned (Act of June 27, 1942 56 Stat. 422, and the act of August 10, 1946, Public Law 720—79th Congress).

(c) Civil life.

Graduates of accredited colleges and universities may be appointed as Second Lieutenant, U. S. Marine Corps, provided otherwise qualified (act of August 13, 1946, Pub. Law 729, 79th Cong.).

(c) *Benefit Guide.* (1) The pamphlet Benefit Guide for Officers and Enlisted Men, United States Navy and United States Naval Reserve, is published by the Bureau and contains all information regarding benefits to which beneficiaries of officers and enlisted men of the Regular Navy and Naval Reserve are entitled. This pamphlet describes all papers, documents, etc., that are necessary to substantiate claims, and also gives a list of charitable organizations which furnish emergency aid to families of deceased officers and men.

(2) The many cases handled by the Bureau show that in the majority of cases the beneficiaries are unaware or have incorrect information of the benefits accruing to them, sometimes to their inconvenience and pecuniary loss. (Art. C-8002, Bureau of Naval Personnel Manual.)

b. Amend § 27.10 (a), line 15, by inserting the word "chief" between "their" and "support."

c. Amend the first and second paragraphs of § 27.11 to read as follows:

§ 27.11 *Missing Persons Act.* Under the provisions of the Missing Persons Act, Public Law 490, 77th Congress (56 Stat. 143; 50 App. U. S. C. 1001–1018), as amended by Public Law 408, 78th Congress (58 Stat. 676; 50 App. U. S. C. 1001–1018), a finding of presumptive death is made by the Secretary of the Navy when a survey of all available sources of information indicates beyond doubt that the presumption of continuance of life has been overcome. When a finding of presumptive death is made, a man's pay accounts are closed as of the presumptive date of death, that is the day following the expiration of the 12 months' absence or a longer period when justified, and the various benefits, such as the six months' gratuity, become payable. A finding of presumptive death concerning an officer or enlisted man of the Navy means simply that as of the date thereof he is for the purposes of Naval administration no longer alive. It does not mean that death occurred on that or on any other certain date. For purposes other than Naval administration, the law does not make these findings binding or conclusive but commercial insurance companies have, almost without exception, accepted them as evidence of the fact of death and have paid insurance claims on the basis thereof.

Findings of presumptive death are never made when the "missing" status has not continued for at least 12 months. Whenever, subsequent to the expiration of the 12th months, cumulative or other evidence establishes beyond doubt that a "missing" person is no longer alive, a prompt finding of presumptive death will be made. Also, such a finding will be made whenever justified by the lapse of time beyond the 12 months' absence without specific information being received.

d. Amend § 27.12 (a) to read as follows:

§ 27.12 *Mustering-out payments*—(a) *Statutory authority.* The Mustering-Out Payment Act of 1944 provides for mustering-out payments for each member of the armed forces otherwise entitled who shall have been engaged in active service in the present war, and who is discharged or relieved from active service under honorable conditions on or after December 7, 1941.

(Secs. 3, 12, Pub. Law 404, 79th Cong., 60 Stat. 238, 244)

Subchapter K—Alaska Wildlife Protection

PART 92.—ALASKA GAME COMMISSION; GUIDES, POISONS, AND RESIDENT TRAPPING, HUNTING AND FISHING LICENSES

ESTABLISHMENT OF ARCTIC SLOPE FUR MANAGEMENT AREA

Pursuant to the authority conferred upon the Alaska Game Commission by section 10, subdivision M of the Alaska Game Law of July 1, 1943 (57 Stat. 301–310) the following regulation is hereby adopted effective July 1, 1947, to continue in effect from year to year until otherwise modified or rescinded.

§ 92.5a *Establishing the Arctic Slope Fur Management Area.* There is hereby set aside an area that hereafter, and for the purpose of this section, shall be known as the Arctic Slope Fur Management Area, more particularly described as follows:

Beginning at the Village of Sinaru and running due south to the divide between the Colville and Noatak Rivers; thence easterly along the divide separating the waters flowing into the Arctic Ocean from the waters flowing into the Noatak and Yukon River drainages to the International Boundary; thence north along the International Boundary to the Arctic Ocean; thence westerly along the shores of the Arctic Ocean to the Village of Sinaru, or place of beginning.

The seasons and limits on fur animals as prescribed in the annual regulations of the Secretary of the Interior under the Alaska Game Law shall be effective on the Arctic Slope Fur Management Area. The seasons and limits as prescribed by the Secretary, and then in effect, for Fur District 8, shall be applicable.

No fur animals may be taken except by the methods, means and numbers provided in the general regulations of the Secretary of the Interior.

No person shall take any fur animal within the Arctic Slope Fur Mnagement Area without first being in possession of a valid subsisting Special License permitting the taking of such animals in this area.

A special license permitting trapping in the Arctic Slope Fur Management Area will be issued by the Executive Officer of the Commission to a qualified applicant for a fee of $1.00. Licenses will be issued in the order of receipt of applications in proper form. Not more than 400 special licenses will be issued in any one year.

In order to obtain the special license provided for in this section, to take fur animals in the Arctic Slope Fur Management Area a person must:

(a) Have resided within the boundaries of this area continuously for not less than one year immediately preceding the date of application for said license; and

(b) Except as to native Indians, Eskimos and residents under 16 years of age be in possession of a current resident license to take fur animals in the Territory of Alaska at large.

In testimony whereof, we have set our hands and caused the official seal of the Commission to be affixed in the City of Juneau, Alaska, this 17th day of February 1947.

Office of the Secretary

[50 CFR, Part 91]

PROTECTION OF ANIMALS, BIRDS, AND GAME FISHES IN ALASKA

NOTICE OF INTENTION TO ADOPT AMENDMENTS TO EXISTING REGULATIONS

Pursuant to section 4 (a) of the Administrative Procedure Act, approved June 11, 1946 (Public Law 404, 79th Cong.), and the authority contained in section 9 of the Alaska Game Law (57 Stat. 306; 48 U. S. C. 198) and the act of April 30, 1946 (Public Law 369, 79th Cong.), notice is hereby given that the Secretary of the Interior and the Secretary of Agriculture intend to take the following action:

Adopt amendments to the Alaska Game Regulations modifying existing seasons and bag limits wherever necessary to insure proper conservation and utilization of the Wildlife resources of Alaska. In some instances an increased take of animals and birds will be permitted but with respect to other species further protection must be afforded. In addition, a number of provisions relating primarily to the administration of the Alaska Game Law will be amended in minor respects for the purpose of clarifying the application of the regulations and to facilitate the administration of the Alaska Game Law.

The foregoing regulations are to be effective beginning July 1, 1947.

Interested persons are hereby given an opportunity to participate in preparing the regulations for issuance as set forth by submitting their views, data, or arguments in writing to Albert M. Day, Director, Fish and Wildlife Service, Washington, D. C.

WARNER W. GARDNER,
Assistant Secretary of the Interior.

Production and Marketing Administration

[7 CFR, Part 934]

MILK IN LOWELL-LAWRENCE, MASS., MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND AMENDMENT TO ORDER

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 C. F. R., Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737, 12 F. R. 1159), notice is hereby given of the filing with the Hearing Clerk of this recommended decision of the Assistant Administrator, Production and Marketing Administration, United States Department of Agriculture, with respect to a marketing agreement and an amendment to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area, to be made effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). Interested parties may file exceptions to this recommended decision with the Hearing Clerk, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than the close of business on the seventh day after publication of this report in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The proceeding was initiated by the Production and Marketing Administration as a result of a request received from the New England Milk Producers' Association. In a letter dated January 17, 1947, the market administrator of the Lowell-Lawrence marketing area notified all handlers, cooperative associations, and other interested persons that they should file not later than February 3, 1947, any proposals which they wish to make with respect to amendments to the order. Seven proposals were submitted by the New England Milk Producers' Association, the market administrator, and the Dairy Branch.

On March 10, 1947, a notice of hearing was issued which listed all of the proposals submitted. The hearing was held at Lawrence, Massachusetts, on March 20, 1947.

Previously a hearing was held at Boston on November 20, 1946, to consider amendments to Order No. 34, which had been proposed by the New England Milk Producers' Association and by the Dairy Branch. Action was taken at that time with respect to all of the issues except one which were developed at the hearing. No action was taken then or has since been taken on a proposal designed to prevent contraseasonal changes in the Class I price which might otherwise occur as a result of the butter-powder formula contained in the order. This issue should be disposed of at this time.

Findings and conclusions. The issues which were listed in the notice and which were developed at the hearing in March 1947 are grouped under the following headings. The issue developed at the hearing held on November 20, 1946, is included under the issue "Determination of Class I Prices".

(1) *Determination of Class I prices.* The butter-powder formula for determining the Class I price should be retained in its present form but minimum floor prices for the period from July 1947 through December 1947 should be provided and there should be a provision to prevent contraseasonal changes in the Class I price. It is recommended that a floor price of $5.23 should be provided for the months of July, August, and September 1947 and a floor price of $5.67 for the months of October, November, and December 1947. If the butter-powder formula produces a higher price than $5.67 in October, November, or December, this price should continue to the end of the year. The maximum drop between December and January and between January and February should be 44 cents. These recommendations are in conformity with recommendations made with re-

spect to the Class I prices for the Greater Boston marketing area.

There is a serious need for encouraging a shift toward more fall production in New England. Minimum Class I floor prices are required for each month through December 1947 in order to assure a substantial rise in prices from the spring to the fall and thus develop a better seasonal pattern of production in this area. A price plan to encourage increasing fall production has been recommended for the Boston market. The closeness of the Boston and the Lowell-Lawrence marketing areas and the overlapping of milksheds necessitate a close correlation of price plans and consequently of the actual Class I prices. The basic Class I price under the Lowell-Lawrence order should reflect the higher differential now applicable at Boston city plants as a result of the increase in freight rates effective January 1, 1947.

In 1946 a start was made in New England on a program of encouraging the production of more milk in the fall months. The current prices and rates paid for feed, labor, and farm machinery are higher than last year. These factors indicate that the program to encourage more fall production may be seriously hampered unless producers are assured of absolute floor prices for the last quarter of 1947 as high as the floor established in 1946. Absolute floor prices should be established also for July, August, and September 1947 at 44 cents below the last quarter prices to conform to the seasonal pattern of prices which is necessary to insure an adequate supply of producer milk during the short season. On the other hand, the current trend towards greater milk production this year with some indication of smaller Class I sales does not justify absolute floor prices for Class I milk for the last quarter of 1947 higher than the last quarter of 1946.

The uncertainty of economic conditions in the fall and winter requires a safeguard in addition to minimum floor prices on Class I milk. The butter-powder formula should be retained to give producers the benefit of any increase over the floor prices which may be justified by the prices of other dairy products and by the general price level in the fall and winter. The butter-powder formula should be modified to prevent contraseasonal price changes in the months just preceding or during the season of greatest shortage or seasonal flush production. Generally, the Class I price for any of the months of September through December of any year should not be lower than the Class I price in effect for the preceding month and the Class I price for the months of March through June of any year should not be higher than the Class I price in effect for the preceding month.

Producers contended that the butter-powder formula method of determining the Class I price should be deleted entirely from the order and fixed prices substituted for it. Exact prices cannot be determined from this record for nine months to a year in advance. The present trend toward increasing production and decreasing consumption and the general uncertainty as to business conditions this fall and winter preclude a fixed guarantee of exact Class I prices. The present butter-powder formula will establish prices this fall above the floor prices named if conditions warrant higher prices, and will provide a method of pricing after December. The provision to prevent a contraseasonal price change will avoid nullification of the seasonal price plan by movements of the general price level. It is not considered advisable to provide for complete prevention of downward price movements in the last half of the year or upward price movements in the first half because such a provision would hold back unduly adjustments to the general price level.

(2) *Emergency price provision.* The emergency price provision should be revised to delete references to subsidies and maximum uniform prices which were wartime measures and are no longer in effect.

(3) *Reports regarding individual producers.* Subparagraphs (1), (3), and (4) of paragraph (c) and paragraph (d) of § 934.7 should be deleted. It is recommended that a new § 934.7 (c) be incorporated in the order and that it require submission of individual producer reports within five days of the events specified.

Section 934.7 (c) (1) was originally put in the order for use in connection with base ratings. It has never been used and should be deleted. Section 934.7 (c) (3) provides for the reporting by handlers of a schedule of transportation rates and paragraph (c) (4) provides for the reporting of any changes in the rates charged to producers for moving their milk from the farm to the handler's plant. Section 934.7 (d) provides for the announcement of these rates and rate changes. The reporting, compilation, and publication of information on these transportation rates constitute a burden upon the market administrator and upon the handlers. The information is not sufficiently illuminating to justify the burden. Each producer is in a position to appraise his own rates and, if dissatisfied, can make changes in his hauling arrangements.

The order does not now provide specifically for the submission by handlers of reports respecting individual producers when they start or resume deliveries, move from one farm to another, or stop deliveries. This information is needed to facilitate the auditing of handlers' reports and is now being submitted but it is desirable that the order specifically require such information, the same as the Boston order does. Inasmuch as the market administrator has a butterfat testing program under the Lowell-Lawrence order and needs to know promptly of any new producers who begin deliveries to handlers, it is recommended that these reports be required within five days.

(4) *Reports of payments to producers.* Each handler should be required to submit his producer pay roll to the market administrator within five days after his request, made not earlier than 14 days after the end of the delivery period. For the sake of clarity this requirement should be a separate paragraph designated as § 934.7 (d).

A handler can meet the present requirements of § 934.7 (c) (2) by submitting his producer pay roll by the twenty-fifth of each month. Since under § 934.10 (a) a handler must pay producers by the eighteenth of each month, there is no reason why he should not be able to submit his pay roll at any time after the eighteenth of each month.

(5) *Maintenance of records by handlers.* Handlers should be required to maintain detailed and summary records which will show all receipts, movements, and disposition of milk and milk products.

The order does not now specifically require that records be maintained although proper verification of reports is not possible in the absence of adequate records. The requirement that adequate records be maintained should be set forth in the order so that it could be relied on in legal proceedings to compel a handler to maintain records.

(6) *Expense of administration.* The Lowell-Lawrence order should be made to conform with other Federal orders in providing that the Secretary, rather than the market administrator, determine the use of a lower assessment rate than the maximum provided under the order. Inasmuch as the market administrator clears the use of a lower rate with the Secretary, it is proper that the Secretary's determination be recognized in the order.

Under § 934.12 (a) reference to assessments paid the market administrator by the Massachusetts Milk Control Board should be deleted. No such assessments have been paid for several years and no payments are contemplated.

Announcement of the assessment rate should be required only as the rate is changed. This is the present method and it has proved satisfactory.

In connection with this proposal, § 934.12 (b) should be deleted. This section expresses the right of the market administrator to maintain a suit in his own name against any handler for the collection of such handler's pro rata share of expense. As this provision is also made in the Agricultural Marketing Agreement Act under section 10 (b) (2), it is unnecessary to restate the right in Order No. 34. The market administrator has never maintained a suit in his own name since the order first became effective.

(7) *Relationship between Class II prices in Boston and in Lowell-Lawrence.* Since no change is being recommended at this time in the regular Class II price under the Boston order, there is no question of making changes in the Class II price for the Lowell-Lawrence market to correspond with changes in Boston.

Changes being recommended in the Boston order would require a rephrasing of §§ 934.8 (c) and 934.9 (b) (2). These sections provide that the Lowell-Lawrence order shall not apply to milk fully subject to the Boston order. The new wording in these sections would preserve this effect.

Recommended marketing agreement and amendments to the order. The following amendments to the order, as amended, are recommended as the detailed and appropriate means by which these conclusions may be carried out.

The proposed marketing agreement is not included because the regulatory provisions thereof would be the same as those contained in the order, as amended, and as proposed here to be further amended. It is further recommended that the recommended amendment to the price provisions of the order, and such other recommended amendments as are similar to amendments recommended for the Boston order, should be made effective on the same date in the Lowell-Lawrence and the Greater Boston marketing areas.

1. In § 934.6 (a) (1) delete the words "except that from the effective date hereof through February 1947 the price shall be not less than $5.70 per hundredweight: *Provided*, That for each delivery period or part thereof prior to February 1, 1947, which falls within any emergency period declared by market administrator of the order, as amended, regulating the handling of milk in the Greater Boston marketing area pursuant to § 904.3 (a) (14) of that order, the price shall be not less than $6.09."

2. Delete § 934.6 (a) (1) (iv) and substitute the following:

(iv) Subject to subdivisions (v), (vi), and (vii) of this subparagraph, the Class I price per hundredweight shall be as shown in the following table:

CLASS I PRICE SCHEDULE

Value computed pursuant to (iii) of this subparagraph (cents)		Class I price (dollars per cwt.)	
At least—	But less than—	April through June	July through March
0	25	2.15	2.59
25	30	2.37	2.81
30	35	2.59	3.03
35	40	2.81	3.25
40	45	3.03	3.47
45	50	3.25	3.69
50	55	3.47	3.91
55	60	3.69	4.13
60	65	3.91	4.35
65	70	4.13	4.57
70	75	4.35	4.79
75	80	4.57	5.01
80	85	4.79	5.23
85	90	5.01	5.45
90	95	5.23	5.67
95	100	5.45	5.89
100	105	5.67	6.11

If the value computed pursuant to subdivision (iii) of this subparagraph is 105 cents or more the price shall be increased at the same rate as would result from an extension of this table.

3. Add three new subdivisions to § 934.6 (a) (1) as follows:

(v) The Class I price for any of the months of March through June of each year shall not be higher than the Class I price for the immediately preceding month; and the Class I price for any of the months of September through December of each year shall not be lower than the Class I price for the immediately preceding month.

(vi) The Class I price shall not be less than $5.23 per hundredweight for each of the months of July through September 1947 and shall not be less than $5.67 per hundredweight for each of the months of October through December 1947.

(vii) The Class I price for January 1948 shall not be less than the December 1947 Class I price minus 44 cents, and the Class I price for February 1948 shall not be less than the January 1948 Class I price minus 44 cents.

4. In § 934.6 add a new paragraph as as follows:

(d) *Use of equivalent prices in formulas.* If for any reason a price for any milk product specified by the regulations in this part for use in computing class prices and for other purposes is not reported or published in the manner described by this part, the market administrator shall use a price determined by the Secretary to be equivalent to or comparable with the price which is specified.

5. In § 934.7 *Reports of handlers.* Renumber paragraph (e) as (f), delete paragraphs (c) and (d), and add new paragraphs (c), (d), and (e) to read as follows:

(c) *Reports regarding individual producers.* (1) Within 5 days after a producer moves from one farm to another, or starts or resumes deliveries to a handler's plant, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the change took place, and the farm and plant locations involved. The report shall also state, if known, the plant to which the producer had been delivering immediately prior to starting or resuming deliveries.

(2) Within 5 days after the 5th consecutive day on which a producer has failed to deliver to a handler's plant, the handler shall file with the market administrator a report stating the producer's name and post office address, the date on which the last delivery was made, and the farm and plant locations involved. The report shall also state, if known, the reason for the producer's failure to continue deliveries.

(d) *Reports of payments to producers.* Each handler shall submit to the market administrator within 5 days after his request, made not earlier than 14 days after the end of the delivery period, his producer pay roll for such delivery period which shall show for each producer:

(1) The daily and total pounds of milk delivered with the average butterfat test thereof and

(2) The net amount of such handler's payments to such producer with the prices, deductions, and charges involved.

(e) *Maintenance of records.* Each handler shall maintain detailed and summary records showing all receipts, movements, and disposition of milk and milk products during the month.

6. Revise § 934.8 (c) to read as follows:

(c) *Milk subject to the Greater Boston order.* The provisions of this part shall not apply, except as provided in §§ 934.5 and 934.7, to the handling of milk which is received from a plant which is a regulated plant, as defined in § 904.1 (c) (6) of the order of the Secretary regulating the handling of milk in the Greater Boston, Massachusetts, marketing area, or which is received from a person who is a producer, as defined in § 904.1 (b) (7) thereof.

7. Revise § 934.9 (b) (2) to read as follows:

(2) Subtract any amounts which he is required to pay on such milk pursuant to §§ 904.9 (g) (2) and 904.11 of the order of the Secretary regulating the handling of milk in the Greater Boston, Massachusetts, marketing area; and

8. Delete § 934.12 and substitute therefor the following:

§ 934.12 *Expense of administration.* As his pro rata share of the expense of administration hereof, each handler, except as set forth in § 934.8 (a) shall, on or before the 18th day after the end of each delivery period, pay to the market administrator 4 cents per hundredweight, or such lesser amount as the Secretary may from time to time prescribe, with respect to all milk received by him during such delivery period, from producers, from his own production, and with respect to milk or skim milk received from the type of handler described in § 934.8 (f) and moved to the marketing area.

9. Delete § 934.15.

TOKAY GRAPES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO BUDGET OF EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1947–48 SEASON

Consideration is being given to the following proposals, submitted by the Industry Committee, established under the marketing agreement, as amended, and Order No. 51, as amended (7 CFR, Cum. Supp., 951.1 et seq.), regulating the handling of Tokay grapes grown in the State of California, as the agency to administer the terms and provisions thereof;

(a) That the Secretary of Agriculture find that expenses not to exceed $21,021.00 will necessarily be incurred during the season beginning April 1, 1947, and ending March 31, 1948, both dates inclusive, in order to enable said Industry Committee to perform its functions under the aforesaid amended marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first handles Tokay grapes shall pay in accordance with the provisions of the aforesaid amended marketing agreement and order during the aforesaid season, the rate of assessment at $0.014 per each 100 pounds, billing weight, of Tokay grapes shipped by him as the first shipper thereof during said season.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals shall mail the same to the Hearing Clerk, United States Department of Agriculture, Room 0308, South Building, Wash-

ington 25, D. C., not later than midnight of the 15th day after the publication of this notice in the FEDERAL REGISTER. All documents should be submitted in quadruplicate.

As used herein, "handler," "shipped," and "season" shall have the same meaning as is given to each such term in the said amended marketing agreement and order.

CIVIL AERONAUTICS BOARD

[14 CFR, Part 20]

ISSUANCE OF STUDENT PILOT CERTIFICATES AND DURATION OF PILOT CERTIFICATES

NOTICE OF PROPOSED RULE MAKING

MAY 23, 1947.

Civil Air Regulations pertaining to airman certificates other than pilot certificates now provide that such certificates do not have a prescribed expiration date. Pilot certificates should also be of indefinite duration.

The regulations also require that the Administrator shall issue student pilot certificates. It would facilitate the issuance of student pilot certificates if provision were made in the regulations whereby an authorized representative of the Administrator as well as the Administrator would be permitted to issue these certificates.

The following amendments to Part 20 of the Civil Air Regulations are therefore proposed:

1. Amend § 20.00 *Issuance* to read as follows:

§ 20.00 *Issuance.* A student pilot certificate will be issued by the Administrator or his authorized representative to an applicant who meets the following applicable requirements.

2. Amend § 20.51 *Duration* to read as follows:

§ 20.51 *Duration.* (a) A student pilot certificate shall expire 24 calendar months after the month of issuance.

(b) A pilot certificate with a private or commercial rating shall remain in effect until a termination date is fixed by the Board, unless it is suspended or revoked.

3. Amend § 20.52 *Renewals* to read as follows:

§ 20.52 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary student pilot certificate or a temporary pilot certificate with a private or commercial rating for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

4. Delete § 20.53.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

Pursuant to section 4 (a) of the Administrative Procedure Act the Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will recommend to the Board that these amendments be adopted with an effective date of July 1, 1947. It is the desire of the Bureau that those interested submit written comments or suggestions regarding the proposed amendment addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 30 days from the date of this public notice.

TEMPORARY MECHANIC CERTIFICATES, GROUND INSTRUCTOR CERTIFICATES, AND AIRCRAFT DISPATCHER CERTIFICATES

NOTICE OF PROPOSED RULE MAKING

MAY 23, 1947.

After June 30, 1947, the Civil Aeronautics Administration will issue certificates from the Washington, D. C. office. Applicants outside the Washington area who successfully accomplish the prescribed tests would then be subjected to undue delay in the receipt of their permanent certificates. During such period they will be prevented from exercising the privileges of their certificates since the Civil Air Regulations require that all persons must have in their possession a certificate when acting as an airman. The issuance of temporary certificates covering this interim period will correct this difficulty. Therefore, it is proposed to amend the Civil Air Regulations to provide for the immediate issuance of a temporary certificate to permit the holders to exercise the privileges of such certificate during the interval between successful completion of the prescribed tests and receipt of the permanent certificate.

Pursuant to section 4 (a) of the Administrative Procedure Act, the Safety Bureau of the Civil Aeronautics Board hereby gives notice that the Bureau will propose to the Board amendments to Parts 24, 27, and 51 of the Civil Air Regulations as follows:

1. By adding a new § 24.33 to read as follows:

§ 24.33 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary mechanic certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

2. By inserting a new § 27.220 to read as follows:

§ 27.220 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary aircraft dispatcher certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

3. By inserting a new § 51.220 to read as follows:

§ 51.220 *Temporary certificates.* The Administrator or his authorized representative may issue a temporary ground instructor certificate for a period of not to exceed 90 days, subject to the terms and conditions specified therein by the Administrator.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended.

It is the desire of the Bureau that those interested offer suggestions and comments regarding the proposed amendments. Comments in writing should be addressed to the Safety Bureau, Civil Aeronautics Board, Washington 25, D. C., for receipt within 15 days from the date of this public notice.

R. 3020), the Commission released a notice of proposed rule making (Mimeograph =7414) to which was attached as an appendix a proposal for the amendment of Commission Order 133, adopted May 10, 1946. The final date for submitting comments on this proposal was set in the notice at May 25, 1947.

3. On May 16, 1947 (12 F. R. 3452), the Commission released a supplemental notice of proposed rule making (Mimeograph =6705) supplementing the original proposal by adding thereto an additional paragraph numbered 8. The final date, May 25, 1947, for submitting comments on the proposal was unchanged.

4. The Commission has been made aware of a desire on the part of interested persons for additional time for submitting comments on the proposal referred to herein. In view of this fact, the final date for submitting comments is hereby extended to and including June 16, 1947.

5. Except as hereinabove set forth, the notice of proposed rule making released April 25, 1947, as supplemented by the supplemental notice of proposed rule making, released May 16, 1947 in the above-entitled matter, is unchanged.

Adopted: May 23, 1947.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-98, 59-87]

WASHINGTON RAILWAY AND ELECTRIC CO. ET AL.

ORDER PERMITTING PLAN TO BECOME EFFECTIVE SUBJECT TO CONDITIONS AND RESERVATIONS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 15th day of May A. D. 1947.

In the matter of Washington Railway and Electric Company, File No. 54-98; Washington Railway and Electric Company, The Washington and Rockville Railway Company of Montgomery County, and their subsidiary companies, and The North American Company, File No. 59-87.

Washington Railway and Electric Company ("Washington Railway"), a subsidiary of The North American Company, both registered holding companies, having filed an amended plan pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 ("the Act"), such plan providing, in general, for the redemption of its outstanding bank loan notes in principal amount of $2,800,000; the retirement of its remaining outstanding securities by exchanging therefor the reclassified shares of its subsidiary, Potomac Electric Power Company ("Pepco"), on the basis of one share of new $50 par value preferred stock plus 4¼ shares of reclassified common stock of Pepco for each preferred share of Washington Railway, and of 40 shares of reclassified common stock of Pepco for each common share of Washington Railway; the sale at competitive bidding of 140,000 shares of new $50 par value preferred stock of Pepco; the redemption of Pepco's presently outstanding preferred stock having an aggregate par value of $7,000,000; the sale of Washington Railway's interest in the Capital Transit Company; the transfer of the properties of Great Falls Power Company ("Great Falls") to Pepco; and for the liquidation and dissolution of Great Falls, Washington and Rockville Railway Company of Montgomery County ("Rockville Railway") and Washington Railway; and

The Commission having instituted proceedings under section 11 (b) (2) of the act with respect to Washington Railway, and the two proceedings having been consolidated for purposes of hearing and disposition; and

The Commission having issued its notice of filing and order for hearing on said plan and on said proceeding instituted pursuant to section 11 (b) (2) of the act; and

Copies of said notice of filing and order for hearing and copies of said plan having been mailed to each of the security holders of Washington Railway (insofar as their identity was known and available), notice having been given to all interested persons, public hearings having been held at which hearings security holders of Washington Railway and other interested persons were afforded an opportunity to be heard, and the filing of briefs having been waived and oral argument not having been requested; and

Washington Railway having requested that the Commission enter an order finding that the transactions proposed in the plan are necessary and appropriate to effectuate the provisions of section 11 (b) of the act and fair and equitable to the persons affected thereby, and that the order conform to the pertinent requirements of Supplement R and section 1808 (f) of the Internal Revenue Code and contain the recitals, specifications and itemizations therein required; and

The Commission having considered the record and having this date issued its findings and opinion in respect to such consolidated proceedings;

I. *It is ordered*, In accordance with said findings and opinion, that said plan is necessary to effectuate the provisions of section 11 (b) of the act, and is fair and equitable to the persons affected thereby, and the plan and the proposed transactions incident thereto are approved and permitted to become effective pursuant to the applicable provisions of the act and the rules and regulations promulgated thereunder, subject to the following terms, conditions and reservations:

1. That Washington Railway shall request the Commission to apply, pursuant to sections 11 (e) and 18 (f) of the act, to an appropriate United States District Court for approval and enforcement of said plan and that upon such application the said United States District Court shall enter an order approving such plan and directing enforcement thereof.

2. That said plan be amended to make appropriate provision for payment of all reasonable fees and expenses incurred in connection with these proceedings and jurisdiction is hereby reserved to the Commission to pass upon all such fees and expenses and to make such further order or orders as it may deem appropriate with respect thereto.

3. That jurisdiction is hereby reserved to the Commission in accordance with applicable provisions of the act and rules and regulations promulgated thereunder over the issuance and sale of any securities by Pepco under the provisions of said plan.

4. That jurisdiction is hereby reserved to the Commission over the sale or other disposition by Washington Railway of its holdings of securities of Capital Transit Company, together with the recording of any accounting entries by such company in connection therewith.

5. That jurisdiction is hereby reserved to the Commission with respect to the acquisition and retention by Pepco of the properties of Great Falls Power Company.

It is further ordered, In accordance with said findings and opinion, that with respect to the proceedings instituted pursuant to section 11 (b) (2) of the act regarding Washington Railway and Electric Company and The Washington and Rockville Railway Company of Montgomery County, that such companies shall be liquidated and dissolved, and that each shall take such steps or action, not inconsistent with the applicable provisions of the act and the rules and regulations promulgated thereunder, as may be necessary to effectuate such liquidation and dissolution.

It is further ordered, That jurisdiction be and it hereby is reserved to take such further action and to enter such further order or orders as the Commission may deem necessary or appropriate in these consolidated proceedings with respect to Washington Railway and Electric Company and The Washington and Rockville Railway Company of Montgomery County and each of their subsidiary companies.

II. *It is further ordered and recited*, That the following specific transactions involved in the consummation of the plan are approved or permitted and found to be necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and necessary or appropriate to the simplification of the Washington Railway holding company system:

(1) The sale, transfer and delivery by Washington Railway of all of the 120,000 shares of Capital Stock, of the par value of $100 per share, of Capital Transit Company owned by it either to purchasers pursuant to competitive bidding or to such other persons pursuant to such method of sale as this Commission may hereafter approve, and the expenditure by Washington Railway of the proceeds of such sale, together with other funds of Washington Railway to the extent necessary toward the payment of that company's outstanding 1¾% Bank Loan Notes due January 31, 1949, in the aggregate principal amount of $2,800,000;

(2) The recapitalization of Pepco and, pursuant to such recapitalization (i) the amendment of the charter of Pepco so as to increase its authorized capital stock from $30,000,000 to $75,000,000, consisting of 400,000 shares of preferred stock, of the par value of $50 per share, and 5,500,000 shares of common stock, of the par value of $10 each, (ii) the transfer by Pepco of the necessary sum from surplus to capital so that its capital will be increased to $33,862,500, (iii) the reclassification and conversion as an entirety of the 90,000 shares of common stock, of the par value of $100 per share, of Pepco issued and outstanding and owned by Washington Railway, into 85,000 shares of new preferred stock, of the par value of $50 per share, and 2,961,250 shares of common stock, of the par value of $10 per share (the dividend rate on the preferred stock will be 3.60% or such higher rate approved by this Commission as may be deemed necessary by Pepco in order to obtain a price to it of not less than $50 per share for the 140,000 shares of such stock to be sold at competitive bidding for the purpose of financing the redemption of the presently outstanding preferred stock of Pepco and the 85,000 shares of new preferred stock are to be represented by certificates bearing the symbol B and of a distinctive color to distinguish them from the certificates for the above mentioned 140,000 shares of such stock), (iv) the issue, exchange, and delivery by Pepco to Washington Railway of certificates to represent said 85,000 shares of preferred stock and 2,961,250 shares of common stock of Pepco and the acquisition thereof by Washington Railway, and (v) the exchange, transfer and delivery by Washington Railway to Pepco of the certificate representing the presently outstanding 90,000 shares of common stock, of the par value of $100 per share, of Pepco and the acquisition and cancellation thereof by Pepco;

(3) The dissolution and liquidation of Rockville Railway and, pursuant to such liquidation (i) the transfer and delivery to Washington Railway and the acquisition by Washington Railway of all the 1,666 shares of capital stock, of the par value of $100 per share, of Great Falls owned by Rockville Railway; (ii) the cancellation by Washington Railway of all indebtedness of Rockville Railway to it; (iii) the transfer and delivery by Rockville Railway and the acquisition by Washington Railway of all remaining assets of Rockville Railway; (iv) the assumption by Washington Railway of all the liabilities of Rockville Railway; (v) the transfer and delivery by Washington Railway to Rockville Railway of the entire outstanding 5,500 shares of capital stock, without par value, of Rockville Railway; and (vi) the acquisition and cancellation by Rockville Railway of such shares of its outstanding stock;

(4) The dissolution and liquidation of Great Falls, and, pursuant to such liquidation (i) the conveyance, transfer and delivery by Great Falls of all of its assets, including cash, accounts receivable, and approximately 1,050 acres of undeveloped land at the Great Falls of the Potomac River and the acquisition by Washington Railway of all of such assets, (ii) the assumption by Washington Railway of the note of Great Falls payable to Pepco in the principal amount of $15,000 and of any remaining obligations and liabilities of Great Falls, (iii) the cancellation by Washington Railway of all indebtedness owing to it by Great Falls, (iv) the transfer and delivery by Washington Railway to Great Falls of the entire outstanding 5,000 shares of capital stock, of the par value of $100 per share, of Great Falls, and (v) the acquisition and cancellation by Great Falls of such shares of its outstanding stock;

(5) The payment of Washington Railway to Pepco of the note of Great Falls in the principal amount of $15,000 to be

assumed by Washington Railway as described in paragraph (4) above and the cancellation by Pepco of such note and the delivery thereof to Washington Railway; and the conveyance by Washington Railway to Pepco of all real property previously transferred to it by Great Falls in the transaction referred to in paragraph (4) above in satisfaction of the agreement dated May 27, 1912 (as modified April 23, 1936), providing for the conveyance by Washington Railway to Pepco of such real property, and the acquisition of such real property by Pepco;

(6) The investment by Washington Railway as a contribution to capital or as paid-in surplus of Pepco of all assets of Washington Railway (other than $10,000 of its cash and any securities of Pepco held by Washington Railway), including, but without limitation, in such assets to be so invested, cash, in excess of $10,000, obligations of the United States, accounts and interest receivable, and prepaid insurance and taxes; the acquisition of such assets by Pepco, and the assumption by Pepco of all liabilities of Washington Railway including any liabilities of Rockville Railway and Great Falls assumed by Washington Railway in the transactions referred to in paragraphs (3) and (4) above;

(7) The dissolution and liquidation of Washington Railway, as follows:

(i) The transfer and delivery by Washington Railway of an aggregate of 361,250 shares of the common stock, of the par value of $10 per share, of Pepco and of 85,000 shares of the new preferred stock, of the par value of $50 per share, of Pepco (to be acquired by Washington Railway in the transaction described in paragraph (2) above), together with the appropriate adjustment for dividends as described in paragraph 8 of section III of the plan, in exchange for the 85,000 shares of the presently outstanding 5% preferred stock, of the par value of $100 per share, of Washington Railway, such exchange to be at the rate of (a) one share of new preferred stock of Pepco, (b) $4\frac{1}{4}$ shares of common stock, of the par value of $10 per share, of Pepco and (c) an amount equal to accrued dividends on a share of 5% preferred stock of Washington Railway to the date upon which the plan is declared effective less the amount of dividends accruing on a share of the new preferred stock of Pepco to that date, for each share of 5% preferred stock of Washington Railway; the acquisition and cancellation by Washington Railway of such shares of 5% preferred stock; the issue by Washington Railway and the transfer and delivery of scrip in lieu of the transfer and delivery of fractional shares of common stock, of the par value of $10 per share, of Pepco in such exchange, such scrip to have the terms and provisions described in the plan; the transfer and delivery of shares of common stock, of the par value of $10 per share, of Pepco to the scrip agent and the sale, exchange, transfer and delivery of such shares by the scrip agent, either to the holders of scrip certificates in exchange therefor, or to purchasers of such shares pursuant to any sales thereof made in accordance with the terms and provisions of such scrip certificates; the expenditure of funds by Washington Railway for the payment of the dividend adjustment referred to above in this subparagraph (i); the transfer and delivery of the 5% preferred stock by the holders thereof to Washington Railway in the exchange described in this subparagraph (i); and the acquisition by such holders of such new preferred stock, of the par value of $50 per share, and common stock, of the par value of $10 per share, of Pepco and of scrip in lieu of fractional shares of common stock in such exchange, and the combination and surrender of scrip certificates in exchange for shares of common stock, of the par value of $10 per share, of Pepco or cash in accordance with the terms of such scrip. The exchange described in this subparagraph (i) shall be in full satisfaction of all rights of the holders of the 5% preferred stock of Washington Railway and such holders shall, upon the Plan being declared effective, cease to have any rights or interests whatsoever in Washington Railway or any of its assets, except the right to make the exchange described in this subparagraph (i);

(ii) The transfer and delivery by Washington Railway of an aggregate of 2,600,000 shares of the common stock, of the par value of $10 per share, of Pepco (to be acquired by Washington Railway in the transaction described in paragraph (2) above), in exchange for the 65,000 outstanding shares of the common stock, of the par value of $100 per share, of Washington Railway and/or Participating Units of Beneficial Ownership of Deposited Shares of such stock, such exchange to be at the rate of 40 shares of the common stock, of the par value of $10 per share, of Pepco for each share of outstanding common stock of Washington Railway and one share of common stock, of the par value of $10 per share, of Pepco for each Participating Unit; the surrender of the Participating Units by the holders thereof to the Depositary under the agreement, pursuant to which such Units were issued, against receipt of one share of common stock of Washington Railway in exchange for each 40 Participating Units so surrendered; the acquisition by Washington Railway of its entire outstanding 65,000 shares of common stock, of the par value of $100 per share, in the manner heretofore described in this subparagraph (ii) and the cancellation thereof when so acquired; the transfer and delivery of the common stock of Washington Railway by the holders thereof to Washington Railway in the exchange described in this subparagraph (ii); and the acquisition by such holders of common stock, of the par value of $10 per share, of Pepco as described in this subparagraph (ii). The exchange described in this subparagraph (ii) shall be in full satisfaction of all rights of the holders of the common stock of Washington Railway and such holders shall, upon the Plan being declared effective, cease to have any rights or interests whatsoever in Washington Railway or any of its assets, except the right to make the exchange described in this subparagraph (ii);

(iii) The transfer and delivery of all assets of Washington Railway to Pepco, such assets to consist principally of such securities of Pepco as have not been delivered pursuant to the exchanges described in subparagraphs (i) and (ii) above and any cash held by Washington Railway; the acquisition by Pepco of such securities, cash and other assets and the assumption by Pepco of the obligation to continue to make the exchanges described in subparagraphs (i) and (ii) above and the carrying out by Pepco of all the steps in such exchanges described in said paragraphs as to be taken by Washington Railway.

By the Commission.

MARKET STREET RAILWAY CO.

ORDER TO SHOW CAUSE WHY STOCKHOLDERS' LIST SHOULD NOT BE FURNISHED

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of May 1947.

In the matter of Russell M. Van Kirk, Bloomfield Hulick, Edmund T. Willetts, committee for the Market Street Railway Company prior preference capital stock, File No. 68-84.

Russell M. Van Kirk, Bloomfield Hulick and Edmund T. Willetts ("petitioners"), the owners and holders of shares of Prior Preference Capital Stock of Market Street Railway Company ("Market Street") a nonutility subsidiary of Standard Gas and Electric Company ("Standard Gas"), a registered holding company, having filed a petition and a memorandum and supplement to petition with the Commission, pursuant to the Public Utility Holding Company Act of 1935 ("act"), and having requested in said filings various relief with respect to Market Street, including, inter alia, an order from this Commission directing the management of Market Street to provide said petitioners with a complete list of the names and addresses of all stockholders of Market Street; and

Said petitioners, by their attorney, having further advised the Commission that they have requested and demanded such a stockholders' list from Market Street and have not been furnished with same; and

The Commission having considered said petition and said memorandum and supplement to petition and such additional information as has been presented to it by the petitioners and being of the opinion that Market Street should show cause pursuant to the applicable provisions of the act and the rules and regulations promulgated thereunder why it should not provide the petitioners with a complete list of the names and addresses of all stockholders of Market Street, and that an opportunity for hearing should be afforded for that purpose;

It is hereby ordered, That a hearing should be held at 10:00 a. m., e. d. s. t., on the 4th day of June 1947, in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on that date by the hearing room clerk in Room 318, at which time Market Street shall show cause why it shall not provide petitioners with a complete list of the names and addresses of all stockholders of Market Street; and

It is further ordered, That Richard Townsend or any other officer or officers of this Commission designated by it for that purpose, shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It is further ordered, That jurisdiction be and hereby is reserved to enter such further order as the Commission may consider necessary or appropriate with respect to any other relief that the petitioners have requested in their petition and memorandum and supplement to petition; and

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing a copy of this order, by registered mail, to Market Street Railway Company, Standard Gas and Electric Company and Russell M. Van Kirk, Bloomfield Hulick and Edmund T. Willetts, and that notice shall be given to all other persons by general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935, and that further notice be given to all persons by publication of this order in the FEDERAL REGISTER.

By the Commission.

MARKET STREET RAILWAY CO. ET AL.

NOTICE OF AND ORDER FOR PUBLIC HEARING AND DESIGNATING OFFICER FOR TAKING TESTIMONY, AND ORDER TEMPORARILY PROHIBITING CERTAIN PAYMENTS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 20th day of May 1947.

In the matter of Market Street Railway Company, and Standard Gas and Electric Co. and certain of its subsidiary companies, File No. 4-63; Russell M. Van Kirk, Bloomfield Hulick, Edmund T. Willetts, committee for the Market Street Railway Company prior preference capital stock, File No. 68-84.

The Commission having heretofore received a petition and a memorandum and supplement to petition filed by Russell M. Van Kirk, Bloomfield Hulick, and Edmund T. Willetts ("petitioners"), holders and owners of and acting on behalf of the holders and owners of shares of Prior Preference Capital Stock of Market Street Railway Company ("Market Street"), a non-utility subsidiary of Standard Gas and Electric Company ("Standard Gas"), a registered holding company, and said petition and memorandum and supplement to petition reciting certain allegations with respect to Market Street and Standard Gas and its subsidiary, Public Utility Engineering and Service Corporation ("Public Utility Engineering"), formerly known as Byllesby Engineering and Service Company ("Byllesby Engineering") and requesting: that the Commission take jurisdiction and direct that an investigation be made and proceedings be had before the Commission to determine the legal and equitable rights of Standard Gas and the petitioners in the assets of Market Street; that the Commission direct the management of Market Street to provide petitioners with a complete list of the names and addresses of all stockholders of Market Street; that the Commission enjoin and restrain Standard Gas from voting any of its shares of stock of Market Street at the next annual meeting thereof; that the Commission enjoin and restrain Standard Gas and/or Market Street from proceeding with an action filed in the District Court of the United States for the Northern District of California, Southern Division, on January 20, 1947 wherein Standard Gas is plaintiff and Market Street is defendant; and that petitioners be granted certain other relief, as prayed in said petition; and

The Commission having been advised by its Public Utilities Division that an examination of the corporate structure of Market Street and of its parent Standard Gas, and of the relationships between said companies, has disclosed data establishing or tending to establish the following:

1. Market Street is a corporation organized under the laws of the State of California. It was engaged in the business of operating a street railway transportation system until the year 1944, when it sold its major physical assets to the City of San Francisco, California. Since that time it has been in the process of liquidation.

2. Standard Gas is a corporation organized under the laws of Delaware and is a registered holding company. Market Street is a subsidiary of Standard Gas by virtue of the fact that Standard Gas owns 39,250 shares 6% Cumulative Preferred, $100 par, 25,500 shares of 6% Non-Cumulative 2d Preferred, $100 par, and 61,900 shares Common, $100 par, of Market Street, which, together, constitute 39.67% of the voting securities.

3. The Prior Preference Stock of Market Street is all owned by the public. Standard Gas owns substantial portions of the 6% Cumulative Preferred Stock, of the Second Preferred, and of the Common Stock of Market Street. There exists on the books of Market Street an open account in favor of Standard Gas which aggregated $920,151 as of December 31, 1945.

4. Dividends on the 6% prior preferred stock were paid commencing on April 1, 1922 until January 1924, and

since that time no dividends have been paid. No dividends have ever been paid on the 6% cumulative preferred stock, the second preferred stock, or the common stock.

5. Accumulated dividend arrearages on the preferred stocks of Market Street as of December 31, 1945 aggregate $16,556,362.50 on the Prior Preference Stock and $7,405,472.25 on the Preferred Stock 6% Cumulative. The Second Preferred Stock is Non-Cumulative.

6. On or about September 29, 1944, Market Street sold its transportation properties to the City and County of San Francisco for the sum of $7,500,000. Of that amount $2,000,000 was paid to Market Street at the time of purchase, and the remaining $5,500,000 was to be paid in installments as earnings became available. The initial proceeds of the sale plus the proceeds of a bank loan were used to redeem the then outstanding bonds of Market Street. Since the transfer of the properties, additional payments have been received aggregating $2,500,000, and the bank loan has been repaid. As of December 31, 1946 there remains due and owing from the City on account of the balance of the purchase price the sum of $2,500,000. Market Street has pending against it various law suits and other claims arising out of the operations of the Company prior to the sale of its properties.

The Commission having by separate order directed that a hearing be held as to whether Market Street should be required to provide petitioners with a stockholders' list, and it appearing appropriate to the Commission that the prayer of said petition requesting an investigation should be granted at this time, and that action with respect to the remaining prayers of said petition should presently be deferred pending the initiation of hearings upon such investigation; and it further appearing to the Commission that it is necessary and appropriate in the public interest and in the interests of investors and consumers, and in order that the Commission may properly perform its duties and responsibilities under section 11 of the Public Utility Holding Company Act of 1935 that, pursuant to the provisions of sections 11 (a), 18 (a), and 18 (b) of said act, a public investigation be held and an officer designated for the purpose of taking testimony, for the purposes hereinafter more fully set forth;

It is therefore ordered, Pursuant to sections 11 (a), 18 (a), and 18 (b) of the Public Utility Holding Company Act, that a public hearing be held the 24th day of June 1947, at 10:00 a. m., e. d. s. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such date the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. At said hearing inquiry will be made into and evidence will be received concerning the following matters:

(a) The relationships, past and present, between Market Street and its associate companies and affiliates, including particularly the relationships, past and present, between Market Street and Standard Gas, Byllesby Engineering, and Public Utility Engineering;

(b) The character of the interests of Standard Gas in Market Street, including, without limiting the generality of the foregoing, the facts and circumstances giving rise to the open account now on the books of Market Street in favor of Standard Gas;

(c) In connection with the foregoing, and without limiting the generality thereof, the facts and circumstances concerning charges for services made by Bylesby Engineering and by Public Utility Engineering against Market Street, and particularly any such charges giving rise to and any transactions in connection with the issuance of securities, or the creation of an open account, by Market Street, to or in favor of Standard Gas or other past or present associate companies or affiliates of Standard Gas.

It is further ordered, That Richard Townsend or any other officer or officers of this Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

It further appearing that it is appropriate in the public interest and in the interests of investors or consumers that the status quo should be maintained pending the conduct of said investigation, but for not longer than a reasonable period, subject to further extensions by the Commission, and that for that purpose an order should be entered prohibiting payments by Market Street to Standard Gas as hereinafter provided, subject to the right of Standard Gas to seek vacation of such order upon proper showing;

It is further ordered, That, prior to said hearing and until the expiration of a period of 60 days following the date for hearing hereinbefore fixed, Market Street shall not pay to Standard Gas or to any person or corporation for the account of Standard Gas any sums of money or other property, and that Standard Gas shall not cause Market Street to make any such payment or transfer, and that Standard Gas shall not receive directly or indirectly any sums of money or transfers of property from Market Street except after application to the Commission and the entry of an order by the Commission approving any such payment or transfer of such property; provided, however, that said 60-day period may be extended or shortened by further order of the Commission, and provided further that Standard Gas or other interested persons will be offered an opportunity, at the aforesaid hearing, to seek the vacation of this paragraph of this order upon a proper showing.

It is further ordered, That the Secretary of the Commission shall serve a copy of this notice and order by registered mail on Standard Gas and Electric Company, Market Street Railway Company, Public Utility Engineering and Service Corporation, and Russell M. Van Kirk, Bloomfield Hulick, Edmund T. Willetts, as a Committee for the Market Street Railway Company Prior Preference Capital Stock, and that notice of this proceeding shall be given to all other persons by a general release of the Commission, distributed to the press and mailed to the mailing list for releases issued under said act, and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That jurisdiction be and hereby is reserved to separate either in whole or in part or for disposition in whole or in part any of the issues or questions which may arise in these proceedings and to take such other action as may appear necessary or appropriate pursuant to the provisions of the act and the rules and regulations thereunder, or that may appear conducive to an orderly, prompt and economic disposition of the matters involved herein.

By the Commission.

MICHIGAN CONSOLIDATED GAS CO. AND AMERICAN LIGHT & TRACTION CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 20th day of May 1947.

American Light & Traction Company ("American Light"), a registered holding company, and its subsidiary, Michigan Consolidated Gas Company ("Michigan Consolidated"), having filed a joint application-declaration and amendments thereto, under the Public Utility Holding Company Act of 1935, designating as applicable sections 6 (b), 7, 9, 10 and 12 (f) of the act and Rules U-43 and U-50 promulgated thereunder, with respect to proposed transactions as follows:

Michigan Consolidated proposes to issue and sell at competitive bidding an additional $6,000,000 principal amount of its First Mortgage Bonds, --% Series, due 1969, under an Indenture supplemental to the Indenture securing the $38,000,000 principal amount of First Mortgage Bonds outstanding. Michigan Consolidated also proposes to issue and sell at par to American Light, the owner of all of the outstanding common stock of Michigan Consolidated, and American Light proposes to purchase 276,805 shares of $14 par value common stock for a cash consideration of $3,875,270. American Light proposes to use treasury funds to make this purchase. The application-declaration states that the proceeds from the sale of the additional bonds and common stock will be used for the construction of property, the reimbursement of the corporate treasury for expenditures heretofore made for property additions and the retirement of

$1,750,000 principal amount of temporary bank loans. It is also stated that $2,500,000 of the proceeds of the sale of the bonds will be deposited with the Trustees under the Trust Indenture and the Supplemental Indenture securing the bonds, subject to withdrawal pursuant to the terms of the Indentures.

A public hearing having been held after appropriate notice, briefs having been filed and oral argument heard, and the Commission having considered the facts, briefs and oral argument, having filed its findings and opinion herein, and deeming it appropriate in the public interest and in the interest of investors and consumers that the application-declaration be granted and permitted to become effective:

It is ordered, That the application-declaration is hereby granted and permitted to become effective forthwith, subject, however, to the terms and conditions prescribed by Rule U-24 and subject also to additional terms and conditions as follows:

The proposed issuance and sale of the $6,000,000 principal amount of bonds shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in this proceeding and a further order shall have been entered by this Commission upon the record as so completed, which order may contain such further terms and conditions as may be deemed appropriate, jurisdiction being reserved for this purpose.

By the Commission.

SOUTHERN NATURAL GAS CO. AND FEDERAL WATER AND GAS CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE AND GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 22d day of May A. D. 1947.

Southern Natural Gas Company ("Southern Natural"), a registered holding Company and a subsidiary of Federal Water and Gas Corporation ("Federal"), a registered holding company, and Federal having filed, respectively, a declaration and an application pursuant to sections 12 (f) and 10 of the Public Utility Holding Company Act of 1935 and Rules U-23 and U-43 promulgated thereunder with respect to the transactions summarized below:

Southern owns, among other things, all the outstanding common stock, consisting of 1,409,212 shares, of its nonutility subsidiary, Southern Production Company, Inc. ("Production"). Southern has outstanding a corresponding number of shares of common stock. It is contemplated that the Board of Directors of Southern will declare a dividend consisting of all the shares of common stock of Production payable pro rata at the rate of one share of the common stock of Production for each share of the common stock of Southern. Said dividend will be charged to earned surplus. Federal, as the owner of 765,022 shares of the common stock of Southern, will thereby receive a like number of shares of Production. Federal states that it intends to retain such shares of the common stock of Production for such period of time as would be required to effectuate the dissolution of Federal pursuant to a plan to be filed with this Commission as soon as possible after the United States Supreme Court hands down its decision in "Securities and Exchange Commission v. Chenery Corporation, et al."

Said declaration and application having been filed, respectively, on April 25, 1947, and April 28, 1947, and notice of said filings having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration and application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The declarant and applicant having requested that the Commission's order herein become effective forthwith, and the Commission deeming it appropriate to grant said request; and

The Commission finding with respect to said declaration and application that the requirements of the applicable provisions of the Act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration and application respectively, be permitted to become effective and granted;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and provisions prescribed in Rule U-24, that said declaration and application be, and the same hereby are, respectively, permitted to become effective and granted forthwith.

By the Commission.
